

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: City of Poway Treated Water Facilities & Redundant Pipeline Project (Project No. WTR0028)

Lead Agency: City of Poway

Contact Name: Kevin Parker

Email: kparker@poway.org Phone Number: (858) 668-4656

Project Location: Poway, San Diego County

City

County

Project Description (Proposed actions, location, and/or consequences).

The Project proposes new water facilities to replace and abandon existing water facilities and provide treated water to the City. Specifically, the City of Poway would construct a transmission pipeline with associated vaults within Espola Road and Lake Poway Road, a new booster pump station, a forebay tank, piping between the pump station/forebay tank and existing clearwells, a sodium hypochlorite system, and a surge tank. In addition, the existing pump station approximately 700 feet east of the Espola Road intersection on the south side of Lake Poway Road would be demolished. As part of the Project, the San Diego County Water Authority would construct a new Flow Control Facility (FCF) at the Project's connection to the Ramona Pipeline.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Initial Study Checklist identifies potentially significant effects related to biological resources, cultural and tribal cultural resources, paleontological resources, hazardous materials, and noise. Each of these effects would be less than significant with implementation of the identified mitigation measures. Refer to Appendix G of the MND for a complete listing of mitigation measures.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no areas of controversy known to the Lead Agency regarding the Project.

Provide a list of the responsible or trustee agencies for the project.

San Diego County Water Authority, Ramona Municipal Water District, State Water Resources Control Board
