Project Title: Routine Maintenance & Repair Operations – Harbor Development Permit No. 26-011

State Clearinghouse No:

Project Location – Specific: Various location within the Harbor District

Project Location – City: Long Beach, California

Project Location – County: Los Angeles County

Description of Nature, Purpose and Beneficiaries of Project:

Routine maintenance and repair operations on existing facilities and/or infrastructure within the Long Beach Harbor District, including vent pipes, vaults, manholes, pull-box castings and conduits for a period of three (3) years.

Exempt Status:

- Ministerial Exemption [Section 21080(b)(1); 15268];
- Declared Emergency (Section 21080(b)(3); 15269(a));
- Emergency Project [Section 21080(b)(4); 15269(b)(c)]
- Categorical Exemption. State type and section number: **Section 15301 (Class 1. Existing Facilities), Section 15302 (Class 2. Replacement or Reconstruction), and Section 15303 (Class 3. New Construction or Conversion of Small Structures)**
- Statutory Exemption. State code number:

- Common Sense Exemption (Section 15061(b)(3))
- Other:

Reasons why project is exempt:

Section 15301 Existing Facilities (Class 1): The Class 1 Categorical Exemption consists of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The project involves routine maintenance and repair operations on existing facilities and/or infrastructure within the Long Beach Harbor District, including vent pipes, vaults, manholes, pull-box castings and conduits which will involve negligible alteration and no expansion of existing or former use of the site.

Section 15302 Replacement or Reconstruction (Class 2): The Class 2 Categorical Exemption consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. The new replacement associated with routine maintenance and repair operations will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. All equipment that is removed from the site will be disposed of in a manner that meets all federal, state and local environmental and regulatory requirements.

Section 15303 New Construction or Conversion of Small Structures (Class 3): The Class 3 Categorical Exemption consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor

modifications are made in the exterior of the structure. The project involves new construction and installation associated with maintenance and repair activities including vent pipes, vaults, manholes, pull-box castings and conduits.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15301 (Class 1. Existing Facilities), Section 15302 (Class 2. Replacement or Reconstruction), and Section 15303 (Class 3. New Construction or Conversion of Small Structures) ; therefore, the Project is exempt from CEQA and no further environmental review is required.
