Present Land Use/Zoning/General Plan Designation:

Public or Private Recreation Areas / Recreation-Forestry (RF) zoning designation

Project Description: *(please use a separate page if necessary)*

The proposed project consists of the Kern County Fire Department's (KCFD) implementation of vegetation treatment activities within an area of up to 212.42 acres in Kern County. The project would include manual and mechanical vegetation treatments and prescribed burning activities, including broadcast burns and pile burns, to reintroduce fire to the landscape, reduce heavy fuel loading, mitigate the risk of large wildfire, provide biological benefits, and support training opportunities for KCFD staff. Treatment activities would involve brush removal, trimming, tree felling and pruning, handline construction in steep or sensitive areas, and mechanical treatments using masticators, chippers, bulldozers, feller bunchers, and cable yarders to reduce fuels, create and maintain control lines, and establish fuel breaks. Vegetative slash generated by these activities would be treated through prescribed burning, chipping, or cable yarding, with broadcast burns occurring throughout the project site and contained using handlines, dozer lines, and/or non-burnable fuel breaks.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
