Project Title: Wireless Right-of-Way Permit No. 25-007, Coastal Development Permit Exemption No. 26-030, and Categorical Exemption No. 25-102

Project Location – Specific: 29107.5 Cliffside Drive, within the public right-of-way

Project Location – City: Malibu **Project Location – County:** Los Angeles

Description of Nature, Purpose, and Beneficiaries of Project: An application to modify an existing T-Mobile wireless facility on a Southern California Edison wooden utility pole located within the public right-of-way near the 29000 block of Cliffside Drive. The project would remove one existing strand-mounted antenna, one existing equipment shroud, one existing strand antenna mount, and one existing communications riser, and would install one new side-mounted antenna on a new antenna arm, one new equipment shroud enclosing pole-mounted radio equipment, one new communications riser, replacement coaxial cables, an upgraded disconnect, two RF caution signs, one new ground rod, and associated work. The existing 36-foot, 10-inch wooden utility pole (SCE Pole ID No. 770761E) would remain in place with no change in height or dimensions. Minor ground disturbance associated with installation of the new ground rod and ground molding is proposed; no trenching or additional ground-mounted equipment beyond this work is proposed. In addition to City-issued permits, the applicant would be required to obtain permits for use of the pole from Southern California Edison and an encroachment permit from the City Public Works Department.
