EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (Phase I ESA) of the property located at 1 Hot Springs Road in Santa Barbara, California (the Site) was performed by Haro Environmental for 1 HSR GP, LLC. Haro Environmental performed this Phase I ESA consistent with the American Society for Testing and Materials (ASTM) Practice E-1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM Standard). Exceptions to, or deletions from, this practice are described in this report.

The purpose of this assessment was to identify known, potential or historic recognized environmental conditions (RECs) resulting from historic and/or current uses of hazardous substances or petroleum products at the Site. We understand 1 HSR GP, LLC is interested in identifying environmental concerns associated with the Site in support of developing the Site. The findings of this environmental assessment are based on Haro Environmental's knowledge of the Site from observations and information gathered during this Phase I ESA.

The Site is an approximately 2.5-acre property currently developed with one cell tower that is currently used by Verizon Wireless. The Site has been designated Santa Barbara County Assessor's Parcel Numbers 017-393-002 and -003. East Cabrillo Boulevard is present adjacent to the west, Channel Drive adjacent to the south of the Site, and a railroad adjacent to the north followed by Highway 101.

The Site was not listed in any of the databases searched by the EDR. Numerous adjacent or nearby properties were listed in the databases searched; however, based on either the distance from the Site or on the type of listing (non-release facility), the majority of these listed nearby properties are not expected to pose an environmental concern to the Site. Two properties which could have the potential to negatively impact the Site include the Highway 101 Expansion Project and the Shell Service Station, and are discussed below.

The Highway 101 Expansion Project was listed in the CERS and CPS-SLIC databases on EDR. The Highway 101 Expansion Project has a cleanup program site listing identified as Geotracker Case T10000006225 for a site investigation to expand Highway 101. Although the case is listed as at the Site in the EDR report, the case project area is approximately 10 feet to the south of Highway 101 (50 feet north of the Site) and extends from Milpas Street on the east end to Cabrillo/Hot Springs Road on the west end. A Site Investigation Report was prepared by Geocon Consultants in October 2000. Geocon completed one aerially-deposited lead hand-auger boring approximately 50 feet to the north of the Site, with a sample

name of "S7". Lead was detected at 468 milligrams per kilogram (mg/kg) at 0 feet, and 67 mg/kg at 1 foot from this sample. Based on the distance from the Site across the railroad tracks and the soil only impacts, the likelihood for significant impacts to soil, soil vapor, and/or groundwater beneath the Site from aerially-deposited lead from Highway 101 are expected to be low.

The Shell Service Station was listed in the RCRA-SQG, LUST, HIST UST, CUPA Listings, EDR HIST AUTO, UST FINDER RELEASE, CORTESE, SWEEPS UST, and CA FID UST databases searched by EDR. This facility has a LUST listing identified as Geotracker Case #T0608300630 for a release of gasoline after a dispenser leak was detected in 1998. Between 2000 and 2013, soil and groundwater site assessments were conducted which included soil boring and groundwater lab data. Evidence of gasoline constituents, including Di-isopropyl ether (DIPE), benzene, ethylbenzene, MTBE, Gasoline Range Organics, tert-Butyl alcohol (TBA), and several other constituents, were detected in both soil and groundwater samples. Eighteen groundwater monitoring wells were installed. In 2005, a dual phase extraction pilot test was conducted and removed 136 pounds of hydrocarbons. In 2009, 810 gallons of modified Fenton's Reagent was injected into the groundwater. In 2012, additional activities were conducted which included the removal of 1,226 pounds of hydrocarbons by using soil vapor extraction (SVE), and 466 pounds of hydrocarbons were removed again by SVE in 2013. In the 2016 Case Closure Summary, Santa Barbara County Public Health confirmed the completion of the investigation and corrective action for the underground storage tank formerly located at 1000 Coast Village Road. Based on the reviewed information, the Case Closed status, and the distance from the Site; the likelihood for significant impacts to soil, soil vapor, and/or groundwater beneath the Site from the Shell Service Station are expected to be low.

A review of historic aerial photographs, topographic maps and city directories listings show the Site was developed by at least 1938 with several structures on the western portion of the Site including Hot Springs Road near the center of the Site. By at least 1984, these structures were no longer appearing at the Site. By at least 2016, the present-day cell tower appeared at the eastern corner of the Site.

Several agencies were contacted regarding files for the Site, and provided numerous records. These records included a New Facility Health/HAZMAT file with a beginning date of August 11, 2014 for a Verizon Wireless cell tower, with a CERS ID of 10587841. On January 14, 2015, a Santa Barbara County Certified Unified Program Agency (CUPA) Business Plan Inspection Report was included. This report noted one 132-gallon double walled above ground belly tank storing diesel fuel is used for a backup generator. Inside the building, there is one battery rack with 24 lead acid batteries. Only administrative violations were noted. On January 31, 2019, a Battery Removal Certificate was included for the Site and reported the removal of 4 batteries manufactured by North Star and recycled by Schnitzer Steel Industries. A "Historic Resources Inventory" reported that the previous structure on Site was the Cemetery Superintendent's House, initially

estimated to be constructed around 1900 and was used as a private residence. The archivist at the Santa Barbara Historical Museum also included that the earliest mention of 1 Hot Springs Road indicated J. R. Gibbs is its resident in 1926. In the April 1939 News-Press, Virginia Nisbet was listed at 1 Hot Springs Road for small business operations, and in 1941 another small business was located at the Site. Additional files included municipal violations for not maintaining the memorial fountain on Site, a demolition of the residential structures on Site in 1980, plumbing permits in 1963, an application for a dwelling in 1932, and a preliminary housing development in 2023. This Site was also listed under the address of 900 Channel Drive and had an application in 2002 for overflow parking for the commercial businesses to the west, which was withdrawn in 2003. The City provided a property profile for the Site which determined that the Site "is susceptible to moderate relative landslide potential, high expansive soils, moderate erosion potential and potentially shallow/moderately shallow groundwater".

A reconnaissance of the Site was conducted by Elliot Haro of Haro Environmental on August 9, 2024. During the reconnaissance, Haro Environmental did not observe hazardous materials or petroleum products at the Site, or at adjacent properties with the exception of the cell tower.

Based on the data gathered and reviewed during this Phase I ESA, Haro Environmental did not identify recognized environmental conditions or concerns that have impacted, or pose a significant environmental threat to subsurface soil, soil vapor, or groundwater beneath the Site.

Based on the findings of this Phase I ESA, Haro Environmental provides the following potential environmental condition to note:

- The release of petroleum hydrocarbons to the subsurface at the Shell Service Station located 400 feet to the northeast. Although the case is closed, it is possible contaminants could have migrated from this facility to beneath the Site. However, analytical data for groundwater samples collected from the former groundwater monitoring well closet to the Site indicated non-detect to low-level detections, suggesting a low likelihood contaminates from this facility have migrated to beneath the Site.

Because we have no evidence the Site has been impacted by hazardous materials or petroleum products at concentrations that would be the subject of an enforcement action if brought to the attention of a regulatory agency, no additional assessment appears warranted at this time.

Public agencies that are responsible for groundwater quality often request that abandoned groundwater wells be properly destroyed under permit to avoid possible discharge of contaminants directly to

groundwater. Therefore, 1 HSR GP, LLC may want to consider property destroying the existing onsite groundwater well under permit if it not intended to be used in the future.

1.0 INTRODUCTION

This Phase I Environmental Site Assessment (Phase I ESA) of the property located at 1 Hot Springs Road in Santa Barbara, California (the Site) was performed by Haro Environmental for 1 HSR GP, LLC. A site vicinity map is provided on Plate 1. Haro Environmental performed this Phase I ESA consistent with the American Society for Testing and Materials (ASTM) Practice E-1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM Standard). Exceptions to, or deletions from, this practice are described in Section 7.0 this report.

1.1 PURPOSE

This Phase I ESA was conducted in an effort to identify known, potential or historic recognized environmental conditions (RECs) resulting from historic and/or current uses of the Site. We understand this information will be used to qualify for the liability protections granted under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The ASTM Standard defines a REC as:

> "(1) The presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment." The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* are not recognized environmental conditions or controlled recognized environmental conditions.

The ASTM Standard defines a historical REC as:

> "A previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and

meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls." For example, a historical REC could be identified if a past release of any hazardous substances or petroleum products has occurred in connection with the property and has been remediated to the satisfaction of the lead regulatory agency as evidenced by a no further action letter or a case closure determination.

At the request of 1 HSR GP, LLC, whom we understand is considering developing the Site, Haro Environmental has completed this Phase I ESA. This report is subject to the limitations presented in this Phase I ESA report.

This report describes Haro Environmental's assessment methodology, presents our findings, and provides our opinion as to the potential presence of RECs in connection with the Site.

1.2 SCOPE OF SERVICES

The scope of services conducted for this study included the following tasks:

- Perform an on-site reconnaissance to identify indicators of the existence of hazardous materials or petroleum products.

- Observe adjacent or nearby properties from the Site and public thoroughfares in an attempt to see if such properties are likely to use, store, generate, or dispose of hazardous materials or petroleum products.

- Obtain and review an environmental records database search from Environmental Data Resources, Inc. (EDR) to acquire information about the potential for hazardous materials to exist at on-site or at nearby properties.

- Review the current U.S. Geological Survey (USGS) topographic map to obtain information about topography and uses of the Site and nearby properties.

- Review historic aerial photographs, topographic maps, Sanborn fire insurance maps, and city directories listings to obtain information about historic uses of the Site and adjacent properties.

- Review California Division of Oil and Gas records to obtain information about historic oil and gas activity in the vicinity of the Site.

- Review National Pipeline Mapping System (NPMS) Public Viewer to obtain information about pipelines, liquefied natural gas (LNG) plants, and breakout tank data on county or offshore areas.

- Conduct interviews with persons familiar with the Site development and local and/or State government agencies to obtain information about current and historic uses of the property.

- Prepare this report documenting the findings of the Phase I study.

Our scope of services did not include any inquiries with respect to non-scope ASTM considerations including but not limited to asbestos containing materials unrelated to releases into the environment, biological agents, cultural and historic resources, ecological resources, endangered species, wetlands, health and safety, indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint unrelated to releases into the environment, lead in drinking water, mold or microbial growth conditions, polychlorinated biphenyls (PCB)-containing building materials, naturally-occurring radon, regulatory compliance, and substances not defined as hazardous substances (including some substances sometimes generally referred to as emerging contaminants) unless or until such substances are classified as a CERCLA hazardous substance.

2.0 SITE SETTING

The Site setting presented in this section describes the condition of the Site at the time of the Phase I ESA. Tables 2-1 and 2-2 summarize the physical characteristics of the Site and adjoining properties. A Site and Adjacent Land Use Map is provided on Plate 2.

2.1 SITE DESCRIPTION

Table 2-1 provides a summary of the physical location and size of the Site, as well as the current uses. This information was obtained from review of various maps (such as topographic maps and tax assessor maps), aerial photographs, and a site visit. Additional site description information was obtained during the site visit; please refer to Section 5.0 of the report that covers site reconnaissance information.

TABLE 2-1
SITE LOCATION AND LAND USE

Parameter	Information/Comments
Location	The Site is located south of Highway 101, south of railroad tracks, east of East Cabrillo Boulevard, and north of Channel Drive, in an area of commercial land uses.
Assessor's Parcel Nos. (APN)	017-393-002 and -003
Section, Township, and Range	Section 13, Township 4 North, Range 27 West of the Mount Diablo Base and Meridian.
Current Use	The Site is currently undeveloped with the exception of a cell phone tower located at the eastern corner
Current Owner	Santa Barbara Cemetery Association (017-393-002) and the City of Santa Barbara (017-393-003).

2.2 REGIONAL GEOLOGY AND HYDROGEOLOGY

Information on regional geology and hydrogeology is presented in Table 2-2. This information was obtained from published data and maps of the Site vicinity.

TABLE 2-2
PHYSICAL AND ENVIRONMENTAL CHARACTERISTICS

Geologic/Hydrogeologic Parameter	Information/Comments
Site Topography	Based on a review of the USGS Santa Barbara, California 7.5-Minute Topographic Quadrangle Map dated 2021, elevation at the Site is approximately 30 feet above Mean Sea Level (MSL), and the relief across the Site slopes to the south-southwest towards the Pacific Ocean. Surface/stormwater water runoff follows the topography at the Site and discharges to either the nearby streets or to the drainage south of the Site.
Site Geology and Soil Types	The Site is located within the Transverse Ranges of the California Geomorphic Provinces (CGS, 2002). The Transverse Ranges are an east-west trending series of steep mountain ranges and valleys. The east-west structure of the Transverse Ranges is oblique to the normal northwest trend of coastal California, hence the name "Transverse." The province extends offshore to include San Miguel, Santa Rosa, and Santa Cruz islands. Its eastern extension, the San Bernardino Mountains, has been displaced to the south along the San Andreas Fault. Intense north-south compression is squeezing the Transverse Ranges. As a result, this is one of the most rapidly rising regions on earth. Great thicknesses of Cenozoic petroleum-rich sedimentary rocks have been folded and faulted, making this one of the important oil- producing areas in the United States. According to the Geologic Map of the Santa Barbara Coastal Plain Area (CAOpenData - Department of Conservation, 2009), the geologic material underlying the Site has been mapped as upper and middle Pleistocene-aged alluvial deposits; moderately consolidated, crudely stratified, poorly sorted sand and sandstone, gravel, conglomerate, and breccia, and rare interbeds of clay, silt, and mudstone comprising proximal to distal facies of alluvial fans shed from the Santa Ynez Mountains. According to the Geocheck® section of the EDR report (Appendix A), soils at the Site include primarily the Milpitas Series. The Milpitas soils have a fine sandy loam surface texture and are characterized by very slow infiltration rates and are moderately well drained.
Site Hydrogeologic Setting	The Site is located within the Santa Barbara Groundwater Basin. The Santa Barbara Groundwater Basin is bounded on the north by the Mission Ridge fault, on the east by an administrative boundary between the Santa Barbara and Montecito basins, on the southeast by the Pacific Ocean, on the southwest by the Lavigia fault, and on the west by an unnamed fault. Consolidated sedimentary rocks of Tertiary age underlie the groundwater basin and compose the surrounding hills (DWR, 2004). The primary unconsolidated water-bearing rocks in this basin consist of Holocene alluvium and the Santa Barbara Formation. According to the GeoCheck® section of the EDR report (Appendix A), there are multiple groundwater wells located within a one-quarter mile radius of the Site. One groundwater monitoring well was observed at the Site, and one groundwater well for water supply is mapped on Site (GAMA, 2024). It is unclear if these are the same wells.

	Former groundwater monitoring wells were installed associated with the Shell Service Station release case (Global ID T0608300630) located approximately 375 feet to the northeast of the Site, and the closest well to the Site was identified as well MW-18B. The depth to water in the well ranged from 39 to 42 feet below ground surface (bgs) between 2012 and 2015.

2.3 ADJOINING AREA LAND USE

A drive-by survey of the area adjoining to the Site was performed by Elliot Haro of Haro Environmental on August 9, 2024. The results of this survey indicate East Cabrillo Boulevard adjacent to the west, Channel Drive adjacent to the south of the Site, and a railroad adjacent to the north followed by Highway 101. Site and adjoining land uses are depicted on Plate 2.

2.4 LOCATION AND LEGAL DESCRIPTIONS

The Site is located adjacent to the south of Highway 101, adjacent to the north of Channel Drive, adjacent to the east of East Cabrillo Boulevard, and is identified by the County of Santa Barbara Assessors office as APN 017-393-002.

2.5 USER PROVIDED INFORMATION

Mr. Brian Holland, a managing partner of 1HSR GP, LLC, was interviewed for actual knowledge pertaining to the Site to help identify the possibility of RECs in connection with the Site. The results of the interview are provided below.

2.5.1 Title Records

Haro Environmental was provided and reviewed the Preliminary Title Report dated August 14, 2023 prepared by Chicago Title Company. No information regarding deed restrictions or environmental liens were noted during our review of the August 14, 2023 Preliminary Title Report. A copy of the Title Report is provided in Appendix B.

2.5.2 Environmental Liens or Activity and Use Limitations

Mr. Holland has reviewed the preliminary title report, and did not see any filed or recorded environmental liens. Mr. Holland has reviewed the records and reported that there are no filed/recorded activity use limitations in place at the Site. Haro Environmental was not provided with a copy of an environmental lien records search for the Site.

2.5.3 Specialized Knowledge

Mr. Holland did not provide Haro Environmental with any information pertaining to specialized knowledge or experience regarding the Site.

2.5.4 Commonly Known or Reasonably Ascertainable Information

Mr. Holland did not provide Haro Environmental with and was not aware of any information pertaining to commonly known or reasonably ascertainable information about the Site with the exception of residences on Site for more than thirty years in the mid-20th century. Since the residences were removed, Mr. Holland reported the Site has been vacant. Mr. Holland also indicated that the planned future development of the Site will remain at least 50 feet from the railroad tracks due to the width of the railroad right-of-way (ROW).

2.5.5 Valuation Reduction for Environmental Issues

Mr. Holland was not aware of and did not provide Haro Environmental with any information pertaining to a valuation reduction for the Site relative to any known environmental issues.

2.5.6 Owner, Property Manager, and Occupant Information

Mr. Holland indicated that based on his knowledge and experience related to the property, there are no obvious indicators that point to the presence or likely presence of contamination at the Site.

2.5.7 Reason for Performing Phase I ESA

The purpose of this Phase I ESA was to assess the environmental conditions of the Site, taking into account commonly and reasonably ascertainable information, to identify the possible presence of recognized environmental conditions associated with possible soil and groundwater contamination at the Site, and to understand potential environmental conditions that could materially impact residential use associated with

the parcel. Haro Environmental understands a Phase 1 ESA was required by the City of Santa Barbara as part of conditions to develop the Site.

2.5.8 Other

No other information pertinent to the condition of the Site was provided to Haro Environmental by Mr. Holland.

2.6 ENVIRONMENTAL LIENS

No environmental lien search was conducted by the preparer or the user of this Phase I report.

3.0 RECORDS REVIEW

Government agency database records are sources of information that may be helpful in evaluating activities that may have contributed to a release of hazardous substances or petroleum products to soil and/or groundwater. Haro Environmental contracted a government agency database search from Environmental Data Resources, LLC. (EDR). A copy of the EDR report, which specifies the approximate minimum search distance for each public list as defined in the American Society for Testing and Materials (ASTM), is included as Appendix A.

Properties that (1) were identified within the approximate minimum search distance from the Site as stated in the ASTM Standard; and (2) are listed in databases indicating a release or underground storage tank site, and which based on distance and topography could potentially impact the Site are listed in Table 3-1, EDR Listing Summary of Selected Properties (see Appendix A for a complete listing of properties reported and acronyms used by EDR).

The subject Site was not listed in any of the databases searched by EDR. Three nearby sites of potential concern were listed in the following databases: Historical UST (HIST UST); Certified Unified Program Agency (CUPA Listings); Statewide Spills, Leaks, Investigations, and Cleanup (CPS-SLIC) and the California Environmental Reporting System (CERS); EDR Exclusive Historical Auto Stations (EDR HIST AUTO); Resource Conservation and Recovery Act- Small Quantity Generator (RCRA-SQG); Statewide Environmental Evaluation and Planning System – Underground Storage Tank (SWEEPS UST); Hazardous Waste & Substance Site List (CORTESE); Leaking UST (LUST); RCRA Non-Generators/No Longer Regulated (RCRA NONGEN/NLR); UST Finder Release (UST FINDER RELEASE); and the California Facility Inventory Database for Underground Storage Tanks (CA FID UST) databases.

TABLE 3-1
EDR LISTING SUMMARY OF SELECTED PROPERTIES

Site Name	Site Address	Distance/Direction from Subject Site	Database Reference
Highway 101 Expansion Project	Milpas Street to Cabrillo/Hot Springs Road	Site	CPS-SLIC, CERS
Montecito Sanitary District	910 Channel Drive	200 Feet- Southeast	RCRA NONGEN/NLR
Shell Service Station	1000 Coast Village Road	400 Feet – Northeast	RCRA-SQG, LUST, HIST UST, CUPA Listings, EDR HIST AUTO, UST FINDER RELEASE, CORTESE, SWEEPS UST, CA FID UST

3.1 RESULTS OF DATABASE SEARCH

The following sections contain information on the results of the government records search conducted by EDR. Opinions presented below are based on information provided in EDR's report (unless otherwise noted) and on criteria such as distance from the Site, anticipated groundwater movement direction in the vicinity of the Site, and the nature of any reported unauthorized releases. In assessing the potential impact to buildings materials, soil, soil vapor, and/or groundwater beneath the Site, the shallowest groundwater was considered with an anticipated groundwater movement direction assumed to follow the regional topographic gradient to the south-southwest toward the Pacific Ocean which is located approximately 1/4 mile south of the Site. Former groundwater monitoring wells located at 1000 Coast Village Road associated with the Shell Service Station LUST release case indicated groundwater may be found at approximately 36 to 49 feet bgs in the area.

3.1.1 Subject Property

The Site was not listed in any databases searched by EDR.

3.1.2 Nearby Properties

Numerous properties near the Site were listed in the databases searched by EDR; however, based on either distance from the Site or on the nature of the listing (non-release site), only two of these adjacent or nearby

listed properties could be expected to pose an environmental concern to the Site (see Appendix A for a complete listing of properties reported and acronyms used by EDR); and include the Highway 101 Expansion Project and the Shell Service Station described below.

HWY 101 Expansion Project – Milpas Street to Hot Springs Road (Site)

Highway 101 Expansion Project was listed in the CERS and CPS-SLIC databases on EDR. The Highway 101 Expansion Project has a cleanup program site listing identified as Geotracker Case T10000006225 for a site investigation to expand Highway 101. Although the case is listed as at the Site, the case project area is approximately 10 feet to the south of Highway 101 (50 feet north of the Site) and extends from Milpas Street on the east end to Cabrillo/Hot Springs Road on the west end. A Site Investigation Report was prepared by Geocon Consultants in October 2000 (Geocon, 2000). Geocon completed one aerially-deposited lead hand-auger boring approximately 50 feet to the north of the Site, with a sample name of "S7". Lead was detected at 468 milligrams per kilogram (mg/kg) at 0 feet, and 67 mg/kg at 1 foot from this sample. Based on the distance from the Site across the railroad and the soil only contamination, the likelihood for significant impacts to soil, soil vapor, and/or groundwater beneath the Site from aerially-deposited lead detected near Highway 101 are expected to be low.

Shell Service Station – 1000 Coast Village Road (400 Feet – Northeast)

The Shell Service Station was listed in the RCRA-SQG, LUST, HIST UST, CUPA Listings, EDR HIST AUTO, UST FINDER RELEASE, CORTESE, SWEEPS UST, and CA FID UST databases searched by EDR. This facility has a LUST listing identified as Geotracker Case #T0608300630 for a release of gasoline after a dispenser leak was detected in 1998. Between 2000 and 2013, soil and groundwater site assessments were conducted which included soil boring and groundwater lab data. Evidence of gasoline constituents, including Di-isopropyl ether (DIPE), benzene, ethylbenzene, MTBE, Gasoline Range Organics, tert-Butyl alcohol (TBA), and several other constituents, were detected in both soil and groundwater samples. Eighteen groundwater monitoring wells were installed. In 2005, a dual phase extraction pilot test was conducted and removed 136 pounds of hydrocarbons. In 2009, 810 gallons of modified Fenton's Reagent was injected into the groundwater. In 2012, additional activities were conducted which included the removal of 1,226 pounds of hydrocarbons by using soil vapor extraction (SVE), and 466 pounds of hydrocarbons were removed again by SVE in 2013. In the 2016 Case Closure Summary, Santa Barbara County Public Health confirmed the completion of the investigation and corrective action for the underground storage tank formerly located at 1000 Coast Village Road. Based on the reviewed information, the Case Closed status, and the distance from the Site; the likelihood for significant impacts to soil, soil vapor, and/or groundwater beneath the Site from the Shell Service Station are expected to be low.

3.1.3 Orphan List

Sites not plotted by EDR due to poor or inadequate address information are referred to as orphan sites. The orphan summary/unmapped sites report was reviewed by Haro Environmental to assess the potential for off-site properties to affect the subject Site. Because they have incomplete addresses, orphan sites are not practically reviewable as defined by the ASTM standard. There were no orphan/unmapped sites identified by EDR.

3.1.4 Non-ASTM Issues

Assessment of non-ASTM issues including but not limited to asbestos containing materials unrelated to releases into the environment, biological agents, cultural and historic resources, ecological resources, endangered species, wetlands, health and safety, indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint unrelated to releases into the environment, lead in drinking water, mold or microbial growth conditions, Polychlorinated Biphenyls (PCB)-containing building materials, naturally-occurring radon, regulatory compliance, and substances not defined as hazardous substances (including some substances sometimes generally referred to as emerging contaminants) unless or until such substances are classified as a CERCLA hazardous substance were not included as part of this Phase I ESA.

3.2 OTHER RECORDS REVIEWED

The following additional sources of information were reviewed as part of this Phase I ESA.

3.2.1 Public Agency Records

The County of Santa Barbara was contacted on July 26, 2024, regarding permits or files for the Site. They provided a New Facility Health/HAZMAT file with a beginning date of August 11, 2014. The facility was for Verizon Wireless, with a CERS ID of 10587841. On January 14, 2015, a Santa Barbara County Certified Unified Program Agency (CUPA) Business Plan Inspection Report was included. This report noted one 132-gallon double walled above ground belly tank with a diesel tank is used for a backup generator. Inside the building, there is one battery rack with 24 lead acid batteries. Only administrative violations were noted. Routine Business Plan Inspection reports were also included for 2019 and 2021, and no violations were noted at the time of the inspection. On January 31, 2019, a Battery Removal Certificate was included for

the Site and reported the removal of 4 batteries manufactured by North Star and recycled by Schnitzer Steel Industries. Copies of the files are attached in Appendix B.

The Santa Barbara Historical Museum was contacted regarding permits for the Site and provided several files, including a Historic Resources Inventory. This inventory reported that the previous structure on Site was the Cemetery Superintendent's House, initially estimated to be constructed around 1900 and was used as a private residence. The archivist at the Santa Barbara Historical Museum also included that the earliest mention of 1 Hot Springs Road indicated J. R. Gibbs is its resident in 1926. The 1929 and 1930 City Directory reports that Jas R Gibbs is the superintendent of Santa Barbara Cemetery living at 1 Hot Springs Road with wife Elizabeth A Gibbs. At the time, Helen M Gibbs was reported as the bookkeeper for Santa Barbara Cemetery, and also lives at 1 Hot Springs Road. In the April 1939 News-Press, it appears that Virginia Nisbet is now located at 1 Hot Springs Road for small business operations, and in 1941 another small business was located at the Site. Copies of the files are attached in Appendix B.

The City of Santa Barbara was contacted and provided several files for the Site. These files included municipal violations for not maintaining the memorial fountain and bench on Site that are designated Landmarks, a demolition of the residential structures on Site in 1980, plumbing permits in 1963, an application for a dwelling in 1932, and a preliminary housing development in 2023. This Site was also listed under the address of 900 Channel Drive and had an application in 2002 for overflow parking for the commercial businesses to the west, which was withdrawn in 2003. The City provided a property profile for the Site which determined that the Site "is susceptible to moderate relative landslide potential, high expansive soils, moderate erosion potential and potentially shallow/moderately shallow groundwater". Copies of the files obtained are attached in Appendix B.

The following additional public agencies were contacted regarding files for the Site and the dates contacted shown in the parentheses. These listed agencies indicated that they do not have any files for the Site.

- Central Coast Regional Water Quality Control Board (e-mail request; July 26, 2024)
- California Department of Toxic Substances Control (Envirostor Website; August 5, 2024)
- County of Santa Barbara Air Pollution Control District (e-mail request; July 26, 2024)

3.2.2 Previous Environmental Reports

No previous environmental reports for the Site were provided for review.

4.0 SITE HISTORY

The history of the site was researched to identify obvious uses of the site back to the first developed use, or at least 40 years ago, whichever is earlier or readily available.

Three data gaps since 1940 of greater than 5 years were identified in the historical records reviewed and included the years from 1954 to 1960, 1988 to 1994, and from 1995 to 2002. These data gaps are considered insignificant because the site use appears to be similar during the data gaps.

4.1 AERIAL PHOTOGRAPHS

A review of historical aerial photographs may indicate past activities at a property that may not be documented by other means or observed during a site visit. The effectiveness of this technique depends on the scale and quality of the photographs and the available coverage. Aerial photographs were obtained from several historical photograph collections through EDR. A tabulation of the aerial photographs reviewed is presented in Table 4-1.

TABLE 4-1
HISTORICAL AERIAL PHOTOGRAPHS REVIEWED

Date	Approximate Scale	Source
1928	1” = 500’	FAIR
1938	1” = 500’	FAIR
1943	1” = 500’	USDA
1947	1” = 500’	USGS
1954	1” = 500’	USDA
1967	1” = 500’	USGS
1975	1” = 500’	USGS
1984	1” = 500’	USDA
1994	1” = 500’	USGS/DOQQ
2002	1” = 500’	USGS/DOQQ
2005	1” = 500’	USDA/NAIP
2009	1” = 500’	USDA/NAIP
2012	1” = 500’	USDA/NAIP
2016	1” = 500’	USDA/NAIP
2020	1” = 500’	USDA/NAIP

Note: Aerial photographs only provide information on indications of land use and no conclusions regarding the release of hazardous substances or petroleum products can be drawn from the review of photographs alone.

Copies of the reviewed aerial photographs are included in Appendix A. The following is a summary of our review of these photographs.

- ***1928*** – The Site is developed likely with the residential structures indicated in the City of Santa Barbara files at the western portion of the Site including Hot Springs Road east of the residential structures. Adjacent to the north a railroad appears, and south of the Site is a road (future Channel Drive) followed by the Santa Barbara Cemetery. Adjacent to the west of the Site appears to be a common roadway (future Cabrillo Boulevard). Areas further to the north and east of the Site appear lightly developed with residential and agriculture uses.

- ***1938*** – The Site now appears to have several small structures near the western boundary of the Site with the exception of Hot Springs Road no longer extending northeast past the Site. The surrounding areas appear similar to the 1928 aerial photograph, with exception of Highway 101 now appearing north of the Site past the railroad.

- ***1943*** – The Site and adjacent properties appear similar to the 1938 aerial photograph.

- ***1947*** – The Site and adjacent properties appear similar to the 1943 aerial photograph.

- ***1954*** – The Site and adjacent properties appear similar to the 1947 aerial photograph.

- ***1967*** – The Site and adjacent properties appear similar to the 1954 aerial photograph.

- ***1975*** – The quality of the photograph is very low. The Site and adjacent properties appear similar to the 1967 aerial photograph with exception of the surrounding area appearing further developed.

- ***1984*** – The Site appears to be undeveloped with no structures present and Hot Springs Road no longer appearing on Site. The railroad still appears adjacent to the north followed by Highway 101, and Channel Drive appears adjacent to the south, followed by the Santa Barbara Cemetery. E Cabrillo Boulevard appears in its present-day location adjacent to the west of the Site. The surrounding area appears to be further developed with commercial buildings to the east, and land still appears to be in agricultural use to the north.

- ***1994*** – The Site and adjacent properties appear similar to the 1984 aerial photograph.

- ***2002*** – The Site and adjacent properties appear similar to the 1994 aerial photograph with the exception of a piece of land cleared in the western portion of the Site.

- ***2005*** – The Site and adjacent properties appear similar to the 2002 aerial photograph with the exception of several trees appearing to be removed from the eastern portion of the Site.

- ***2009*** – The Site and adjacent properties appear similar to the 2002 aerial photograph with the exception more land appearing to be cleared on Site.

- ***2012*** – The Site and adjacent properties appear similar to the 2009 aerial photograph with exception of the eastern portion of the Site appearing to be under construction.

- ***2016*** – The Site appears to have a structure in the eastern portion of the Site, although its use cannot be discerned. Adjacent properties appear similar to the 2012 aerial photograph.

- ***2020*** – The Site and adjacent properties appear similar to the 2016 aerial photograph.

4.2 HISTORICAL TOPOGRAPHIC MAPS

Haro Environmental contacted EDR for information regarding historical topographic maps of the Site vicinity. The topographic maps reviewed for this assessment are listed below in Table 4-2. Copies of the maps are included in Appendix A.

TABLE 4-2
HISTORICAL TOPOGRAPHIC MAPS REVIEWED

Year	Quadrangle	Series	Scale
1903	Santa Barbara	15 minute	1:62,500
1944 (Aerial Photo Revised 1942)	Santa Barbara	7.5 minute	1:31,680
1947	Santa Barbara	7.5 minute	1:25,000
1952 (Aerial Photo Revised 1942)	Santa Barbara	7.5 minute	1:24,000
1967 (Aerial Photo Revised 1967)	Santa Barbara	7.5 minute	1:24,000
1976 (Aerial Photo Revised 1976)	Santa Barbara	7.5 minute	1:24,000
1988 (Aerial Photo Revised 1984)	Santa Barbara	7.5 minute	1:24,000
1995 (Aerial Photo Revised 1994)	Santa Barbara	7.5 minute	1:24,000

2012	Santa Barbara	7.5 minute	1:24,000
2015	Santa Barbara	7.5 minute	1:24,000
2018	Santa Barbara	7.5 minute	1:24,000
2022	Santa Barbara	7.5 minute	1:24,000

The Site is located on the eastern side of the City of Santa Barbara at an elevation of approximately 30 feet above mean sea level (MSL). Highway 101 is located 100 feet to the north of the Site. East Cabrillo Boulevard is located adjacent to the west of the Site, and Channel Drive is located adjacent to the south of the Site. Copies of the reviewed historic topographic maps are included in Appendix A. The following is a summary of our review of the maps.

- ***1903*** – The Site is depicted as undeveloped with Hot Springs Road running through the central portion of the Site. A road is depicted adjacent to the south and west of the Site (future Channel Drive and Cabrillo Boulevard, respectively). The railroad is depicted adjacent to the north, and surrounding areas are depicted as developed. The present-day Santa Barbara Cemetery and Bird Refuge are depicted.

- ***1944*** – The Site is now depicted as developed with three structures along the western boundary and the road in the central portion of the Site that runs parallel to the present-day Cabrillo Boulevard no longer extending past the railroad to the north. A street is now depicted where the present-day Highway 101 is located. Adjacent properties and the surrounding area are depicted as developed.

- ***1947*** – The Site and surrounding properties are depicted similar to the 1944 topographic map.

- ***1952*** – The Site is now depicted with only one structure in the western portion of the Site, and the road running through the central portion of the Site and labeled Hot Springs Road. The railroad is depicted adjacent to the north of the Site, followed by the present-day Highway 101. The Santa Barbara Cemetery is still depicted to the south of the Site, across Channel Drive.

- ***1967*** – The Site is depicted similar to the 1952 topographic map. The surrounding area is depicted similar to the 1952 map with the exception of Highway 101 now being depicted as a four-lane highway, and most individual structure depictions have been replaced by shading indicating generally developed areas.

- ***1976*** – The 1976 map is an aerial photo, and the quality is low. The aerial photo appears to be similar to what is depicted in the 1967 topographic map.

- ***1988*** – The Site and surrounding properties are depicted similar to the 1967 topographic map.

- ***1995*** – The Site and surrounding areas are depicted similar to the 1988 topographic map.

- ***2012*** – The Site and surrounding properties are depicted similar to the 1995 topographic map; however, individual building depictions and shading have been removed. Hot Springs Road is no longer depicted running through the western portion of the Site.

- ***2015*** – The Site and surrounding properties are depicted similar to the 2012 topographic map.

- ***2018*** – The Site and surrounding properties are depicted similar to the 2015 topographic map.

- ***2022*** – The Site and surrounding properties are depicted similar to the 2018 topographic map.

4.3 SANBORN® FIRE INSURANCE MAPS

Sanborn® Fire Insurance Maps provide historical land use information in some metropolitan areas and small, established towns. No Sanborn Fire Insurance Map coverage was available for the Site and a copy of the no coverage letter is included in Appendix A.

4.4 CITY DIRECTORIES

Haro Environmental contacted EDR to obtain a historical City Directory Abstract, which lists the names and/or businesses that historically occupied an address. The City Directory Abstract, which covers the period from 1960 to 2020, provides tenant information for an address and/or adjoining streets. The Site was listed as:

- 1 Hot Springs Road: Pittman Earl (1960), Reese John D. (1967, 1972, 1977, and 1981).

Adjacent properties were listed as:

- 901 Channel Drive (south across Channel Drive): Santa Barbara Cemetery in 1995, 2000, 2005, 2010, 2014, 2017, and 2020.

Nearby properties were listed as:

- 910 Channel Drive (southeast across Channel Drive): Occupant Unknown in 2014.

The City Directories reviewed did not provide information which would pose an environmental concern to the Site. The complete EDR City Directory Abstract listing results is provided in Appendix A.

4.5 OIL AND GAS MAPS

Maps provided online by the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources were reviewed to determine the current or historic presence of oil or gas wells in the vicinity of the Site (CalGEM, 2024). No active oil and gas wells are reported within a 1-mile radius of the Site.

4.6 CRUDE OIL PIPELINES

The National Pipeline Mapping System maintained by the Pipeline and Hazardous Materials Safety Administration was reviewed for the presence of gas and hazardous liquid transmission pipelines. The results indicate there is one active gas transmission pipeline filled with natural gas located adjacent to the south of the Site (PHMSA, 2024). This pipeline is reportedly operated by Southern California Gas Company and is identified as Operator ID 18484. Based on the contents, impacts to soil, soil vapor, and/or groundwater beneath the Site are not expected. There are no hazardous liquid pipelines located within a one-mile radius of the Site.

4.7 CHAIN OF TITLE RECORDS

Haro Environmental was not provided and therefore did not review a 50-year chain of title for the Site.

5.0 SITE RECONNAISSANCE AND INTERVIEWS

Haro Environmental's assessment activities included a site reconnaissance. This section summarizes the findings from the site reconnaissance.

5.1 SITE RECONNAISSANCE

5.1.1 Methodology and Limiting Conditions

Elliot Haro of Haro Environmental performed an unaccompanied reconnaissance of the site on August 9, 2024. The site reconnaissance was conducted by: 1) observing the Site from public thoroughfares, 2) observing the adjoining properties from public thoroughfares, and 3) observing the Site from walking paths. The purpose of the site reconnaissance was to identify the presence or likely presence of hazardous substances or petroleum products under conditions that indicate an existing release, a past release, or threat of release into soil, groundwater, or surface water at the Site (recognized environmental conditions). Observations from the site reconnaissance are summarized in the following sections. A photolog of photographs taken during the site reconnaissance is included as Appendix C.

5.1.2 Current Use of the Property and Adjoining Properties

The Site is currently developed with one cell tower and related infrastructure, one groundwater well, and the remainder of the Site is vacant, undeveloped land (See photo #1).

The property to the west of the Site is E Cabrillo Boulevard followed by commercial properties (See photo #2). The property to the south of the Site is Channel Drive followed by the Santa Barbara Cemetery (See photo #3), and the property to the north is a railroad followed by Highway 101 (See photo #4). Nearby land uses are depicted on Plate 2.

5.1.3 General Description of Structures

The Site is currently developed with one cell tower and related infrastructure (See photo #4).

5.1.4 Interior and Exterior Observations

The interior of the cell tower was not inspected; however, the facility is routinely inspected by the County of Santa Barbara Environmental Health Services and photos of the inside of the Site cell tower can be found in Appendix B. The exterior of the Site consisted of grasses, a pole-mounted transformer, and a groundwater well (See photos #4-5, respectively).

5.1.5 Hazardous Substances and Petroleum Products

No hazardous substances or petroleum products were observed during the site reconnaissance.

5.1.6 Unidentified Substance Containers

Unidentified hazardous substance containers or unidentified containers that might contain hazardous substances were not observed during the site reconnaissance.

5.1.7 Storage Tanks

During the site reconnaissance, Haro Environmental did not observe evidence of above-ground storage tanks (ASTs) or underground storage tanks (USTs) with the exception of a diesel fuel AST for the cell tower.

5.1.8 Odors

During the site reconnaissance, Haro Environmental did not identify any strong, pungent, or noxious odors.

5.1.9 Pools of Liquid

During the site reconnaissance, Haro Environmental did not identify any pools of liquid. In addition, sumps containing liquids likely to be hazardous substances or petroleum products were not observed at the Site.

5.1.10 Drums

During the site reconnaissance, Haro Environmental did not observe drums on Site.

5.1.11 Indications of Polychlorinated Biphenyls (PCBs)

Toxic PCBs were commonly used historically in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors. According to USEPA regulation 40 CFR Part761, there are three categories for classifying such equipment: <50 ppm of PCBs is considered "Non-PCB"; between 50 and 500 ppm is considered "PCB-Contaminated"; and >500 ppm is considered "PCB-Containing". Since January 1, 1977, the manufacture, process, or distribution in commerce or use of any polychlorinated biphenyl in any manner other than in a totally enclosed manner has been prohibited. The management of potential PCB-containing transformers is the responsibility of the local utility or the transformer owner. Actual material samples need to be collected to determine if transformers are PCB-containing.

Transformers installed prior to 1977 may be PCB-containing while transformers installed after 1977 are unlikely to be PCB-containing. One pole-mounted transformer was observed on Site along Channel Drive; however, no indications of a current or past release of contents from the transformer was observed, and no staining of the soil below was noted.

5.1.12 Other Conditions of Concern

During the site reconnaissance Haro Environmental did not note or observe evidence of any of the following:

- Corrosion
- Clarifiers, and/or sumps
- Pits, ponds, and/or lagoons
- Stressed vegetation
- Waste water
- Septic tanks
- Fill soil
- Solid waste

One groundwater monitoring well was observed by Haro Environmental during the Site visit (See photo #6), and the location is shown on Plate 2.

Railroad tracks are present to the north of the Site. Railroads can be sources of releases to the environment due to the application of herbicides to control vegetation near the tracks. However, because Mr. Holland indicated that the development will not include disturbing soil near the railroad tracks (i.e., greater than 50 feet), the likelihood for contaminated soil from the presence of a railroad to impact soils within the project area appears to be low.

5.2 INTERVIEWS

Randy Thwing, the manager for the Santa Barbara Cemetery, was interviewed as part of this Phase I ESA to inquire about the current and historic uses of the Site. Mr. Thwing indicated he has been associated with this property since 1985.

Mr. Thwing indicated that he is unaware of the on-site current or historic presence of:

- Industrial or automotive batteries,
- Pesticides,
- Pits, ponds, or lagoons,
- Stained soil,
- Fill dirt,
- Above-ground or under-ground storage tanks,
- Vent pipes, fill pipes, or access ways,
- Monitoring wells,
- PCBs.

Mr. Thwing also indicated that he is unaware of any environmental liens, environmental deed restrictions, land use regulations, engineering controls, environmental violations, environmental assessments, or past, threatened, or pending lawsuits concerning releases of hazardous materials relation to the Site.

Mr. Thwing stated that there were previously man-made structures on Site in use as residences from 1900 to the early 1980's.

6.0 FINDINGS, CONCLUSTIONS AND RECOMMENDATIONS

This Phase I ESA of the property located at 1 Hot Springs Road in Santa Barbara, California was performed by Haro Environmental for 1 HSR GP, LLC. Haro Environmental performed this Phase I ESA consistent with ASTM Practice E-1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM Standard). Exceptions to, or deletions from, this practice are described in this report.

Based on the data gathered and reviewed during this Phase I ESA, Haro Environmental did not identify recognized environmental conditions or concerns that have impacted, or pose a significant environmental threat to subsurface soil, soil vapor, or groundwater beneath the Site.

Based on the findings of this Phase I ESA, Haro Environmental provides the following potential environmental condition to note:

- The release of petroleum hydrocarbons to the subsurface at the Shell Service Station located 400 feet to the northeast. Although the case is closed, it is possible contaminants could have migrated from this facility to beneath the Site. However, analytical data for groundwater samples collected from the former groundwater monitoring well closet to the Site indicated non-detect to low-level detections, suggesting a low likelihood contaminates from this facility have migrated to beneath the Site.

Because we have no evidence the Site has been impacted by hazardous materials or petroleum products at concentrations that would be the subject of an enforcement action if brought to the attention of a regulatory agency, no additional assessment appears warranted at this time.

Public agencies that are responsible for groundwater quality often request that abandoned groundwater wells be properly destroyed under permit to avoid possible discharge of contaminants directly to groundwater. Therefore, 1 HSR GP, LLC may want to consider property destroying the existing onsite groundwater well under permit if it not intended to be used in the future.

7.0 STANDARD OF CARE

The findings and conclusions contained in this Phase I ESA are based upon professional opinions with regard to the subject matter. These opinions have been arrived at in accordance with currently accepted industry standards and practices applicable to this location and are subject to the following inherent limitations:

Accuracy of Information. Certain information utilized by Haro Environmental in this assessment has been obtained, reviewed, and evaluated from various sources believed to be reliable. Although Haro Environmental's conclusions, opinions, and recommendations are based, in part, on such information, Haro Environmental's services did not include the verification of the information's accuracy or authenticity. Should such information prove to be inaccurate or unreliable, Haro Environmental reserves the right to amend or revise its conclusions, opinions and/or recommendations.

Reconnaissance. Haro Environmental performed a reconnaissance of the Site that is the subject of this assessment to document current conditions. Haro Environmental focused on areas deemed more likely to exhibit hazardous materials conditions while other areas received limited attention. No known areas were inaccessible at the time of our reconnaissance with the exception of the interior of the Site building.

Limitations. Haro Environmental does not guarantee that the Site is free of hazardous or potentially hazardous materials or conditions, or that latent or undiscovered conditions will not become evident in the future. This assessment has been prepared in accordance with currently accepted industry standards, and no other warranties, representations, or certifications are made. Unless stated otherwise herein, this report is intended for and restricted to the sole use of 1 HSR GP, LLC. Any other use, interpretation, or reliance upon this assessment is at the sole risk of the user and Haro Environmental shall have no liability for such unauthorized use, interpretation or reliance.

Qualifications of Environmental Professionals. Mr. Elliot Haro representing Haro Environmental performed this ESA. Mr. Haro is an environmental consultant who has performed over 100 ESAs for a variety of clients. Mr. Haro's resume is provided in Appendix D.

Reliance. This ESA report has been prepared for the exclusive use and reliance of 1 HSR GP, LLC. Use or reliance by any other party is prohibited without the written authorization of 1 HSR GP, LLC and Haro Environmental.

Scope Limitations and ASTM Exceptions. This ESA did not include any inquiries with respect to non-scope ASTM considerations (including but not limited to asbestos containing materials unrelated to releases into the environment, biological agents, cultural and historic resources, ecological resources, endangered

species, health and safety, indoor air quality unrelated to releases of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint unrelated to releases into the environment, lead in drinking water, mold or microbial growth conditions, Polychlorinated Biphenyls (PCB)-containing building materials, naturally-occurring radon, regulatory compliance, Substances not defined as hazardous substances (including some substances sometimes generally referred to as emerging contaminants) unless or until such substances are classified as a CERCLA hazardous substance, wetlands, or Per- and Polyfluoroalkyl Substances (PFAS)), subsurface or other invasive assessments, business environmental risk evaluations or other services not particularly identified and discussed herein. Note, however, that virtually no scope of work, no matter how exhaustive, can identify all contaminants or all conditions above and below ground.

Reasonable attempts were made to obtain information within the scope and time constraints set forth by the client; however, in some instances, information requested may not be received by the issuance date of the report. In the event information obtained from sources mentioned previously alters the findings stated in this report, an addendum letter will be forwarded to 1 HSR GP, LLC under separate cover providing Haro Environmental's findings and conclusions. Additional Phase I ESA limitations include:

- Three data gaps since 1940 of greater than 5 years were identified in the historical records reviewed and included the years from 1954 to 1960, 1988 to 1994, and from 1995 to 2002. These data gaps are considered insignificant because the site use appears to be similar during the data gaps.

- The interior of the cell tower on Site was not inspected. This data gap is considered insignificant because photos of the interior of the Site Building was provided by the County of Santa Barbara.

- An environmental lien search was not performed. This data gap is considered insignificant because the preliminary title report was reviewed that did not indicate any environmental liens, and the history of the site is well documented through other sources of information.

This report represents our service to you as of the report date and constitutes our final document; its text may not be altered after final issuance. Findings in this report are based upon the Site's current utilization, information derived from the most recent reconnaissance and from other activities described herein; such information is subject to change. Certain indicators of the presence of hazardous substances or petroleum products may have been latent, inaccessible, unobservable or not present during the reconnaissance and may subsequently become observable (such as after site renovation or development). Further, these services are not to be construed as legal interpretation or advice.

Certification. I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all-appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available business directory data at approximately five year intervals.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL ---------- National Priority List
Proposed NPL ---------- Proposed National Priority List Sites
NPL LIENS ---------- Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL ---------- National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY ---------- Federal Facility Site Information listing
SEMS ---------- Superfund Enterprise Management System

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE ---------- Superfund Enterprise Management System Archive

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS ---------- Corrective Action Report

Lists of Federal RCRA TSD facilities

RCRA-TSDF ---------- RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG ---------- RCRA - Large Quantity Generators
RCRA-VSQG ---------- RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/03/2024 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
SHELL SERVICE STATIO EPA ID:: CAD981405343	1000 COAST VILLAGE	ENE 0 - 1/8 (0.074 mi.)	C4	12
MONTECITO ONE HOUR M EPA ID:: CAD981636509	1024 B COAST VILLAGE	E 1/8 - 1/4 (0.184 mi.)	H38	140

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information

that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/22/2024 has revealed that there is 1 ENVIROSTOR site within approximately 1 mile of the target property.

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 8 LUST sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 9 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

AGF & ASF REDISTRIBU		ESE 1/2 - 1 (0.718 mi.)	L54	191

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 07/01/2024 has revealed that there is 1 PFAS ECHO site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

PFAS: A listing of PFAS sites included in the Envirostor and GeoTracker databases. Locations of potential sources of per - and polyfluoroalkyl substances (PFAS). This does not mean that PFAS has been produced, used, or discharged at these sites.

A review of the PFAS list, as provided by EDR, and dated 03/04/2024 has revealed that there is 1 PFAS site within approximately 0.25 miles of the target property.

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 7 CUPA Listings sites within approximately 0.25 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there is 1 DRYCLEANERS site within approximately 0.25 miles of the target property.

CERS: The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

A review of the CERS list, as provided by EDR, and dated 07/10/2024 has revealed that there is 1 CERS site within approximately 0.001 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 10 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

WDS:

Name:	MONTECITO WWTP
Address:	910 CHANNEL DR
City:	SANTA BARBARA
Facility ID:	Central Coastal 420107001
Facility Type:	Municipal/Domestic - Facility that treats sewage or a mixture of predominantly sewage and other waste from districts, municipalities, communities, hospitals, schools, and publicly or privately owned systems (excluding individual subsurface leaching systems disposing of less than 1,000 gallons per day).
Facility Status:	Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.
NPDES Number:	CA0047899 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board
Subregion:	3
Facility Telephone:	Not reported
Facility Contact:	DIANE GABRIEL
Agency Name:	MONTECITO SD
Agency Address:	1042 MONTE CRISTO LANE
Agency City,St,Zip:	SANTA BARBARA 93108
Agency Contact:	JERRY SMITH
Agency Telephone:	Not reported
Agency Type:	Special District (Includes districts established under general acts, sanitary districts, water districts irrigation districts, etc.)
SIC Code:	4952
SIC Code 2:	Not reported
Primary Waste Type:	Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.
Primary Waste:	DOMEST
Waste Type2:	Not reported
Waste2:	Domestic Sewage
Primary Waste Type:	Designated/Influent or Solid Wastes that pose a significant threat to water quality because of their high concentrations (E.G., BOD, Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G., inorganic salts and heavy metals) are included in this category.
Secondary Waste:	Not reported
Secondary Waste Type:	Not reported

MONTECITO SD WWTP (Continued) **1004442421**

Design Flow:	2
Baseline Flow:	1
Reclamation:	No reclamation requirements associated with this facility.
POTW:	The POTW Does not have an approved pretreatment program. Some POTWs may have local pretreatment programs that have not been approved by the regional board and/or EPA.
Treat To Water:	Moderate Threat to Water Quality. A violation could have a major adverse impact on receiving biota, can cause aesthetic impairment to a significant human population, or render unusable a potential domestic or municipal water supply. Awsthetic impairment would include nuisance from a waste treatment facility.
Complexity:	Category A - Any major NPDES facility, any non-NPDES facility (particularly those with toxic wastes) that would be a major if discharge was made to surface or ground waters, or any Class I disposal site. Includes any small-volume complex facility (particularly those with toxicwastes) with numerous discharge points, leak detection systems or ground water monitoring wells.

RB Case Number: Not reported
source_type: All PFAS Chemicals
Location ID: EFF-001
Matrix: Liquid
Chemical: Perfluorobutanesulfonic acid
Qualifier: ND
Value: 0
Reporting Limit: 50
Detection Limit: 50
Lab Notes: Not reported
Quarterly Running Annual Average: 0
Units: NG/L
Date: 3/22/2021
Field Pt Class: ES
Site Use: Wastewater Treatment Plants
Site Type: NPDES
Latitude: 34.42011
Longitude: -119.65189
Geo Tracker URL: http://geotracker.waterboards.ca.gov/profile_report.asp?global_id=NPD100051564

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 03/25/2024

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA Watch List

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS PROJECT: NORTHEASTERN UNIVERSITY PFAS PROJECT

The PFAS Contamination Site Tracker records qualitative and quantitative data from each site in a chart, specifically examining discovery, contamination levels, government response, litigation, health impacts, media coverage, and community characteristics. All data presented in the chart were extracted from government websites, such as state health departments or the Environmental Protection Agency, and news articles.

PFAS ECHO: Facilities in Industries that May Be Handling PFAS Listing

Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing

A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

AQUEOUS FOAM NRC: Aqueous Foam Related Incidents Listing

The National Response Center (NRC) serves as an emergency call center that fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. The spreadsheets posted to the NRC website contain initial incident data that has not been validated or investigated by a federal/state response agency. Response center calls from 1990 to the most recent complete calendar year where there was indication of Aqueous Film Forming Foam (AFFF) usage are included in this dataset. NRC calls may reference AFFF usage in the ?Material Involved? or ?Incident Description? fields.

UST FINDER: UST Finder Database

EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

CHROME PLATING: Chrome Plating Facilities Listing

This listing represents chrome plating facilities the California State Water Resources Control Board staff identified as possibly being a source of Per- and polyfluoroalkyl substance (PFAS) contamination. Sites and locations were identified by staff with the Division of Water Quality in the California State Water Board. Data was collected from the CA Air Resources Board 2013 and 2018 - Cr VI emission survey, CA Emission Inventory, CA HAZ Waste discharge database and by reviewing storm water permits. Former chrome plating sites are also included that are open site investigation or remediation cases with the Regional Water Quality Control Boards and the Department of Toxic Substances Control.

Data Release Frequency: Varies

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing
In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991

GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

1 HOT SPRINGS ROAD
1 HOT SPRINGS ROAD
SANTA BARBARA, CA 93108

TARGET PROPERTY COORDINATES

Latitude (North):	34.421734 - 34° 25' 18.24''
Longitude (West):	119.654901 - 119° 39' 17.64''
Universal Tranverse Mercator:	Zone 11
UTM X (Meters):	256006.6
UTM Y (Meters):	3811919.8
Elevation:	34 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50006203 SANTA BARBARA, CA
Version Date:	2022

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

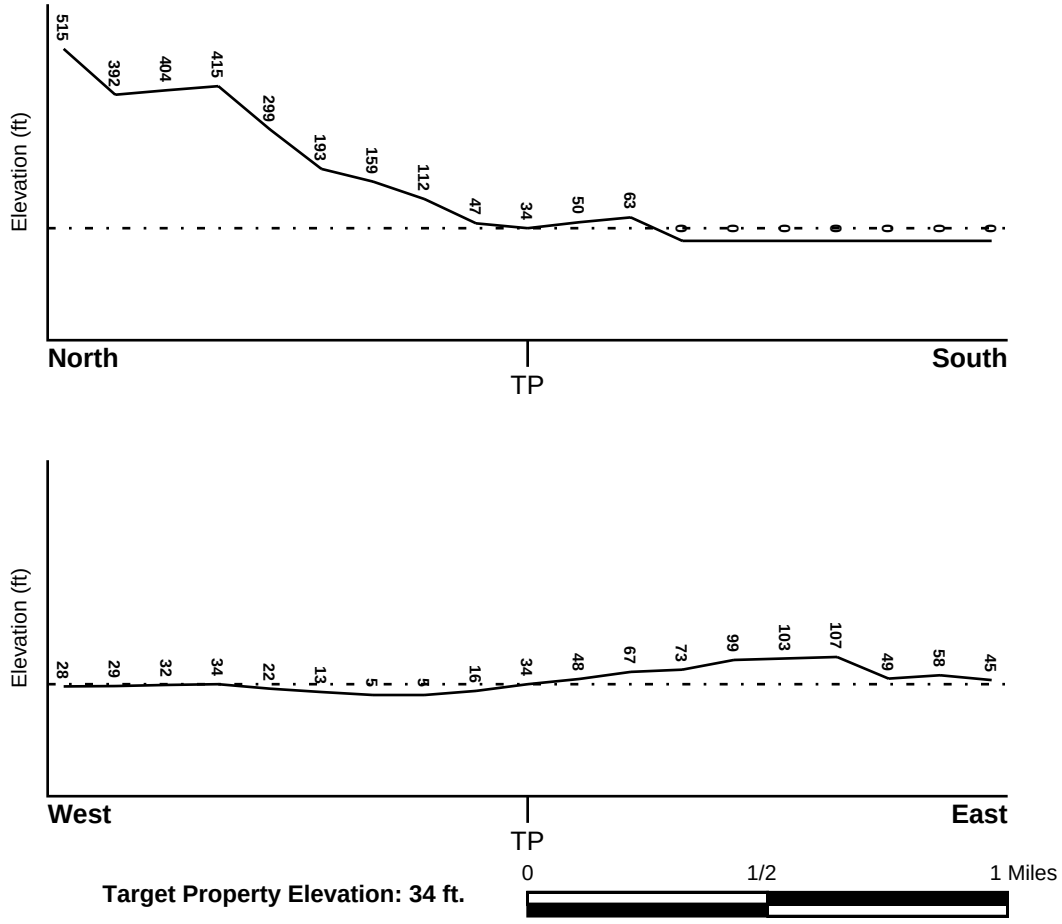

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 34 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06083C1392G	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
06083C1391H	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
SANTA BARBARA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
L76	1/2 - 1 Mile WSW	S
1G	1/2 - 1 Mile WSW	S

For additional site information, refer to Physical Setting Source Map Findings.

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Milpitas

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	14 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6
2	14 inches	53 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6
3	53 inches	68 inches	very gravelly sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6

Soil Map ID: 2

Soil Component Name: Water

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

Soil Map ID: 3

Soil Component Name: Milpitas

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Moderately well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	25 inches	fine sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
2	25 inches	53 inches	gravelly clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6
3	53 inches	68 inches	very gravelly sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 141 Min: 42	Max: 7.8 Min: 5.6

Soil Map ID: 4

Soil Component Name: Orthents

Soil Surface Texture: variable

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

1	0 inches	59 inches	variable	Not reported	Not reported	Max: Min:	Max: Min:

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

OTHER STATE DATABASE INFORMATION

Groundwater Ambient Monitoring & Assessment Program
State Water Resources Control Board
Telephone: 916-341-5577
The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

Geothermal Wells Listing
Department of Conservation
Telephone: 916-445-9686
Geothermal well means a well constructed to extract or return water to the ground after it has been used for heating or cooling purposes. Geothermal wells in California (except for wells on federal leases which are administered by the Bureau of Land Management) are permitted, drilled, operated, and permanently sealed and closed (plugged and abandoned) under requirements and procedures administered by the Geothermal Section of the Department of Conservations Geologic Energy Management Division (CalGEM, formerly DOGGR).

California Oil and Gas Well Locations

Oil and Gas well locations in the state.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Haro Environmental, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

APPENDIX B

INTERVIEW AND RESEARCH DOCUMENTATION

PLN2024-00217

APN#017-393-002

1 HOT SPRINGS Rd

Description of Application

The project consists of a new multi-family with 22 two- and three-story townhouse units with an average unit size of 1,421 SF. The unit mix will be comprised of (5) studios, (5) two-bedrooms, and (12) three-bedrooms. The project would provide a total of 50 parking spaces with garages and carports, including 11 guest surface parking spaces on-site.

New Fees Invoiced for Record ID #PRE2024-00007

Important - Plan check fee is subject to change. The fee has been assessed based on the information provided on the permit application and Description of Work entered during submittal through Accela Citizen's Access. The fee may be adjusted after the scope of work is confirmed during plan review.

Hello Brian Holland

This email is to inform you that the City of Santa Barbara Land Development Team staff has invoiced fees on your project.

To pay the fees online using the Citizen Access portal, please use the first link to log into your ACA account:

- Select "My Records";
- Choose the record for which you'd like to pay;
- At the next screen, choose the "Payments" tab;
- Click on "Fees";
- In the "Fees" section, choose "Pay Fees"; then
- Follow the instructions to pay via electronic check or credit card. A non-refundable 2.65% convenience fee will be charged on credit card payments. Electronic checks will not incur the convenience fee:

Records Dashboard - City of Santa Barbara (santabarbaraca.gov)

For alternative payment methods, please see this hyperlink:

Fee Information | City of Santa Barbara (santabarbaraca.gov)

Please let assigned staff know once you've paid so that we can proceed with the next steps.

For question on the fees due, please contact the appropriate Building, Fire, Planning, or Public Works staff.

This is an automated email. Please do not reply to this email.

Sincerely,

City of Santa Barbara Staff

Photos Needed - 1 Hot Springs Rd - Record ID #PRE2024-00007

Hi Brian,

Thank you for your application for PRT and a preliminary HLC design review consultation for the housing project at 1 Hot Springs Rd (PRE2024-00007). If feasible, please submit a PDF containing photos of the vacant lot taken from the surrounding streets and any other public viewing areas. This will help HLC understand the site's context in the area and will be a helpful supplement to the aerial photo and elevations provided. Once the fees have been paid, we'll forward the application on for PRT processing and scheduling on an HLC agenda. The photos will be needed prior to HLC.

Thank you,

Ted Hamilton-Rolle, AICP

Hi Brian,

Thank you for your application for PRT and a preliminary HLC design review consultation for the housing project at 1 Hot Springs Rd (PRE2024-00007). If feasible, please submit a PDF containing photos of the vacant lot taken from the surrounding streets and any other public viewing areas. This will help HLC understand the site's context in the area and will be a helpful supplement to the aerial photo and elevations provided. Once the fees have been paid, we'll forward the application on for PRT processing and scheduling on an HLC agenda. The photos will be needed prior to HLC.

Thank you,

Ted Hamilton-Rolle, AICP

RE: NEW PRT & HLC PRE - 1 Hot Springs Rd - Record ID #PRE2024-00007

Hi Heidi,

I'm not aware of a requirement to do PRT prior to HLC or vice versa. The best approach may be to ask the applicant if they prefer these two services in any particular order. PRT comments may be helpful to have prior to the design review consultation so that the applicant can answer any code-related PRT feedback questions at the HLC hearing. Once the applicant indicates their preferred order of operations, it's just a matter of coordinating with the case planner assigned to the PRT.

New Fees Invoiced for Record ID #PRE2024-00007

PRE2024-00007

APN#017-393-002

1 HOT SPRINGS Rd

Important - Plan check fee is subject to change. The fee has been assessed based on the information provided on the permit application and Description of Work entered during submittal through Accela Citizen's Access. The fee may be adjusted after the scope of work is confirmed during plan review.

Hello Brian Holland

This email is to inform you that the City of Santa Barbara Land Development Team staff has invoiced fees on your project.

To pay the fees online using the Citizen Access portal, please use the first link to log into your ACA account:

- Select "My Records";
- Choose the record for which you'd like to pay;
- At the next screen, choose the "Payments" tab;
- Click on "Fees";
- In the "Fees" section, choose "Pay Fees"; then
- Follow the instructions to pay via electronic check or credit card. A non-refundable 2.65% convenience fee will be charged on credit card payments. Electronic checks will not incur the convenience fee:

Records Dashboard - City of Santa Barbara (santabarbaraca.gov)

For alternative payment methods, please see this hyperlink:

Fee Information | City of Santa Barbara (santabarbaraca.gov)

Please let assigned staff know once you've paid so that we can proceed with the next steps.

For question on the fees due, please contact the appropriate Building, Fire, Planning, or Public Works staff.

This is an automated email. Please do not reply to this email.

Sincerely,

City of Santa Barbara Staff

	Environmental Services Review - PRT	>Comments Provided		

1. Capacity.
a. Project requires containers for: Trash, Recycle, and Greenwaste.
b. Show all proposed containers to scale on the site plan and indicate the size and waste stream of each (e.g. 4 cubic yard Trash dumpster, 4 cubic yard Recycle dumpster, 2 95-gallon greenwaste carts).
2. Screening.
a. Show containers in an enclosure or storage room that is adequately screened from public view.
b. Screening can be accomplished with an enclosure or landscaping.
c. For dumpsters, screening is required to be a minimum of 7 feet in height.
3. Access.
a. Indicate the path of travel of the containers from the enclosure to the location where they will be serviced by the waste hauler.
b. Path of travel cannot exceed 2% grade for dumpsters and must be smooth pavers, i.e. concrete. This can be a shown on the site plan as a simple dashed line. Path of travel cannot include stairs of any kind.
c. Show all pedestrian gates and hauler access gates in the open position. For swing gates, show open at 120 degrees. For sliding gates, show in the open position.
4. Off-Site Enclosure. If the containers and/or enclosure your project uses for operations is located on another parcel, you must record an Off-Site Trash Enclosure Easement for permit approval. Please email Environmental Services staff to receive the City-Approved Template for this easement as early in the process as possible
5. Trash Chutes. If trash chutes are proposed, residential will need two separate chutes for trash and recycle. A greenwaste container can be made available on the ground floor for residents. Please indicate the path of travel from residential tenant spaces to the ground floor trash room for access to greenwaste and disposal of bulky items that do not fit in a trash chute. For trash chute approval you will need to provide the following:
a. Cross section building diagram showing trash chutes vertically for all levels.
b. Floor plan for ground floor enclosure. Show footprint of chute output. Ensure chute output is over the correct container type for trash or recycle.
c. Floor plan for the trash chute room that tenants will interact with. Need two separate chutes for trash and recycle. Need signage for each chute displaying which chute is for which stream.
6. Recommendation. For dumpsters, look to incorporate interior curbs on the inside of enclosure walls to reduce damage over time. Please find an interior curb diagram on page 10 of our guide.
7. Resources. Our enclosure guide is available here with container dimensions on page 18, dumpster diagrams on page 11 and 15, and cart diagrams on page 16: www.SantaBarbaraCA.gov/EnclosureGuide.

New Fees Invoiced for Record ID #PRE2023-00190

PRE2023-00190

APN#017-393-002

1 HOT SPRINGS Rd

Important - Plan check fee is subject to change. The fee has been assessed based on the information provided on the permit application and Description of Work entered during submittal through Accela Citizen's Access. The fee may be adjusted after the scope of work is confirmed during plan review.

Hello Brian Holland

This email is to inform you that the City of Santa Barbara Land Development Team staff has invoiced fees on your project.

To pay the fees online using the Citizen Access portal, please use the first link to log into your ACA account:

- Select "My Records";
- Choose the record for which you'd like to pay;
- At the next screen, choose the "Payments" tab;
- Click on "Fees";
- In the "Fees" section, choose "Pay Fees"; then
- Follow the instructions to pay via electronic check or credit card. A non-refundable 2.65% convenience fee will be charged on credit card payments. Electronic checks will not incur the convenience fee:

Records Dashboard - City of Santa Barbara (santabarbaraca.gov)

For alternative payment methods, please see this hyperlink:

Fee Information | City of Santa Barbara (santabarbaraca.gov)

Please let assigned staff know once you've paid so that we can proceed with the next steps.

For question on the fees due, please contact the appropriate Building, Fire, Planning, or Public Works staff.

This is an automated email. Please do not reply to this email.

Sincerely,

City of Santa Barbara Staff

RE: 1 Hot Springs Rd. - SB330 Pre-Application Confirmation - Record ID #PRE2023-00094

Brian,

To clarify one important point from my last email:

The language below makes it look like you only need to **submit** your Planning Application

PRE2023-00094

APN#017-393-002

1 HOT SPRINGS Rd

within 180 days of the Pre-Application, and that is not the case. Your Planning Application must be **determined to be complete** within 180 days of submitting this Pre-Application. In other words, the City must determine your formal Planning Application is complete by January 2, 2024, or a new preliminary application will be required.

Thanks,

Ted Hamilton-Rolle
Project Planner

Subject: 1 Hot Springs Rd. - SB330 Pre-Application Confirmation - Record ID #PRE2023-00094

Hi Brian,

Thank you for submitting a preliminary housing development application for the property at 1 Hot Springs Road. Your Pre-application number is PRE2023-00094.

After submitting this preliminary application to the City, you have 180 days to submit a complete Planning (PLN) Application, or the preliminary application will expire. **The 180-day expiration date for this Pre-Application is January 2, 2024**. If the number of residential units or the floor area of construction project is revised by 20% or more, a new preliminary application and fee must be submitted. Projects must commence construction within 2-1/2 years of Final Approval. Once you submit a Planning Application, your project will be assigned to a case planner for processing.

Please let me know if you have any questions.

Sincerely,

PRE2023-00094

RE: 1 Hot Springs Rd. - SB330 Pre-Application Confirmation - Record ID #PRE2023-00094

Hi Brian,

Following up on the below after getting clarification and updating our procedures for these housing preliminary applications. You are correct, the Government Code indicates that the applicant has 180 days to submit a full (not determined to be complete) planning application. Here is updated language to confirm the expiry timelines for this pre-application:

Thank you for submitting a housing development pre-application for the property at 1 Hot Springs Road. Your PRE-application number is PRE2023-00094.

This housing development pre-application serves to "freeze" the applicable fees and development standards that apply to your project for up to **180 days** while you assemble the rest of the material necessary for a full application submittal.

This pre-application does not commence any other pre-application services, such as conceptual design review or a planner consultation. If you are seeking those additional pre-application services, a separate application is required.

After submitting this preliminary application to the City, you have 180 days to submit a full Planning (PLN) Application, or the preliminary application will automatically expire. **The 180-day expiration date for this Pre-Application is January 2, 2024**. If the number of residential units or the floor area of construction project is revised by 20% or more, a new preliminary application and fee must be submitted. Projects must commence construction within 2-1/2 years of Final Approval.

Please let me know if you have any questions.

Sincerely,

Ted Hamilton-Rolle
Project Planner

Hi Brian,

I agree with your summary of the timelines below based on my reading of the state statute. However, the City's Housing Pre-Application handout seems to interpret the statute to indicate that the application for development must be determined to be complete within 180 days of Pre-Application submittal. I am getting clarification on this and will get back to you.

Thanks for your patience.

EXTERNAL

Ted - thanks for the below. Couple of clarifying questions. Based on my review of Government Code § 65941.1(d), I was under the impression that:

PRE2023-00094

APN#017-393-002

1 HOT SPRINGS Rd

+ Owner/developer is required to submit its Planning Application within 180 days of submitting the Pre-Application Form (by January 2, 2024, as noted below);

+ Then, pursuant to Section 65943(a), the City has 30 calendar days to determine if the Planning Application is complete;

+ Should the City determine that the Planning Application is incomplete, owner/developer shall submit the specific information needed to complete the application within **90 days** of receiving the City's written identification of the necessary information (§ 65941.1(d)).

Let me know if you're in agreement with the above.

Thanks,

Brian

Case Conditions

(Reconsideration of HLC action and conditions of approval of April 22, 2015. Project must comply with Planning Commission Resolution No. 016-13.)

FOLLOWING ARE DRAFT MINUTES ONLY:

Actual time: 6:16 p.m.

Present: Jaime Limón, Design Review Supervisor

Staff comments: Mr. Limón stated that the condition of approval imposed upon the project during the Review After Final hearing of May 6, 2015, that additional landscaping screening be provided cannot be asked of the applicant once the project was given project design approval and final approval.

Public comment opened at 6:22 p.m. and, as no one wished to speak, it was closed.

Motion: Reconsider the item as requested by staff.

Action: Shallanberger/Winick, 7/0/1. (Veyna abstained. Mahan stepped down.) Motion carried.

Motion: Approval of Review After Final with the comment that the height of the wall is acceptable without additional conditions in accordance with the City Attorney's direction.

Action: Orías/Murray, 7/0/1. (Veyna abstained. Mahan stepped down.) Motion carried.

The ten-day appeal period was announced.

Case Conditions

(Review After Final for an increase in the height of the wireless facilities enclosure to a maximum of eight feet and ten inches. Project must comply with Planning Commission Resolution No. 016-13. Project last reviewed on April 9, 2014.)

Time: 3:24 p.m.

Present: Tricia Knight, Verizon Wireless

Motion: Approval of Review After Final with conditions:

1. The height of the wall is acceptable.

2. The approval is for two-years in consideration of the current drought. After such period, the applicant is to return proposing a minimum of two drought-tolerant trees, and a means to provide them water, with the intent to soften the view of the tower pole.

Action: La Voie/Shallanberger, 5/0/1. (Veyna abstained. Drury/Mahan/Winick absent.) Motion carried.

The ten-day appeal period was announced.

Case Conditions

(Project Design Approval requested. Project requires compliance with Planning Commission Resolution No. 016-13. The project was last reviewed by HLC on April 24, 2013.)

This item was reviewed out of order.

Time: 2:59 p.m.

Present: Tricia Knight, SAC Wireless; and Renee Brooke, Senior Planner / Development Review Supervisor

Public comment opened at 3:09 p.m.

Kellam de Forest, local resident, commented on exploring other ways to camouflage to lessen visual impact.

Public comment closed at 3:11 p.m.

Motion: Project Design Approval and continued indefinitely to the Consent Agenda with findings and comments:

1. Visual Impact Findings are made as follows: The project has been reviewed by the Historic Landmarks Commission as to the site, color, and size of the proposed tower pole so as to minimize any adverse visual impact.

2. The response to prior Planning Commission and Historic Landmarks Commission comments is appreciated.

3. Provide wall details and add a detail to the metal access gate so as to provide a recess/relief. It was suggested that the gate color match the walls.

4. Provide additional gel pack detail and indicate the probability of success.

5. Add the tree protection notes on the plans.

6. Address potential graffiti concerns while awaiting camouflaging vine to mature. The City graffiti hotline number shall be placed on the gate below the proposed FCC required sign and abatement shall be Verizon's responsibility.

Action: Orías/Drury, 7/0/0. (Mahan stepped down. Shallanberger absent.) Motion carried.

Case Conditions

(Compatibility Criteria Analysis only; project requires Environmental Assessment, Planning Commission review, and Findings of No Visual Impact. Project was last reviewed on October 24, 2012.)

Actual time: 3:22 p.m.

Staff comments: Susan Gantz, Planning Technician, stated that the Criteria Analysis was inadvertently omitted at the last review and requested the HLC Comment with respect to the Compatibility Criteria Analysis.

Motion: The Commission has reviewed the proposed project and Compatibility Analysis Criteria have been generally met for this project (per SBMC 22.22.145.B. and 22.68.045.B.) as follows:

1. Based on previous comments, the project design is acceptable because the applicant has pursued a design in its simplicity to minimize the impacts of the installation. The monopole is the least intrusive design.

2. The project size, mass, bulk, height, and scale are appropriate for its location and do not adversely affect the neighborhood or the zone.

3. The project design is appropriately sensitive to adjacent to Federal, State, or City Landmarks or other nearby designated historic resources, including City structures of merit, sites, or natural features.

4. Public views of the ocean and mountains are not greatly impacted.

5. Appropriate amount of open space and landscaping are sufficient.

6. Carry forward previous comments to the Planning Commission.

Action: La Voie/Shallanberger, 7/0/0. (Murray/Suding absent.) Motion carried.

10/24/2012 Tidemark Activities - 3192773~HLC-Concept Review (Continued) **CONT**

(Fourth Concept Review. Comments only; project requires Environmental Assessment, Planning Commission review, and Findings of No Visual Impact. Project was last reviewed on October 10, 2012.)

Actual time: 3:55 p.m.

Present: Tricia Knight, Agent for Verizon Wireless

Public comment opened at 3:59 p.m. and, with no one wishing to speak, it was closed.

Motion: Continued indefinitely with comments to the Planning Commission:

1. The Commission would like to make it clear to the Planning Commission that any future company that wishes to co-locate at this site shall present the proposal to the HLC for review.

2. In the future, this pole shall be removed if other installations supersede this pole's equipment.

3. The applicant has pursued a design in its simplicity to minimize the impacts of the installation. The monopole is the least intrusive.

4. A faux tree or artificial vines are not acceptable.

5. Graffiti-proof the wall to the extent possible. A vine on the wall may be the best graffiti solution, which would require a temporary water tank.

6. The applicant shall implement a maintenance program for graffiti removal during vine establishment.

7. All antennae need to be enclosed within the pole.

8. Increase the height of the wall to screen the equipment enclosed.

9. Eliminate the fenestration on the wall.

10. The color of the pole and wall will require HLC review.

Action: La Voie/Sharpe, 6/0/0. Motion carried. (Drury/Murray/Shallanberger absent.)

Case Conditions

(Third Concept Review. Comments only; project requires Environmental Assessment, Planning Commission review, and Findings of No Visual Impact. Project was last reviewed on September 26, 2012.)

Actual time: 2:38 p.m.

Present: Tricia Knight, Agent for Verizon Wireless

Jaime Limón, Design Review Supervisor, gave a background in the processing of wireless applications and explained the Commission's primary purview was to work with the applicant to reduce the visual impacts on the community. He further explained that the application will be forwarded to the Planning Commission for a Coastal Development Permit because of its location within the Coastal Zone.

Straw votes: How many Commissioners would support the monopole with the exposed antenna at 50 feet? 3/3 (Boucher/Orías/Suding opposed).

How many Commissioners would support the column with the capital at 45 feet? 2/4 (Boucher/Drury/Murray/Suding opposed).

How many Commissioners would support the monopole painted green at 50 feet with no exposed antenna? 6/0.

How many Commissioners would support the faux tree at 58 feet with the condition that the leaves should be replaced periodically? 2/4 (Boucher/Drury/Murray/Suding opposed).

Motion: Continued two weeks with comments:

1. The Commission prefers the monopole painted green at 50 feet with no exposed antenna.

2. Lower the height of the overall wall by eliminating the 2 foot plinth.

3. Study the wall capitals and breakups so that they read more traditional.

4. Eliminate the stair.

5. Provide details.

6. There should be a condition for removal of the pole as technology eventually makes it obsolete.

Action: Boucher/Shallanberger, 6/0/0. Motion carried (La Voie/Sharpe/Winick absent.)

Case Conditions

(Second Concept Review. Comments only; project requires Environmental Assessment and Planning Commission approval. Project was last reviewed on July 20, 2011.)

Actual time: 3:00

Present: Tricia Knight, Agent; and Dewayne Bonham, Radio Frequency Engineer

Public comment opened at 3:09 p.m. and, with no one wishing to speak, it was closed.

An email from Mary Louise Days, local historian, was acknowledged by Chair Suding.

Motion: Continued two weeks with the following comments:

1. A shorter utility pole would be more appropriate.

2. A single pole may be acceptable.

3. The faux tree is not acceptable.

4. There should be a condition for removal of the pole as technology eventually makes it obsolete.

5. Provide other locations in the area where the facility could be sited.

6. Consider designing a capitol for the top of the pole.

7. Simplify the top of the enclosure.

8. Taper the pole.

9. Provide photographs of other monopoles in Santa Barbara County.

10. Provide photographs of equipment site from the historic resource, including a view of the historic resource in that photograph.

11. Signage at the historic resource is not appropriate.

Action: Winick/Boucher, 7/0/0. Motion carried. (Murray/Shallanberger absent.)

Susan, please check the following with Jaime.

1. Non-residential use in residential zone. It requires double-setbacks. Brenda and I think it's a CDP. Brenda thinks it's a CUP as well per direction on other projects. I'm not sure.

2. The site has a designation on it.

3. Applicant will submit revised drawings showing correct setbacks or set up meeting w/you and Jaime to discuss visual issues first.

4. Applicant will submit cut-sheets for equipment cabinets and generator. Noise levels at property line must be 53 db (equivalent to 60dbCNEL).

5. Per Jaime, applicant was advised of high quality of materials for the monopine. She will bring samples to the meeting.

6. There were no residential tenants within 100 feet.

Tidemark Activities - 3176483~(F) Design Review Routing **ROUT**

This project is currently unassigned. According to the "READ" note in the computer, it will require either a CDP and/or a CUP and therefore, per current procedures, the preliminary plan check will be done by the case planner for the project (See SBMC Section 28.97.260.A & 28.94.030.W). --JAL 6-9-11

Jo Anne

Hi JoAnne,

I'm routing an HLC plan check for Susan while she is out this week. Tentative mailed notice mail out date is June 13, 2011, and the tentative HLC date is June 22, 2011, to be verified by Susan when she returns.

Tidemark Activities - 3176501~(F) Design Review Routing **ROUT**

Routed to Danny Kato to assign to a planner for a prelim plan check. Per read notes - case involves a potential CDP and CUP.

Tidemark Activities - 3176765~Prelim Plan Check - Zoning **PLCK**

Preliminary Plan Check by Tony Boughman, 564-5470 extension 4539.

1. ABR/HLC required - HLC approval required because located in EPV. The parcel also contains a designated historic resource: the Charles Caldwell Park Watering Trough and Fountain.

2. Allowed Use - A Conditional Use Permit (CUP) is required for a cellular antenna tower exceeding 45 feet in height in a residential zone.

PLN2011-00246

APN#017-393-002

900 CHANNEL DR

3. Project Data - Show City jurisdiction, not County, on the plans.

4. Grading - Call out the amount of cut and fill grading.

5. Residential Density - N/A.

6. Tenant Displacement - N/A.

7. Measure E Floor Area - Please confirm that there is no enclosed floor area proposed.

8. Setbacks - Non-residential structures require double setbacks. In the R-1 zone double the front setback from Channel Drive would be 30 feet. Please relocate the project outside this setback or schedule an appointment to discuss a zoning modification of the setback requirement.

9. Parking - Is parking proposed on the site?

10. Building Height - Because the antenna height exceeds the 45 foot height limit in residential zones, approval of a CUP is required. The Planning Commission may grant a waiver of the height limitation if there is no feasible alternative location or design. Please demonstrate this.

11. Solar Height - Not applicable because property to north is not residentially zoned.

12. Open Yard - N/A.

13. Building Separation - N/A.

14. Fences, Walls, Screens, Hedges and TREES - Will the property be fenced? Will there be a gate for access? If so, show on drawings and provide details.

15. Trash Enclosure - N/A.

16. Coastal Review - A Coastal Development Permit (CDP) is required. It must be reviewed by the Planning Commission because they will review the CUP.

17. Public Easements - Projects that expand building footprints or propose new square footage should review the proposal with the Public Works Department to check for city easements for sewer lines, water lines and storm drains.

18. Storm Water Management Program (SWMP) - This project is subject to Tier 3 Storm Water Management Program (SWMP) requirements because it is a commercial project and proposes more than 500 square feet of new or replaced impervious surface. The project is required to capture and treat runoff calculated for a one-inch storm event within a 24-hour period. Please refer to the flow chart on page 3 of the Staff training document:

ACTUAL TIME: 7:13 P.M.

V. CONCEPT REVIEW AND ENVIRONMENTAL HEARING:

APPLICATION OF SUZANNE ELLEDGE PLANNING & PERMITTING SERVICES, AGENT FOR MUSIC ACADEMY OF THE WEST, 900 CHANNEL DRIVE, 017-393-002, R-1/SD-3 SINGLE FAMILY RESIDENTIAL/COASTAL OVERLAY ZONES, GENERAL PLAN DESIGNATION: OPEN SPACE/ PUBLIC PARKING (MST2002-00371)

The proposed project involves a proposal for a 100-space parking lot to be located on a 2.4-acre undeveloped parcel between Channel Drive and Highway 101, across from the Santa Barbara Cemetery. The purpose of the new parking lot is to provide off-site parking spaces for the Music Academy of the West campus, which is located at 1070 Fairway Road, in the unincorporated community of Montecito.

The Music Academy of the West operates under a Conditional Use Permit (CUP) granted by the County of Santa Barbara and currently has an application under review at the County, involving a revision to the existing CUP and implementation of a Master Plan. The existing County CUP requires off-site parking and shuttle service for events on-site with 300 or more participants. The proposed Master Plan improvements include an on-site parking structure at the Music Academy site.

The City coordinated with the County to allow the environmental review for the off-site parking lot to be evaluated as an alternative to the on-site lot as part of the County's Environmental Impact Report (EIR) for the Music Academy Master Plan. The EIR analysis of the off-site parking lot is included in the Alternatives to the Project sections (Sections 8.2 and 8.3, pages 200 and 215, respectively). The City's Initial Study for the off-site parking lot is also included as Appendix B to the EIR. The County EIR public review and comment period extends through September 17, 2003. The City permit would be considered after County certification of the EIR.

The discretionary applications required for the project would be a Conditional Use Permit for non-residential parking in a Residential Zone (SBMC§28.94.030.I), a Coastal Development Permit to allow development in the non-appealable jurisdiction of the Coastal Zone, and Modifications to allow encroachment into the required front and interior setbacks.

A Concept Review and Environmental Hearing was held by the City Planning Commission on September 11, 2003 to provide an opportunity for the public and City Planning Commission to comment on the proposal, to provide feedback to the County regarding the

environmental review, and whether the off-site lot appears to be feasible and potentially approvable, before the County takes action on the Master Plan Project. No action on the project or environmental document was taken at this time.

Barbara Shelton, Environmental Analyst, provided a background of the proposed project and the environmental review procedures.

Kathleen Kennedy, Assistant Planner, reviewed the parking lot project description, draft environmental analysis, concept review issues, and public comments received to date.

Suzanne Elledge, Agent, made brief comments about the project. She also stated that, under County standards, the applicant is fully mitigating impacts to Los Patos Way by proposed operational restrictions, which are acceptable by the County. She concluded by saying that in addition to off-site parking lots to the east used historically, the Music Academy was granted the use of the Las Aves parking lot at the corner of Los Patos Way and Cabrillo Blvd. by the owner this past summer.

Commissioners' questions and comments:

1. Asked how conflicts will be resolved between the requirements of the Historic Landmarks Commission (HLC) and the Public Works Department, and why the HLC would have a "no curb" requirement.

2. Asked for clarification of what the City desires along Channel Drive.

3. Asked about proposed mitigations with respect to Los Patos Way, Channel Drive, and Cabrillo Blvd., and their relationship with the 101 Operational Improvement Project.

4. Regarding a signage condition placed on the Doubletree project on Cabrillo Blvd., asked if those funds are adequate to address a signage program that would comply with the mitigation proposed, or if there is another potential mitigation for this project.

5. Considering the proximity of the Lion's Head Fountain, asked about the need for a roundabout at the intersection with the new parking lot.

6. Asked why the Music Academy is buying part of the property at the location of the Lion's Head Fountain.

7. Asked what the City's involvement is if the Music Academy goes forward with the off-site lot.

8. Asked about the difference in mitigations for the two scenarios (on-site and off-site parking), and whether the City can ask for improvements for identified impacts in either case.

9. Asked for and received confirmation that Channel Drive is in both the City and the County.

10. Asked if the Planning Commission has the ability to require something outside of the City's jurisdiction.

PLN2002-00371

APN#017-393-002

900 CHANNEL DR

11. Asked if it is possible for the applicant to propose a different type of mitigation than Transportation Planning identified, such as changing the hours of operation.

12. Asked if an off-site parking lot could be conditioned with a CUP.

13. Asked about the additional parking being provided at the Las Aves commercial center, and whether the proposed off-site parking lot would involve any differences in impacts from this existing condition.

14. Asked how impacts and proportionate, appropriate mitigations can be assessed with the information available at the present time.

15. Asked about the possibility of making overriding considerations for the intersection.

Rob Dayton, Supervising Transportation Planner, clarified that, because this area is somewhat more rural and has historic value, some of the improvements traditionally recommended by Public Works may or may not be appropriate. However, many of the requirements have come from prior suggestions made by the Planning Commission, such as the concerns for pedestrians and bicyclists coming from Los Patos Way to Cabrillo Blvd. Another Planning Commission concern was connecting the end of the beach way to the new beach way at Channel Drive (where it was closed by the County) around the perimeter of the cemetery. He responded to the question of the desired improvements along Channel Drive and stated that the bike lane is striped, but in some areas it is just a road edge, and it does not meet the four-foot requirement. The sidewalk begins in the area around Fairway Road. Mitigations with respect to Los Patos Way, Channel Drive, Cabrillo Blvd., and their relationship with other projects will be complicated, because of the estimated length of completion time for the CalTrans improvements. After the CalTrans EIR is finalized, the 101 Highway Implementation Plan is not slated for completion until 2010. The City cannot apply a portion of the cumulative improvements to this without setting up a fee mitigation program and identifying everyone's portions over time. He clarified that, with the Doubletree project, partial mitigation was applied and the Planning Commission made overriding considerations for the significant impacts at the intersection. As a way to provide some benefit to the public, the signage program was required. He stated that the Music Academy CUP generating the impact is in the County's jurisdiction, and the proposed parking lot, which is a component of the CUP, is in the City's jurisdiction. The level of impact of the parking lot alone is quite different from the level of impact of the whole project including the County CUP. He clarified that Transportation generally does not favor operational conditions because they are largely unenforceable. However, some flexibility on this is provided with a CUP in place. He concluded by stating that the City had no knowledge of the use of the parking lot at the Las Aves commercial complex.

Ms. Kennedy felt that the HLC's recommendation of no sidewalks may have come from the desire to maintain the rural character of Montecito.

Jan Hubbell, Senior Planner, clarified that the Doubletree project did not contribute to the impact at Los Patos Way because it was not contributing to traffic that would be crossing at that intersection. She clarified that an off-site parking lot would require a CUP.

Ms. Elledge clarified that the Music Academy plans to lease the property (where the Lion's Head Fountain is located) from Santa Barbara Cemetery, not purchase it. The Santa Barbara

Cemetery would continue to maintain the fountain. She clarified that the Music Academy uses the Las Aves parking lot on nights and weekends, when the commercial businesses are closed. The Music Academy's Conditions of Approval under their Conditional Use Permit do not restrict the sharing of parking facilities, such as the Las Aves parking lot.

Ms. Shelton clarified that, at this point in the process, it is an EIR comment period. It would be appropriate at this time, as the adjacent jurisdiction, to comment to the County regarding the environmental analysis. Additionally, because the County may either approve the Master Plan with the on-site parking structure or the off-site lot, they may wish to know whether the City considers the off-site alternative feasible. The City does not have jurisdiction over the County's land use. There is no City fee mitigation program in place. On occasion, ad hoc mitigations are applied if it can be shown that they are feasible mitigations, and that there is proportionality to the impacts. The Planning Commission could direct that the City Transportation Staff work with the County Transportation and Planning Staff in refining what kind of feasible physical improvement or contribution could be made by this project. The applicant and the County may take a different view of what type of mitigation is feasible. The County has proposed that operational changes of the Music Academy are sufficient, and that it is not necessary to have any other physical mitigations. She clarified that, for this non- residential use in a residential zone, a CUP would be required for an off-site parking lot. She concluded by stating that, for the off-site parking lot, the Commission would have full discretion to make overriding considerations in balancing the issues. The findings of no significant traffic impacts would not be required under the various implementation provisions of the City Charter, City Zoning Ordinance, and Measure E. However, it is important to identify any feasible mitigations that could be applied to reduce traffic impacts.

Natasha Heifetz Campbell, Contract Planner, County of Santa Barbara, and preparer of the EIR, clarified that the operational mitigation may be acceptable to the County; however, the decision- makers have not yet made that determination. Regarding the use of the Las Aves parking lot, the existing CUP has an allowance for off-site parking for events of more than 300 people, and there is no condition requiring County or City approval of where shared parking may be located. She stated that, in the County, there is an allowance to pay a project's fair share contribution toward an improvement, particularly if it is a cumulative impact, such as the impact to the Los Patos Way intersection, as opposed to a project specific impact. The Hot Springs/Cabrillo Blvd. impact is both cumulative and project specific. She clarified that, if the impact is in another jurisdiction, the County would look to the other jurisdiction for a recommendation. She felt it inappropriate to require funding of the entire intersection improvement by the applicant when the project is only contributing incrementally to the impact. The County will certify the EIR and determine whether impacts are mitigated adequately, and the City's input is critical on this issue.

The public comment was opened at 8:07 p.m., and with no one wishing to speak, it was closed.

During the discussion, the Commissioners either individually or collectively:

1. Believed that the HLC's requirement to avoid curbs is an attempt to make the parking feel rural in nature, such as that behind the Natural History Museum.

2. Felt that off-site parking is a good idea and would enhance the historic aspects of the

Music Academy property compound to the on-site parking structure, which is beneficial to the community.

3. Felt that the City needs to identify the impact so that there is a realistic idea of an appropriate proportional mitigation. Felt comfortable with the idea of the CUP process with periodic review of how it is working, and operational restrictions on the use of the parking lot.

4. Regarding overriding considerations for the parking lot, expressed hope that the Music Academy would allow the parking lot to be used by the public in this important recreational area when not being used by the Music Academy, as a significant public benefit.

5. Felt that not providing sidewalks would be inconsistent with the Local Coastal Plan policies. Citing heavy pedestrian and bicycle traffic of the area, will not be able to support any project without the installation of a sidewalk on the parking lot side of Channel Drive (with a minimum of sidewalk along the entire frontage of the parking lot) and Class II bicycle lanes on both sides of the street. Strongly recommends sidewalk along the entire length of Channel Drive.

6. Felt the right angle intersection at Channel Drive at the east end of the proposed lot needs a stop sign.

7. Was not in favor of the City Planning Commission granting a short term CUP for the parking lot and stated that the City Attorney has counseled against this in the past.

8. Felt the City should make an assessment and initiate conversation with the County on how much it would cost to mitigate impacts. Felt it may be difficult to make overriding considerations with regard to traffic impacts. Felt that, from an environmental perspective, the nexus between the impact of providing this off-site parking lot might be the provision of shuttles for patrons to use to get directly to the event, instead of using the parking lot. Felt that any improvements to access for the public and anything that would lower the impacts to the Los Patos Way/Cabrillo Blvd. intersection will be appropriate mitigations. Felt curbs appropriate along the street, but not within the actual parking lot.

9. Cited the benefit of allowing the public to park at the off-site lot during hours when it is not being used by the Music Academy, and suggested adding a City shuttle stop there, and providing appropriate signage stating that the shuttle goes to the wharf from this location. This could reduce impacts at other beach/wharf area parking lots.

10. Could see where conjunctive use of the parking lot would work in some instances, but disagreed that people would park there and take the shuttle to the wharf. Thought this might change when the 101 southbound offramp is closed.

11. Felt that, since the shared parking lot at Las Aves is working well, there may be some information there to assist the Planning Commission in deciding how the proposed off-site parking lot could work, as well as possible mitigations to request.

12. Felt that mitigations such as limitations on the Music Academy programs are appropriate, and that, beyond that point, the finding for overriding considerations could probably be made. However, in no case should the historic fountain and island at Los Patos

PLN2002-00371

APN#017-393-002

900 CHANNEL DR

Way and Cabrillo Blvd. be impacted.

Chair Mahan summarized that the Planning Commission believed the off-site parking lot is feasible and provides a public benefit, and that the idea of a new parking structure on the Music Academy's property is undesirable. The Commission felt it a good location for remote parking, and thought sidewalks should be provided. They also felt that shared use of the parking lot would be a good public benefit, and felt that 34, 12-foot high light standards would be more desirable than 27, 20-foot high light standards. Two Commissioners felt it very important that Class II bicycle lanes be provided on both sides of the street, especially since it is a low cost improvement.

Ms. Shelton noted that the draft Transportation/Planning Division comments, which were attached to the Staff Report, will be forwarded to the County in the form of a letter, with the Planning Commission comments and draft minutes of today's hearing.

Case Conditions

(COMMENTS ONLY, PROJECT REQUIRES ENVIRONMENTAL ASSESSMENT, COASTAL DEVELOPMENT PERMIT, AND PLANNING COMMISSION APPROVAL FOR A CONDITIONAL USE PERMIT.)

(Second Concept Review.)

(2:50)

Steve Metsch, Architect, present.

Public comment opened at 2:59 p.m.

Kellem de Forest, 2651 Todos Santos Lane, asked the purpose of the parking lot; i.e., who is intended to park there, and questioned the proposed size. He expressed a desire for a wall that would extend around the perimeter of the parking lot and screen the lot. He felt that the fountain would benefit from a more formal background.

Motion: Continued two weeks with the following comments: 1) Consider bollard lighting along the walkway. 2) Ensure that the parking lot is screened from public view. 3) Provide site sections: one from Cabrillo Blvd., one including the monument and one of Channel Drive. 4) Return with a landscape plan. 5) Consider incorporating tree wells and canopy trees into the walkway. The Commission thanks the applicant for responding to their previous comments.

Action: Boucher/Hausz, 6/0/0.

CITY OF SANTA BARBARA
PLANNING DIVISION

*** NOTICE ***

Please be advised that this property has been designated a City of Santa Barbara Landmark by the City Council

A *landmark* is any structure, natural feature, site, or area having historic, architectural, archaeological, cultural, or aesthetic significance and designated as a *landmark* under the provisions of Municipal Code Chapter 22.22.

"structure" is defined as any building or any other man-made object affixed on or under the ground.

Exterior alterations may be made to a *landmark* for the purpose of restoration to its original appearance, or to substantially aid its preservation or enhancement, with the written approval of the Historic Landmarks Commission.

A *landmark* may be relocated , under certain conditions, with the written approval of the Historic Landmarks Commission.

A *landmark* may only be demolished, subject to the written approval of the Historic Landmarks Commission, if it is damaged by earthquake, fire, or act of God to such an extent that it cannot reasonably be repaired and restored.

Municipal Code Chapter 22.22 requires that every *landmark* shall be maintained in good repair by the owner or other person in legal control of it.

The full list of City Landmarks can be viewed in the City of Santa Barbara Master Environmental Assessment, Guidelines for Archaeological and Historic Structures and sites.

Applied ANNE

1 HOT SPRINGS ROAD, APN 017-393-002
PROPERTY PROFILE
FEBRUARY 26, 2019

This property profile is the result of research conducted by the Planning Division at the request of an interested party. Every effort has been made to provide true and accurate information in this profile; however, the City does not warrant that all information contained herein is correct or accurate in all respects, particularly information provided to the City from outside sources. Further, additional information discovered after the issuance of this profile or changes in City ordinances, regulations, or land use policies with respect to the property may result in changes to the conclusions contained herein.

Sources of information include Street Files, Planning Files, Design Review Files, Tidemark Advantage (the City's computerized case tracking system), the City's Master Environmental Assessment, Historic Structures lists and site plans found in the Community Development Department's Plan Archives. A site inspection was conducted as part of the research for this property profile.

APN: 017-393-002

Zoning: R-1 / SD-3, Single Family Residential / Coastal Overlay

Local Coastal Plan Land Use Designation: Recreational / Open Space

Lot Size: 2.4 acres (96,674 square feet)

MASTER ENVIRONMENTAL ASSESSMENT

The City's Master Environmental Assessment (MEA) summarizes City-wide and neighborhood environmental conditions and constraints. The MEA is intended to function as an "early warning system" for City staff, project proponents and interested citizens by highlighting specific problem areas within each of the seven subject areas covered by the document (Geology and Soils, Flooding and Drainage, Biological Resources, Air Quality, Noise, Cultural Resources, Public Services and Scenic Resources). It is also intended that, through use of the Constraint Maps and standard mitigation measures, project location and design can be chosen and refined in a manner which minimizes environmental damage.

Adjacency to Freeway and Train: A majority of the subject property is within 250 feet from Highway 101. As such, any proposed new residential development on the property is subject to the requirements of SBMC Chapter 22.65 (Design Standards for Development Near Highway 101). These design standards "are intended to limit the number of people, including Sensitive Individuals, who receive Extensive Exposure to potential air pollution hazards from highway vehicle exhaust including diesel particulates by limiting the development of new sensitive land uses within close proximity of Highway 101 or by modifying the design of new sensitive land uses to reduce the amount of air pollution exposure received."

Due to the project's proximity to the Union Pacific Railroad tracks, and potential exposure to public safety risks, in order to conduct environmental review as required by CEQA, a Risk Assessment Analysis to evaluate safety issues pertaining to possible train derailments, collisions etc may be required.

SCANNED Document

Cultural Resources: The site is located in the cultural resource sensitivity area known as the Prehistoric Watercourse Buffer. Any future ground disturbance would likely require a Phase 1 Archaeological Report to identify potential impacts to historic and archaeological resources.

Noise: According to the City's Master Environmental Assessment, the property is located in an area subject to noise levels exceeding 70 dB(a). The required private outdoor living spaces for residential units shall not be exposed to an average ambient noise level in excess of 65 dB(a) CNEL or Ldn, and the interior of all units on the property shall not be exposed to a noise level in excess of 45 dB(a). You may be required to provide an acoustical analysis, prepared by an acoustical engineer, to evaluate the proposed project, and include any recommended design elements to ensure the project will comply with the noise limitations of 65 dB(a) for outdoor and 45 dB(a) for indoor.

Geology and Soils: The Master Environmental Assessment Maps indicates that subject property is susceptible to moderate relative landslide potential, high expansive soils, moderate erosion potential and potentially shallow/moderately shallow groundwater. A full soils report and a full geological report prepared by a qualified licensed engineer may be required for any new construction.

Traffic: Cabrillo Boulevard at Channel Drive is an "impacted" intersection. Additional development in this corridor may require a traffic study by a licensed traffic engineer to assess potential traffic impacts.

ARCHITECTURAL AND HISTORIC STRUCTURES LISTS

The Charles Caldwell Park Watering Trough and Fountain on the southwestern corner of the subject parcel is a Designated City Landmark. Any proposed development would have to maintain this resource and have a design that is compatible with the landmark using the Secretary of the Interior's Standards for the Treatment of Historic Resources.

PREVIOUS DISCRETIONARY REVIEW, BUILDING PERMITS AND ARCHIVE PLANS

The subject property is vacant, with the exception of a telecommunications facility on the northeastern portion of the property, and a historic water tough and fountain on the southwestern corner.

INFORMATION REGARDING FUTURE DEVELOPMENT

The purpose of this section is to outline development potential (amount of new nonresidential floor area allowed by the City's Nonresidential Growth Management Program, number of potential new units), and requirements for development (# of parking spaces required, special studies required, design review, etc.) under certain limited circumstances. However, such potential is dependent on certain assumptions and limited by the circumstances which currently prevail with respect to the property and City land use regulations. Nothing contained in this section should be construed as a representation by the City that such potential may be realized in all cases or that such potential may not be restricted or adversely affected by the required City design review process or other applicable and required discretionary planning processes of the City which may be applicable to a particular development application at the time such an application is made.

Conflict between Land Use Designation and Zoning

The subject property is fairly unique in that the land use designation (Recreational/Open Space) and zone (R-1 Single Family Residential) are inconsistent with each other—typically these designations coincide. Note that the land use designation is identified in the Local Coastal Plan, and there is no General Plan designation. This discrepancy creates ambiguity as to the types of development that would be supportable.

Because of this inconsistency, development that may otherwise be consistent with the zone, may not be approvable without first amending the Local Coastal Plan land use designation to a more compatible designation. Similarly, proposed development that is consistent with the land use designation may not be approvable without a first rezoning the property to a more compatible zone district. Below are the types of development that could be proposed and the respective processes that would be required.

Park/Open Space Development Potential

The property is designated as Recreational/Open Space under the Local Coastal Plan. "Most areas designated as recreational/open spaces are for unrestricted public use. Private land uses which are recreational in nature, such as the Montecito Country Club, are also appropriate under this classification." (LCP, Land Use Map Designations, pg. 207) Use of the property consistent with the Recreational/Open Space land use designation may or may not require a rezone.

Residential Development Potential

The R-1 zone only allows for one single family residence per lot. The minimum lot size in the R-1 zone is 6,000 square feet, with not less than 60 feet of frontage on a public street. In addition, development must observe a 15-foot front setback, 5-foot interior setbacks, and provide 1,250 square feet of Open Yard. An Accessory Dwelling Unit would also be permitted in conjunction with a primary residence, pursuant to State legislation.

Since one residence is permitted by right, a Local Coastal Plan Amendment would not be required for the construction of one single family residence. However, development requiring discretionary action, such as subdividing the parcel, would require a finding of "consistency with the Local Coastal Plan" and therefore a Local Coastal Plan Amendment to change the land use designation to "residential" would be required.

Other uses that can be considered in the R-1 zone through issuance of a Conditional Use Permit include a church, convent, educational institution, golf driving range, outdoor tennis or lawn bowling, child care center, or public or quasi-public uses. Refer to SBMC Chapter 28.94 for additional information.

Nonresidential Development Potential

Nonresidential development would require both a rezone of the property, and a Local Coastal Plan amendment to change the land use designation (unless allowed pursuant to a Conditional Use Permit, refer to SBMC §28.94.030). However, it would not be subject to SBMC Chapter 22.65 (Design Standards for Development Near Highway 101), as nonresidential development does not pose the same risk to "sensitive individuals" as residential development does.

Optically Scanned Document

Additionally, the Nonresidential Growth Management Program, SBMC Chapter 28.85, which became effective in 2013, limits nonresidential development by "Development Areas in the City." The project site is within the "Coast Village Road Development Area." In summary, the amount of nonresidential square footage that can be developed on the parcel is limited by the amount

of nonresidential square footage allocated to the parcel, unless additional square footage is transferred to the parcel from a sending site within the Coast Village Road Development Area, or the project is a Community Benefit Project. Vacant lots citywide are eligible for an amount of floor area which equals 25% of the lot's size—in this case 24,168 square feet (25% of a 96,674 square foot parcel). The parcel would also be eligible for 1,000 square feet of Minor Addition Floor Area. City Council Resolution Number 13-010 includes the administrative procedures for implementing the Growth Management Program.

Requirements for Development

In the R-1/SD-3 zone, required setbacks are as follows (SBMC §28.15.060.A, B):

Front: 15 feet (ground floor), 20 feet (upper floors), garage/carport: 15-20 feet depending on configuration

Interior: 5 feet

Residential development requires open yard area of 1,250 square feet (SBMC §28.15.060.C).

Nonresidential development in the R-1 zone (permitted through a Conditional Use Permit) requires double setbacks, and not more that 25% of the lot area can be covered by buildings used for non-residential purposes (SBMC §28.15.085).

INFORMATION REGARDING APPLICATION PROCESSING

Local Coastal Plan Amendment

A Local Coastal Plan (LCP) Land Use Map Amendment requires discretionary approval. The Planning Commission reviews the amendment and makes a recommendation to the City Council. City Council takes action on the amendment, but the amendment ultimately requires certification by the California Coastal Commission. A DART (Development Application Review Team) application would be required along with application fees. Justification for the designation change must be substantiated. Staff recommends a PRT (Pre-Application Review Team) submittal prior to any DART submittal for an LCP Amendment.

Rezone

A rezone of the property requires discretionary approval. The Planning Commission reviews the rezone request and makes a recommendation to the City Council. City Council takes action on the rezone, but the rezone ultimately requires certification by the California Coastal Commission. A DART application would be required along with application fees. Justification for the rezone must be substantiated. Staff recommends a PRT submittal prior to any DART submittal for a Rezone.

Coastal Zone and Coastal Development Permit

The subject property is within the Coastal Zone Non-Appealable Jurisdiction. Coastal review (potentially requiring a Coastal Development Permit) is required for any development on the property. A Coastal Development Permit requires review and approval by either the Staff Hearing Officer or the Planning Commission (SBMC §28.44.110.B), and is appealable to the City Council.

Design Review/Cultural Resources

The subject property is within El Pueblo Viejo Historic District. Design review by the Historic Landmarks Commission is required for any future development.

RESPONSE TO SPECIFIC QUESTIONS POSED

Scenario 1 – The land use designation does not override the zoning designation. An amendment to change the land use to residential (LCP amendment, not General Plan amendment) would be required. This requires approval by the California Coastal Commission in addition to City Council. Residential land uses are not typically preferred land uses in the coastal zone. Staff would want to check in early with Coastal Commission staff to gauge their level of support for any such amendment.

If the land use is not amended, then development is limited to construction of one single family residence. At this time, we do not know if the City would support an amendment to the residential land use designation. The process would be as described below in Scenario 2.

Are grave plots /mausoleums allowed?

A cemetery is not explicitly permitted in any zone in Title 28 Zoning Code. However, the Code permits quasi-public facilities in any zone with Conditional Use Permit (CUP). Historically, it has been determined that a cemetery use falls within that quasi-public facility CUP category. Therefore grave plots and mausoleums may be allowed in the residential zone with Conditional Use Permit. Since a cemetery would be consistent with the Recreational/Open Space land use designation, a LCP amendment would not be necessary.

Scenario 2 – An application to amend the land use designation and zoning to commercial could be applied for. The process would involve a Local Coastal Plan Amendment and Zoning Map Amendment. The process would require:

- Initiation by the Planning Commission,
- Recommendation from Planning Commission to City Council,
- City Council approval,
- Coastal Commission certification of the amendment.

The timeline to complete this process is unknown, but could range anywhere from 18 months to several years. Environmental review could be a significant component, depending on the proposed zone and land uses, and may trigger preparation of an Environmental Impact Report.

Setbacks and other development standards would be dependent on the proposed zoning designation and use. HRC-2 (Hotel and Related Commercial) and C-1 (Limited Commercial) are the two most adjacent commercial zones.

In general, parking is required at a rate of one space per 250 square feet of nonresidential floor area. Restaurants require additional parking based on the number of seats provided. Hotels require parking at a rate of one space per sleeping unit. Refer to SBMC Chapter 28.90 for more information on parking requirements.

The nonresidential development potential (discussed above) and potential traffic impacts would likely be the limiting factors for the square footage of nonresidential development.

A critical component in pursuing this option is the California Coastal Commission. Staff would check in early with them to see if an LCP amendment to commercial is something that they could potentially support.

Digitally SCANNED Document

OTHER INFORMATION

Please consult with the **Transportation Division of the Public Works Department (805) 564-5385** for direction on traffic analysis and potential traffic impacts caused by additions of nonresidential square footage or residential units.

If a building permit is required, installation, upgrade or repair of public improvements may be required. The public improvements may include but not be limited to installation of curbs, gutters, sidewalks, handicap ramps, asphalt/concrete pavement on aggregate base, street lights with underground wiring, pavement striping and marking, curb sandblasting and/or painting and stenciling or adequate positive drainage. Please consult with the **Engineering Division of Public Works at (805) 564-5388** for direction on any required public improvements or information regarding water or sewer service.

Any questions regarding the information provided should be directed to **Megan Arciniega, Project Planner** at (805) 564-5470, extension 7587 or by e-mail at **MArciniega@santabarbaraca.gov.**

All City records are public. Street and planning files (a.k.a. LDT record archives), and archived plans are located at the Records and Archives counter (at 630 Garden St. (805) 564-5554). Please note that requests to view archived plans are on an appointment basis only.

Information such as the 1) Santa Barbara Municipal Code, 2) handouts, 3) guidelines, 4) street and 5) planning files (a.k.a. LDT record archives), 6) parcel and 7) case information, is also available online at ***http://www.santabarbaraca.gov/PlanningCentral***. Questions regarding application submittal requirements and process can be answered at the Planning and Zoning counter at 630 Garden St. at (805) 564-5578.

City of Santa Barbara
Public Works Department

Memorandum

DATE: November 29, 2018

TO: Planning Department

FROM: Eric Goodall, P.E., Public Works Streets Design

SUBJECT: Property Profile – 1 Hot Springs Road

I am requesting a property profile for the subject property including the requested items on the pre-application and the following:

- Identify physical property limitations, i.e. set-back requirements, distance from freeway, train tracks, etc.
- Identify which commissions/committees have jurisdiction over this parcel including: planning commission, coastal commission, HLC, ABR, etc.
- Analyze the property under the two following scenarios:
    - **Scenario 1: Property Profile with parcel zoned as is (R-1/S-D-3)**
        - Parcel designated in General Plan as "parks/open space"
        - Zoning identifies parcel as "residential"
        - Does General Plan designation override zoning?
        - If General Plan trumps, then:
            - Would the City amend the General Plan (GP) to residential or other zoning type?
            - If City would not amend GP, does this restrict the property to be developed in any way other than parks/open space? If so, no further analysis is required
            - If City would amend GP to match current zoning, what is the process, timeline, and required approvals?
            - Would grave plots and/or mausoleums be allowed either under the GP designation or the zoning of residential?
            - If the GP could/would be amended to designate the subject property as Residential, is it a fact that there is a 250 foot setback from a freeway? Please indicate the setback on the subject property. Do the setback restrictions create a situation where it is highly unlikely to be able to develop the property under its current zoning? Are exceptions allowed and/or likely to be allowed?

Digitally SIGNED Document

- **Scenario 2: Property Profile assuming parcel zoned as commercial**
  - If property would not/could not be re-zoned as commercial, no further analysis is needed
  - If GP can be amended to commercial then:
    - What is the process, timeline, and required approvals?
    - What are the setback limits and other development restrictions?
    - What are the physical property limitations
    - Do the setback and other restrictions create a situation where it is highly unlikely to be able to develop the property under commercial zoning?
    - Based on parking requirements, setbacks, and other restrictions, what is the maximum size building that could be constructed on site if site zoned as Commercial?

City of Santa Barbara

PRE-APPLICATION

Fees not paid yet

Date: 11-29-18
Fee: $465

PLEASE WRITE A BRIEF DESCRIPTION OF THE SPECIFIC REQUEST(S):

Analyze potential Developments on Subject property assuming property zoned as either residential or commercial, taking into account setback and other lot requirements.

SITE DESCRIPTION:

General Site Description Undeveloped open space

Current Use: ☐ Residential ☐ Non-Residential ☐ Mixed-Use ☑ Vacant

Lot Area 97,287 ft² No. of Buildings 0 Parking Spaces: Covered 0 Uncovered 0 Total 0

Pre-Application Services

1. A **Master Environmental Assessment (MEA) Report** identifies environmentally sensitive areas in relation to a site.

2. A **Modification Pre-Consultation** is a mandatory 30-minute meeting to discuss initial Staff support and application requirements prior to submitting a Modification request. Refer to the Submittal Process handout for submittal requirements.

3. A **Planner Consultation** includes staff research and a meeting – total maximum time is 90 minutes. **For vacation rental inquiries,** please submit a scaled site plan, project data, and floor plans, photos of the site and a letter explaining the request. Additional information may be required upon initial submittal.

4. A **Preliminary Zoning Plan Review** covers one initial plan review only. This is an in-depth zoning plan check of project plans for compliance using the "Zoning Plan Check Basic Compliance Checklist." Additionally, Staff will review all permit records and archive plans (as necessary) on file with the City for the property to verify legality of all structures and uses on site, zoning compliance, and accuracy of items shown on project plans. In some cases, this research can reveal zoning/permitting issues that will need to be corrected, abated, or legalized as part of the proposed project. Accuracy and completeness of the Preliminary Zoning Plan Review is dependent upon information provided to Staff at the time of the request. Please note that any subsequent changes to the project plans could raise additional zoning concerns.

5. A **Property Profile** provides information on a site's history and development potential (3-hour minimum charge)

Please select the items requested to be included in the Property Profile:

- [x] Property Data (APN, Zone, General Plan Designation, Lot Size)
- [ ] Conforming/Nonconforming Buildings
- [ ] Conforming/Nonconforming Parking
- [ ] Master Environmental Assessment
- [x] Land Use Approvals
- [ ] Building Permit History*
- [ ] Archive Plan Review
- [ ] Active Enforcement Cases
- [ ] Traffic and Parking Information
- [x] Design Review Requirements and Cultural/Historic Resource Information
- [x] Coastal Zone Jurisdiction/Review Level
- [x] Information Regarding Development Potential (submit a letter explaining what type of information is requested)
- [x] Check here if you have a specific question not on this list and submit a separate request letter.

*Please note that a request for the complete building permit history may result in additional staff time and fees.

6. Staff reviews and verifies calculations submitted per the "**Slope Calculation Plan Submittal** Information" handout.

7. A **Staff Hourly Rate** will be charged for other requests not covered by Pre-Application services on this list.

8. **Temporary Event Review** is required for events which displace parking, last multiple days, or require Police Dept. approval. See "Temporary Event Submittal Requirements" handout. Temporary events proposed in the coastal zone may require a coastal exemption.

9. A **Zoning Letter** identifies specific zoning information for a property. (2-hour minimum charge for one parcel or if multiple contiguous parcels are involved, one hour per parcel is required as a deposit)

Please select the items requested:

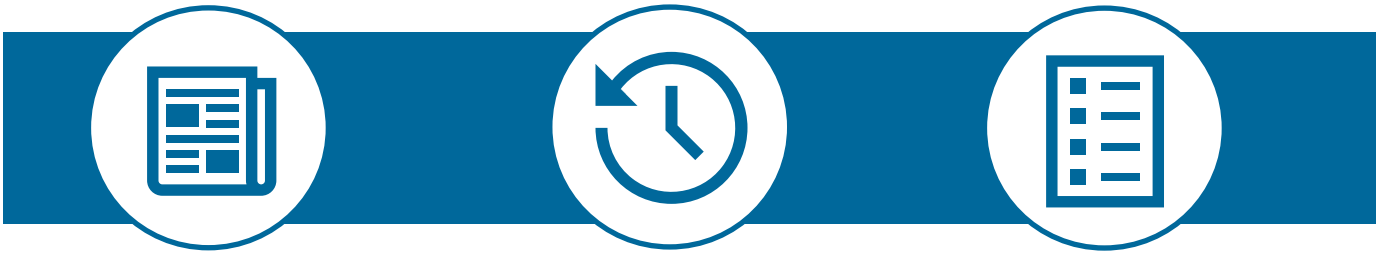

- [ ] Property Data (APN, Zone, General Plan Designation, Lot Size)
- [ ] Conforming/Nonconforming Buildings
- [ ] Conforming/Nonconforming Parking
- [ ] Active Enforcement Cases
- [ ] Planning Commission Approvals
- [ ] Modification and Staff Hearing Officer Approvals
- [ ] Coastal Zone Jurisdiction
- [ ] Other: _____
- [ ] Other _____

City of SANTA BARBARA PLANNING

COMMUNITY DEVELOPMENT DEPARTMENT
630 GARDEN ST. SANTA BARBARA, CA 93101
(805) 564-5578 I SantaBarbaraCA.gov

PRELIMINARY HOUSING DEVELOPMENT (SB-330)

PRE-APPLICATION FORM

GENERAL INFORMATION

Digitally SCANNED Document

WHAT IS A PRELIMINARY APPLICATION?

To increase transparency and certainty in the development review process, Senate Bill 330 (SB-330), the Housing Crisis Act of 2019, allows a housing developer seeking vesting rights to submit a "preliminary application" for a housing development project. A housing development project includes: (1) two or more residential units; (2) a mix of commercial and residential uses with at least two-thirds of the project's floor area used for residential; or (3) transitional or supportive housing.

WHAT DOES IT DO?

Upon submittal of this preliminary application and payment of the permit processing fee, a housing developer is allowed to "freeze" the applicable fees and development standards that apply to their project while they assemble the rest of the material necessary for a full application submittal. This form also serves as the Notice of Intent for applicants requesting Affordable Housing Streamlined Approval (SB-35) to initiate the mandatory Tribal Scoping Consultation process; see the Affordable Housing Streamlined Approval for more information on that separate review and approval process.

WHAT HAPPENS AFTER I SUBMIT?

After submitting this preliminary application to the City, an applicant has 180 days to submit a complete Planning (PLN) Application, or the preliminary application will expire. If the number of residential units or the floor area of construction project is revised by 20% or more, a new preliminary application and fee must be submitted. Projects must commence construction within 2-1/2 years of Final Approval.

SUBMITTAL INFORMATION

Include this information as a separate PRE record prior to submitting a PLN application. All forms must be completed, signed, and submitted as a PDF attachment to your electronic submittal.

FEES

Payment of fees is required for all pre-applications.

☐ **Fees**

Payment via check, electronic check, or credit card is required before project review or processing. Once the application is submitted, City staff will follow up electronically with an invoice for the total fee amount. Fees may be paid online, mailed, faxed, or dropped off at 630 Garden Street for processing. If paying by mail or fax, a Fee Payment Submittal Sheet is required. For more information, click on How to Pay Invoiced Fees.

PHOTOGRAPHS

Attach a separate aerial photograph.

☐ **Aerial Site Photograph**

Provide aerial photographs showing existing site conditions of environmental site features that would be subject to regulations by a public agency, including creeks and wetlands.

Specialty Document

LEGAL DESCRIPTION

Attach a legal description.

☐ **Legal Description**

Include a legal description of the specific location. The best place to find a legal description is usually the most recent deed to the property.

PLANS

Attach a separate site plan and elevations on a digital sheet size of minimum 8 ½ -inches by 11-inches and maximum 11-inches by 17-inches.

☐ **Condensed Site Plan**

Provide a site plan showing the location on the property. Show the location of any recorded public easement, such as easements for storm drains, water lines, and other public rights of way. Indicate location of any stream or other resource that may be subject to a streambed alteration agreement pursuant to Chapter 6 (commencing with Section 1600) of Division 2 of the Fish and Game Code.

☐ **Condensed Elevations**

Provide elevations showing design, color, and material, and the building height of each building.

PROJECT DESCRIPTION

*Describe the **existing development** on site including all existing uses, parking, and size of buildings:*

The property is an undeveloped (VACANT) ~2.3 acre parcel. There are no existing buildings or parking areas on the property.

*Explain the **proposed project** including size of additions and any new buildings, units, or uses:*

The proposed project (brought under the "Builder's Remedy", as set forth in Government Code § 65589.5) is a 27-unit multifamily residential development comprised of three-story townhouses over private garages, tenant amenity areas, and surface parking spaces for guests. The average unit size is 1,252 sf, and the total new building area is 33,920 sf.

3 APPLICANT'S AFFIDAVIT

Under penalty of perjury the following declarations are made:

a. The undersigned is the owner or authorized agent of the owner of this property.

b. The information presented is true and correct to the best of my knowledge.

c. **Limit of Review.** I understand this pre-application is not a development application and is strictly for the purposes of Senate Bill 330, the Housing Crisis Act of 2019; or Senate Bill 35, the Affordable Housing Streamlined Approval Process of 2017. I understand the City of Santa Barbara has not made a determination as to the accuracy of any of the information submitted.

d. **Public Record.** I understand that any information provided becomes part of the public record and can be made available to the public for review and posted to the City website.

e. **Owner/Agent Authorization.** If the Applicant is not the Property Owner, both the Property Owner and Applicant must sign this affidavit. By signing this affidavit, the Property Owner authorizes the Applicant listed in this application to act as the Property Owner's agent on all matters in connection with this pre-application.

Legal Description

For APN/Parcel ID(s): 017-393-002

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SANTA BARBARA, COUNTY OF SANTA BARBARA, STATE OF CALIFORNIA AND IS DESCRIBED AS FOLLOWS:

Parcel 1:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at the cornerpost in the fence on the North side of the road opposite to the cemetery gate where the short road to Montecito branches from the road to Ventura; running thence North 63° East, 225 feet along the fence to a stake; thence running North 71° West 200 feet to a stake; thence running South 25° 45' West 168.5 feet to a stake at the fence; thence running along said fence South 73° East 48 feet; thence along said fence East 17 feet to the place of beginning.

Parcel 2:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at a point on the Hot Springs Avenue, being the Northeast corner of the land described in Parcel 1 above, thence along the side of said avenue North 63° East, 162.2 feet to the line of the right of way of the S.P.R.R.; thence North 75° West 158 feet; along the line of of said right of way; thence North 71° 15' West 152 feet along said right of way to an angle in the fence thereof; thence about South 20° West 106 feet to the Northwest corner of the land described in Parcel 1 above; thence along the North line of the land described in Parcel 1 above South 71° East 200 feet to the place of beginning.

Parcel 3:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at a point on the Southwesterly line of the Southern Pacific Railroad Company's right of way, distant thereon South 89° 20' West, 24.44 feet from a point on the East line of Pueblo Lot 95 which point is distant North 0° 11' East 30.0 feet from the Southeast corner of said lot; thence North 72° 58' West, along the said line of said right of way, 402.72 feet to a pipe set on the Southeast line of (old) Hot Springs Avenue; thence South 62° 56' West, along said last mentioned line, 194.37 feet to a pipe; thence South 27° 28' East, 40.35 feet to a pipe set on the Northerly line of (old) Coast Highway; thence North 89° 20' East, along said last mentioned line, 539.56 feet to the point of beginning.

EXCEPTING THEREFROM any portion thereof lying within the boundaries of the property described in the deed recorded in Book 138, Page 436 of Deeds.

ALSO EXCEPTING THEREFROM any portion thereof which lies within the lines of any public road, street or highway, if any.

Parcel 4:

That portion of (old) Hot Springs Avenue, vacated by Order recorded February 23, 1962, Instrument No. 6980, in Book 1905, Page 150, Official Records, described as follows:

All that part of (old) Hot Springs Avenue, City of Santa Barbara, County of Santa Barbara, State of California, lying

EXHIBIT "A"

Legal Description
(continued)

Southerly of the Southwesterly line of the Southern Pacific Railroad Company's right of way, and Northerly of the Westerly extension of the Southerly line of that tract described in a deed to Santa Barbara Cemetery Association, a corporation, recorded March 4, 1929, Instrument No. 2636, in Book 168, Page 375, Official Records; the Easterly line of said (old) Hot Springs Avenue being described as follows:

Beginning at a point on the Northerly line of Channel Drive (old Coast Highway) from which the Southeast corner of Pueblo Lot 95 bears North 89° 20' East 654.75 feet and South 00° 11' East 30.0 feet; thence North 62° 56' East 275.37 feet to the Southwesterly line of the Southern Pacific Railroad company's right of way.

*** NOTICE ***

Please be advised that this property has been designated a City of Santa Barbara Landmark by the City Council

A *landmark* is any structure, natural feature, site, or area having historic, architectural, archaeological, cultural, or aesthetic significance and designated as a *landmark* under the provisions of Municipal Code Chapter 22.22.

"structure" is defined as any building or any other man-made object affixed on or under the ground.

Exterior alterations may be made to a *landmark* for the purpose of restoration to its original appearance, or to substantially aid its preservation or enhancement, with the written approval of the Historic Landmarks Commission.

A *landmark* may be relocated , under certain conditions, with the written approval of the Historic Landmarks Commission.

A *landmark* may only be demolished, subject to the written approval of the Historic Landmarks Commission, if it is damaged by earthquake, fire, or act of God to such an extent that it cannot reasonably be repaired and restored.

Municipal Code Chapter 22.22 requires that every *landmark* shall be maintained in good repair by the owner or other person in legal control of it.

The full list of City Landmarks can be viewed in the City of Santa Barbara Master Environmental Assessment, Guidelines for Archaeological and Historic Structures and sites.

Application is hereby made to the Building Department of the City of Santa Barbara for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to the following conditions, which are hereby agreed to by the undersigned applicant and which shall be deemed conditions entering into the exercise of the permit:

FIRST: That the permit does not grant any right or privilege to erect any building or other structure therein described, or any portion thereof, upon any street, alley, or other public place or portion thereof.

SECOND: That the permit does not grant any right or privilege to use any building or other structure therein described, or any portion thereof, for any purpose that is, or may hereafter be prohibited by ordinance of the City of Santa Barbara.

THIRD: That the granting of the permit does not affect or prejudice any claim of title to, or right of possession in, the property described in such permit.

SUBJECT: 1 Hot Springs Road APN: 017-393-002 **ZONE: R-1/S-D-3**
ENFORCEMENT CASE NUMBER: ENF2020-00187

Dear Mr. Thwing,

This notice is to inform you that, as of the date above, Zoning Enforcement case #ENF2020-00187 has been placed on hold due to active negotiations between the parcel owner and the City of Santa Barbara concerning a Public Works project. The parcel owner(s) and/or tenants are not responsible for abating the violations identified in the August 13, 2020 Notice of Violation until further notice. I apologize for any confusion the Notice may have caused.

Please email me at NBiergiel@SantaBarbaraCA.gov, or call (805) 564-5470 x4549 between the hours of 8:00 and 4:00 p.m., Tuesday through Thursday, with any further questions or concerns.

Sincerely,

Nicole R. Biergiel
Zoning Enforcement Officer

SUBJECT: 1 Hot Springs Road APN: 017-393-002 **ZONE: R-1/S-D-3**
ENFORCEMENT CASE NUMBER: ENF2020-00187

Dear Property Owner/Tenant:

Property records indicate that you are the owner(s) and/or tenants of the above referenced parcel. On August 4, 2020, I inspected the subject property in response to a complaint received by our office, and discovered a/several violation(s) of the Santa Barbara Municipal Code, described below.

Optically SCANNED Document

The purpose of this notice is to inform you of the violation(s) on the subject property, to give you a reasonable timeframe to abate the violation(s), and to inform you of the consequences of not abating the violation(s) or repeating the violation(s).

DESCRIPTION OF VIOLATION(S)

The memorial fountain and bench is designated as a Landmark and must be maintained by the owner. Decorative elements are in disrepair, the stone base is broken, and debris have been allowed to collect in the fountain basin and bench area.

Optically
SCANNED
Document

REMEDY OF VIOLATION(S):

To remedy this issue:

1) The fountain and bench memorial must be maintained (cleaned) in a manner that preserves and does not harm the historic elements and material.
2) A plan to repair the broken decorative and structural elements must be submitted to the Historic Landmarks Commission by the date below and the elements must be repaired promptly once the application is approved. *Please be in touch with Santa Barbara Architectural Historian Nicole Hernandez prior to any work or submittal of an application, for review of your project, at NHernandez@santabarbaraca.gov or (805) 564-5536.*

DEADLINE FOR ABATEMENT: FRIDAY, SEPTEMBER 11, 2020.

If you believe that this deadline is not reasonable, please contact me, and we can discuss the deadline.

SANTA BARBARA MUNICIPAL CODE SECTION(S) BEING VIOLATED:

SBMC Section 22.22.070 Repair and Maintenance of Landmarks and Structures of Merit.

Optically Scanned Document

Please see the Attachment for the complete text of the Municipal Code section(s) being violated.

CONSEQUENCE FOR NOT ABATING BY THE DEADLINE

If the violation(s) are not corrected by the Abatement Date(s), the First Administrative Citation will be imposed. The amount of the Citation will be $100 per violation that still exists on the abatement date. If the violation(s) continue, additional Administrative Citations will be imposed, with the fine amount increasing to a maximum of $250 per violation **per day**, for as long as the violation(s) continue, with the possibility of referral to the City Attorney's Office for criminal prosecution.

VIOLATION ABATEMENT AND CASE CLOSURE

Please advise me once you have abated the violation(s). Once we have verified that the violation(s) have been abated, we will close this enforcement case.

CONSEQUENCES FOR REPEAT VIOLATIONS AFTER CASE CLOSURE

If you are found to be violating the same (or similar) Municipal Code Section within 12 months of the date that this enforcement case is closed, Administrative Citation Fines of up to $250 per violation per day, will be issued without further warnings from this office, and the case may be referred to the City Attorney's office for criminal prosecution. Payment of an Administrative Fine does not excuse the responsible party from correcting the code violation(s).

QUESTIONS & CONCERNS

The City's intent with enforcement is to achieve compliance with the Municipal Code. As the Zoning Enforcement Officer assigned to this case, I would like to assist you in resolving this matter. Please email me at NBiergiel@SantaBarbaraCA.gov, or call (805) 564-5470 x**4549** between the hours of 8:00 and 4:00 p.m., Tuesday through Thursday. The City appreciates your cooperation.

Attachment – Santa Barbara Municipal Code (SBMC) Section(s) Being Violated

ENFORCEMENT CASE NUMBER: ENF2020-00187

SBMC Section 22.22.070 Repair and Maintenance of Landmarks and Structures of Merit.
A. PRESERVATION OF LANDMARKS AND STRUCTURES OF MERIT. Every Landmark and Structure of Merit shall be maintained in good repair by the owner thereof, or such other person or persons who may have the legal custody and control thereof, in order to preserve it against decay and deterioration. Nothing in this chapter shall be construed so as to prohibit ordinary and necessary maintenance and repair of a Landmark provided that whenever such repair or maintenance would result in an alteration to the exterior of the structure or whenever it would require the issuance of a City building permit, the issuance of such a permit shall be reviewed by the Commission and, if necessary, conditioned in accordance with the requirements of this chapter, provided that such review shall be consistent with the Landmark alteration review authority granted by Section 817(c) of the City Charter and Section 22.22.080 of this chapter. Every Landmark or Structure of Merit is hereby determined to be eligible for application of alternative standards for historical structures as provided in the California Building Code as adopted and amended by the City.

CITY PLANNING DIVISION

DATE: December 22, 1981

TO: Mayor and Councilmembers

FROM: Landmarks Committee

SUBJECT: Designation of the watering trough and fountain located at the intersection of East Cabrillo Boulevard and Channel Drive, on City Parcel 17-393-02, as a City Landmark.

RECOMMENDATIONS:

1) That Council designate the C.C. Park watering trough and fountain on City Parcel 17-393-02 as a City Landmark; and

2) That Council direct preparation of an implementing resolution, and adopt the resolution.

DISCUSSION:

On August 26, 1981, the City Landmarks Committee adopted a Resolution of Intention to consider designation of the C.C. Park watering trough and fountain as a City Landmark. A Categorical Exemption was issued by the Environmental Analyst on October 27, 1981.

Digitally SCANNED Document

The Landmarks Committee held a public hearing on November 25, 1981, to consider the designation proposal. No one spoke for or against the designation. Planning Staff had contacted a representative of the Santa Barbara Cemetery Association, which owns property, and had explained the proposed designation.

The attached resolution of recommendation, containing findings, was adopted November 25, 1981, by a 6-1 vote of the Committee. A copy of the staff report is also attached.

Section 22.22.050 of the "Historic Structures" chapter of the Municipal Code states that City Council may designate any property a landmark by adopting a Resolution of Designation within 90 days following receipt of a recommendation from the Landmarks Committee.

Attachments:

Resolution No. 8-81
Staff Report

DD/MM/ MLD:wr

CITY OF SANTA BARBARA

DATE: December 1, 1981

TO: Fred Clough, City Attorney

VIA: Richard Thomas, City Administrator

FROM: David Davis, City Planner DD
Robert Tague, Community Development Director

SUBJECT: Ownership of the watering trough and fountain located at the intersection of East Cabrillo Boulevard and Channel Drive

DISCUSSION:

At its regular meeting of November 25, 1981, the Landmarks Committee held a public hearing to consider recommending designation of the subject watering trough-fountain-bench structure as a City Landmark. The Committee voted to recommend the designation to the City Council.

In a separate motion the Committee requested Staff "to inquire of the City Attorney's Office and appropriate staff of City agencies as to the status of the land on which the fountain is situated, whether it is by public usage on public land. Staff to report back to the Landmarks Committee."

Digitally Scanned Document

It is the Planning Staff's understanding that prescriptive right would have to be established by legal means. What steps are required in order for the City to establish such right?

BACKGROUND:

Dr. C. C. Park of Montecito announced in late 1910 that he would donate "a beautiful stone drinking fountain for man and beast" to the city. The fountain was constructed, and in 1912 the City Park Board paid for improvements around it. Refer to the attached Planning Staff report for more details.

The land on which the fountain was built appears to have been owned then by the Santa Barbara Cemetery Association, transferred to it by Claude C. Moore in February, 1903. This parcel, No. 17-393-02, is still owned by the Cemetery Association.

To date, the association has expressed no opposition to the landmark designation consideration.

A driveway and planter area in front of the fountain structure is within City street right-of-way. Map information provided by the Public Works Department indicates that the fountain itself is on the privately-owned Parcel 17-393-02.

The watering trough and fountain are no longer operative, but the bench is still used by the public. Lawn and shrubs behind the structure are maintained by the Cemetery Association, which demolished old buildings on the property a year ago.

#20 Continued

1 Hot Springs Road (corner of Cabrillo Blvd.)

Cemetery Superintendent's House

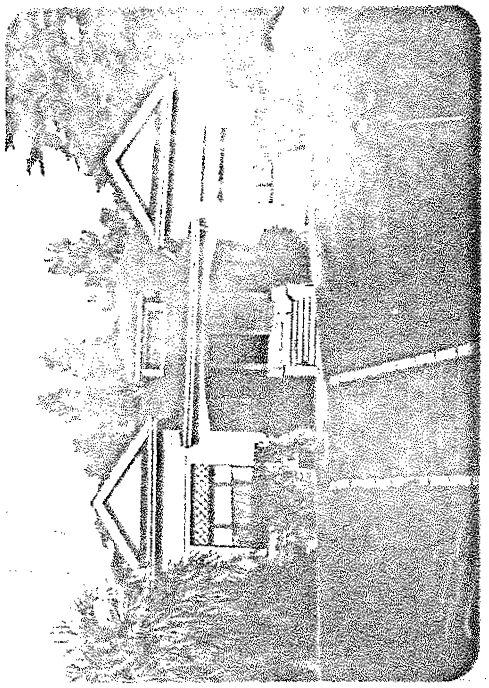

In an interview on May 24, 1979, Mr. William Bryant, the long-time chief of staff at the Santa Barbara Cemetery, stated his opinion that this house was moved down to its present location from the vicinity of the top of the cemetery hill. He therefore believes that it is approximately 100 years old, and was moved around the turn of the century.

DESCRIPTION

6. Briefly describe the present physical appearance of the site or structure and describe any major alterations from its original condition:

A one and a half story Colonial Revival with Craftsman porch frame structure with a symmetrical facade of three bays. The central bay is a recessed porch with a segmented arch opening topped by a gable end of the shingled roof. The two end bays are dominated by three-paneled windows with a squared diamond paned transom. The complcated hip roof line is higher on the right hand side of the house.

A screened porch addition is on the left rear.
The house sits on a well landscaped lot with well cared for trees, shr and lawn.

7. Locational sketch map (draw and label site and surrounding streets, roads, and prominent landmarks):

8. Approximate property size: Parcel No. 17-393-
   Lot size (in feet) Frontage Part of a large
   Depth parcel owned by
   or approx. acreage _____ cemetery Assn.

f. Windmill [ ] g. Watertower/tankhouse [ ] h. Other [X] cemetery and Bird Refuge None [ ]

SIGNIFICANCE

20. Briefly state historical and/or architectural importance (include dates, events, and persons associated with the site when known):

This house is beautifully situated on a knoll, contributing to the park-like setting created by the cemetery and nearby Bird Refuge.

This house is difficult to research because of its remote location several miles from downtown Santa Barbara. The Sanborn maps do not cover this area, nor do the city directories. Because of the mixture of the Colonial Revival style with the Craftsman, the early 1900's is probably when the house was built.

The double pediments, the unusual hip roof with dormer between them, the flatened arch over the recessed porch, make the house architecturally interesting.

21. Main theme of the historic resource: (Check only one): a. Architecture [X] b. Arts & Leisure [ ]
c. Economic/Industrial [ ] d. Exploration/Settlement [ ] e. Government [ ] f. Military [ ]
g. Religion [ ] h. Social/Education [ ]

HARO ENVIRONMENTAL

Environmental Site Assessment Questionnaire

Information provided in this Questionnaire will be used to develop a preliminary assessment of the environment condition of the proposed site and to develop an opinion regarding the potential for soil, groundwater, and/or surface water contamination associated with the former or current generation, use, storage, handling, or disposal of hazardous materials on or in the vicinity of the site. This Questionnaire is based on the guidelines of the American Society for Testing Materials (ASTM) Practice E 1528-14 (Standard Practice for Environment Site Assessments: Transaction Screen Process). The purpose of ASTM Practice 1528-14 and ASTM Practice E 1527-13 (Standard Practice for Environmental Site Assessments: Phase I Environmental: Phase I Environmental Site Assessment Process) is to define good commercial and customary practice in the United States of America for conducting an environmental site assessment of a parcel of commercial real estate with respect to range of contaminates within the scope of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and petroleum products.

Property Address: 1 Hot Springs Road

City, State, Zip Santa Barbara, CA 93108

Based on your knowledge of the site and adjacent properties, please check the best response to the questions below. Please answer the questions in good faith and to the extent of your knowledge. Please explain each "YES" response (use additional pages as necessary).

		Yes	No	Unknown
1a	Is the site used for an industrial use?	☐	☒	☐
1b	Are any adjacent properties used for an industrial use?	☐	☒	☐
2a	Do you have any knowledge that the site has been used for industrial function in the past?	☐	☒	☐
2b	Do you have any knowledge that any adjacent property has been used for an industrial function in the past?	☐	☒	☐
3a	Is the site used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo development laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility? (If yes, indentify which)	☐	☒	☐

3b	Are any of the adjacent properties used as gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo development laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility? (If yes, indentify which)	☐	☒	☐
4a	Do you have any knowledge that the site has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo development laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility? (If yes, indentify which)	☐	☒	☐
4b	Do you have any knowledge that adjacent property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo development laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility? (If yes, indentify which)	☐	☒	☐
5a	Are there currently any damaged or discarded automotive or industrial batteries, pesticide or paint containers, or other chemicals in individual containers or greater that 5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the site?	☐	☒	☐
5b	Do you have knowledge that there have been previously any damaged or discarded automotive or industrial batteries, pesticide or paint containers, or other chemicals in individual containers or greater that 5 gal (19 L) in volume or 50 gal (190 L) in the aggregate, stored on or used at the site?	☐	☒	☐
6a	Are there currently any industrial drums, typically 55 gal (208 L) or sacks of chemicals located on the site?	☐	☒	☐
6b	Do you have knowledge that previously there have been any industrial drums, typically 55 gal (208 L) or sacks of chemicals located on the site?	☐	☒	☐
7a	Has fill dirt been brought onto the site that originated from a contaminated property?	☐	☒	☐
7b	Do you have any knowledge that fill dirt has been brought onto the site that is from an unknown origin?	☐	☒	☐
8a	Are there currently any pits, ponds, or lagoons located on the site in connection with waste treatment or waste disposal?	☐	☒	☐
8b	Do you have any knowledge that there previously have been any pits, ponds, or lagoons located on the site in connection with waste treatment or waste disposal?	☐	☒	☐
9a	Is there currently any soil stained by hazardous materials or	☐	☒	☐

petroleum products on the site?

9b	Do you have any knowledge that there previously has been soil stained by hazardous materials or petroleum products on the site?	□	☒	□
10a	Are there currently any registered or unregistered storage tanks (above or underground) located on the site?	□	☒	□
10b	Do you have any knowledge that there previously have been any registered or unregistered storage tanks (above or underground) located on the site?	□	☒	□
11a	Are there currently any vent pipes, fill pipes, or access way indicting a fill pipe protruding from the ground on the site or adjacent to any structure located on the site?	□	☒	□
11b	Do you have any knowledge that there previously have been any vent pipes, fill pipes, or access way indicting a fill pipe protruding from the ground on the site or adjacent to any structure located on the site?	□	☒	□
12a	Are there currently any flooring, drains, or walls located on the site that are stained by substances other than water or are emitting foul odors?	□	☒	□
12b	Do you have any knowledge that there previously have been any flooring, drains, or walls located on the site that are stained by substances other than water or are emitting foul odors?	□	☒	□
13a	If the site is served by a private well or non-public water system, do you have any knowledge that contaminates have been identified in the well or system that exceed guidelines applicable to the water system?	□	☒	□
14	Do you have any knowledge of environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the site or any facility located on the site?	□	☒	□
15a	Do you have any knowledge of any current use, manufacture, storage, or disposal of hazardous substance or petroleum products on the site?	□	☒	□
15b	Do you have any knowledge of any past use, manufacture, storage, or disposal of hazardous substance or petroleum products on the site?	□	☒	□
15c	Do you have any knowledge of the current existence of any environmental violations with respect to the site or any facility located on the site?	□	☒	□

15d	Do you have any knowledge of the past existence of any environmental violations with respect to the site or any facility located on the site?	☐	☒	☐
16	Do you have any knowledge of any environmental site assessment of the site that indicates the presence of hazardous substances or petroleum products on, or contamination of, the site or recommended further assessment of the site?	☐	☒	☐
17	Do you have any knowledge of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the site by any existing or former owner or occupant of the site or adjacent property?	☐	☒	☐
18a	Does the site discharge waste water (excluding sanitary waste or storm water) onto or adjacent to the site and/or into a storm water system?	☐	☒	☐
18b	Do you have any knowledge of any adjacent property that discharges waste water (excluding sanitary waste or storm water) onto or adjacent to the site and/or into the storm water system?	☐	☒	☐
19	Do you have any knowledge that any hazardous substance or petroleum products, unidentified waste materials, tires, automotive or industrial batteries or any other waste materials have been dumped above grade, buried and/or burned on the site?	☐	☒	☐
20	Is Polychlorinated Biphenyls (PCB) in electrical transformers, capacitors, or other hydraulic equipment present on the site or are they any records of indicating past presents of equipment related to PCB?	☐	☒	☐
21a	Are any of the following documents regarding the site available for review: environmental site assessment reports; environmental audit reports; environmental permits; registration for above and/or underground storage tanks; material safety data sheets; community right-to-know plans regarding safety, preparedness and prevention, spill prevention, countermeasure, and/or disaster/emergency control; hydro geological reports; notices or correspondence from any governmental agency relating to past or current violations of environmental laws and/or environmental liens encumbering the site; hazardous waste generator notices or reports; geotechnical studies?	☐	☐	☒
21b	Do you have any knowledge that there have previously been any man-made structures (e.g., buildings, docks/platforms, railroad	☒	☐	☐

tracks, etc.) on the site? (If so, indicate the approximate construction date and use the structures(s)) 1900 House to early 1980's

Response to this questionnaire was prepared by:

Name(s): Randy Thwing

Title(s): Manager

Firm: Santa Barbara Cemetery

Address: 901 Channel Drive
Santa Barbara, CA 93103

Phone#: 805 969 3731

Relationship to the site (e.g. Owner Site Manager, Agent, Tenant, etc): Manager of Cemetery Cemetery owns the site

Years Associated with the site: 1985 to present

The foregoing information, including comments and attachments (if any), is true and complete to the best of the undersigned's knowledge, information, and belief. Any limitations with respect to the completeness of the responses have been disclosed.

(Preparer Signature) (Date)

To qualify for one of the *Landowner Liability Protections* (*LLPs*) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *user* must provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

The following was filled out by Brian Holland, managing member of 1 HSR Partners, L.P., *who we understand is the* Ground Lessee *of the subject site.*

1. **Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law? (40 CFR 312.25)**

   Please checkmark the most appropriate response:

   ☑ I *have not* reviewed the records and ***do not know*** if there are any filed or recorded environmental liens.

   ☐ I *have* reviewed the records, and ***No, there aren't any*** filed or recorded environmental liens.

   ☐ I *have* reviewed the records, and ***Yes, there are*** environmental liens. Explain:

2. **Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions, or institutional controls, that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law? (40 CFR 312.26)**

   Please checkmark the most appropriate response:

   ☐ I *have not* reviewed the records and ***do not know*** if there are any filed/recorded AULs or any AULs in place at the site.

   ☑ I *have* reviewed the records, and ***No, there aren't any*** filed/recorded AULs or any AULs in place at the site.

   ☐ I *have* reviewed the records, and ***Yes, there are*** AULs filed, recorded, and/or in place at the site. Explain:

3. **Does the Title Report provide any information pertaining to environmental cleanup liens or activity and use limitations (AULs) for the subject property?**

Please checkmark the most appropriate response:

- ☐ I *have not* reviewed the Title Report and ***do not know*** if it provides environmental cleanup liens or AULs information.
- ☑ I *have* reviewed the Title Report, and ***No, it does not*** provide environmental cleanup liens or AULs information.
- ☐ I *have* reviewed the Title Report, and ***Yes, it does provide*** environmental cleanup liens or AULs information. Explain:

4. **As the user of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? (40 CFR 312.28)**

Please checkmark the most appropriate response:

- ☑ ***No***, I *do not* have any specialized knowledge and/or experience related to the property or nearby properties.
- ☐ ***Yes***, I *do* have specialized knowledge and/or experience related to the property or nearby properties. Explain:

5. As the user of this ESA, based on your knowledge and experience related to the property, are you aware of any information pertaining to a reduction in value for the subject property relative to any known environmental issues?

Please checkmark the most appropriate response:

☑ *No*, I *do not* have any information about a reduction in property value relative to environmental issues.

☐ *Yes*, I *do* have information about a reduction in property value relative to environmental issues. Explain:

6. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? (40 CFR 312.30)

a. What are the past uses of the property?

☐ I *do not* know.

☑ I *do* know. Explain: THERE WERE TWO RESIDENCES ON THE PROPERTY FOR 30+ YEARS IN THE MID BY 20TH CENTURY. SINCE THEN THE PROPERTY HAS BEEN VACANT.

b. What (if any) specific chemicals are present, or once were present, at the property?

☑ I *do not* know.

☐ I *do* know. Explain:

c. What (if any) spills or other chemical releases have taken place at the property?

☑ I *do not* know.

☐ I *do* know. Explain:

d. What (if any) environmental cleanups have taken place at the property?

☑ I *do not* know.

☐ I *do* know. Explain:

7. The purpose of this Phase I ESA is . . . (checkmark all that apply)

- ☑ to assess the environmental conditions of a property, taking into account commonly and reasonably ascertainable information.
- ☑ to identify the possible presence of recognized environmental conditions associated with possible soil and groundwater contamination at the site.
- ☑ to understand potential environmental conditions that could materially impact the operation of business associated with the parcel.
- ☑ to identify the possible presence of recognized environmental conditions that could materially impact the operation of the business associated with the parcel of commercial real estate.

8. As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination or hazardous materials handling at the property or adjoining properties? (40 CFR 312.31)

Please checkmark the most appropriate response:

- ☑ *No*, I *do not know and/or do not have any experience with* any obvious indicators that point to the presence or likely presence of contamination at the property or adjoining properties.
- ☐ *Yes*, I *do know of and/or do have experience with* obvious indicators that point to the presence or likely presence of contamination at the property or adjoining properties. Explain:

CHICAGO TITLE COMPANY

PRELIMINARY REPORT

In response to the application for a policy of title insurance referenced herein, ***Chicago Title Company*** *hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.*

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(ies) of title insurance to be issued hereunder will be policy(ies) of Chicago Title Insurance Company, a Florida corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

Legal Description

For APN/Parcel ID(s): 017-393-002

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF SANTA BARBARA, COUNTY OF SANTA BARBARA, STATE OF CALIFORNIA AND IS DESCRIBED AS FOLLOWS:

Parcel 1:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at the cornerpost in the fence on the North side of the road opposite to the cemetery gate where the short road to Montecito branches from the road to Ventura; running thence North 63° East, 225 feet along the fence to a stake; thence running North 71° West 200 feet to a stake; thence running South 25° 45' West 168.5 feet to a stake at the fence; thence running along said fence South 73° East 48 feet; thence along said fence East 17 feet to the place of beginning.

Parcel 2:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at a point on the Hot Springs Avenue, being the Northeast corner of the land described in Parcel 1 above, thence along the side of said avenue North 63° East, 162.2 feet to the line of the right of way of the S.P.R.R.; thence North 75° West 158 feet; along the line of of said right of way; thence North 71° 15' West 152 feet along said right of way to an angle in the fence thereof; thence about South 20° West 106 feet to the Northwest corner of the land described in Parcel 1 above; thence along the North line of the land described in Parcel 1 above South 71° East 200 feet to the place of beginning.

Parcel 3:

That portion of Lot 95 of the Outside Pueblo Lands, in the City of Santa Barbara, County of Santa Barbara, State of California, described as follows:

Beginning at a point on the Southwesterly line of the Southern Pacific Railroad Company's right of way, distant thereon South 89° 20' West, 24.44 feet from a point on the East line of Pueblo Lot 95 which point is distant North 0° 11' East 30.0 feet from the Southeast corner of said lot; thence North 72° 58' West, along the said line of said right of way, 402.72 feet to a pipe set on the Southeast line of (old) Hot Springs Avenue; thence South 62° 56' West, along said last mentioned line, 194.37 feet to a pipe; thence South 27° 28' East, 40.35 feet to a pipe set on the Northerly line of (old) Coast Highway; thence North 89° 20' East, along said last mentioned line, 539.56 feet to the point of beginning.

EXCEPTING THEREFROM any portion thereof lying within the boundaries of the property described in the deed recorded in Book 138, Page 436 of Deeds.

ALSO EXCEPTING THEREFROM any portion thereof which lies within the lines of any public road, street or highway, if any.

Parcel 4:

That portion of (old) Hot Springs Avenue, vacated by Order recorded February 23, 1962, Instrument No. 6980, in Book 1905, Page 150, Official Records, described as follows:

All that part of (old) Hot Springs Avenue, City of Santa Barbara, County of Santa Barbara, State of California, lying

EXHIBIT "A"

Legal Description
(continued)

Southerly of the Southwesterly line of the Southern Pacific Railroad Company's right of way, and Northerly of the Westerly extension of the Southerly line of that tract described in a deed to Santa Barbara Cemetery Association, a corporation, recorded March 4, 1929, Instrument No. 2636, in Book 168, Page 375, Official Records; the Easterly line of said (old) Hot Springs Avenue being described as follows:

Beginning at a point on the Northerly line of Channel Drive (old Coast Highway) from which the Southeast corner of Pueblo Lot 95 bears North 89° 20' East 654.75 feet and South 00° 11' East 30.0 feet; thence North 62° 56' East 275.37 feet to the Southwesterly line of the Southern Pacific Railroad company's right of way.

AT THE DATE HEREOF, EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2023-2024.

2. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.

3. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.

4. Any adverse claim based upon the assertion that said Land or any part thereof is now or at any time has been included within a navigable river, slough, or other navigable body of water.

5. General ordinance of the City of Santa Barbara limiting the use and occupancy of the property herein described.

6. Matters contained in that certain document

   Entitled: Deed
   Executed by: Town of Santa Barbara
   Recording Date: March 18, 1868
   Recording No.: Book F, Page 495 of Deeds

   Reference is hereby made to said document for full particulars.

18. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon age, race, color, religion, sex, gender, gender identity, gender expression, sexual orientation, marital status, national origin, ancestry, familial status, source of income, disability, veteran or military status, genetic information, medical condition, citizenship, primary language, and immigration status, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

Recording Date: October 3, 2014
Recording No.: 2014-0045531, Official Records

19. Water rights, claims or title to water, whether or not disclosed by the public records.

EXCEPTIONS
(continued)

20. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

    The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

    The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

21. Any easements not disclosed by the public records as to matters affecting title to real property, whether or not said easements are visible and apparent.

22. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.

23. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.

24. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.

25. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

    Party(ies): Santa Barbara Cemetery Association, a corporation

    The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

26. This Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance by the corporation named below.

    Name of Corporation: Santa Barbara Cemetery Association, a corporation

    a. A copy of the corporation By-laws and Articles of Incorporation.

    b. An original or certified copy of the resolution authorizing the subject transaction, together with a Certificate of Compliance pursuant to Section 5912 or 7912 Corporations Code.

    c. If the Articles and/or By-laws require approval by a "parent" organization, a copy of those By-laws and Articles of Incorporation is required.

    The Company reserves the right to add additional items or make further requirements after review of the requested documentation.

27. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

EXCEPTIONS
(continued)

28. The search did not disclose any open mortgages or deeds of trust of record, therefore the Company reserves the right to require further evidence to confirm that the property is unencumbered, and further reserves the right to make additional requirements or add additional items or exceptions upon receipt of the requested evidence.

END OF EXCEPTIONS

NOTES

Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.

Note 1. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

Note 2. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.

Note 3. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of an agent, an authorized employee of the insured lender, or by using Bancserv or other approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.

Note 4. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

Note 5. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

NOTES
(continued)

Note 6. The following Exclusion(s) are added to preliminary reports, commitments and will be included as an endorsement in the following policies:

A. 2006 ALTA Owner's Policy (06-17-06).

6. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

B. 2006 ALTA Loan Policy (06-17-06)

8. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

9. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

C. ALTA Homeowner's Policy of Title Insurance (12-02-13) and CLTA Homeowner's Policy of Title Insurance (12-02-13).

10. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

D. ALTA Expanded Coverage Residential Loan Policy - Assessments Priority (04-02-15).

12. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the Public Records but that would be disclosed by an examination of any records maintained by or on behalf of a Tribe or on behalf of its members.

13. Any claim of invalidity, unenforceability, or lack of priority of the lien of the Insured Mortgage based on the application of a Tribe's law resulting from the failure of the Insured Mortgage to specify State law as the governing law with respect to the lien of the Insured Mortgage.

E. CLTA Standard Coverage Policy 1990 (11-09-18).

7. Defects, liens, encumbrances, adverse claims, notices, or other matters not appearing in the public records but that would be disclosed by an examination of any records maintained by or on behalf of a tribe or on behalf of its members.

8. Any claim of invalidity, unenforceability, or lack of priority of the lien of the insured mortgage based on the application of a tribe's law resulting from the failure of the insured mortgage to specify state law as the governing law with respect to the lien of the insured mortgage.

NOTES
(continued)

Note 7. Note: The name(s) of the proposed insured(s) furnished with this application for title insurance is/are:

No names were furnished with the application. Please provide the name(s) of the buyers as soon as possible.

Note 8. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.

Note 9. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.

Note 10. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

Tax Identification No.:	017-393-002
Fiscal Year:	2022-2023
1st Installment:	$1,054.80
2nd Installment:	$1,054.80
Exemption:	$0.00
Land:	$177,178.00
Improvements:	$0.00
Personal Property:	$0.00
Code Area:	002-001

END OF NOTES

WIRE SAFE | Inquire before you wire!

WIRE FRAUD ALERT

This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. **If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.**

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. **Obtain the number of relevant parties to the transaction as soon as an escrow account is opened.** DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire-fraud scams or to report an incident, please refer to the following links:

FIDELITY NATIONAL FINANCIAL
PRIVACY NOTICE

Effective January 1, 2023

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (*e.g.*, name, address, phone number, email address);
- demographic information (*e.g.*, date of birth, gender, marital status);
- identity information (*e.g.* Social Security Number, driver's license, passport, or other government ID number);
- financial account information (*e.g.* loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

Web Beacons. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

Links to Other Sites. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to affiliated or nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;
- to affiliated or nonaffiliated third parties with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

For California Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

For Nevada Residents: We are providing this notice pursuant to state law. You may be placed on our internal Do Not Call List by calling FNF Privacy at (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. For further information concerning Nevada's telephone solicitation law, you may contact: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: aginquiries@ag.state.nv.us.

For Oregon Residents: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

For Vermont Residents: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

For Virginia Residents: For additional information about your Virginia privacy rights, please email privacy@fnf.com or call (888) 714-2710.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do not collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions or would like to correct your Personal Information, visit FNF's Privacy Inquiry Website or contact us by phone at (888) 714-2710, by email at privacy@fnf.com, or by mail to:

Fidelity National Financial, Inc.

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE POLICY - 1990 (11-09-18)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.

   (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
3. Defects, liens, encumbrances, adverse claims or other matters:
   (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
   (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
   (c) resulting in no loss or damage to the insured claimant;
   (d) attaching or created subsequent to Date of Policy; or
   (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
6. Any claim, which arises out of the transaction vesting in the insured the estate or interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.

   Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
2. Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
6. Any lien or right to a lien for services, labor or material unless such lien is shown by the public records at Date of Policy.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CALIFORNIA LAND TITLE ASSOCIATION
STANDARD COVERAGE OWNER'S POLICY (02-04-22)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.
   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments imposed or collected by a governmental authority that becomes due and payable after the Date of Policy.
   Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7 Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

PART I

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

PART II

(*Variable exceptions such as taxes, easements, CC&R's, etc., are inserted here*)

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (7-01-21)
EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy and We will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, or regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23, or 27.
2. Any power to take the Land by condemnation. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 17.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by You;
   b. not Known to Us, not recorded in the Public Records at the Date of Policy, but Known to You and not disclosed in writing to Us by You prior to the date You became an Insured under this policy;
   c. resulting in no loss or damage to You;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 5, 8.f., 25, 26, 27, 28, or 32); or
   e. resulting in loss or damage that would not have been sustained if You paid consideration sufficient to qualify You as a bona fide purchaser of the Title at the Date of Policy.
4. Lack of a right:
   a. to any land outside the area specifically described and referred to in Item 3 of Schedule A; and
   b. in any street, road, avenue, alley, lane, right-of-way, body of water, or waterway that abut the Land.

   Exclusion 4 does not modify or limit the coverage provided under Covered Risk 11 or 21.
5. The failure of Your existing structures, or any portion of Your existing structures, to have been constructed before, on, or after the Date of Policy in accordance with applicable building codes. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 14 or 15.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transfer of the Title to You is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 30.
7. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
8. Negligence by a person or an entity exercising a right to extract or develop oil, gas, minerals, groundwater, or any other subsurface substance.
9. Any lien on Your Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 9 does not modify or limit the coverage provided under Covered Risk 8.a or 27.
10. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

CLTA/ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13)

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
   a. building;
   b. zoning;
   c. land use;
   d. improvements on the Land;
   e. land division; and
   f. environmental protection.

   This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
4. Risks:
   a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
   b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;
   c. that result in no loss to You; or
   d. that first occur after the Policy Date - this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
5. Failure to pay value for Your Title.
6. Lack of a right:
   a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
   b. in streets, alleys, or waterways that touch the Land.

   This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake or subsidence.
9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

- For Covered Risk 16, 18, 19 and 21, Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or $5,000.00 (whichever is less)	$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or $2,500.00 (whichever is less)	$ 5,000.00

ALTA OWNER'S POLICY (07-01-2021)

EXCLUSIONS FROM COVERAGE

The following matters are excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. a. any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) that restricts, regulates, prohibits, or relates to:
   i. the occupancy, use, or enjoyment of the Land;
   ii. the character, dimensions, or location of any improvement on the Land;
   iii. the subdivision of land; or
   iv. environmental remediation or protection.
   b. any governmental forfeiture, police, regulatory, or national security power.
   c. the effect of a violation or enforcement of any matter excluded under Exclusion 1.a. or 1.b.

   Exclusion 1 does not modify or limit the coverage provided under Covered Risk 5 or 6.
2. Any power of eminent domain. Exclusion 2 does not modify or limit the coverage provided under Covered Risk 7.
3. Any defect, lien, encumbrance, adverse claim, or other matter:
   a. created, suffered, assumed, or agreed to by the Insured Claimant;
   b. not Known to the Company, not recorded in the Public Records at the Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   c. resulting in no loss or damage to the Insured Claimant;
   d. attaching or created subsequent to the Date of Policy (Exclusion 3.d. does not modify or limit the coverage provided under Covered Risk 9 or 10); or
   e. resulting in loss or damage that would not have been sustained if consideration sufficient to qualify the Insured named in Schedule A as a bona fide purchaser had been given for the Title at the Date of Policy.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights law, that the transaction vesting the Title as shown in Schedule A is a:
   a. fraudulent conveyance or fraudulent transfer;
   b. voidable transfer under the Uniform Voidable Transactions Act; or
   c. preferential transfer:
      i. to the extent the instrument of transfer vesting the Title as shown in Schedule A is not a transfer made as a contemporaneous exchange for new value; or
      ii. for any other reason not stated in Covered Risk 9.b.
5. Any claim of a PACA-PSA Trust. Exclusion 5 does not modify or limit the coverage provided under Covered Risk 8.
6. Any lien on the Title for real estate taxes or assessments, imposed or collected by a governmental authority that becomes due and payable after the Date of Policy. Exclusion 6 does not modify or limit the coverage provided under Covered Risk 2.b.
7. Any discrepancy in the quantity of the area, square footage, or acreage of the Land or of any improvement to the Land.

EXCEPTIONS FROM COVERAGE

Some historical land records contain Discriminatory Covenants that are illegal and unenforceable by law. This policy treats any Discriminatory Covenant in a document referenced in Schedule B as if each Discriminatory Covenant is redacted, repudiated, removed, and not republished or recirculated. Only the remaining provisions of the document are excepted from coverage.

This policy does not insure against loss or damage and the Company will not pay costs, attorneys' fees, or expenses resulting from the terms and conditions of any lease or easement identified in Schedule A, and the following matters:

NOTE: The 2021 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
   (i) the occupancy, use, or enjoyment of the Land;
   (ii) the character, dimensions, or location of any improvement erected on the Land;
   (iii) the subdivision of land; or
   (iv) environmental protection;
   or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
   (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
   (a) created, suffered, assumed, or agreed to by the Insured Claimant;
   (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
   (c) resulting in no loss or damage to the Insured Claimant;
   (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
   (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
   (a) a fraudulent conveyance or fraudulent transfer; or
   (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

NOTE: The 2006 ALTA Owner's Policy may be issued to afford either Standard Coverage or Extended Coverage. In addition to variable exceptions such as taxes, easements, CC&R's, etc., the Exceptions from Coverage in a Standard Coverage policy will also include the Western Regional Standard Coverage Exceptions listed below as 1 through 7 below:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records at Date of Policy but that could be (a) ascertained by an inspection of the Land, or (b) asserted by persons or parties in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records at Date of Policy.
4. Any encroachment, encumbrance, violation, variation, easement, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records at Date of Policy.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
6. Any lien or right to a lien for services, labor, material or equipment unless such lien is shown by the Public Records at Date of Policy.]
7. Any claim to (a) ownership of or rights to minerals and similar substances, including but not limited to ores, metals, coal, lignite, oil, gas, uranium, clay, rock, sand, and gravel located in, on, or under the Land or produced from the Land, whether such ownership or rights arise by lease, grant, exception, conveyance, reservation, or otherwise; and (b) any rights, privileges, immunities, rights of way, and easements associated therewith or appurtenant thereto, whether or not the interests or rights excepted in (a) or (b) appear in the Public Records or are shown in Schedule B.

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

5. Builder’s Remedy in the Coastal Zone
6. Proposal & Next Steps
7. Appendix

Letter to City

Thank you for agreeing to meet on March 27th. In light of the unique complexities both parties are grappling with, including the novelty of a Builder's Remedy project, the City's forthcoming eminent domain action to facilitate Phase II of the Los Patos Roundabout Project, and the zoning discrepancy between the City's general plan and the LCP, having an open dialogue will help us align on a path forward.

Enclosed is an overview of the project, a summary of key issues we'd like to address, and proposed next steps. We're confident we can work together to achieve a "win-win" for both parties.

Very truly yours,

Brian Holland & Seth Ludwick

Project Overview

- 27 total units with private garages
- 20% affordable (5 units)
- Average unit size of ~1,300 sf.
- Key design elements:
  - Woonerf (a Dutch term meaning “street for living”) streetscape - an interior-facing paseo allowing for multiple uses and fostering pedestrian activity.
  - Building articulation and materials palette inspired by George Washington Smith and other buildings in the El Pueblo Viejo Landmark District.

Project Overview - Site Plan

Key Benefits for the City

1. Allows the City to boast “win” for producing a new housing project in Montecito, a historically underserved rental market:
    - 27 new rental units, including **at least 5 affordable units**.
    - Located on a vacant property **ideally situated for multifamily housing** - the property is bounded by Hwy 101, Channel Drive, and Cabrillo Boulevard, and has no adjacent neighbors.
    - A **low-density**, high-design project in keeping with the “**Santa Barbara Style**”.
2. Significant increase in property tax revenue compared with current tax value.
3. Although 1 HSR was not included in the Housing Element (Developer sought to include it, but the City had already submitted its draft to HCD), one of HCD’s comments to the City was that it failed to identify enough *vacant* land parcels in its Housing Element. As explained above, 1 HSR is vacant and ideally situated for multifamily housing.
4. Provides clarity to the City and SBCAG with respect to the ~½ acre the City needs to take from 1 HSR to facilitate the widening of Cabrillo Boulevard for Phase II of the Los Patos Roundabout Project.
    - So long as the City is supportive of Developer’s project, the Cemetery Association and Developer will work amicably with the City and SBCAG to reach a mutually beneficial resolution with respect to both the timing of the taking and the property’s valuation.

Zoning Discrepancy

1. The property ("1 HSR") is currently zoned **R-1** in the City's general plan, but has a **Parks/Open Space** land use designation in the City's LCP.

2. Based on our review of the record, including the 1986 Coastal Implementation Plan, the original LUP and subsequent amendments, numerous Planning Commission and City Council hearing minutes leading to the IP, and the ongoing confusion regarding the ownership of the property, our view is that the Parks/Open Space designation was a scrivener's error for the following reasons:

    a. The 1986 Implementation Plan ("IP") did **not** include 1 HSR in the PR Zone, and specifically provided that such zoning applied to "publicly owned property…where recreation is the primary use." (IP, p. 39) Furthermore, **none of the maps depicting the PR Zone include 1 HSR**. (IP, p. 41-43)

    b. On July 8, 1982, John Mackall (Seed Mackall LP), who represented the Cemetery, appeared before the Planning Commission to express concern regarding the proposed PR zoning designation. The city responded on the record by stating that the "**PR zone applies only to publicly owned park and beach land**". (IP, p. 175)

    c. The City owns a small, triangular parcel on the southern side of 1 HSR (APN 17-393-033). Originally this was the southernmost end of Hot Springs Road. **None of the general plan maps or coastal zoning maps show this as a *separate* parcel**, which may explain why the *entire* parcel was designated as Parks/Open Space.

Zoning Discrepancy (Cont'd)

d. The 2019 LUP defines Parks/Open Space as: "[a] land use designation established to protect and preserve park, beach, and open space lands for the benefit and enjoyment of present and future generations of residents and visitors. All land on the ocean side of Cabrillo Boulevard from East Beach (excluding the Bellosguardo property) to the west end of Shoreline Park is designated Parks/Open Space and is owned by the City in perpetuity. All City parks and recreation facilities within this designation are assigned to one of nine categories of park and recreation facilities: undeveloped parkland, open space, passive park, neighborhood park, beach, community park, sports facilities, community buildings, and regional park. On the inland side of Cabrillo Boulevard, other areas with a Parks/Open Space designation include the privately owned Montecito Country Club and the Santa Barbara Zoo, and the publicly owned Andrée Clark Bird Refuge, many community and neighborhood parks, La Playa Stadium, the Douglas Family Preserve, and Highway 101. Highway 101 is classified as open space because it is open and of such scale to be significant." **The 2019 LUP makes no mention of 1 HSR**, nor is the definition of Parks/Open Space appropriate for 1 HSR.

e. Today, there are only 3 privately-held parcels within the City's coastal zone with a Parks/Open Space designation: (i) Montecito Country Club, (ii) Santa Barbara Zoo, and (iii) 1 HSR. There are obvious recreation and/or public benefit uses for Montecito Country Club and the Zoo; however, **1 HSR has been privately owned by the Cemetery for over 120 years, and has never been used as a park, public open space, or for any recreational activity**.

f. **At least two private single-family residences** existed at 1 HSR from the early 1900s through the early 1980s, which were used by Cemetery staff for housing (*see Appendix p.3*)

Zoning Discrepancy (Cont'd)

g. The record demonstrates that the City thought it owned the entirety of 1 HSR (not just the triangular parcel). Specifically, in a City Council meeting in December 1981 to discuss designating the C.C. Park water fountain as a historic landmark, the City recommended "[designating] the C.C. Park watering trough and fountain on **City parcel 17-393-92** (intersection of East Cabrillo Boulevard and Channel Drive) as a City landmark." As stated above, 1 HSR has been privately owned by the Cemetery for over 120 years (since 1903).

h. 1 HSR has been zoned **R-1** in the City's general plan since **at least 1961**. In a City Council meeting in March 1961, during which the Cemetery protested the Montecito Strip Sewer Assessment, the City found in pertinent part that: "the Property owned by the Cemetery Association which is involved here is comprised of two parcels…presently zoned R-1 Residential."

3. Based on the foregoing, the City and Coastal Commission made a mistake by designating 1 HSR as Parks/Open Space. No reasonable interpretation of the record or the definition of the Parks/Open Space designation could lead to the conclusion that such designation was intended for 1 HSR. As such, the City should move the Coastal Commission to resolve the discrepancy, and match the Coastal land use designation with that of the general plan (R-1).

Builder's Remedy in the Coastal Zone

1. The Builder's Remedy statute (Gov't Code § 65589.5(d)) provides municipalities with only 5 narrow bases to deny a Builder's Remedy application. Notably, the statute provides **no exception** for properties within the Coastal Zone.

2. In *New Commune DTLA, LLC vs. City of Redondo Beach*, a non-binding Superior Court case from earlier this year, the court explicitly provided that the Builder's Remedy **applies to properties within the Coastal Zone**, but went on to provide that the underlying land use designation must allow for residential uses ("Before the City's housing element was approved by HCD, [the Developer] was free to apply the builder's remedy anywhere in the coastal zone where the LCP and Coastal Ordinance permitted residential housing.")

    a. Unlike the property at issue in *New Commune DTLA*, which was zoned for commercial uses, the City zoning for 1 HSR does allow for residential uses and, but for the scrivener's error outlined above, the Coastal land use designation should match the City's, also allowing for residential uses.

    b. Although the City is not bound or restricted in any way by the *New Commune DTLA* case, our view (along with that of our land use counsel at Brownstein) is that the case is broadly a "win" for the application of Builder's Remedy within the Coastal Zone.

Proposal & Next Steps

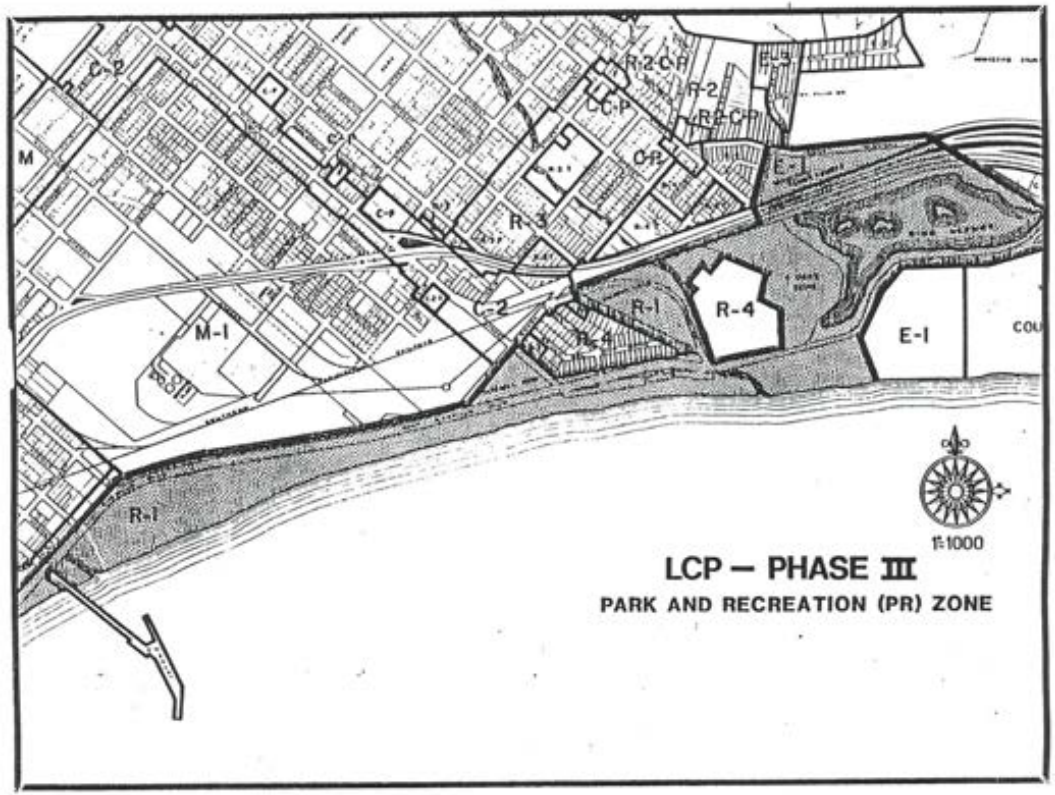

1. **Extension of dates**:
   a. To allow sufficient time for the City and Developer to resolve the Coastal land use discrepancy, Developer and the City will mutually agree to extend Developer's current deadline to submit its Planning Application from May 26, 2024 to March 31, 2025.
   b. The ability to modify and extend the dates set forth in the Builder's Remedy statute is expressly authorized by Government Code § 65943(d), which provides that "nothing in this section precludes an applicant and a public agency from mutually agreeing to an extension of any time limit provided by this section."

2. **Resolution of Coastal land use designation:**
   a. The City shall immediately initiate an action with the Coastal Commission to fix the "scrivener's error" regarding the current land use designation (from Parks/Open Space to R-1).
   b. In the event a full LCP amendment is required, the parties shall extend the dates accordingly.

3. **Agreement to process Developer's Builder's Remedy application:**
   a. Once Developer submits its Planning Application, and such Application is determined to be complete, the City shall accept the Application and move forward with the Project.

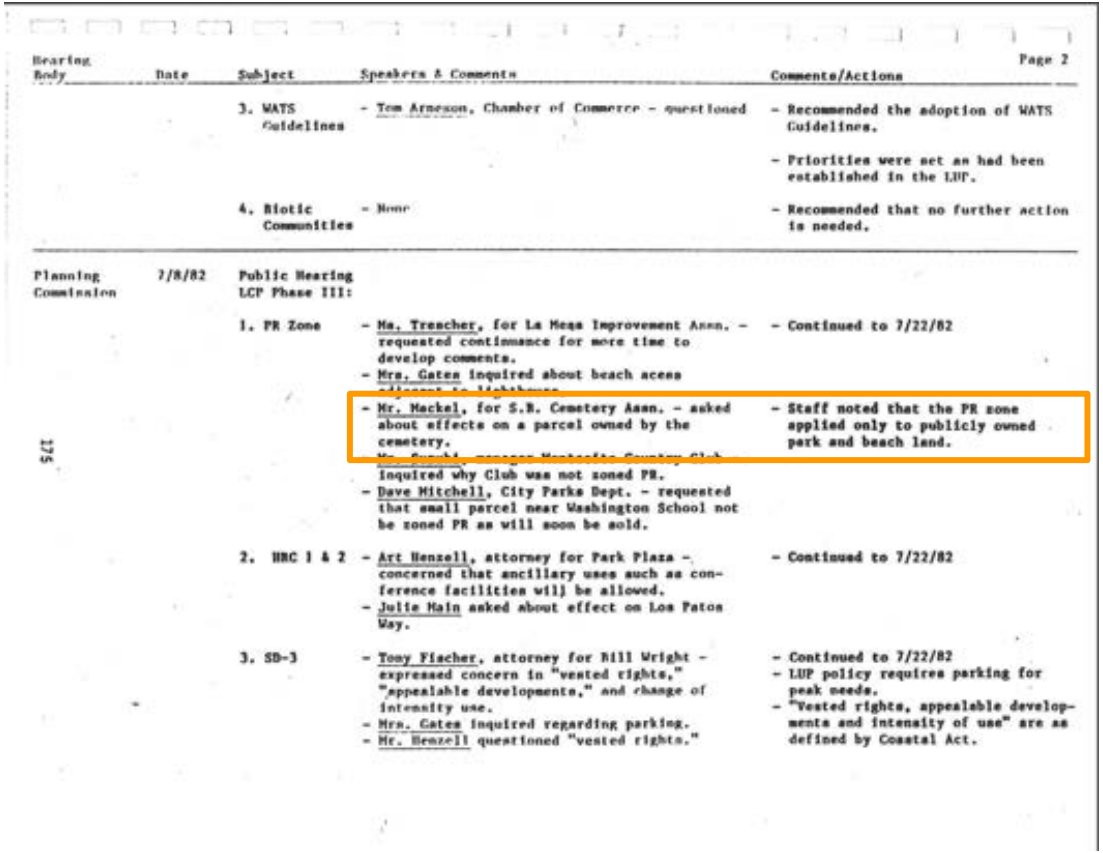

4. **Eminent domain action:**
   a. The parties, including the Santa Barbara Cemetery Association, shall meet to discuss the City's forthcoming eminent domain / takings action, including (i) timing, (ii) land valuation, (iii) maintenance obligations with respect to the historic water fountain, and (iv) a potential land-swap involving the City's triangular / ROW parcel.

Appendix p. 1

The zoning map (p. 42 of the Implementation Plan) does not include 1 HSR in the Parks and Recreation (PR) Zone.

Appendix p. 2

Page 2

Hearing Body	Date	Subject	Speakers & Comments	Comments/Actions
		3. WATS Guidelines	- Tom Arneson, Chamber of Commerce - questioned	- Recommended the adoption of WATS Guidelines. - Priorities were set as had been established in the LUP.
		4. Biotic Communities	- None	- Recommended that no further action is needed.
Planning Commission	7/8/82	Public Hearing LCP Phase III:		
		1. PR Zone	- Ms. Trencher, for La Mesa Improvement Assn. - requested continuance for more time to develop comments. - Mrs. Gates inquired about beach access - Mr. Mackel, for S.B. Cemetery Assn. - asked about effects on a parcel owned by the cemetery. Inquired why Club was not zoned PR. - Dave Mitchell, City Parks Dept. - requested that small parcel near Washington School not be zoned PR as will soon be sold.	- Continued to 7/22/82 - Staff noted that the PR zone applied only to publicly owned park and beach land.
		2. HRC 1 & 2	- Art Henzell, attorney for Park Plaza - concerned that ancillary uses such as conference facilities will be allowed. - Julie Main asked about effect on Los Patos Way.	- Continued to 7/22/82
		3. SD-3	- Tony Fischer, attorney for Bill Wright - expressed concern in "vested rights," "appealable developments," and change of intensity use. - Mrs. Gates inquired regarding parking. - Mr. Henzell questioned "vested rights."	- Continued to 7/22/82 - LUP policy requires parking for peak needs. - "Vested rights, appealable developments and intensity of use" are as defined by Coastal Act.

175

City staff notes that the PR zone does not apply to 1 HSR (p. 175 of the Implementation Plan)

Appendix p. 3

Aerial photograph taken in 1953 showing 3 structures on the property.

Photo #1 Overview of the Site, facing west.

Photo #2 View of the western adjacent E Cabrillo Boulevard and following commercial structures, facing southwest.

Photo #3 View of the southern adjacent Channel Drive followed by the Santa Barbara Cemetery, facing south.

Photo #4 View of the structure onsite and the northern adjacent railroad tracks, facing northeast.

Photo #5 View of the pole-mounted transformer on the southern portion of the Site, facing west.

Photo #6 View of the groundwater well located on the northern portion of the Site, facing northwest.

APPENDIX D

QUALIFICATIONS

ELLIOT R. HARO
Principal Scientist

Mr. Haro is the founding principal of Haro Environmental, Inc. With over 17 years of experience in the environmental consulting field, Mr. Haro has directed, managed and performed environmental site assessments, as well as site investigation and remediation activities. As Principal Scientist, Mr. Haro's responsibilities include project management, proposal and cost estimate preparation, design of soil and groundwater investigation and remediation programs, staff and subcontractor coordination, technical report preparation, and permit acquisition. Mr. Haro has managed and performed numerous Phase I and Phase II Environmental Site Assessments (ESAs) as well as site investigation and remediation field activities including air, soil, groundwater, and surface water sampling, groundwater monitoring well installations, and remediation system operations and maintenance. He has prepared various environmental reports including site assessment reports, feasibility studies, remedial/corrective action plans, remedial work plans and health-based risk evaluations. Mr. Haro is familiar with the regulatory process and has consulted with both local and regional agencies on Client's behalf for work plan approvals and modifications. Mr. Haro's technical expertise includes evaluation, design and implementation of innovative in-situ groundwater treatment technologies including enhanced bioremediation and in-situ chemical oxidation.

EXPERTISE

- Program Management
- Phase I and II Environmental Site Assessments
- Soil and Groundwater Investigations
- Soil and Groundwater Remediation
- Remediation Technology Evaluation
- Site Characterization
- Remediation System Operations and Maintenance
- Health Risk Evaluations
- Feasibility Studies
- Data Analysis and Management
- Construction Oversight
- Permitting – Environmental and Construction

WORK HISTORY

• Haro Environmental, Inc.	2013 to Present
• Equipoise Corporation	2007 to 2013
• Rincon Consultants, Inc.,	2004 to 2007
• TN & Associates	2003 to 2004
• Environmental Biotechnology Inst.	2002 to 2004
• Creek Environmental Laboratory	1999 to 2002

EDUCATION AND CERTIFICATIONS

- Registered Environmental Assessor I (REA I), California, No. 30228 (Former; DTSC discontinued the REA program effective July1, 2012)
- M.S., Agriculture – Soil Science Specialization, California Polytechnic State University, San Luis Obispo, CA
- B.S., Soil Science, California Polytechnic State University, San Luis Obispo, CA
- OSHA and EPA 40-hour safety training and 8-hour hazardous materials refresher courses

PROJECT DESCRIPTIONS

Groundwater Remediation and Agency Closure, SRI PADMA LLC, Santa Barbara, CA

- Groundwater Monitoring and Sampling Management
- In-Situ Bioremediation
- Permitting
- Regulatory Agency Negotiations
- Remediation Reporting
  - Target compounds: PCE & TCE
  - In-Situ Chemical Reduction Work Plan
  - Health and Safety
- Remediation System Design
- Groundwater Monitoring Well Destructions

Mr. Haro is the program manager for the remediation of the chlorinated solvents TCE and PCE in groundwater at a former manufacturing facility in Santa Barbara, CA. The site is located in a historic industrial area, which has recently been transformed into an urban wine trail area known as the “Funk Zone”. Haro Environmental worked with the remediation contractor, Regenesis, to perform a soil assessment to gather detailed information regarding the lithology beneath the site, and to develop an appropriate injection program based on the findings. For this site, a combined remedy was selected and included the injection of Plumestop, Hydrogen Release Compound, and BDI Plus, a bioaugmentation formulation. After two months, wells within the treatment zone exhibited reductions of TCE and PCE to non-detectable concentrations. The case is currently being considered for closure under oversight by the CCRWQCB.

Retail Service Station Portfolio, Various Locations, CA

- Groundwater Monitoring and Sampling Management
- In-Situ Bioremediation
- Permitting
- Regulatory Agency Negotiations
- Quarterly Reporting
- Target compounds: Hydrocarbons and MTBE
- Interim Remedial Action Plans
- Remedial and Corrective Action Plans
- Health and Safety
- Remediation System Design
- Multiphase and Dual Phase Extraction Systems

Managed project activities for monitoring and cleanup of multiple gas station facilities throughout Northern, Central and Southern California. Evaluated in-situ and ex-situ treatment options for source zone reduction and off-site containment of contaminants.

Performed and managed operations and maintenance activities on remediation systems and prepared quarterly remediation reports. Prepared quarterly groundwater monitoring reports for agency submittal and approval. Prepared corrective actions plans and remedial action plans for implementation of mobile high vacuum dual phase extraction, multi-phase extraction, and dual-phase extraction systems. Designed and permitted innovative groundwater remediation approaches including enhanced aerobic bioremediation using ORC®. Negotiated with overseeing agencies for acceptance of proposed remedial actions.

Phase I Environmental Site Assessment, Remediation Engineering Evaluation, & Indoor Air Quality Assessment, Former Aircraft Manufacturing Facility, Playa Vista, CA

- Phase I ESA
- Remediation System Performance Evaluation
- Historic Chlorinated VOC and Hydrocarbon Use
- 550,000 Square Feet of Building Space

Performed a Phase I ESA for an approximately 38-acre site developed with 8 historic structures totaling approximately 550,000 square feet. Historic aircraft manufacturing resulted in chlorinated VOCs and petroleum hydrocarbon impacts to soil and groundwater. Identified recognized environmental conditions (RECs) at 11 source areas. Consulted client on extent of environmental liabilities and potential environmental costs. Evaluated the performance of the on-site dual-phase extraction system targeting identified source areas. Developed potential life-cycle costs for the existing remediation system, and costs for remediation of metals contaminated soil. Performed an indoor air survey to assess potential impacts from the historic aircraft manufacturing operations on indoor air quality. Indoor air study results were compared to published regulatory thresholds and calculated site-specific health risks.

Soil, Soil Vapor, and Groundwater Investigation – Buckley Road Area TCE Investigation, San Luis Obispo, CA

- Phase II ESA
- Multiple Potential Responsible Parties
- TCE In Groundwater
- Other COCs: PFAS

A regional TCE plume located south of the San Luis Obispo County Regional Airport is being investigated to identify a possible source. Haro Environmental, Inc. was contracted with one of the potentially responsible parties to investigate the property as a possible source of the TCE in groundwater. A work plan was developed and approved by the lead regulatory agency, Central Coast Regional Water Quality Control Board, for the advancement of two soil borings and the collection and analysis of soil, soil vapor, and groundwater samples. The results were used to clear the client as a responsible party.

Soil and Groundwater Investigation of Per- and Polyfluoroalkyl Substances (PFAS), Meadows Field Airport, Bakersfield, CA

- Soil Sampling Work Plan
- Well Investigation
- Soil Borings and Sampling
- Data Report and Data Analysis
- Target compounds: PFAS
- Health and Safety Plan Preparation
- Lead Agency: Central Valley Regional Water Quality Control Board

PFAS compounds are an emergent set of chemicals that have come to the forefront of environmental concern due to their toxicity and stability in the environment. To evaluate the distribution of PFAS in the environment, the State Water Resources Control Board through their nine regional boards required multiple airports within California perform site investigation for PFAS compounds based on the high concentration of PFAS used in firefighting foams [also known as aqueous film forming foams (AFFF)]. The Meadows Field Airport was one of the airports listed in the requirements order. Haro Environmental prepared a work plan to investigate PFAS in soil which included a sampling and analysis program to sample soil at multiple potential release points as wells at multiple depths. A soil sampling report was prepared for the CVRWQCB and will be followed up with a groundwater investigation work plan based on the soil sampling results.

Soil and Groundwater Remediation of Chlorinated Solvents using Chemical Oxidation, Former Aerospace Manufacturing Facility, Newbury Park, CA

- Groundwater Monitoring and Sampling Management
- In-Situ Chemical Oxidation using Potassium Permanganate
- Injection and Monitoring Well Installations
- Quarterly WDR Reporting
- Target compounds: Chlorinated VOCs
- Health and Safety Plan Preparation
- Lead Agency Negotiations

Managed in-situ chemical oxidation injections for remediation of soil and groundwater impacted with the chlorinated solvents TCE and PCE. Negotiated with the lead agency (LARWQCB) for revised Waste Discharge Requirements (WDR) and amendments to the original work plan. Developed and implemented a site-specific health and safety plan to protect the health and safety of workers and the environment from accidental exposure to the chemical oxidant. Oversaw the installation of 35 injection wells and 14 dual-nested monitoring wells, and the injection of approximately 12,000 pounds of potassium permanganate. Conducted performance evaluation sampling per WDR requirements, and prepared and submitted quarterly WDR monitoring reports to the regulatory agency.

Soil and Groundwater Remediation of Chlorinated Solvents, Soil Source Zone Removal and In-Situ Bioremediation, Former Industrial Facility, Los Angeles, CA.

- Groundwater Monitoring and Sampling Management
- Large Diameter Auger Excavation
- Enhanced Anaerobic Bioremediation
- Soil Vapor Survey
- Injection and Monitoring Well Installations
- Quarterly WDR Reporting
- Target compounds: Chlorinated VOCs
- Health and Safety Plan Preparation
- Lead Agency Negotiations

Managed soil and groundwater investigation and remediation activities for a site with soil and perched groundwater water zone with chlorinated hydrocarbons present. A Remedial Action Plan (RAP) was developed and approved by the LARWQCB to remediate soil and groundwater at the site. Because site constraints precluded the use of conventional excavation approaches without extensive shoring requirements, soil remediation activities included the design and implementation of source area soil removal using large diameter augers. Groundwater remediation activities included acquisition of a Waste Discharge Requirement (WDR) permit from the LARWQCB for injection of HRC® into the perched zone, injection design, and implementation of an Enhanced Anaerobic Biodegradation approach to stimulate by injecting HRC®.

RCRA Facility Closure, Former Hazardous Waste Handling Facility, Wilmington, CA

- Lead Agency: DTSC
- RCRA Hazardous Waste Permit Closure
- Port of Los Angeles Permitting
- Health and Safety Plan Preparation
- DTSC Approval of Work Plan Updates and Modifications

Managed work plan modification/updating and permitting for a closure of a RCRA hazardous waste permit under DTSC oversight. This former hazardous waste handling facility was the subject of an enforcement action by the lead regulatory agency and resulted in the conviction of the former operator. The chemicals associated with the facility included VOCs and petroleum hydrocarbons. Negotiated with DTSC for work plan modification resulting in a reduction of $70,000 in the sampling costs.

Feasibility Study, Former Aerospace Testing Facility, CA

- Chlorinated VOCs
- Emergent Compounds 1,4-dioxane and NDMA
- In-Situ and Ex-Situ Treatment Options
- Conforming to Lead Agency Requirements

Provided technical assistance for preparation of a feasibility study for remediation of a 2,800-acre former test site facility being closed after 50 years of storied operations. The feasibility study in part addressed the emergent chemicals 1,4-dioxane and N-nitrosodimethylamine (NDMA). These chemicals are somewhat recalcitrant in the environment and are the subject of research at many DOD-sponsored projects. Evaluated innovative remedial alternatives including enhanced aerobic bioremediation

and in-situ chemical oxidation. Prepared a bench-scale work plan and reported the findings evaluating sodium persulfate and propane to reduce NDMA concentrations in groundwater.

Former Oil Field Sumps Assessment and Remediation, Santa Maria Valley, CA

- Sump Assessment and Remediation
- Remediation construction
- Target compounds: Metals, volatile and semi-volatile organics, hydrocarbons,
- Soil Excavation
- Health and Safety Plan Preparation

Project manager for sump assessment and remediation activities for multiple land leases within the Santa Maria Valley. Former oil field features were identified by reviewing historic maps and aerial photographs. The lateral and vertical limits of identified features were assessed in the field using direct push technology. Non-hazardous sump material was excavated and transported to a local landfill for reuse. Confirmation samples were collected and based on the results, closure reports were prepared and submitted to the lead oversight agency (County Santa Barbara Fire Prevention Division).

Operations and Maintenance, Ex-situ Bioremediation, San Luis Obispo, CA

- Groundwater monitoring well installation
- Groundwater sampling
- Remediation construction
- Vapor extraction system O&M
- Soil Excavation
- Field safety coordinator

Feasibility Study and Remedial Action Plan, Thousand Oaks, CA

- Project Coordinator
- Oversee field activities
- Permitting
- Conducted dual phase extraction events
- Managed and performed O & M

Site Investigations, Multiple Clients

- Oversee well installation
- Oversee boring installation
- Remediation construction
- Perform Monitoring and Optimization.
- Soil and Soil Vapor Sampling
- Risk Analysis
- Managed Subcontractors
- Construction
