Section 15301 Existing Facilities (Class 1): The Class 1 Categorical Exemption consists of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The Port will issue a Level I HDP for minor alteration of existing equipment involving installation of up to five (5) antennas, four (4) RRU dual swivel mounts, eight (8) RRU's, three (3) hybrid trunks, and mount modifications on tower with up to two (2) RP 6655's, thirteen (13) 50A SPD's, sixteen (16) 40A DC CB's, one (1) Cam-lock generator plug, twelve (12) SBS 190F batteries, two (2) LED timer switches, and two (2) LED lights on ground which involves negligible or no expansion of existing for former use.

Section 15302 Replacement or Reconstruction (Class 2): The Class 2 Categorical Exemption consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure

All equipment that is removed from the site will be disposed of in a manner that meets all federal, state and local environmental and regulatory requirements.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15301 (Class 1. Existing Facilities) and Section 15302 (Class 2. Replacement or Reconstruction); therefore, the Project is exempt from CEQA and no further environmental review is required.
