PROJECT INFORMATION

- TITLE:** Pavement Management Plan Implementation - 2026
- LOCATION:** (City, County, and specific location)
Alameda County - Various sites throughout Alameda County. See Figure 1 and Table A.
- DESCRIPTION:** Rehabilitate and reconstruct pavement at EBMUD facilities and associated access roads.

EXEMPTION FINDING (Check one)

This project is exempt from CEQA because:

- ☐ Activity is not a project
- ☐ Activity is Ministerial (Sec.21080(b)(1); Guideline 15268)
- ☐ Activity is a Declared Emergency (Sec.21080(b)(3); Guideline 15269(a))
- ☐ Activity is an Emergency Project (Sec.21080(b)(4); Guideline 15269(b)(c))
- ☒ Activity is Categorically Exempt Under Guideline 15301 and 15302
- ☐ Activity is Statutorily Exempt Under Guideline _____
- ☒ **Reasons why project is exempt:** The project is exempt pursuant to Section 15301 because it involves repair and minor alteration of EBMUD's existing pavement network serving its existing reservoir and pumping plant facilities, with negligible or no expansion of use. The project is also exempt pursuant to Section 15302 because it involves replacement of EBMUD's existing pavement network serving its existing reservoir and pumping plant facilities with substantially the same size, purpose, and capacity as the existing facilities.

SECRETARY OF THE DISTRICT

ATTACHMENT A
EAST BAY MUNICIPAL UTILITY DISTRICT
PAVEMENT MANAGEMENT PLAN IMPLEMENTATION PROJECT – YEAR 1

Project Description

This Project involves the rehabilitation and reconstruction of deteriorated pavement at multiple East Bay Municipal Utility District (EBMUD) facilities and associated access roads in Alameda County and Contra Costa County. Construction activities will include pavement repair, rehabilitation, and reconstruction work such as milling, grinding, crack sealing, pavement stabilization, base repair, and full-depth reclamation. A summary of pavement treatments and project locations in Alameda County is presented in Table A.

Project Purpose and Objectives

EBMUD manages a pavement network of approximately 826,000 square yards of parking lots and access roads at EBMUD facilities. A pavement assessment report, analyzing condition data collected in 2021 and 2022, indicated that EBMUD's average pavement condition index was 48 out of 100. EBMUD is investing in a systematic long-term approach to optimize pavement maintenance and extend the life of its pavement network by applying maintenance treatments proactively.

Project Location

The Project has multiple sites in Alameda County, within EBMUD's service area. See Figure 1 and Table A.

Permits and Approvals

All work will be on EBMUD property. Encroachment permits are not required since there is no work within the public right-of-way. Any necessary permits from the regulatory agencies will be obtained to complete the Project.

Schedule and Work Hours

The construction is anticipated to start in May 2026 and will take up to seven months to complete. Construction activities will be limited to the hours of 7:00 a.m. to 6:00 p.m., Monday through Friday, to the extent feasible. Weekend work may be permitted with prior authorization from EBMUD.

EBMUD Practices and Procedures

Standard construction environmental and safety practices applicable to all EBMUD construction projects have been incorporated into the Project. These standard practices minimize impacts to the public resulting from EBMUD construction projects.

All hot work activities will be suspended in the event of a Red Flag Warning or Fire Watch event in the work area. This includes, but is not limited to, electric or gas welding, cutting, brazing, use of wire wheels or grinding equipment, and any other operations or equipment that generates extreme heat, open flame, or sparks.
