Project Description

Caltrans proposes a District Director's Order (DDO) request to install new electrical conduits in the dirt, theft deterrents and a light pole, and upgrade the pull boxes along southbound I-5 at the Coronado Avenue offramp in San Diego, CA. Currently, there are two (2) light poles that are non-functional, and another foundation that does not have a light pole. The non-functioning light poles were caused by wire theft in the area. Anticipated construction equipment includes a rockwheel, a boom truck, attenuator, and cone truck. All work will be done in State right-of-way. Environmental commitments for biological resources, air quality, hazardous waste/materials, and NPDES/Stormwater are included in the Environmental Commitments Record (ECR).
