**Project Title:** 803105\_Petro-Lud\_OG

**Project Applicant:** Petro-Lud, Inc.

**Project Location:** Fresno, Jacalitos; Section 21/T.21S/R.15E/B&M: MD; LAT: 36.08303833,  
LONG: -120.34682465

**Project Description:**

Petro-Lud, Inc. proposes to plugback and sidetrack of existing production well to restore economic rates in same zone.

The well site is accessible by existing roads and will not expand the footprint of the well pad. The project will be executed by a drilling rig with 24-hour operation over approximately a 4-day period. The purpose is to replace the existing function of the oil & gas production as the current completion has been depleted. The well will be perforated (completed) in the same Temblor zone as the current wellbore. The new wellbore's total depth will be less than the current wellbore. The bottom-hole location of the new wellbore will be 300' from the current wellbore. The rig and associated equipment including pump, tanks, and cementing trucks and will only be situated on the existing well pad and access roads. Approximately 1000 bbls of fresh water will be used sourced from ag water wells.

The proposed project consists of the California Department of Conservation, Geologic Energy Management Division (CalGEM) approving a permit for Petro-Lud, Inc. to perform work on the well listed below, in the Jacalitos Oil Field.

| API #      | Well Name |
|------------|-----------|
| 0401905231 | 76        |

**Exempt Status:** As the Lead Agency, CalGEM has determined that the proposed project is exempt from full environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the application of the exemptions apply (14 CCR § 15300.2).

| Exemption Type  |   | Statute (PRC) | Regulation (14 CCR) |        |
|---|---|---------------|---------------------|--------|
| <input type="checkbox"/>  | <b>Statutory Exemption:</b>   |               |                     |        |
| <input type="checkbox"/>  | Ongoing Project ( <i>pre-CEQA approval on April 5, 1973</i> )   | 21169         | 15261 (b)           |        |
| <input type="checkbox"/>  | Ministerial   | 21080 (b)(1)  | 15268               |        |
| <input type="checkbox"/>  | Declared Emergency  | 21080 (b)(3)  | 15269 (a)           |        |

| <input type="checkbox"/>  | <b>Class 33:</b> Small Habitat Restoration Projects   |               | 15333               |        |
| <input type="checkbox"/>  | <b>General Exemption</b> ("common sense")   |               | 15061 (b)(3)        |        |
| <input type="checkbox"/>  | <b>Not a "Project" subject to CEQA</b>  |               | 15378 (b)(2)        |        |
| <p><b>CEQA Exceptions to the Exemptions (14 CCR § 15300.2):</b> where project is located (e.g., sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.</p> |   |               |                     |        |

**Reasons Why Project is Exempt:** The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

**Class 1, Existing Facilities (14 CCR §§ 15301, 1684.1):** The "Class 1" (14 CCR § 15301) exemption is applicable per the CEQA Guidelines and CalGEM's regulations (14 CCR §

1684.1) because the proposed work consists of repair, maintenance, or minor alteration of an existing previously permitted well involving no expansion of former use. The Class includes, but is not limited to: remedial, maintenance, conversion, and abandonment work on oil, gas, injection, and geothermal wells. The well would maintain its existing well type and the use of the well would remain the same as before.

**Class 2, Replacement or Reconstruction (14 CCR § 15302):** Class 2 applies because it consists of “replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced[.]” Examples of Class 2 include, but are not limited to, “Replacement or reconstruction of existing utility systems and/or facilities involving negligible or no expansion of capacity.” The proposed project is the sidetrack, or replacement, of the existing wellbore which is needed to replace lost production. The sidetracked well will be located on the same site and would have substantially the same purpose and capacity as the well did before the sidetrack. Additionally, no additional construction will occur.

**Class 4, Minor Alterations to Land (14 CCR §§ 15304, 1684.2):** Class 4 exemption applies. The proposed project would be conducted entirely on an existing pad with enough space to contain all equipment. The project would not disturb any undisturbed areas. The proposed project is located within an industrial area. Therefore, the proposed project “consists of drilling operations that result in only minor alterations with negligible or no permanent effects to the existing condition of the land, water, air, and/or vegetation.” The sidetrack would not expand the facility.

**Exceptions to Exemptions:** CalGEM further finds that there are no exceptions to the application of the categorical exemptions (PRC § 21084; 14 CCR § 15300.2) referenced above. For example, there is no substantial evidence that there are any “unusual circumstances” associated with the proposed project that create a reasonable possibility that the activity will have a significant effect on the environment, and that there are no significant “cumulative impacts” resulting from successive projects of the same type in the same place. Therefore, reliance on the exemptions is appropriate.

A copy of this NOE (as required by 14 CCR § 15062(a)) and all other related materials can be made available to the public by contacting the CalGEM District office, located at 11000 River Run Boulevard, Bakersfield CA 93311; or an electronic copy of these documents may be requested by contacting [CalGEMCentral@conservation.ca.gov](mailto:CalGEMCentral@conservation.ca.gov).
