

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Huasna Townsite Road Bridge Replacement Project, 300678/ ED25-0275

Lead Agency: County of San Luis Obispo Department of Public Works

Contact Name: William Fox, Environmental Specialist

Email: wafox@co.slo.ca.us Phone Number: 805-781-1952

Project Location: Unincorporated County, County of San Luis Obispo
City County

Project Description (Proposed actions, location, and/or consequences).

The purpose of this project is to provide a permanent concrete bridge to replace the temporary steel truss bridge installed after winter storms in January 2023 destroyed the original timber bridge. The proposed replacement structure will be an approximately 202-foot-long, 23.5-foot-wide, two-span, cast-in-place (CIP)/post-tensioned (PT) concrete box girder bridge located approximately 35 feet north of the existing roadway centerline, parallel to the temporary bridge. Traffic will be accommodated during construction with the existing temporary steel truss bridge. Construction activities would occur over a period of 9 months and are anticipated to begin in May of 2027. Construction will be scheduled during the non-rainy season when conditions are dry, or creek flows are at their lowest, however a diversion and dewatering may be required. Avoidance, minimization, and mitigation measures will be implemented to ensure project impacts are less than significant. The project is located within the Huasna-Lopez Subarea of the South County Planning Area, Supervisorial District 4, approximately 11 miles east of the City of Arroyo Grande in a rural, unincorporated area of the county.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project has the potential to substantially degrade the quality of the environment. Incorporation of Mitigation Measures related to Air Quality (AQ-1 through AQ-3), Biological Resources (BIO-1 through BIO-26), Cultural Resources (CR-1 through CR-4), and Hazards and Hazardous Materials (HZ-1 through HZ-3) included in Exhibit B of the IS/MND would ensure that the project would not have potentially significant effects.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.
