Project Title: Shared Electric Micromobility Permit Program Parking Zones

Project Applicant: City of Berkeley

MELISSA WILK, County Clerk
By Deputy

Project Location - Specific:

City of Berkeley Public-Right-of-Way. Specifically on sidewalk and on street.

Project Location - City: Berkeley Project Location - County: Alameda

Description of Nature, Purpose and Beneficiaries of Project:

The project would install designated areas on sidewalks and on street for shared electric scooter parking. The purpose of this project is to provide additional and dedicated parking infrastructure in areas where share electric scooter parking is in high demand. Providing these additional parking areas will help to reduce clutter and pedestrian hazards in order to maintain accessible pathways in the public-right-of-way. The project would help pedestrians, including those with disabilities, who use the public-right-of-way and scooter users looking for acceptable places to park. On sidewalks, a dedicated parking area would consist of a painted boxes with painted signage. On streets, a dedicated parking area would consist of a painted box with painted signage, two flexible delineators, and two bumpers.

Name of Public Agency Approving Project: City of Berkeley

Name of Person or Agency Carrying Out Project: City of Berkeley

Exempt Status: (check one):

- Ministerial (Sec. 21080(b)(1); 15268);
Declared Emergency (Sec. 21080(b)(3); 15269(a));
Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
Categorical Exemption. State type and section number: Section 15301(c). Minor Alteration to Existing Facilities
Statutory Exemptions. State code number:

Reasons why project is exempt:

The project would be considered a Class 1 activity because it consist of a minor alteration of existing public structures (e.g. sidewalks and streets) with negligible expansion of use. It does not create additional automobile lanes. Currently, private entities are permitted to operate shared electric scooters within the City's public-right-of-way. The permit program is a "dockless" system in which a shared electric scooter can be parked anywhere within the public-right-of-way so long as it meets the parking requirements set forth in the permit terms and conditions. This project would create designated parking areas for the shared electric scooters within the public-right-of-way to maintain accessible pathways for pedestrians.
