John Wayne Airport, Planning

Project Number (P###) P457

Project Title: Award Contract for Common-Use Passenger Processing System Replacement & Support

Project Location(s): John Wayne Airport (18601 Airport Way, Santa Ana, CA 92707)

Project Description: The proposed project will approve a contract with AeroCloud Systems, Inc. for Common Use Passenger Processing System (CUPPS) and Common Use Self-Service (CUSS) Replacement and Support Services to transition the airport to a newly updated passenger processing technology system. The new system will update common use hardware and software while enhancing support for airline operational needs. In addition, the contract will include replacement of computers, printers, passenger check-in peripherals, kiosks, information displays, software, and related system components. The CUPPS/CUSS system will migrate from existing airport-based equipment to a modern cloud-based platform. The new system will support passenger check-in, gate processing, baggage information, and related airport passenger processing functions.
