NOTICE OF EXEMPTION

Project Title:

250 Lion Heart Court Cargo Container (UPM)

Control Number:

PLNP2026-00046

Project Location:

The project is located at 250 Lion Heart Court, approximately 350 feet west of its intersection with Crusade Court, in the Rio Linda/Elverta community of unincorporated Sacramento County.

APN:

214-0320-020

Description of Project:

The project consists of a Minor Use Permit to allow a cargo container on a lot located in the Residential 5 (RD-5) zone district. The proposed project consists of legalizing an existing 160-square cargo container located in the rear yard of the property.

Name of Public Agency Approving Project:

Sacramento County – ceqa@sacounty.gov

Person or Agency Carrying out Project:

Contact: Michael Hodel
250 Lion Heart Court
Rio Linda, CA 95673
hodel316@yahoo.com
(916) 712-0289

Exempt Status:

Categorical Exemption (PRC Section 21084; CEQA Guidelines Sections 15300-15333):

- CEQA Guidelines Section 15301(e) – Existing Facilities

Reasons Why Project is Exempt:

Class One (1) consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. The key consideration is whether the project involves negligible or no expansion of use. The project will recognize and permit a cargo container for a lot located within the Residential 5 (RD-5) zone district. As the project involves the permitting of existing structures with no negligible or expansion of use, the project would be eligible for the CEQA exemption pursuant to Section 15301 and is therefore exempt from the provisions of CEQA.

Section 15300.2-Exceptions

Section 15300.2 of the CEQA Guidelines, Exceptions, provides conditions under which categorical exemptions are inapplicable. Review of the Project indicates that it will not violate any of the exceptions, as described in the following section.

1. *For Classes 3, 4, 5, 6, and 11, will the project have an impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies?*

The project is exempt pursuant to Class 1 and the above exception does not apply.

2. *Will cumulative impacts be considerable because successive projects of the same type will occur at the same place over time?*

As it stands, the project will not result in potentially significant impacts. Therefore, no cumulative impacts will result from the project and successive projects of the same type and at the same place over time.

3. *Is there a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances?*

There are no known unusual circumstances that will have a significant effect on the environment.

4. *Will the project result in damage to scenic resources, including but not limited to trees, historic buildings, rock outcroppings, or similar resources within a highway officially designated as a scenic highway?*

River Road/ Highway 160 (from the Sacramento City Limits at the northern edge of Freeport to the southern tip of the Delta at Antioch Bridge) is a designated State Scenic Highway. The Project is not located within the vicinity of this scenic highway. Therefore, the project will not result in damage to scenic resources or similar resources within a highway that is officially designated as a scenic highway.

5. *Is the project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code?*

The Project site is not included on any list compiled pursuant to Section 65962.5 of the Government Code. Additionally, a search of the EnviroStor and GeoTracker databases was conducted and no hazardous material records were located on site or in close proximity; therefore, the Project will not have an impact related to being located on a hazardous waste site.

6. *Will the project cause a substantial adverse change in the significance of a historic resource?*

The project site does not contain any historical resources.
