Present Land Use/Zoning/General Plan Designation:

Heavy Agricultural (A-3) Zoning District, Solar Energy Generation Combining District (-SG) /Agricultural Lands (AL) General Plan

Project Description: (please use a separate page if necessary)

The applicant is seeking Land Use Permit approval to establish a 6.6 Megawatt (MW) capacity solar energy facility consisting of approximately 11,760 solar panel modules arranged in uniform rows throughout a 30-acre project site. The solar panel arrays would be equipped with single-axis trackers which rotate the panels throughout the day to track the sun's movement overhead. The trackers result in varying panel array height - from a minimum of 4'6" when the sun is directly overhead, to maximum of 7'6" at sunrise/sunset. The facility also includes 10MW-hour capacity Battery Energy Storage System (BESS).

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
