Project Location (include county): City of Del Mar, San Diego County

Project Description:

The Project consists of three reaches of the shoreline: North Riverbank, Southeast Riverbank, and Southwest Riverbank. The Project would involve incorporation of living levee design concepts to improve resilience to sea level rise (SLR), provide flood protection, meet FEMA's No Rise certification standard for the floodplain, improve local water quality, improve public access, and enhance biodiversity. Additionally, the Project includes demolition of the primary Public Works Facility structure and removing other structures from the FEMA floodway. The replacement Public Works Facility structures (i.e., prefabricated, mobile structures) would be located within the existing Public Works Facility property, beyond the limits of the floodway, in compliance with FEMA's floodplain standards.

This is to advise that the City of Del Mar (☒ Lead Agency or ☐ Responsible Agency) has approved the above described project on 10/20/2026 (date) and has made the following determinations regarding the above described project.
