Project Description:

The proposed project includes the Citywide 2023 Greenhouse Gas Reduction Plan (GHGRP). The City released the City of Angels Draft Greenhouse Gas Reduction Plan in 2023. The Angels Camp GHGRP includes emissions forecasts for 2030 and 2045 based on the 2018 Greenhouse Gas Inventories. The 2030 and 2045 forecasts cover direct GHG emissions from sources within the boundaries of Angels Camp, including fuel combusted and solid waste generated within the City. The GHGRP also includes Reduction Measures to meet local and State greenhouse gas reduction targets that reflect input from City staff, stakeholders, and community members, and recognize significant contributors to local GHG emissions.
