Present Land Use/Zoning/General Plan Designation:

Interstate Highway

Project Description: (please use a separate page if necessary)

Caltrans proposes to extend pavement service life of the mainline, ramps and shoulders by cold planing existing pavement and overlaying with Rubberized Asphalt Concrete-[Gap graded (RHMA-G)]. The Project also includes replacing shoulder rumble strips, upgrade culverts, upgrade existing guardrails to Midwest Guardrail System (MGS), upgrade ADA curb ramps, upgrade transportation management systems (TMS) and ramp metering systems (RMS), upgrade striping to enhanced wet night visibility at crosswalks, mark Class II bike lanes with green conflict paint, install a flashing beacon to improve pedestrian and bicycle facilities, and install rock blankets to improve roadside safety along Interstate 10 (I-10) between the Project limits in and near cities of Palm Springs, Cathedral City and Thousand Palms in Riverside County. Stormwater work includes installing trash capture devices. Erosion control mitigation includes installing twelve check dams, six sediment basins, installing Rock Slope Protection (RSP) at two locations and concrete apron at one location. Removal of dead trees, replanting and installing irrigation system are also included with landscape work.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
