**Present Land Use/Zoning/General Plan Designation:**

open space / A-3-RE, S-1-G, A-3-G, S-1-RE / Government/Special Public, Agriculture, Recreation/Open Space

**Project Description:** (please use a separate page if necessary)

The Project would reduce dust emissions by applying a commercially available chemical stabilization product (Soiltac®) to protect the surface from wind erosion. Stabilizer application would be via water truck or hose reel and irrigation boom. Temporary resource protection berms would be installed to protect onsite ditches and wetlands from construction of the dust control project; application of soil stabilizer would not occur within 300 feet of existing vegetated wetlands and ditches. The Project also includes graded access routes and improvement of an existing on-site access road.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
