**DESCRIPTION OF ACTIVITY/PROJECT:** The project would replace the existing synthetic turf and install a six-foot-high tube steel fencing around the soccer field at the Granite Regional Park.

Option one is to install moss rock boulders between the soccer fields and parking lots to prevent cars from driving on to the fields. The second option, dependent on funding availability, would be to install a three-foot-high tube steel fencing between the parking lots and soccer fields with intermittent 5' wide gaps in the fencing for people to access the fields. No ground disturbance is anticipated.
