Project Title: A Social Feasibility Framework for California's Gas Transition

Project Location – Specific: 1415 Webster St

Project Location – City: Alameda 94501-0507 **Project Location – County:** Alameda

Description of Nature, Purpose and Beneficiaries of Project:

This project will develop a framework for defining, analyzing, and improving the social feasibility of gas system decommissioning in various building types and geographies statewide. The framework will be designed for use by investor-owned utilities, program administrators, community-based organizations and other energy stakeholders. The project will identify areas ready for transition and design outreach strategies to increase participation where readiness is not yet sufficient.

Reasons why project is exempt:

Cal. Code Regs., tit. 14,; 15306 consists of basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. This project is a computer-based and field-based stakeholder research project to develop a Social Feasibility Framework to support neighborhood-scale building electrification and gas system decommissioning in California.

The project does not involve impacts on any particularly sensitive environment; will not impact an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies; does not involve any cumulative impacts of successive projects of the same type in the same place that might be considered significant; does not involve unusual circumstances that might have a significant effect on the environment; will not result in damage to scenic resources within a highway officially designated as a state scenic highway; the project site is not included on any list compiled pursuant to Government Code section 65962.5; and the project will not cause a substantial adverse change in the significance of a historical resource. Therefore, none of the
