(b) Cumulative Impact: Per ZIMAS, the LADBS Haul Route Status Table, and Navigate LA, there are no concurrent approved or pending projects or haul routes within the same place of the project site. The proposed Project will not result in significant cumulative impacts from successive projects of the same type in the same place. The project is not unusual for the vicinity of the site, and is similar in scope to other existing residential uses in the area. Furthermore, there is not a reasonable possibility that the project would have a significant effect on the environment due to unusual circumstances. The project site is not located in the Very High Fire Hazard Severity Zone. (d) Scenic Highways: The project is not in the vicinity of a state scenic highway and will not damage scenic resources in a state scenic highway. (f) Historical Resources: Per ZIMAS, SurveyLA, and/or Historic Places LA, the project site is not identified or eligible as a historical resource. The project will not cause a substantial adverse change in the significance of a historical resource.
