Project Title: 5-Mile Pipeline Shaded Fuel Break

Project Applicant: San Lorenzo Valley Water District (SLVWD)

Project Location – Specific: Approx ½ mile west of Hwy 9 in Boulder Creek

Project Location – City:
Boulder Creek (unincorporated)

Project Location – County:
Santa Cruz County

Description of Nature, Purpose and Beneficiaries of Project:

The project will create an approximately 2.2-mile shaded fuel break along SLVWD's 5-Mile Pipeline and approximately 1 mile of shaded fuel break along Pipeline access roads. The Pipeline provides a critical fuel break location, directly protecting the community of Boulder Creek and the District's Lyon Water Treatment Plant. The project will reduce fire hazards along the Pipeline and access roads, reduce the vertical and horizontal continuity of vegetative fuel, improve ingress for emergency response services, improve retained tree health, and enhance resilience to future wildfire. Mechanical and manual treatment will increase the horizontal and vertical canopy separation. Nesting bird surveys will be performed if work is to be performed during nesting bird season. Biomass will be piled, chipped, and/or lopped and scattered to specifications. Following the initial treatment, maintenance of the shaded fuel break will be performed on a regular basis.

Reasons why project is exempt:

The project is categorically exempt under California Environmental Quality Act (CEQA) Guidelines Section 15304, Class 4 Minor Alteration to Land. A Class 4 exempt project consists of

minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes. The project would involve understory fuel management activities through vegetation clearance and removal up to 30 feet from the 5-Mile Pipeline and access roads. The project scope is consistent with a minor alteration to the condition of the vegetation around and maintenance of the Pipeline and access roads. The project will not result in the taking of endangered, rare, or threatened plant or animal species or significant erosion and sedimentation of surface waters; and no ground disturbance, such as excavation, would take place. No exceptions listed under Section 15300.2 apply to the project.
