FRESNO UNIFIED SCHOOL DISTRICT
NOTICE OF AVAILABILITY (NOA) OF A DRAFT ENVIRONMENTAL IMPACT REPORT FOR CALWA ELEMENTARY SCHOOL RECONSTRUCTION

In accordance with the California Environmental Quality Act (CEQA) and the CEQA Guidelines, the Fresno Unified School District Board (Board) has prepared a Draft Environmental Impact Report (Draft EIR) for the proposed Calwa Elementary School Reconstruction Project (Project). The Draft EIR analyzes the potential environmental impacts of the Project and is being circulated for public review and comment.

Project Title: Calwa Elementary School Reconstruction

SCH Number: 2026030919

Project Location: Calwa Elementary School at 4303 East Jensen Avenue, Fresno, CA 93725

Project Description:
The Fresno Unified School District proposes to implement the Calwa Elementary School Reconstruction Project using Measure H bond funds. The project would involve the selective demolition and reconstruction of existing campus facilities, interior renovation of seven existing buildings, construction of a new Multipurpose Room, Administration Office, and Early Learning Building, and associated site improvements including new parking areas, student and bus drop-off facilities, and redeveloped play areas. Construction would occur in two phases while school operations remain in session. The project would not increase student enrollment or campus capacity and would modernize the campus to meet current educational, accessibility, safety, and energy-efficiency standards.
