Revised 2011

The Project would consist of construction of a watercraft inspection and decontamination area, vehicle entrance and exit with truck/boat trailer queuing lanes, decontamination unit and other mechanical and stormwater treatment facilities, associated mechanical and storage buildings, an office building, public restroom, public service bicycle station, workforce housing and associated parking, on-site parking for employees, open space/public access area, connection to nearby bike trails, and an aquatic invasive species (AIS) interpretive area. Presently, visitors queue on nearby public roadways, and the new location would provide on-site queuing, a more safe and efficient location for inspecting vehicles, and would also minimize impacts of vehicular traffic on neighborhood streets. The Project would consist of construction of a watercraft inspection and decontamination area, vehicle entrance and exit with truck/boat trailer queuing lanes, decontamination unit and other mechanical and stormwater treatment facilities, associated mechanical and storage buildings, an office building, public restroom, public service bicycle station, workforce housing and associated parking, on-site parking for employees, open space/public access area, connection to nearby bike trails, and an aquatic invasive species (AIS) interpretive area. Presently, visitors queue on nearby public roadways, and the new location would provide on-site queuing, a more safe and efficient location for inspecting vehicles, and would also minimize impacts of vehicular traffic on neighborhood streets.
