Project Title: Sale of conserved water to Sacramento Suburban Water District

MAR 19 2026

Project Applicant: San Juan Water District

FLORENCE EVANS, CLERK/RECORDER
BY  **DEPUTY**

Project Location - Specific:

San Juan Water District facilities in Sacramento and Placer Counties will be used to receive, treat and convey water to Sacramento Suburban Water District in Sacramento County. See attached map.

Project Location - City: _____ Project Location - County: Sacramento

Description of Nature, Purpose and Beneficiaries of Project:

San Juan Water District (San Juan) will sell up to 6,000 AF of water to Sacramento Suburban Water District (SSWD), which San Juan has previously conserved through various conservation efforts, including primarily the improved water use efficiency of its customers. The project does not involve the construction of any new facilities or the modification or expansion of capacity of existing facilities. San Juan will benefit from the project as a result of being better able to utilize the surface water supplies it has available to it for public benefit, as well as receiving revenue that will improve its wholesale enterprise's financial position. SSWD will benefit from the receipt of surface water to improve the conjunctive management and health of its north groundwater basin.

Name of Public Agency Approving Project: San Juan Water District

Name of Person or Agency Carrying Out Project: San Juan Water District

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
- Declared Emergency (Sec. 21080(b)(3); 15269(a));
- Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- Categorical Exemption. State type and section number: _____ Class 1: CEQA Guidelines section 15301; Common Sense: section 15061(b)(3)
- Statutory Exemptions. State code number: _____

Reasons why project is exempt:

This project falls within the existing facilities exemption because it does not involve the construction of any new facilities or modification or expansion of capacity of existing facilities and involves water supplies that were historically consumptively used by San Juan prior to the above referenced conservation efforts. It therefore can be seen with certainty that the project will not have a significant effect on the environment.
