Project Title: Pleasant Valley Road Sewer Force Main – Project No. SS-5037-1

Project Applicant: Camarillo Sanitary District

Project Location – Specific:

The proposed sewer pipeline would be located in Ventura County, extending approximately 300 feet along Pleasant Valley Road east of Las Posas Road, in the southern portion of the City of Camarillo. The sewer pipeline would be located within the public right-of-way (ROW) within Pleasant Valley Road and does not have a General Plan land use designation or zoning designation. The project alignment is surrounded by agricultural, commercial, and recreational development to the north, and by agricultural development to the south.

Project Location – City: Camarillo Project Location – County: Ventura

Description of Nature, Purpose and Beneficiaries of Project:

The project would involve the construction of approximately 300 feet of new parallel, redundant sewer pipeline along Pleasant Valley Road in Camarillo. This is the first phase of a project to install a redundant force main to allow CSD to alternate sewage flows between pipelines, enabling inspections and repairs without service disruptions. The existing force main would remain operational; the new line would be functionally redundant but utilized for maintenance and spill prevention. No capacity increase is proposed. The project would not involve new service areas or increased service demand. The purpose of the project is to reduce the risk of a wastewater spill.

Name of Public Agency Approving Project: Camarillo Sanitary District

Name of Person or Agency Carrying Out Project: Camarillo Sanitary District

Exempt Status: **(check one)**:

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: Section 15302 – Replacement or Reconstruction
- Statutory Exemptions. State code number: _____

Reasons why project is exempt:

The project qualifies as a Class 2 CE for the replacement of existing facilities, as outlined in Section 15302 of the CEQA Guidelines. The proposed parallel sewer pipeline would replace the existing utility (sewer) system and serve as a redundant force main pipeline with no expansion of capacity. The project would not conflict with exceptions to exemptions, as outlined in Section 15300.2 of the CEQA Guidelines.
