Project Title Dock Finger Removal and Replacement at Tuna Harbor by C&W Diving Services, Inc

Project Applicant: Elliot West, President, C&W Diving Services, Inc, 3561 Dalbergia Street, San Diego, CA 92113, (619) 474-2700

Project Location – Specific Tuna Harbor Dock 3, San Diego, CA 92101

Project location – City San Diego

Project Location – County San Diego

Description of Nature, Purpose, and Beneficiaries of Project The proposed project would involve the removal and replacement of two (2) dock fingers by C&W Diving Services, Inc (Applicant) at Tuna Harbor Dock 3 in the city of San Diego, California. Work to specifically complete the proposed project would involve the removal of two (2) existing dock fingers, damaged as a result of a sinking vessel while moored, and the in-kind replacement with new, 50' by approximately 4'5" dock fingers to match those previously existing. The damaged dock fingers would be replaced by prefabricated modular components that would be delivered and offloaded using a crane, and secured to the main walkway at Dock 3. The replacement of the damaged dock fingers would result in no changes to overwater coverage and would not involve any shoreline work, pile drilling activities, or dredging.

Construction of the proposed project is anticipated to occur in Summer 2026, and would take approximately 10 days to complete, with ongoing maintenance as needed. Equipment required to complete the proposed project would include, but not be limited to, a forklift for moving material, a work boat for moving dock fingers into place, and hand and power tools for securing the new fingers to the main dock. The crane required to remove any demolition materials or finger remnants and to offload new finger assemblies for installation would be on-site for one (1) day. Completion of the proposed project would require a crew of approximately five (5) personnel.

Due to its nature and limited scope, construction of the proposed project would generate a minor amount of vehicle trips and would require limited use of equipment. Therefore, impacts related to air quality, greenhouse gas emissions, and transportation and traffic are not anticipated to occur. Furthermore, the Applicant would be responsible for complying with all applicable federal, state, and local laws regarding construction demolition debris, hazards and hazardous materials, and stormwater.

Name of Public Agency Approving Project San Diego Unified Port District (SDUPD)

Exempt Status (Check one)

- Ministerial (Sec 21080(b)(1), 15268),
- Declared Emergency (Sec 21080(b)(3), 15269(a));
- Emergency Project (Sec 21080(b)(4), 15269(b)(c)),
- Categorical Exemption(s): Existing Facilities (SG § 15301) (Class 1), Replacement or Reconstruction (SG § 15302) (Class 2)**
- Statutory Exemption State code number

Reason Why Project is Exempt: The proposed project is determined to be Categorical Exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Sections 15301 (Existing Facilities) and 15302 (Replacement or Reconstruction) and Sections 3 a and 3 b of the District's *Guidelines for Compliance with CEQA* because it would consist of the removal and in-kind replacement of damaged dock fingers that would

involve no expansion of use beyond that previously existing, would not result in a significant cumulative impact due to the continuation of the existing use, and would consist of the replacement of existing structures that would be located on the same site as the structures replaced and would have substantially the same purpose and capacity Sections 3 a and 3 b of the District's CEQA Guidelines are as follows

- 3 a Existing Facilities (SG § 15301) (Class 1) Includes operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that previously existing, including but not limited to
 - (1) Repair, maintenance, or minor alteration of existing mooring facilities, floats, piers, piles, wharves, bulkhead, revetment, buoys, or similar structures, marine terminal facilities, airport facilities, and commercial industrial, or recreational facilities

AND/OR

- 3 b Replacement or Reconstruction (SG § 15302) (Class 2) Includes replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site and will have substantially the same purpose and capacity as the structure being replaced
 - (1) Replacement or reconstruction of mooring facilities, piles, floats, piers, wharves, marine ways, bulkhead, revetment, buoys, or similar structures where the new structure will be on essentially the same site as the structure replaced and will have substantially the same size, purpose and capacity as the structure replaced
