You don't often get email from eegide@chp.ca.gov. [Learn why this is important](#)

Good morning,

The California Highway Patrol's (CHP) Marin Area has reviewed the Environmental documents submitted by the Marin County Department of Public Works for the Muir Woods Road Improvement Project (SCH # 2026040917). The project will present transportation issues and effect traffic through the construction area. There is nothing in the project description that stands out though as impacting public safety, congestion, or traffic safety beyond what is expected for a roadway improvement project. We anticipate there will be an impact to CHP operations with increased response times.

As is the case with any construction project on roadways that are within CHP's jurisdiction, the CHP Marin Area requests all anticipated project related transportation issues be communicated to our office well in advance. The advanced notification will allow us to adjust operations accordingly and maintain our ability to provide the highest level of safety, service, and security. Please let me know if you have any questions.

Thank you,
Erik

Erik J. Egide, Lieutenant
