Riverside, CA 92507

**Project Title:** Moreno Valley Regional Water Reclamation Facility Pipe Coupling Rehabilitation  
**Project Location:** 17141 Kitching Street  
**City:** Moreno Valley  
**County:** Riverside

### Description of Nature, Purpose, and Beneficiaries of Project:

The proposed project would replace a failing discharge pipe coupling at the Moreno Valley Regional Water Reclamation Facility (MVRWRF). This pipe coupling connects Plant 1 influent pump station (IPS) pump 5 with the 36-inch diameter influent pipeline for the Plant 2 grit chamber. Due to failures with IPS pump 5 and 7, the scope of work would also include the removal of the failing pumps, installation of pump supports while pumps are out of service, and the reinstallation of the pumps once they have undergone needed repairs. The purpose of the project is to rehabilitate equipment at the MVRWRF to continue to provide adequate wastewater treatment. The beneficiaries of the project are EMWD ratepayers.

**Public Agency Approving and Carrying Out Project:** Eastern Municipal Water District

### Exempt Status:

Categorical. 15301(b)

### Reasons why project is exempt:

Implementation of the proposed project would consist of the repair and maintenance of an existing facility used to provide sewerage services. The project would replace a failing pipe coupling and pumps without increasing the capacity of the MVRWRF.
