Project Description: *(please use a separate page if necessary)*

The City of Napa WMP is a comprehensive 30-year roadmap for maintaining and enhancing the City' s water system infrastructure and includes the following improvements over the near-term (2026 through 2030 by year), mid-term (2031 through 2035 by year), and long-term (2036 through 2055 as a single group): Watershed - Supply Source, Water Quality - Treatment, Water Transmission (Storage Tanks, Pump Stations, Transmission Mains) and Water Distribution (Distribution Mains and Meters). The WMP addresses redundancy and reliability, not demands from projected growth.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
