

Reclamation District No. 38

Staten Island
P.O. Box 2382
Stockton, CA 95201

June 10, 2026

**NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION ON
THE ENVIRONMENTAL IMPACT FOR THE MOKELUMNE RIVER CONFLUENCE
MULTI-BENEFIT PROJECT**

Notice is hereby given that at a meeting scheduled for **August 11, 2026**, the Board of Trustees of Reclamation District No. 38 will consider the approval and adoption of a Mitigated Negative Declaration on the environmental impacts of the project entitled "Mokelumne River Confluence Multi-Benefit Project."

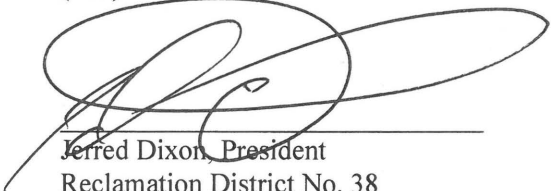

Project Description: The purpose of the Mokelumne River Confluence Multi-Benefit Project is to rehabilitate the levee section from Station 822+00 – 1038+00 to the Delta Specific PL 84-99 Standard and create waterside habitat. Landside work includes raising the levee crown to achieve sufficient freeboard above the 100-year flood elevation and stabilizing the landside slope through the construction of a toe berm. Additionally, a setback levee will be constructed from Station 857+00 – 864+00. Waterside work includes excavation of the existing levee at the setback levee, to construct a habitat bench above Mean Lower Low Water. The habitat bench and setback levee waterside slope will be planted with native riparian species. Landside construction will occur in 2027 and 2028. Pending permit approvals, waterside construction will occur in 2028.

Project Location: The project site is located on Staten Island, in northwest San Joaquin County, California. The cross streets are Staten Island Road and West Walnut Grove Road, and its centroid is 38°8'40.25" N, 121°33'18.85" W.

Hazardous Waste Lists: No known hazardous waste sites exist in the project area.

Public Review and Time for Comment: The proposed Mitigated Negative Declaration and Initial Study are available for public review and comment until 5:00 p.m. on **July 10, 2026**. Comments received after this time will not be accepted. At the above scheduled meeting, the Board of Trustees will consider the public comments and will decide whether to adopt a Board resolution approving the proposed Mitigated Negative Declaration. Copies of the Initial Study/Mitigated Negative Declaration are available for review at the District Engineer's office during normal business hours; in addition, submit all comments to the following address:
