Project Description (Proposed actions, location, and/or consequences).

The City proposes to construct a 0.5-mile addition to the planned 16-mile Creek Corridor Trail in Citrus Heights. The Project will extend east from the existing Stock Ranch Trail behind the Costco/Walmart shopping center to Sylvan Road. The purpose of this Project is to construct one of the several planned segments by replacing dirt and narrow concrete paths with an Americans with Disabilities Act-compliant Class I multi-use trail. This trail extension is needed to enhance pedestrian and bicycle connectivity, provide a safe recreational facility, and improve access through the Arcade Creek greenbelt. Proposed facilities include a paved trail, a new prefabricated bridge across the unnamed creek tributary, solar lighting, bank protection along a segment of Arcade Creek, and an at-grade signalized pedestrian crossing at Sylvan Road.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potential impacts as a result of the proposed Project include impacts to aesthetics, air quality, biological resources, cultural resources, greenhouse gas, hazards and hazardous materials, hydrology/water quality, noise, public services, traffic, and tribal cultural resources. Avoidance, minimization, and mitigation measures would be implemented to reduce any potential impacts to less than significant. No unavoidable and significant impacts would occur as a result of the proposed Project.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.
