Review No. SPDR 2025-05 – Livingston Rec-Plex Project
Mitigation Monitoring & Reporting Program
June 2026***

Introduction

Section 21081.6 of the California Environmental Quality Act (CEQA) requires a Lead Agency to adopt a Mitigation Monitoring and Reporting Program whenever it approves a project for which measures have been required to mitigate or avoid significant effects on the environment. The purpose of the monitoring and reporting program is to ensure compliance with the mitigation measures during project implementation.

The Initial Study/Mitigated Negative Declaration prepared for the Livingston Rec-Plex (General Plan Amendment No. GPA 2022-01, Rezone No. RZN 2022-01, Street Closure No. SCA 2022-01, and Site Plan and Design Review No. SPDR 2025-05) concluded that the implementation of the project could result in significant effects on the environment and mitigation measures were incorporated into the Proposed Project or are required as a condition of project approval. This Mitigation Monitoring and Reporting Program addresses those measures in terms of how and when they will be implemented.

This document does not discuss those subjects for which the Initial Study/Mitigated Negative Declaration concluded that the impacts from implementation of the Proposed Project would be less than significant.

Environmental Issue	Proposed Mitigation	Mitigation Monitoring Reporting Responsibility and Timing	Mitigation Reporting and/or Monitoring Program
Cultural Resources	In the event of the accidental discovery or recognition of any human remains in any location other than a dedicated cemetery, the following steps shall be taken: 1. There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until; a) The coroner of the County in which the remains are discovered must be contacted to determine that no investigation of the cause of death is required; and, b) If the coroner determines the remains to be Native American: 1. The coroner shall contact the Native American Heritage Commission within 24 hours. 2. The Native American Heritage Commission shall identify the person or persons it believes to be the most likely descended from the deceased Native American. 3. The most likely descendent may make recommendations to the landowner or the person responsible for the excavation work, for means of treating or disposing of, with appropriate dignity, the human remains, and any associated grave goods as provided in Public Resources Code Section 5097.98.	During Project Construction.	During Project construction, the Project Engineer and Construction Manager shall monitor construction activities for any discovery of human remains.
