NOTICE OF INTENT
TO ADOPT A MITIGATED NEGATIVE DECLARATION
FOR THE PROPOSED PATTERSON RESERVOIR REMEDIATION PROJECT
IN THE CITY OF FREMONT

Pursuant to the State of California Public Resources Code and the “Guidelines for Implementation of the California Environmental Quality Act of 1970” as amended to date, this is to advise you that the Alameda County Water District (ACWD) has prepared a Draft Initial Study/Mitigated Negative Declaration (IS/MND) for the Patterson Reservoir Remediation Project (Project). The Project site is located at Patterson Reservoir (Reservoir) along Patterson Road, off Paseo Padre Parkway in the City of Fremont, between Coyote Hills Regional Park and Dumbarton Quarry Campground, north of Highway 84, California.

The Patterson Reservoir Remediation Project aims to restore storage capacity and maximize the operating water level while maintaining sufficient freeboard for the Reservoir, as required by the California Department of Water Resources, Division of Safety of Dams (DSOD). The project involves constructing earthen berms on the east and west sides of the existing Reservoir, tying into high ground on the north and south sides to create a continuous ring around the Reservoir.

The Draft IS/MND may be reviewed online at <https://www.acwd.org/865/Patterson-Reservoir-Remediation-Project>

The 30-day public review period is from March 11, 2026, through April 11, 2026. Comments regarding the Draft IS/MND should be directed to Dorota Budzynska, project manager, by mail at ACWD, 43885 South Grimmer Blvd., Fremont, CA 94538, by phone at (510) 668-4420, or via email at dorota.budzynska@acwd.com. ACWD will hold a future public meeting to consider adoption of the IS/MND and project approval at a later date.
