Project Description: (please use a separate page if necessary)

The California Department of Transportation (Caltrans) is the lead agency under the California Environmental Quality Act (CEQA) for the proposed State Route (SR) 1 Storm Damage Restoration Project (Project) and has prepared this Draft Initial Study with Proposed Mitigated Negative Declaration (ISMND). The Project is located on SR 1 at post mile (PM) 37.2, approximately 1.2 miles south of Marshall Petaluma Road, near Reynolds, in Marin County, California. The purpose of this Project is to restore the integrity of the roadway and the adjacent slope and to prevent future coastal erosion and slope washouts at this location on SR 1. This Project is needed due to storm-related coastal erosion that resulted in the saturation and washout of the slope adjacent to the southbound side of SR 1 along Tomales Bay

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
