

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Citrus Heights Creek Erosion and Bridge Scour Protection Project

Lead Agency: City of Citrus Heights

Contact Name: Daniel Kehrer, Principal Civil Engineer

Email: dkehrer@citrusheights.net

Phone Number: (916) 727-4904

Project Location: City of Citrus Heights, Sacramento County

City

County

Project Description (Proposed actions, location, and/or consequences).

The Citrus Heights Creek Erosion and Bridge Scour Protection Project (project) would include the installation of scour and erosion protection measures, including creek channel and slope stabilization, underneath the Indian River Drive Bridge (Indian River Bridge), Matheny Way Bridge (Matheny Bridge), Arcade-Cripple Creek Trail Bridge (Sundance Bridge), and Patton Avenue Bridge (Patton Bridge). The project would also include the removal of an abandoned Consolidated Communications, Inc. (CCI) and Comcast joint trench with exposed conduits in the creek bed of the Indian River Bridge project impact area and would include the relocation of existing and exposed Pacific Gas and Electric (PG&E) inactive and active gas lines in the Matheny Bridge project impact area. The project work would occur where natural erosion is impacting existing public infrastructure and inhibiting City of Citrus Heights maintenance activities. The project is proposed to extend the service life of the bridges, maintain public safety, protect critical infrastructure, and reduce long-term maintenance needs.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Mitigation Measure AQ-1: Basic Construction Emissions Control Practices (Less than Significant with Mitigation)
 Mitigation Measure BIO-1: Sanford's Arrowhead Avoidance (Less than Significant with Mitigation)
 Mitigation Measure BIO-2: Worker Environmental Awareness Training (Less than Significant with Mitigation)
 Mitigation Measure BIO-3: Pre-Construction Northwestern Pond Turtle Survey (Less than Significant with Mitigation)
 Mitigation Measure BIO-4: Pre-Construction Nesting Special-Status and Migratory Birds Survey (Less than Significant with Mitigation)
 Mitigation Measure BIO-5: Pre-Construction Roosting Bat Survey (Less than Significant with Mitigation)
 Mitigation Measure BIO-6: Aquatic Resources and Permitting Requirements (Less than Significant with Mitigation)
 Mitigation Measure BIO-7: Tree Impact Assessment and Permit Application (Less than Significant with Mitigation)
 Mitigation Measure CUL-1: Accidental Discovery of Cultural Resources (Less than Significant with Mitigation)
 Mitigation Measure CUL-2: Accidental Discovery of Human Remains (Less than Significant with Mitigation)
 Mitigation Measure GEO-1: Avoid and Minimize Impacts to Paleontological Resources (Less than Significant with Mitigation)
 Mitigation Measure HAZ-1: Avoid and Minimize Impact to Underground Utilities (Less than Significant with Mitigation)
 Mitigation Measure HAZ-2: Utility Coordination and Safe Removal Procedures (Less than Significant with Mitigation)
 Mitigation Measure HYD-1: Preparation and Implementation of a Dewatering Plan (Less than Significant with Mitigation)
 Mitigation Measure HYD-2: Standard Construction Best Management Practices (Less than Significant with Mitigation)
 Mitigation Measure TCR-1: Accidental Discovery of Tribal Cultural Resources (Less than Significant with Mitigation)

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.

- California Department of Fish and Wildlife (CDFW)
- Regional Water Quality Control Board (RWQCB)
- U.S. Army Corps of Engineers (USACE)
