Final Lake or Streambed Alteration Agreement, EPIMS Notification No. EPIMS-VEN-31728-R5, TD1753330 Barrington Deteriorated Pole Replacement Project

Dear Victoria Parsons:

Attached is the final Streambed Alteration Agreement (Agreement) for the TD1753330 Barrington Deteriorated Pole Replacement Project (Project). Before the California Department of Fish and Wildlife (CDFW) may issue an Agreement, it must comply with the California Environmental Quality Act (CEQA). In this case, CDFW determined your Project is exempt from CEQA and filed a Notice of Exemption (NOE) on the same date it signed the Agreement.

Under CEQA, the filing of an NOE triggers a 35-day statute of limitations period during which an interested party may challenge the filing agency's approval of the Project. You may begin the Project before the statute of limitations expires if you have obtained all necessary local, state, and federal permits or other authorizations. However, if you elect to do so, it will be at your own risk.

If you have any questions regarding this letter, please contact Julisa Portugal¹, Senior Environmental Scientist (Specialist) at (805) 203-5872.

Sincerely,

Signed by:

E5E2704A7B1340C...
