Present Land Use/Zoning/General Plan Designation:

Windsor Water District Russian River well field / Public Institutional / Public-Quasi Public

Project Description: (please use a separate page if necessary)

The Town of Windsor is applying for a 5-year temporary water rights permit from the State Water Resources Control Board to divert up to 200 acre-feet annually of alluvial groundwater underflow from the Russian River during high-flow periods between December 1 and April 30 in calendar years 2027 through 2031. Diversion would occur at a rate of up to 1 cubic foot per second using the Town's existing Russian River wells. The diverted water would be conveyed through the Town's distribution system, treated, and stored in an underground aquifer as part of a previously approved Aquifer Storage and Recovery pilot test. The water diversion would rely entirely on existing infrastructure and would not involve ground disturbance, excavation, or new construction.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
