Present Land Use/Zoning/General Plan Designation:

Orchard/Exclusive Agriculture (E-A) Zoning/Agriculture General (AG) General Plan

Project Description: (please use a separate page if necessary)

Westside Aggregates, Inc., is seeking a Use Permit and Reclamation Plan approval to develop, operate, and reclaim, an aggregate mining operation. Project operations would include excavation, processing, and washing of mined materials and transport offsite to regional construction projects. The project site consists of an approximately 200-acre area that includes the following operational components: (1) An approximately 23-acre "Plant Site," where the mined materials would be processed; (2) Five "Excavation Areas," ranging in size from approximately 3 to 58 acres, with a depth of approximately 40 feet below the ground surface; (3) A series of settling ponds; and (4) an approximately 3- to 5-acre water supply pond. The project would provide for the extraction of an estimated 9.5 million tons of aggregate resources. The project is seeking flexibility in annual exports and is therefore proposing maximum annual exports of up to 2,000,000 tons per year, with a project duration ranging from 5 to 30 years. Upon completion of mining, the project site would be reclaimed to uses similar to existing: prime farmland, rangeland, and open space.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
