Notice of Intent to Adopt a Mitigated Negative Declaration Announcement of Opportunity for Public Hearing SR 38 Upgrade Guardrail End Treatments, Culverts, and Correct Grading Project San Bernardino County, CA

WHAT'S BEING PLANNED?

The California Department of Transportation (Caltrans) proposes to correct grading and upgrade end treatments of the existing guardrails along State Route 38 (SR-38) from Post Mile (PM) 7.0 to PM 46.6 in San Bernardino County. The Project includes replacing guardrails at several locations, repair and replace culverts, roadway excavation and slope repair, vegetation control paving, hot mix asphalt (HMA) dikes, utility relocations, removal and replacement of three drainage systems, and installation of rock slope protection only at two drainage systems.

WHY THIS AD?

Caltrans has studied the effects this project may have on the environment. Our studies show it will not significantly affect the quality of the environment. The report that explains why is called an Initial Study with Proposed Mitigated Negative Declaration (ISMND). This notice is to tell you of the preparation of the ISMND and of its availability for you to read, and to offer the opportunity for a public hearing.
