Project Title: Wireless Right-of-Way Permit No. 22-013, Coastal Development Permit Exemption No. 26-012, and Categorical Exemption No. 25-170

Project Location – Specific: 25153.5 Pacific Coast Highway, within the public right-of-way

Project Location – City: Malibu **Project Location – County:** Los Angeles

Description of Nature, Purpose, and Beneficiaries of Project: An application to modify an existing T-Mobile wireless facility on a Southern California Edison utility pole in the public right-of-way near the Puerco Canyon Rd/Pacific Coast Hwy intersection. The project would remove two panel antennas, one mounting arm, and one equipment shroud, and would install one new side-mounted antenna (approximately 15 inches in diameter), an equipment shroud, along with pole-mounted radio equipment, cabling, an electrical shutoff switch, and associated equipment. Minor excavation is limited to a vertical bore of approximately 11 feet for a grounding rod and would occur within the existing disturbed right-of-way. No grading or trenching is proposed. The existing 46-foot 8-inch wood utility pole (SCE Pole ID No. 1112031E) and ground-mounted meter pedestal would remain in place with no change in height or dimensions. In addition to City-issued permits, the applicant is required to obtain permits for use of the pole by Southern California Edison and an encroachment permit from the California Department of Transportation
