Project Title: Wireless Permit No. 25-003, Coastal Development Permit Exemption No. 25-095, and Categorical Exemption No. 25-184

Project Location – Specific: 23816.5 Malibu Crest Drive

Project Location – City: Malibu **Project Location – County:** Los Angeles

Description of Nature, Purpose, and Beneficiaries of Project: An application to modify an existing T-Mobile wireless facility on a Southern California Edison wood utility pole located along a private road within the 23800 block of Malibu Crest Drive. The project would remove one panel antenna, one mounting arms, and one equipment shroud, and would install one new side-mounted antenna (approximately eight inches in diameter), along with cabling, an electrical shutoff switch, and associated equipment. Existing radio equipment in the underground equipment vault would be replaced in-kind with a radio unit. The existing 43-foot wood utility pole (SCE Pole ID No. 4553030) and underground vault would remain in place with no change in height, dimensions, or footprint. No excavation, trenching, or new ground-mounted equipment is proposed. All improvements would occur on the existing pole and within the existing underground vault. In addition to City-issued permits, the applicant is required to obtain permits for use of the pole by Southern California Edison.
