Project Description

The California Department of Transportation (Caltrans) proposes Highway Maintenance in Calaveras County along State Routes (SR) 4 and 26 at various Post Miles (PM). See Continuation sheet. The scope of work includes installing High Friction Surface Treatment (HFST) from the edge of pavement (EOP) to the EOP. All work will be within Caltrans's right-of-way. The purpose is to reduce the crash potential through increased pavement skid resistance. The need for this project is to improve roadway safety and reduce the frequency of cross-over collisions on curves.
