RE: NEGATIVE DECLARATION FOR PARCEL MAP (PM) #02521/ IS25-0038 DATED  
FEBRUARY 19, 2026, STATE CLEARINGHOUSE NUMBER [2026020752](#)

Dear Alan Molina,

The Department of Toxic Substances Control (DTSC) reviewed the Negative Declaration (Neg Dec) for the Parcel Map #02521/ IS25-0038 (Project). The applicants are requesting approval for a minor subdivision of land. The proposed action involves dividing an existing approximate 0.42-acre parcel into two distinct lots. Both parcels include a residence which is currently occupied. No changes to the existing zoning designation or land uses are proposed as part of this request. DTSC recommends and requests consideration of the following comments:

1. If buildings or other structures are to be demolished on any Project sites included in the proposed Project, surveys should be conducted for the presence of lead-based paints or products, mercury, asbestos containing materials, and polychlorinated biphenyl caulk. Removal, demolition, and disposal of any of the above-mentioned chemicals should be conducted in compliance with California environmental regulations and policies. In addition, sampling near current and/or

former buildings should be conducted in accordance with [DTSC's Preliminary Endangerment Assessment \(PEA\) Guidance Manual](#).

2. DTSC recommends all imported soil/fill material be tested to ensure all COCs meet screening levels as outlined in [DTSC's PEA Guidance Manual](#). Furthermore, DTSC advises referencing the [DTSC Information Advisory Clean Imported Fill Material Fact Sheet](#) if importing fill is necessary. To minimize the possibility of introducing contaminated soil/fill material there should be documentation of the origins of the soil/fill material and, if applicable, sampling be conducted to ensure that the imported soil/fill material are suitable for the intended land use. The soil sampling should include analysis based on the source of the soil/fill and knowledge of prior land use.

DTSC would like to thank you for the opportunity to comment on the Neg Dec for Parcel Map #02521/ IS25-0038. Thank you for your assistance in protecting California's people and environment from the harmful effects of toxic substances. If you have any questions or would like clarification on DTSC's comments, please respond to this letter or via our [CEQA Review email](#) for additional guidance.

Sincerely,
