The San Diego County Regional Airport Authority (SDCRAA) will be the CEQA Lead Agency and will prepare an Environmental Impact Report (EIR) for the project identified below. We need to know the view of your agency as to the scope and content of the environmental information that is germane to your agency's statutory responsibilities in connection with the proposed project. Your agency will need to use the EIR prepared by our agency when considering your permit or other approval for the project.

The SDCRAA is requesting input from interested governmental and quasi-government agencies, other organizations and private citizens regarding the scope and content of environmental information to be included in the EIR. Public agencies receiving this notice may need to use the EIR prepared by the SDCRAA when considering their permits or other approvals for the proposed project.

Any public agencies that respond to this Notice of Preparation are requested, at a minimum, to:

1. Describe significant environmental issues, reasonable alternatives and mitigation measures that they would like to have addressed in the Draft EIR.
2. State whether they are a responsible or trustee agency for the project, explain why and note the specific project elements that are subject to their regulatory authority.
3. Provide the name, address and phone number of the person who will serve as their point of contact throughout the environmental review process for this project.

The project description, location and the potential environmental effects are contained in the attached materials. A copy of the Initial Study is attached.

Due to the time limits mandated by State law, your response must be sent at the earliest possible date but **not later than 30 days** after receipt of this notice.

Please send your response to Ted Anasis at the mailing address shown above. We will need the name for a contact person in your agency.

Project Title: **Terminal 2 East (T2E) Modernization Project, San Diego International Airport**

Project Location: San Diego San Diego County
City (nearest) County

Project Description: The SDCRAA is undertaking the T2E Modernization Project to enhance efficiency and passenger experience, while preserving core infrastructure and maintaining operations. As further described in the Initial Study, the primary elements of the Project include the modernization of the headhouse, concourse, landside, airside, and utilities. The Project would not result in changes to aircraft operations, including flight frequency, flight paths, or runway usage.
