Process Discharge (industrial waste) shall not exceed 100 Gallons Per Day (GPD).
(Location A1: 100 GPD)
Total Discharge (industrial and domestic waste) shall not exceed 1,100 Gallons Per Day (GPD).

II. Special Conditions/Requirements:

1. Sump cleaning and sludge removal shall be conducted once each quarter. Maintain cleaning records on site.

III. Self-Monitoring Sampling Analysis:

Pollutant	Sampling Frequency	Sample Type	Sampling Location(s)*	Federal Maximum for any 1 day (mg/L)	Federal Avg. of daily values for 30 consec.days (mg/L)	Local Limit (mg/L)
Copper	Quarterly	Grab	A1	No Limit	No Limit	2
Lead	Quarterly	Grab	A1	No Limit	No Limit	.5
Zinc	Quarterly	Grab	A1	No Limit	No Limit	4

*Sampling Location A1 is at the discharge end of the oil-water separator (clarifier) sump at the east end of the building.

IV. Wastewater Discharge Limits: (MVCC 35.32.12 & CFR 40)

Your industrial wastewater effluent shall not exceed the following limits:

Discharge Parameter	Federal Max. for any 1 day	Federal Avg. of daily values for 30 consecutive days	Local[1]	Discharge Parameter	Federal Max. for any 1 day	Federal Avg. of daily values for 30 consecutive days	Local[1]
Arsenic	No Limit	No Limit	0.1 mg/L	Manganese	No Limit	No Limit	1.0 mg/L
Barium	No Limit	No Limit	5.0 mg/L	Mercury[2]	No Limit	No Limit	0.01 mg/L[2]
Berrylium	No Limit	No Limit	0.75 mg/L	Nickel	No Limit	No Limit	0.5 mg/L
Boron	No Limit	No Limit	1.0 mg/L	Oil & Grease	No Limit	No Limit	200 mg/L
Cadmium	No Limit	No Limit	0.1 mg/L	Phenols	No Limit	No Limit	1.0 mg/L
Chromium Hex.	No Limit	No Limit	1.0 mg/L	pH[5]	No Limit	No Limit	5.0-11
Chromium, Total	No Limit	No Limit	2.0 mg/L	Selenium	No Limit	No Limit	1.0 mg/L
Cobalt	No Limit	No Limit	1.0 mg/L	Silver, Photo	No Limit	No Limit	0.50 mg/L
Copper[4]	No Limit	No Limit	2.0 mg/L	Silver, Non-Photo	No Limit	No Limit	0.25 mg/L
Copper	No Limit	No Limit	0.25 mg/L	Single Toxic Organic	No Limit	No Limit	0.75 mg/L
Cyanide	No Limit	No Limit	1.0 mg/L	Suspended Solids	No Limit	No Limit	6000 mg/L
Fluoride	No Limit	No Limit	65 mg/L	Total Dissolved Solid	No Limit	No Limit	10000 mg/L
Formaldehyde	No Limit	No Limit	5.0 mg/L	Total Toxic Organics[6]	No Limit	No Limit	1.0 mg/L
Lead	No Limit	No Limit	0.5 mg/L	Zinc[7]	No Limit	No Limit	2.0 mg/L

[1]If the discharge at any single sampling location exceeds 50,000 gpd, the local discharge limit for that location shall not exceed ONE-HALF (1/2) of the local limit listed above.

[2]Dental facilities using mercury-containing amalgam shall not exceed a local discharge limit of 0.05 mg/L for mercury.

[3]These limits refer to either grab or 24-hour composite samples.

[4]This limit applies only to the following EPA categories: Non-EPA Non-SIUs, Metal Finishing (Copper), and Electroplating. This limit also applies to cooling towers discharging < 2,000 gpd at any facility.

[5]Where pH is monitored continuously, no individual deviation from this range may exceed 20 minutes in length for discharges < 10,000 gpd, nor 10 minutes in length for discharges > 10,000 gpd. The total time of deviations during any seven day period shall not exceed 60 minutes. Any pH reading ≤ 2.0 or ≥ 12.5 is prohibited.

[6]See Section XIII of this permit for a list of components of Total Toxic Organics.

[7]Vehicle service facilities shall not exceed a local discharge limit of 4.0 mg/L for zinc.

V. Quality Assurance/Quality Control: (MVCC 35.32.13 & 40 CFR 136)

All metals samples must be collected in duplicate and stored and preserved until the next sampling event for that parameter. The duplicate sample must be labeled as a duplicate and made available to any City inspector.

VI. Sample Collection and Analysis: (MVCC 35.32.13.3, 40 CFR 403.12(g)&(h), 40 CFR 136)

All metals shall be collected as specified in the individual permit requirements. Cyanide and Total Toxic Organics (TTO) shall always be collected as grab samples. Samples shall be analyzed by an analytical laboratory approved by the State of Cal. Dept. of Health Services.

Sample collection, preservation, and analysis shall be in accordance with EPA regulations (40 CFR 136) and the City of Mountain View's "Sample Collection, Analysis and Reporting Instructions".

VII. Violation Reporting & Follow-Up: (MVCC 35.32.6.2 & 40 CFR 403.12(f) & (g))

If the results of sampling or pH analysis exceed applicable limit(s), or any discharges meet the definition of hazardous waste, you shall:

1) VERBALLY NOTIFY THE CITY OF MOUNTAIN VIEW AT 650-903-6378 AND THE PALO ALTO WATER QUALITY CONTROL PLANT AT 650-329-2598 WITHIN 24 HOURS of knowledge of the violation. If an accidental discharge, slug discharge, or upset or failure of the pretreatment system occurs, verbal notification shall be made within 15 minutes of knowledge of the condition;

2) SUBMIT A WRITTEN REPORT WITHIN 15 WORKING DAYS of knowledge of the violation explaining: the cause, nature, volume and duration of the violation, and mitigation measures taken to correct it and prevent reoccurrence;

3) INITIATE A SAMPLING/ANALYSIS PROGRAM demonstrating up to 21 consecutive days of compliance. The first sample result shall be submitted within 30 days of becoming aware of the violation.

VIII. Penalty Provisions: (MVCC 35.32.15)

Any person who violates any provision of this permit, "Notice of Violation", or Chapter 35 MVCC, may be subject to criminal, civil, or administrative penalties. Civil penalties shall not exceed $25,000/day per violation. Administrative penalties shall not exceed the following: (1) $2,000/day for failing or refusing to furnish technical or monitoring reports; (2) $3,000/day for failing or refusing to comply with a compliance schedule; (3) $5,000/day/violation for discharges in violation of any waste discharge limitation, permit condition, or requirement; and (4) $10/gallon for discharges in violation of any suspension, cease and desist order, or any prohibition issued by the City.

IX. Record-Keeping Requirements: (40 CFR 403.12(o))

All Industrial Users shall maintain records for all information resulting from any monitoring activities conducted. Such records shall include for all samples:

1) The date, exact place, method, and time of sampling and the names of the peron or persons taking the samples;
2) The dates analyses were performed;
3) Who performed the analyses;
4) The analytical techniques/methods used; and
5) The results of such analysis.

All Industrial Users shall maintain for a minimum of 3 years any records of monitoring activities and results, and shall make such records available for inspection and copying by the City of Mountain View and Palo Alto Water Quality Control Plant. This period of retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the Industrial User or the operation of the POTW Pretreatment Program or when requested by the Director or the Regional Administrator.

X. Notification of Changed Discharge: (40 CFR 403.12(j))

All Industrial Users shall promptly notify the City of Mountain View at 650-903-6378 and the Palo Alto Water Quality Control Plant at 650-329-2598 in advance of any substantial change in the volume or character of pollutants in their discharge, including the characteristic hazardous wastes for which the Industrial User has submitted initial notification under 40 CFR 403.12(p).

XI. Notification of Bypass: (40 CFR 403.17(c)(2))

All Industrial Users shall verbally notify the City of Mountain View at 650-903-6378 and Palo Alto Water Quality Control Plant at 650-329-2598 of an unanticipated bypass (intentional diversion of its wastestream from the treatment facility) within 24 hours from the time the Industrial User becomes aware of the bypass. A written submission shall also be provided within 5 days of the time the Industrial User becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass.

XII. Transferability of Permit: (MVCC 35.32.2.4)

This permit is not transferable without prior written notification to and approval by the City and the assumption of all permit conditions by the new owner/operator.

XIII. Definition of Total Toxic Organics: (40 CFR 469.12)

The term "total toxic organics" (TTO) means the sum of the concentrations for each of the following toxic organic components found in the discharge at a concentration greater than ten (10) micrograms per liter. The facility's local TTO and STO limits apply to all of the compounds listed below. Those compounds analyzed using EPA Method 601/602 or 624 are identified by a "■".

❑Acenaphthene	❑2-Chlorophenol	❑Methyl bromide	❑Diethyl phthalate	❑4,4-DDT
❑Acrolein	❑1,2-Dichlorobenzene	❑Bromoform	❑Dimethyl phthalate	❑4,4-DDE
❑Acrylonitrile	❑1,3-Dichlorobenzene	❑Dichlorobromomethane	❑1,2-Benzanthracene	❑4,4-DDD
❑Benzene	❑1,4-Dichlorobenzene	❑Chlorodibromomethane	❑qBenzo(a)pyrene	❑Alpha-endosulfan

ENVIRONMENTAL PROGRAMS INVOICE

For period from April 1, 2009 to April 1, 2010

Facility ID:	**722**
Updated:	**6/24/2008**

Business Name
El Camino Paving, Inc.

Facility Street Address
924 San Rafael Avenue

PAYMENT DUE*:
$2,510.00

(*Make check payable to: "City of Mountain View", 500 Castro Street, City Hall, 4th Floor, Mountain View, CA 94041-2010)

*** LOCAL FEES ***

(These fees support the City of Mountain View's local code enforcement programs. For questions, contact Jaymae Wentker, Fire Marshal, at 650-903-6378.)

	Fee
Hazardous Materials Fee	
Combustible Liquid -- 1,613 Gal	$215.00
Corrosive Liquid -- 81 Gal	$215.00
Flammable Gas -- 2,400 Cu Ft	$323.00
Flammable Liquid -- 45 Gal	$108.00
Miscellaneous Liquid -- 700 Gal	$162.00
Nonflammable Gas -- 950 Cu Ft	$162.00
Nonregulated Solid -- 200 Lbs	$0.00
Fire Permit Fee	
This fee is calculated based on specific processes conducted and square footage of the facility.	$375.00
Wastewater Sampling and Analysis Fee	
This fee covers the City's cost of wastewater sampling and analysis. It is provided as a service in lieu of self-monitoring by the business.	
	$129.00
1st quarter 2008 monitoring for Cu, Pb, and Zn	$129.00
2nd quarter 2008 monitoring for Cu, Pb and Zn	$134.00
3rd quarter 2008 monitoring for Cu, Pb and Zn	$134.00
4th quarter 2008 monitoring for Cu, Pb, and Zn	

COUNTY FEES

(These fees support the Santa Clara County Environmental Health Department's hazardous waste generator program. For questions, contact Nicole Pullman, CUPA Program Manager, at 408-918-1984.)

Hazardous Waste Generator Program Fee	$400.00
This fee is calculated based on the types and amounts of hazardous waste generated annually.	

*** STATE FEES ***

(These fees support various departments of Cal EPA. For questions, contact Kareem Taylor, Chief of the Unified Programs Section, at 916-327-9557.)

CUPA Oversight Service Charge	$24.00
This fee is established by Cal EPA to recover their oversight costs in administering the CUPA programs.	

	Hazmat Fee Total	Fire Fee Total	Wastewater Fee Total	State/County CUPA Fee Total
For Office Use Only:	Index: 265116-41411 C/R: FDHMPR $1,185.00	Index: 265116-41410 C/R: FDHMFS $375.00	Index: 265314-43623 C/R: FDWWFE $526.00	Index: 710100-22133 C/R: FDSCF $424.00

POST IN A CONSPICUOUS PLACE AT THE "PERMITTED FACILITY" SITE

I. Discharge Limitations:

Process Discharge (industrial waste) shall not exceed 100 Gallons Per Day (GPD).
(Location A1: 100 GPD)
Total Discharge (industrial and domestic waste) shall not exceed 1,100 Gallons Per Day (GPD).

II. Special Conditions/Requirements:

1. Sump cleaning and sludge removal shall be conducted once each quarter. Maintain cleaning records on site.

III. Self-Monitoring Sampling Analysis:

Pollutant	Sampling Frequency	Sample Type	Sampling Location(s)*	Federal Maximum for any 1 day (mg/L)	Federal Avg. of daily values for 30 consec.days (mg/L)	Local Limit (mg/L)
Copper	Quarterly	Grab	A1	No Limit	No Limit	2
Lead	Quarterly	Grab	A1	No Limit	No Limit	.5
Zinc	Quarterly	Grab	A1	No Limit	No Limit	4

*Sampling Location A1 is at the discharge end of the oil-water separator (clarifier) sump at the east end of the building.

IV. Wastewater Discharge Limits: (MVCC 35.32.12 & CFR 40)

Your industrial wastewater effluent shall not exceed the following limits:

Discharge Parameter	Federal Max. for any 1 day	Federal Avg. of daily values for 30 consecutive days	Local[1]	Discharge Parameter	Federal Max. for any 1 day	Federal Avg. of daily values for 30 consecutive days	Local[1]
Arsenic	No Limit	No Limit	0.1 mg/L[1]	Nickel	No Limit	No Limit	0.5 mg/L
Boron	No Limit	No Limit	1.0 mg/L[1]	Oil & Grease	No Limit	No Limit	200 mg/L
Cadmium	No Limit	No Limit	0.1 mg/L[1]	Phenols	No Limit	No Limit	1.0 mg/L
Chromium Hex.	No Limit	No Limit	1.0 mg/L[1]	pH[5]	No Limit	No Limit	5.0-11
Chromium, Total	No Limit	No Limit	2.0 mg/L[1]	Selenium	No Limit	No Limit	1.0 mg/L[1]
Copper[4]	No Limit	No Limit	2.0 mg/L[1]	Silver, Photo	No Limit	No Limit	0.50 mg/L
Copper	No Limit	No Limit	0.25 mg/L	Silver, Non-Photo	No Limit	No Limit	0.25 mg/L
Cyanide	No Limit	No Limit	1.0 mg/L[1]	Single Toxic Organic	No Limit	No Limit	0.75 mg/L
Fluoride	No Limit	No Limit	65 mg/L	Suspended Solids	No Limit	No Limit	6000 mg/L
Formaldehyde	No Limit	No Limit	5.0 mg/L[1]	Total Dissolved Solid	No Limit	No Limit	10000 mg/L
Lead	No Limit	No Limit	0.5 mg/L[1]	Total Toxic Organics[6]	No Limit	No Limit	1.0 mg/L
Mercury[2]	No Limit	No Limit	0.01 mg/L[2]	Zinc[7]	No Limit	No Limit	2.0 mg/L[1]

[1]If the discharge at any single sampling location exceeds 50,000 gpd, the local discharge limit for that location shall not exceed ONE-HALF (1/2) of the local limit listed above.

[2]Dental facilities using mercury-containing amalgam shall not exceed a local discharge limit of 0.05 mg/L for mercury.

[3]These limits refer to either grab or 24-hour composite samples.

[4]This limit applies only to the following EPA categories: Non-EPA Non-SIUs, Metal Finishing (Copper), and Electroplating. This limit also applies to cooling towers discharging < 2,000 gpd at any facility.

[5]Where pH is monitored continuously, no individual deviation from this range may exceed 20 minutes in length for discharges < 10,000 gpd, nor 10 minutes in length for discharges > 10,000 gpd. The total time of deviations during any seven day period shall not exceed 60 minutes. Any pH reading ≤ 2.0 or ≥ 12.5 is prohibited.

[6]See Section XIII of this permit for a list of components of Total Toxic Organics.

[7]Vehicle service facilities shall not exceed a local discharge limit of 4.0 mg/L for zinc.

V. Quality Assurance/Quality Control: (MVCC 35.32.13 & 40 CFR 136)

All metals samples must be collected in duplicate and stored and preserved until the next sampling event for that parameter. The duplicate sample must be labeled as a duplicate and made available to any City inspector.

VI. Sample Collection and Analysis: (MVCC 35.32.13.3, 40 CFR 403.12(g)&(h), 40 CFR 136)

All metals shall be collected as specified in the individual permit requirements. Cyanide and Total Toxic Organics (TTO) shall always be collected as grab samples. Samples shall be analyzed by an analytical laboratory approved by the State of Cal. Dept. of Health Services.

Sample collection, preservation, and analysis shall be in accordance with EPA regulations (40 CFR 136) and the City of Mountain View's "Sample Collection, Analysis and Reporting Instructions".

VII. Violation Reporting & Follow-Up: (MVCC 35.32.6.2 & 40 CFR 403.12(f) & (g))

If the results of any sampling or pH analysis exceed the applicable limit(s), or any discharges meet the definition of a hazardous waste, you shall:

1) VERBALLY NOTIFY THE CITY OF MOUNTAIN VIEW AT 650-903-6378 AND THE PALO ALTO WATER QUALITY CONTROL PLANT AT 650-329-2598 WITHIN 24 HOURS of knowledge of the violation. If an accidental discharge, slug discharge, or upset or failure of the pretreatment system occurs, verbal notification shall be made within 15 minutes of knowledge of the condition;

2) SUBMIT A WRITTEN REPORT WITHIN 15 WORKING DAYS of knowledge of the violation explaining: the cause, nature, volume and duration of the violation, and mitigation measures taken to correct it and prevent reoccurrence;

3) INITIATE A SAMPLING/ANALYSIS PROGRAM demonstrating up to 21 consecutive days of compliance. The first sample result shall be submitted within 30 days of becoming aware of the violation.

VIII. Penalty Provisions: (MVCC 35.32.15)

Any person who violates any provision of this permit, "Notice of Violation", or Chapter 35 MVCC, may be subject to criminal, civil, or administrative penalties. Civil penalties shall not exceed $25,000/day per violation. Administrative penalties shall not exceed the following: (1) $2,000/day for failing or refusing to furnish technical or monitoring reports; (2) $3,000/day for failing or refusing to comply with a compliance schedule; (3) $5,000/day/violation for discharges in violation of any waste discharge limitation, permit condition, or requirement; and (4) $10/gallon for discharges in violation of any suspension, cease and desist order, or any prohibition issued by the City.

X. *Record-Keeping Requirements:* (40 CFR 403.12(o))

All Industrial Users shall maintain records for all information resulting from any monitoring activities conducted. Such records shall include for all samples:

1) The date, exact place, method, and time of sampling and the names of the peron or persons taking the samples;
2) The dates analyses were performed;
3) Who performed the analyses;
4) The analytical techniques/methods used; and
5) The results of such analysis.

All Industrial Users shall maintain for a minimum of 3 years any records of monitoring activities and results, and shall make such records available for inspection and copying by the City of Mountain View and Palo Alto Water Quality Control Plant. This period of retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the Industrial User or the operation of the POTW Pretreatment Program or when requested by the Director or the Regional Administrator.

XI. *Notification of Changed Discharge:* (40 CFR 403.12(j))

All Industrial Users shall promptly notify the City of Mountain View at 650-903-6378 and the Palo Alto Water Quality Control Plant at 650-329-2598 in advance of any substantial change in the volume or character of pollutants in their discharge, including the characteristic hazardous wastes for which the Industrial User has submitted initial notification under 40 CFR 403.12(p).

XI. *Notification of Bypass:* (40 CFR 403.17(c)(2))

All Industrial Users shall verbally notify the City of Mountain View at 650-903-6378 and Palo Alto Water Quality Control Plant at 650-329-2598 of an unanticipated bypass (intentional diversion of its wastestream from the treatment facility) within 24 hours from the time the Industrial User becomes aware of the bypass. A written submission shall also be provided within 5 days of the time the Industrial User becomes aware of the bypass. The written submission shall contain a description of the bypass and its cause; the duration of the bypass, including exact dates and times, and, if the bypass has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent reoccurrence of the bypass.

XII. *Transferability of Permit:* (MVCC 35.32.2.4)

This permit is not transferable without prior written notification to and approval by the City and the assumption of all permit conditions by the new owner/operator.

XIII. *Definition of Total Toxic Organics:* (40 CFR 469.12)

The term "total toxic organics" (TTO) means the sum of the concentrations for each of the following toxic organic components found in the discharge at a concentration greater than ten (10) micrograms per liter. The facility's local TTO and STO limits apply to all of the compounds listed below. Those compounds analyzed using EPA Method 601/602 or 624 are identified by a "■".

❑Acenaphthene	❑2-Chlorophenol	❑Methyl bromide	❑Diethyl phthalate	❑4,4-DDT

ENVIRONMENTAL PROGRAMS INVOICE

For period from April 1, 2007 to April 1, 2008

Facility ID:	**722**
Updated:	**5/30/2007**

Business Name
El Camino Paving, Inc.

Facility Street Address
924 San Rafael Avenue

PAYMENT DUE*:
$2,311.00

(*Make check payable to: "City of Mountain View", 500 Castro Street, City Hall, 4th Floor, Mountain View, CA 94041-2010)

*** LOCAL FEES ***

(These fees support the City of Mountain View's local code enforcement programs. For questions, contact Jaymae Wentker, Fire Marshal, at 650-903-6378.)

	Fee
Hazardous Materials Fee	
Combustible Liquid -- 1,613 Gal	$209.00
Corrosive Liquid -- 81 Gal	$209.00
Flammable Gas -- 2,400 Cu Ft	$314.00
Flammable Liquid -- 45 Gal	$105.00
Miscellaneous Liquid -- 700 Gal	$157.00
Nonflammable Gas -- 950 Cu Ft	$157.00
Nonregulated Solid -- 200 Lbs	$0.00
Fire Permit Fee This fee is calculated based on specific processes conducted and square footage of the facility.	$364.00
Wastewater Sampling and Analysis Fee This fee covers the City's cost of wastewater sampling and analysis. It is provided as a service in leiu of self-monitoring by the business.	
First quarter 2007 monitoring for copper, lead, and zinc	$57.00
Second quarter 2007 monitorning for copper, lead and zinc	$57.00
Third quarter 2007 monitoring for copper, lead and zinc	$129.00
4th quarter 2007 monitoring for Cu, Pb, and Zn	$129.00

COUNTY FEES

(These fees support the Santa Clara County Environmental Health Department's hazardous waste generator program. For questions, contact Nicole Pullman, CUPA Program Manager, at 408-918-1984.)

Hazardous Waste Generator Program Fee This fee is calculated based on the types and amounts of hazardous waste generated annually.	$400.00

*** STATE FEES ***

(These fees support various departments of Cal EPA. For questions, contact Kareem Taylor, Chief of the Unified Programs Section, at 916-327-9557.)

CUPA Oversight Service Charge This fee is established by Cal EPA to recover their oversight costs in administering the CUPA programs.	$24.00

ENVIRONMENTAL PROGRAMS NOTICE OF INSPECTION

Facility Name: El Camino Paving, Inc.
Facility Address: 924 San Rafael Avenue
Facility Contact: Stephanie Alva

Date: 11/29/16 **Fac ID:** 722 **Inspection #:** 8
Samples Taken? No **Photographs Taken?** No
Inspector(s): Patrick Mauri

Items From Previous Inspections Have Been Verified for Compliance. Only the Following Violations Remain:

HAZARDOUS MATERIALS PROGRAM VIOLATIONS:

HMO-1010 C1 • Business Plan Program - Administrative/Documentation General (19 CCR 4 Multiple; HSC 6.95 Multiple). **Location: Locate hazardous waste manifest for the last three years for Waste oil, waste antifreeze and waste absorbent so that accuracy of business plan can be verified.**

HMO-1015 C1 • Failure to obtain or renew a hazardous materials storage permit from the City of Mountain View. (MVCC §24.3.0). **Location: Business is operating without a hazardous materials storage permit. Obtain a permit with the City of Mountain View Fire and Environmental Protection Department.**

HMO-1030 C1 • Business Plan Program - Operations/Maintenance - General (19 CCR 4 Multiple; HSC 6.95 Multiple). **Location: Clean up all oil, diesel and concrete wash spills and prevent future spills from occurring.**

****

COMMENTS:

NOTICE TO COMPLY: A reinspection shall be conducted on or after 12/14/2016. Additional inspections after the first reinspection are billed at $321.00/hour. Failure to correct the above violations may result in administrative fines, civil or criminal penalties.

For Office Use Only:	☐ Routine ☒ Reinspection ☐ Referral ☐ Alarm	☐ Combined ☐ Joint ☐ Integrated or Multi-media

Inspections Comments:

Stephanie Alva met us on-site at approximately 11:05am and gave us permission to inspect the property. She stated that El Camino Paving is no longer in business and do not have any plans to conduct future paving operations. She also stated that her mother, Marie Alva, is selling the property and are currently in escrow. She stated they are trying to clean up the property for sale by removing the large construction debris stockpile, removing all remaining equipment and chemicals from the site, removing all of the hazardous waste remaining on-site by a licensed contractor and cleaning up any active spills. She also stated that Jose Perez was helping her clean up the site in his free time.

The following hazardous materials and hazardous waste were present/on-site during my inspection:

- Motor Oil – One 500 gallon tank of motor oil and one 55 gallon drum (on stilts, tipped to its side)
- Waste Oil - One full 55 gallon drum and one empty 55 gallon drum
- Waste Antifreeze - One 55 gallon drum
- Used absorbent – One 55 gallon drum
- Hydraulic Oil - Two 5 gallon buckets
- Automatic transmission fluid - 10 gallons in 5 gallon pails
- Used oil filters – One 55 gallon drum.
- Grease - 30 gallons in two 16 gallon drums
- Gear Oil - 10 gallons in 5 gallon pails
- Asphalt Sealants and emulsifiers – This includes crack sealers, conditioners and emulsifiers. 30 gallons of 5 gallon pails , several 5 gallon pails of dried out sealant and emulsifiers and around 30 empty 5 gallon pails
- 10 cylinders of propane (3 - 25 gallon cylinders, 2 - 7 gallon cylinders, and 5 - 5 gallon cylinders)
- Oxygen - Approximately 30 cu. ft. in 1 cylinder
- Acetylene - Approximately 70 cu. ft. in 2 cylinders
- Unknown Gas (No label but most likely Oxygen) - Approximately 70 cu. ft. in small green cylinder.
- 2 gallons of paint thinner
- 1 gallon of fuel injector cleaner

Date: 8/30/16 **Fac ID:** 722 **Inspection #:** 7
Samples Taken? No **Photographs Taken?** No
Inspector(s): Mauri

Items From Previous Inspections Have Been Verified for Compliance. Only the Following Violations Remain:

HAZARDOUS MATERIALS PROGRAM VIOLATIONS:

HMO-1.4 M • Organize and maintain all hazardous waste manifests and hazardous waste bills of lading in order to verify hazardous waste throughput information on the ECP. (MVCC Chapt. 24, §24.4.0.b). **Location: Locate all hazardous waste manifests for the past couple of years.**

HMO-1030 C1 • Business Plan Program - Operations/Maintenance - General (19 CCR 4 Multiple; HSC 6.95 Multiple). **Location: Oil, diesel and concrete wash spills still remain on-site. Address spills appropriately, quickly and do not leave absorbent on the ground. If vehicle leaks are persistent then use oil pans instead of absorbent. The debris pile needs to be covered and you need to prevent contaminated runoff from flowing offsite.**

HMO-1010001 C1 • Administrative/Documentation. Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities. (HSC 6.95 §25507). **Location: Site is currently operating without a permit. permit expired on 5/1/2015.**

HMO-1040001 C1 • Failure to report a release or threatened release of a hazardous material to the unified program agency and to OES. (HSC 6.95 §25510(a)). **Location: Based on storm water sampling results, this facility had releases of oil/diesel, metals and sediment into storm drain system.**

****

COMMENTS: This inspection report is to inform the owners of El Camino Paving that the above outstanding violations were noted on January 6, 2016. I was unable to make contact with anyone from El Camino Paving to inform them of the above violations until today.

NOTICE TO COMPLY: A reinspection shall be conducted on or after 9/13/2016. Additional inspections after the first reinspection are billed at $321.00/hour. Failure to correct the above violations may result in administrative fines, civil or criminal penalties.

Date: 7/9/15 **Fac ID:** 722 **Inspection #:** 1
Samples Taken? No **Photographs Taken?** No
Inspector(s): Mauri

The Following Violations Have Been Observed During This Inspection:

FIRE CODE PROGRAM VIOLATIONS:

- No violations observed.

HAZARDOUS MATERIALS PROGRAM VIOLATIONS:

HMO-1.4 M • Organize and maintain all hazardous waste manifests and hazardous waste bills of lading in order to verify hazardous waste throughput information on the ECP. (MVCC Chapt. 24, §24.4.0.b). **Location: Locate all hazardous waste manifests for the past couple of years.**

HMO-1.8 M • A business shall submit amendments to the ECP whenever changes in the information occur. Update the entire Environmental Compliance Plan. (MVCC Chapt. 24, §24.4.0.b). **Location: Update HMBP in CERS.**

HMO-3.1 M • All compressed gas cylinders in storage shall be adequately secured by approved noncombustible straps, chain, wire, etc. to prevent falling or being knocked over. Provide securement for compressed gas cylinder storage meeting this requirement. (MVCC Chapt. 24, §24.3.0.a). **Location: Secure propane cylinders.**

HMO-19.1 M • Secondary containment is required for all new storage facilities constructed or installed after 1/1/84. Provide secondary containment. If epoxy coatings are used on floors or containment areas, submit manufacturer's cut sheets showing the compatibility of the coating with the stored chemicals prior to applying the coating. (MVCC Chapt. 24, §24.3.0.q). **Location: For all containers that store hazardous material liquids and used batteries.**

HMO-19.3 M • Secondary containment shall not provide for the accumulation or storage of liquids (hazardous material liquids, precipitation, condensate, etc.). Remove accumulated liquids inside secondary containment and dispose of properly. (MVCC Chapt. 24, §24.3.0.q.2(d)). **Location: Remove accumulated liquid from secondary containment.**

HMO-29.1 M • Spill prevention and cleanup equipment shall be provided which is reasonable and appropriate for potential emergencies presented by the stored hazardous materials. Provide adequate cleanup equipment. (MVCC Chapt. 24, §24.3.4). **Location: Cleanup all spills and store used absorbent in proper container. do not leave it on the ground.**

HMO-34.1 M • Labels shall be made of durable material and replaced as needed due to normal aging and fading. Labels shall not be located where they might be obstructed. Labels shall be in English and other languages where appropriate. Provide/Repair labels for the following containers, materials, equipment or areas: (MVCC Chapt. 24, §24.3.8, 24.3.9.a): **Location: Replace waste labels on all waste drums.**

PRODUCT SHIPPING DESCRIPTION	WASTE CODE	MANIFEST	QUANTITY	PRICE	AMOUNT
NON-RCRA Waste Liquid Used Oil/Mixed Oils	221	002920113FE	150	min	35.00
NON-RCRA Waste Liquid Used Antifreeze	133				
NON-RCRA Waste Liquid Used Oily Water	223				
NON Hazardous Waste Liquid					
Trinity Heavy Duty premixed Antifreeze					
Trinity Extended Life premixed Antifreeze					
Trinity Case Goods					
Truck Wash Out					
Truck Time					

TERMS: Invoices over 30 Days are subject to a 1.5% service charge. Customer agrees to pay all legal fees if court action becomes necessary to collect this invoice.

TOTAL 35.00

By signing I herby certify that I have not mixed this waste with any other waste, that the total halides are less than 1000 P.P.M; and that the waste does not contain any P.C.B's, I further agree to accept the additional charges for legal disposal if the waste is over 1000 P.P.M. total halides, or contains any P.C.B's

Generator's Certification: By signing I certify that I have a program in place to reduce the volume and toxicity of hazardous waste generated to the degree I have determined to be economically practicable.
By both parties signing this invoice it will serve as an agreement that American Valley Waste Oil will submit confirmation for (certain waste streams) to the generator that their waste has been transported to a licensed treatment or transfer facility.

American Valley Waste Oil hereby advises the above Generator the Generators shipment of used oil may be transported to a facility that is required to comply with federal regulations applicable to management of used oil, but that is not required to comply with the more stringent requirements applicable to hazardous waste management facilities. California facilities that handle or process used oil are required to meet those more stringent requirements, and some out-of-state facilities that process used oil also meet those requirements, engineering certifications of tank integrity, and financial assurances for closure and accidental releases. It is lawful to send used oil to out-of-state facilities that comply only with federal used oil management standards and not these more stringent requirements.
This notification is for information purposes only.

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

The Hazardous Materials permit for El Camino Paving, Inc. expired on **May 1, 2012**. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's were not returned to the Mountain View Fire Department by the **May 1, 2012** deadline and are considered past due. All past due permit fees are subject to a late fee equal to double the annual permit fee.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP for 2012 (see attached) and 2013. Without a valid Hazardous Materials permit, El Camino Paving, Inc., is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with all past due permit renewal fees for 2012 and 2013, inclusive of penalties, in the amount of **$8749.00** respectively, to this department no later than **5:00pm June 17, 2013**.

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than **5:00pm June 17, 2013**.

Recycled Paper

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by **5:00pm June 17, 2013** will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on June 7, 2011, which was valid through May 1, 2012. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 1, 2012 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 13, 2012 with instructions to verify the accuracy of the ECP packet, sign the Business Owner/Operator and Business Plan Certification forms and return both with the permit fee to this office no later than April 2, 2012.

On April 4, 2012 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 1, 2012 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4,410.00 to this department no later than 5:00pm May 29, 2012.

Recycled Paper

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 29, 2012.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 29, 2012 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA ALVA and
STEPHANIE ALVA,

Respondents.
_____/

ADMINISTRATIVE DECISION

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on January 4, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondent Stephanie Alva appeared without counsel.

The hearing was held pursuant to Mountain View City Code Section (MVCCS) 1.29, as the City sought to enforce the compliance order of November 15, 2010 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that Respondents maintained violations of

MVCC 24.7, 24.7.1 and 24.7.3 at the Subject Property on November 15, 2010, and required correction of such violations by a Compliance Date of December 6, 2010. . Additionally, the City sought an order imposing administrative penalties and awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Fire Marshall Jaymae Wentker testified for the City.

Stephanie Alva testified for Respondents.

The following documents were offered by the City and admitted into evidence without objection:

1. Exhibit "C-1": Case file consisting of twenty-seven pages of copies of documents.

Respondents offered no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondents were the owners and operators of El Camino Paving, Inc., operating at the Subject Property.

2. Respondents did not contest the allegations of the Compliance Order and acknowledged that the corrections required by the Compliance Ordered had not been performed.

3. Respondents represented to the Hearing Officer that they would perform all the corrections required by the Compliance Order, forthwith.

4. Upon such representation, the City waived all administrative penalties and costs in this matter.

///

IV

DETERMINATION OF ISSUES

1. By reason of Findings of Facts Nos. 1 and 2, Respondents violated the Mountain View Municipal Code as alleged in the Compliance Order, and failed to correct the violations as required by the Compliance Order.

2. By reason of Findings of Facts Nos. 3 and 4, Respondents are not presently assessed administrative penalties or costs in this matter.

V

ORDERS

1. Respondents are ordered to perform, forthwith, the corrections required by the Compliance Order.

2. This matter is continued to April 5, 2011 at 1:30 p.m. for a review hearing

3. This decision is effective and final on the date below.

Dated: January 10, 2011

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

Dear Ms. Marie and Stephanie Alva:

RE: ADMINISTRATIVE HEARING FOR 924 SAN RAFAEL AVE.-FACILITY ID 722

Please be advised that an administrative hearing has been scheduled for Tuesday, **January 4, 2011**, at **3:30 p.m.**, in which you are required to attend. In the event you comply with the requirements of the attached Compliance Order on or before the compliance date the hearing will be cancelled. The hearing will take place at Mountain View City Hall, 500 Castro Street-3rd floor, in the City Attorney's Office.

If you have any questions or need further assistance, please feel free to contact me at (650) 903-6821. Thank you for your cooperation.

Sincerely,

Jaymae Wentker

1) **Review the "Quick Check" items and update your enclosed ECP with a red pen. Cross out any incorrect information and correct it;**

2) **Have a corporate officer of at least the level of Vice-President, General Partner, or Sole Proprietor sign and date the bottom of:**
   - **the "Business Owner/Operator Identification" form;**
   - **the "Tiered Permitting" form (Facility page); and**
   - **the "Underground Storage Tank" form (Facility page)**

   (the last two forms are only included in your packet if they apply to you);

3) **Make a complete copy of these forms to keep for your files;**

4) **Send all amended forms and all signature forms to us at the above address NO LATER THAN APRIL 1, 2010; and**

5) **Include a check for any applicable fees with the ECP submittal. Make checks payable to: City of Mountain View**

If you have any questions as you complete and update these forms, please contact either Chris Steck at (650) 903-6816 or Patrick Mauri at (650) 903-6143.

Sincerely,
Mountain View Fire Department

permittee, city may, in its discretion, require such applicant or permittee, at such applicant's or permittee's sole cost and expense, to retain a suitably qualified independent engineer, or chemist, or other appropriate professional consultant, acceptable to city, for the purpose of evaluating and rendering a professional opinion respecting the adequacy of such submittal, design, monitoring, testing, or evaluation to achieve the purposes of this chapter. City shall be entitled to rely on such evaluation and/or opinion of such engineer, chemist or professional consultant in making the relevant determinations provided for in this chapter.

DIVISION II. MATERIALS REGULATED.

SEC. 24.2.0. Materials regulated.

The materials regulated by this chapter shall consist of any materials that, because of their quantity, concentration or physical or chemical characteristics, pose a significant present or potential physical or health hazard to human health and safety, to property or to the environment if released into the workplace or the environment. These shall include, but not be limited to:

a. Any material regulated under Section 25501 or 25532 of Chapter 6.95 of the California Health and Safety Code.

b. Any material regulated under Section 25281 of Chapter 6.7 of the California Health and Safety Code.

c. Any material regulated by the California Fire Code.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code.

e. Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code.

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

SEC. 24.2.1. Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his/her designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In

addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Noncryogenic carbon dioxide compressed gas used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Stationary Storage Battery Systems.** Batteries used for facility standby power, emergency power or uninterrupted power supplies in which the liquid electrolyte in the cells is immobilized (i.e., AGM-absorptive glass mat, gel cell) and contain less than 55 gallons (aggregate) quantity.

e. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
200 cubic feet	Nonflammable gas
200 cubic feet	Flammable gas

* Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

e. **Exemption.** The city shall exempt any material from the requirements of this chapter where it has been demonstrated to the satisfaction of city that the material in

DIVISION VII. APPLICATIONS AND PERMITS.*

* Prior ordinance history: Ord. No. 25.83.

SEC. 24.7.0. Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his/her designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his/her designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Sec. 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his/her designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his/her designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his/her designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Section 25281(f).

SEC. 24.7.1. Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his/her designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

2. "In my professional opinion, contamination has been found which may pose a significant health risk, based on the quantity, toxicity and location of the contamination, as well as the proposed use of the site and potential activities of persons on the site. Further remedial action is warranted to reduce this risk to acceptable levels and to comply with local, state, and federal guidelines, regulations and laws."

SEC. 24.7.3. Fees.

City shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMMPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

City may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations).

DIVISION VIII. REMEDIAL ACTION.

SEC. 24.8.0. Notice of violation.

Unless the fire chief or his/her designee finds that an immediate suspension under Sec. 24.9.2. is necessary to protect the environment, public health, safety, or welfare from imminent danger, the officer shall issue a notice of violation for:

Failure to comply with the provisions of this chapter, any permit conditions, any compliance directives or any provisions of the hazardous materials management plan within the time specified in the inspection notice, permit or compliance directive; or fraud, willful misrepresentation, or any willful inaccurate or false statement in applying for a new, amended or renewed permit; or fraud, willful misrepresentation, or any willful inaccurate or false statement in any report required by this chapter.

The notice of violation shall specify: (a) dates when initial and follow-up inspections were conducted; (b) provisions of this chapter, permit conditions, compliance directives, or provisions of the hazardous materials management plan found to be in violation; (c) inaccurate or false statements made in permit applications or reports; (d) any applicable fines or other charges due for payment; and (e) deadline dates for compliance and payment of fines or other charges. Such notice shall be sent by certified mail to permittee. If the violation is not abated, corrected, or rectified and

DUE DATE: April 1, 2010

Enclosed is your 2009 Environmental Compliance Plan (ECP). The ECP contains the latest information you submitted to us. It also includes updates and corrections from our most recent inspections of your facility. You are required to:

1) **Review the "Quick Check" items and update your enclosed ECP with a red pen. Cross out any incorrect information and correct it;**

2) **Have a corporate officer of at least the level of Vice-President, General Partner, or Sole Proprietor sign and date the bottom of:**
   - **the "Business Owner/Operator Identification" form;**
   - **the "Tiered Permitting" form (Facility page); and**
   - **the "Underground Storage Tank" form (Facility page)**

   (the last two forms are only included in your packet if they apply to you);

3) **Make a complete copy of these forms to keep for your files;**

4) **Send all amended forms and all signature forms to us at the above address NO LATER THAN APRIL 1, 2010; and**

5) **Include a check for any applicable fees with the ECP submittal. Make checks payable to: City of Mountain View**

If you have any questions as you complete and update these forms, please contact either Chris Steck at (650) 903-6816 or Patrick Mauri at (650) 903-6143.

Sincerely,
Mountain View Fire Department

NOTICE OF PERMIT EXPIRATION

May 12, 2010

Mr. Estevan L. Alva
El Camino Paving, Inc.
[redacted]

SENT CERTIFIED

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on August 12, 2009, which was valid through May 1, 2010. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 3, 2010 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 25, 2010 with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010.

On April 5, 2010 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4400 to this department no later than 5:00pm May 21, 2010.

(Incorrect- #278 to high)

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 21, 2010.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 21, 2010 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker
Fire Marshal

SENT CERTIFIED MAIL

RE: 924 SAN RAFAEL AVENUE- EXPIRED HAZARDOUS MATERIALS PERMIT

Dear Mr. Alva:

Please be advised that this matter has been referred to the City Attorney's Office for further handling. El Camino Paving, Inc. was issued an annual Hazardous Materials Permit on August 12, 2009. This permit expired on May 1, 2010. El Camino Paving, Inc. is required to renew the Hazardous Materials Permit each year and update its Environmental Compliance Plan (ECP) for accuracy annually. It is my understanding that El Camino Paving, Inc. has not submitted the requisite Permit fees and ECP.

The Fire and Environmental Protection Division has extended you every courtesy and opportunity to comply with the permitting requirements.

On February 25, 2010, an Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010. El Camino Paving, Inc. failed to submit the documentation required to renew the Hazardous Materials Permit or pay the permit fee.

On April 5, 2010, the City issued El Camino Paving, Inc. a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

On May 12, 2010, Fire Marshall Jaymae Wentker provided El Camino Paving, Inc. with yet a third opportunity to comply with the permitting requirements for hazardous materials.

Recycled Paper

El Camino Paving, Inc. remains in violation of Chapter 24 of the Mountain View City Code. Please be advised that these violations of the City Code are misdemeanors and failure to renew the Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by July 9, 2010 will result in enforcement action. Specifically, the City will issue an Administrative Citation for violation of Mountain View City Code § 24.7.0, failure to obtain hazardous materials permit. The penalty for each violation of Mountain View City Code § 24.7.0 is $750.00 per day. An Abatement Order will be issued to the property owner, Estevan L. Alva requiring removal of all hazardous materials from the business immediately.

If El Camino Paving, Inc. chooses to abandon its use of hazardous materials in quantities requiring a Hazardous Materials permit, the hazardous materials inventory must be reduced below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and the Fire Marshal must be notified in writing of El Camino Paving Inc's intention to reduce the quantity of hazardous materials inventory no later than 5:00 p.m. on July 9, 2010.

Sincerely,

Jannie L. Quinn
City Attorney

REQUEST FOR HEARING

Name (*Last Name, First Name*) and Address (*please Print or Type*):

_____

_____

_____

_____

Home Telephone No.: _____ Work Telephone No.: _____

Citation No.: _____ Date: _____ Penalty Amount: $_____

I request that a hearing be scheduled to contest the administrative citation. I have posted an advance deposit of the full amount of the administrative penalty or have requested an advance deposit hardship waiver as described below. I understand that I may be found liable for administrative costs incurred by the City in connection with the hearing. I understand that to be eligible for a hearing, this request must be submitted within 30 days of the issuance of the citation.

Signature: _____ Date: _____

Advance Deposit Hardship Waiver

Any person who intends to request a hearing to contest an administrative citation and who claims to be financially unable to make the advance deposit of the fine may file a request for an advance deposit hardship waiver. The request shall be filed with the Fire and Environmental Protection Division within thirty (30) days following the date of service of the administrative citation. A request for an advance deposit hardship waiver shall consist of a sworn declaration, together with any supporting evidence demonstrating to the satisfaction of the Fire and Environmental Protection Division the person's actual financial inability to deposit the full amount of the fine in advance of the hearing. The requirement of depositing the full amount of the administrative penalty shall be stayed unless or until the Fire and Environmental Protection Division makes a determination not to issue an advance deposit hardship waiver. If the Fire and Environmental Protection Division determines not to issue an advance deposit hardship waiver, the person shall remit the deposit to the City within ten (10) days of that decision in order to secure the hearing. The Fire and Environmental Protection Division shall issue a written determination listing the reasons for determining to issue or not to issue the advance deposit hardship waiver. The written determination of the Fire and Environmental Protection Division shall be final, subject only to judicial review as provided by law. The written determination of the Fire and Environmental Protection Division shall be served upon the person who applied for the advance deposit hardship waiver.

In compliance with ADA regulations, if you need special assistance at your hearing, please notify the City at (650) 903-6378 at least 72 hours before your hearing date.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code

e Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97; Ord. No. 9.07, 11/27/07.)

SEC. 24.2.1. - Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Materials used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
350 cubic feet (one cylinder)	Nonflammable gas
180 cubic feet (one cylinder)	Flammable gas

Editor's note—

* Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid

SEC. 24.7.0. - Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Section 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Section 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed;

(3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed

hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material, or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25281(f).

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.1. - Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.2. - Closure approvals.

a. Persons, firms or corporations storing, handling or dispensing hazardous or other regulated materials in amounts exceeding the exempt amounts specified in Section 24.2.1 shall apply for approval to close such storage facility not less than thirty (30) days prior to the termination of the storage of hazardous or other regulated materials at the storage facility. This thirty (30) day period may be reduced or waived by city if there are special circumstances justifying such waiver. The property owner of the property upon which the storage facility exists shall be responsible for the closure in the event of the facility being abandoned or when the facility operator has not complied with Sec. 24.7.0 and 24.3.1 of this chapter. Such closure plan shall be acceptable to the city. The closure plan shall adequately describe procedures for terminating the storage of hazardous or other regulated materials in each storage facility in a manner that:

1. Minimizes the need for further maintenance; and

2. Verifies that any threat to public health or safety or to the environment from residual hazardous or other regulated materials in or from the storage facility is adequately minimized or eliminated. Basis of this verification may include but is not limited to visual inspections, records review, the analytical results of soil or groundwater samples, wipe samples, etc;

3. Demonstrates that hazardous or other regulated materials that were stored in the storage facility will be removed, disposed of, neutralized, or reused in an appropriate manner, and in compliance

RE: 924 SAN RAFAEL AVENUE-PAST DUE HAZARDOUS MATERIALS PERMIT FEES AND ENVIRONMNETAL COMPLIANCE PLAN PAPERWORK

Dear Ms. Alva:

I want to thank both of you for meeting with City staff on October 7, 2010. This letter shall serve as a follow up to the meeting of October 7, 2010, at the City of Mountain View-City Hall, with Fire Marshal Jaymae Wentker and Assistant City Attorney Lance Bayer. As discussed, El Camino Paving is currently operating their business without benefit of a City issued Hazardous Materials Permit. Additionally, El Camino Paving has failed to complete and return the required paperwork, and remit the applicable permit fees as part of the annual hazardous material permit renewal process.

During the meeting it was agreed that the City would mail you a copy of your Environmental Compliance Plan and afford you no later than November 8, 2010 to remit full payment, in the amount of **$5,150.00**, to renew your past due permit fees. (The total of $5,150.00 is inclusive of the late penalty fee equal to 100% of the annual permit fee, as well as $750.00 incurred as a result of the Administrative Penalty issued to El Camino Paving August 11, 2010).

$278 [illegible] to high

Please review your Environmental Compliance Plan, as instructed in the cover letter, and return any changes, along with the signed Directory no later than **October 22, 2010**.

Make checks payable to: City of Mountain View, 500 Castro Street-4th Floor, Mountain View, CA 94041

Thank you for your cooperation, and please contact me directly if you have any questions.

Sincerely,

Jaymae Wentker
Fire Marshal

DUE DATE: April 1, 2010

Enclosed is your 2009 Environmental Compliance Plan (ECP). The ECP contains the latest information you submitted to us. It also includes updates and corrections from our most recent inspections of your facility. You are required to:

1) **Review the "Quick Check" items and update your enclosed ECP with a red pen. Cross out any incorrect information and correct it;**

2) **Have a corporate officer of at least the level of Vice-President, General Partner, or Sole Proprietor sign and date the bottom of:**
   - **the "Business Owner/Operator Identification" form;**
   - **the "Tiered Permitting" form (Facility page); and**
   - **the "Underground Storage Tank" form (Facility page)**

   (the last two forms are only included in your packet if they apply to you);

3) **Make a complete copy of these forms to keep for your files;**

4) **Send all amended forms and all signature forms to us at the above address NO LATER THAN APRIL 1, 2010; and**

5) **Include a check for any applicable fees with the ECP submittal. Make checks payable to: City of Mountain View**

If you have any questions as you complete and update these forms, please contact either Chris Steck at (650) 903-6816 or Patrick Mauri at (650) 903-6143.

Sincerely,
Mountain View Fire Department

NOTICE OF PERMIT EXPIRATION

May 12, 2010

Mr. Estevan L. Alva
El Camino Paving, Inc.
[redacted]

SENT CERTIFIED

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on August 12, 2009, which was valid through May 1, 2010. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 3, 2010 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 25, 2010 with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010.

On April 5, 2010 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4400 to this department no later than 5:00pm May 21, 2010.

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 21, 2010.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 21, 2010 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker
Fire Marshal

SENT CERTIFIED MAIL

RE: 924 SAN RAFAEL AVENUE- EXPIRED HAZARDOUS MATERIALS PERMIT

Dear Mr. Alva:

Please be advised that this matter has been referred to the City Attorney's Office for further handling. El Camino Paving, Inc. was issued an annual Hazardous Materials Permit on August 12, 2009. This permit expired on May 1, 2010. El Camino Paving, Inc. is required to renew the Hazardous Materials Permit each year and update its Environmental Compliance Plan (ECP) for accuracy annually. It is my understanding that El Camino Paving, Inc. has not submitted the requisite Permit fees and ECP.

The Fire and Environmental Protection Division has extended you every courtesy and opportunity to comply with the permitting requirements.

On February 25, 2010, an Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010. El Camino Paving, Inc. failed to submit the documentation required to renew the Hazardous Materials Permit or pay the permit fee.

On April 5, 2010, the City issued El Camino Paving, Inc. a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

On May 12, 2010, Fire Marshall Jaymae Wentker provided El Camino Paving, Inc. with yet a third opportunity to comply with the permitting requirements for hazardous materials.

Recycled Paper

El Camino Paving, Inc. remains in violation of Chapter 24 of the Mountain View City Code. Please be advised that these violations of the City Code are misdemeanors and failure to renew the Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by July 9, 2010 will result in enforcement action. Specifically, the City will issue an Administrative Citation for violation of Mountain View City Code § 24.7.0, failure to obtain hazardous materials permit. The penalty for each violation of Mountain View City Code § 24.7.0 is $750.00 per day. An Abatement Order will be issued to the property owner, Estevan L. Alva requiring removal of all hazardous materials from the business immediately.

If El Camino Paving, Inc. chooses to abandon its use of hazardous materials in quantities requiring a Hazardous Materials permit, the hazardous materials inventory must be reduced below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and the Fire Marshal must be notified in writing of El Camino Paving Inc's intention to reduce the quantity of hazardous materials inventory no later than 5:00 p.m. on July 9, 2010.

Sincerely,

Jannie L. Quinn
City Attorney

REQUEST FOR HEARING

Name (*Last Name, First Name*) and Address (*please Print or Type*):

_____

_____

_____

_____

Home Telephone No.: _____ Work Telephone No.: _____

Citation No.: _____ Date: _____ Penalty Amount: $_____

I request that a hearing be scheduled to contest the administrative citation. I have posted an advance deposit of the full amount of the administrative penalty or have requested an advance deposit hardship waiver as described below. I understand that I may be found liable for administrative costs incurred by the City in connection with the hearing. I understand that to be eligible for a hearing, this request must be submitted within 30 days of the issuance of the citation.

Signature: _____ Date: _____

Advance Deposit Hardship Waiver

Any person who intends to request a hearing to contest an administrative citation and who claims to be financially unable to make the advance deposit of the fine may file a request for an advance deposit hardship waiver. The request shall be filed with the Fire and Environmental Protection Division within thirty (30) days following the date of service of the administrative citation. A request for an advance deposit hardship waiver shall consist of a sworn declaration, together with any supporting evidence demonstrating to the satisfaction of the Fire and Environmental Protection Division the person's actual financial inability to deposit the full amount of the fine in advance of the hearing. The requirement of depositing the full amount of the administrative penalty shall be stayed unless or until the Fire and Environmental Protection Division makes a determination not to issue an advance deposit hardship waiver. If the Fire and Environmental Protection Division determines not to issue an advance deposit hardship waiver, the person shall remit the deposit to the City within ten (10) days of that decision in order to secure the hearing. The Fire and Environmental Protection Division shall issue a written determination listing the reasons for determining to issue or not to issue the advance deposit hardship waiver. The written determination of the Fire and Environmental Protection Division shall be final, subject only to judicial review as provided by law. The written determination of the Fire and Environmental Protection Division shall be served upon the person who applied for the advance deposit hardship waiver.

In compliance with ADA regulations, if you need special assistance at your hearing, please notify the City at (650) 903-6378 at least 72 hours before your hearing date.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code.

e. Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code.

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97; Ord. No. 9.07, 11/27/07.)

SEC. 24.2.1. - Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Materials used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
350 cubic feet (one cylinder)	Nonflammable gas
180 cubic feet (one cylinder)	Flammable gas

Editor's note—

* Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid

SEC. 24.7.3. - Fees.

SEC. 24.7.0. - Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Section 24.2:1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Section 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed;

(3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed

hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25281(f).

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.1. - Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.2. - Closure approvals.

a. Persons, firms or corporations storing, handling or dispensing hazardous or other regulated materials in amounts exceeding the exempt amounts specified in Section 24.2.1 shall apply for approval to close such storage facility not less than thirty (30) days prior to the termination of the storage of hazardous or other regulated materials at the storage facility. This thirty (30) day period may be reduced or waived by city if there are special circumstances justifying such waiver. The property owner of the property upon which the storage facility exists shall be responsible for the closure in the event of the facility being abandoned or when the facility operator has not complied with Sec. 24.7.0 and 24.3.1 of this chapter. Such closure plan shall be acceptable to the city. The closure plan shall adequately describe procedures for terminating the storage of hazardous or other regulated materials in each storage facility in a manner that:

1. Minimizes the need for further maintenance; and

2. Verifies that any threat to public health or safety or to the environment from residual hazardous or other regulated materials in or from the storage facility is adequately minimized or eliminated. Basis of this verification may include but is not limited to visual inspections, records review, the analytical results of soil or groundwater samples, wipe samples, etc;

3. Demonstrates that hazardous or other regulated materials that were stored in the storage facility will be removed, disposed of, neutralized, or reused in an appropriate manner, and in compliance

RE: 924 SAN RAFAEL AVENUE-PAST DUE HAZARDOUS MATERIALS PERMIT FEES AND ENVIRONMNETAL COMPLIANCE PLAN PAPERWORK

Dear Ms. Alva:

I want to thank both of you for meeting with City staff on October 7, 2010. This letter shall serve as a follow up to the meeting of October 7, 2010, at the City of Mountain View-City Hall, with Fire Marshal Jaymae Wentker and Assistant City Attorney Lance Bayer. As discussed, El Camino Paving is currently operating their business without benefit of a City issued Hazardous Materials Permit. Additionally, El Camino Paving has failed to complete and return the required paperwork, and remit the applicable permit fees as part of the annual hazardous material permit renewal process.

During the meeting it was agreed that the City would mail you a copy of your Environmental Compliance Plan and afford you no later than November 8, 2010 to remit full payment, in the amount of **$5,150.00**, to renew your past due permit fees. (The total of $5,150.00 is inclusive of the late penalty fee equal to 100% of the annual permit fee, as well as $750.00 incurred as a result of the Administrative Penalty issued to El Camino Paving August 11, 2010).

Please review your Environmental Compliance Plan, as instructed in the cover letter, and return any changes, along with the signed Directory no later than **October 22, 2010**.

Make checks payable to: City of Mountain View, 500 Castro Street-4th Floor, Mountain View, CA 94041

Thank you for your cooperation, and please contact me directly if you have any questions.

Sincerely,

Jaymae Wentker
Fire Marshal

for: 924 San Rafael Avenue

DUE DATE: April 1, 2010

Enclosed is your 2009 Environmental Compliance Plan (ECP). The ECP contains the latest information you submitted to us. It also includes updates and corrections from our most recent inspections of your facility. You are required to:

1) **Review the "Quick Check" items and update your enclosed ECP with a red pen. Cross out any incorrect information and correct it;**

2) **Have a corporate officer of at least the level of Vice-President, General Partner, or Sole Proprietor sign and date the bottom of:**
   - **the "Business Owner/Operator Identification" form;**
   - **the "Tiered Permitting" form (Facility page); and**
   - **the "Underground Storage Tank" form (Facility page)**

   (the last two forms are only included in your packet if they apply to you);

3) **Make a complete copy of these forms to keep for your files;**

4) **Send all amended forms and all signature forms to us at the above address NO LATER THAN APRIL 1, 2010; and**

5) **Include a check for any applicable fees with the ECP submittal. Make checks payable to: City of Mountain View**

If you have any questions as you complete and update these forms, please contact either Chris Steck at (650) 903-6816 or Patrick Mauri at (650) 903-6143.

Sincerely,
Mountain View Fire Department

permittee, city may, in its discretion, require such applicant or permittee, at such applicant's or permittee's sole cost and expense, to retain a suitably qualified independent engineer, or chemist, or other appropriate professional consultant, acceptable to city, for the purpose of evaluating and rendering a professional opinion respecting the adequacy of such submittal, design, monitoring, testing, or evaluation to achieve the purposes of this chapter. City shall be entitled to rely on such evaluation and/or opinion of such engineer, chemist or professional consultant in making the relevant determinations provided for in this chapter.

DIVISION II. MATERIALS REGULATED.

SEC. 24.2.0. Materials regulated.

The materials regulated by this chapter shall consist of any materials that, because of their quantity, concentration or physical or chemical characteristics, pose a significant present or potential physical or health hazard to human health and safety, to property or to the environment if released into the workplace or the environment. These shall include, but not be limited to:

a. Any material regulated under Section 25501 or 25532 of Chapter 6.95 of the California Health and Safety Code.

b. Any material regulated under Section 25281 of Chapter 6.7 of the California Health and Safety Code.

c. Any material regulated by the California Fire Code.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code.

e. Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code.

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

SEC. 24.2.1. Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his/her designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In

addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Noncryogenic carbon dioxide compressed gas used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Stationary Storage Battery Systems.** Batteries used for facility standby power, emergency power or uninterrupted power supplies in which the liquid electrolyte in the cells is immobilized (i.e., AGM-absorptive glass mat, gel cell) and contain less than 55 gallons (aggregate) quantity.

e. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
200 cubic feet	Nonflammable gas
200 cubic feet	Flammable gas

* Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

e. **Exemption.** The city shall exempt any material from the requirements of this chapter where it has been demonstrated to the satisfaction of city that the material in

DIVISION VII. APPLICATIONS AND PERMITS.*

* Prior ordinance history: Ord. No. 25.83.

SEC. 24.7.0. Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his/her designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his/her designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Sec. 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his/her designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his/her designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his/her designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Section 25281(f).

SEC. 24.7.1. Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his/her designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

2. "In my professional opinion, contamination has been found which may pose a significant health risk, based on the quantity, toxicity and location of the contamination, as well as the proposed use of the site and potential activities of persons on the site. Further remedial action is warranted to reduce this risk to acceptable levels and to comply with local, state, and federal guidelines, regulations and laws."

SEC. 24.7.3. Fees.

City shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMMPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

City may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations).

DIVISION VIII. REMEDIAL ACTION.

SEC. 24.8.0. Notice of violation.

Unless the fire chief or his/her designee finds that an immediate suspension under Sec. 24.9.2. is necessary to protect the environment, public health, safety, or welfare from imminent danger, the officer shall issue a notice of violation for:

Failure to comply with the provisions of this chapter, any permit conditions, any compliance directives or any provisions of the hazardous materials management plan within the time specified in the inspection notice, permit or compliance directive; or fraud, willful misrepresentation, or any willful inaccurate or false statement in applying for a new, amended or renewed permit; or fraud, willful misrepresentation, or any willful inaccurate or false statement in any report required by this chapter.

The notice of violation shall specify: (a) dates when initial and follow-up inspections were conducted; (b) provisions of this chapter, permit conditions, compliance directives, or provisions of the hazardous materials management plan found to be in violation; (c) inaccurate or false statements made in permit applications or reports; (d) any applicable fines or other charges due for payment; and (e) deadline dates for compliance and payment of fines or other charges. Such notice shall be sent by certified mail to permittee. If the violation is not abated, corrected, or rectified and

REQUEST FOR HEARING

Name (*Last Name, First Name*) and Address (*please Print or Type*):

_____

_____

_____

_____

Home Telephone No.: _____ Work Telephone No.: _____

Citation No.: _____ Date: _____ Penalty Amount: $_____

I request that a hearing be scheduled to contest the administrative citation. I have posted an advance deposit of the full amount of the administrative penalty or have requested an advance deposit hardship waiver as described below. I understand that I may be found liable for administrative costs incurred by the City in connection with the hearing. I understand that to be eligible for a hearing, this request must be submitted within 30 days of the issuance of the citation.

Signature: _____ Date: _____

Advance Deposit Hardship Waiver

Any person who intends to request a hearing to contest an administrative citation and who claims to be financially unable to make the advance deposit of the fine may file a request for an advance deposit hardship waiver. The request shall be filed with the Fire and Environmental Protection Division within thirty (30) days following the date of service of the administrative citation. A request for an advance deposit hardship waiver shall consist of a sworn declaration, together with any supporting evidence demonstrating to the satisfaction of the Fire and Environmental Protection Division the person's actual financial inability to deposit the full amount of the fine in advance of the hearing. The requirement of depositing the full amount of the administrative penalty shall be stayed unless or until the Fire and Environmental Protection Division makes a determination not to issue an advance deposit hardship waiver. If the Fire and Environmental Protection Division determines not to issue an advance deposit hardship waiver, the person shall remit the deposit to the City within ten (10) days of that decision in order to secure the hearing. The Fire and Environmental Protection Division shall issue a written determination listing the reasons for determining to issue or not to issue the advance deposit hardship waiver. The written determination of the Fire and Environmental Protection Division shall be final, subject only to judicial review as provided by law. The written determination of the Fire and Environmental Protection Division shall be served upon the person who applied for the advance deposit hardship waiver.

In compliance with ADA regulations, if you need special assistance at your hearing, please notify the City at (650) 903-6378 at least 72 hours before your hearing date.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code.

e. Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code.

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97; Ord. No. 9.07, 11/27/07.)

SEC. 24.2.1. - Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Materials used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
350 cubic feet (one cylinder)	Nonflammable gas
180 cubic feet (one cylinder)	Flammable gas

Editor's note—

* Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid

SEC. 24.7.3. - Fees.

SEC. 24.7.0. - Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Section 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Section 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed;

(3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed

hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25281(f).

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.1. - Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.2. - Closure approvals.

a. Persons, firms or corporations storing, handling or dispensing hazardous or other regulated materials in amounts exceeding the exempt amounts specified in Section 24.2.1 shall apply for approval to close such storage facility not less than thirty (30) days prior to the termination of the storage of hazardous or other regulated materials at the storage facility. This thirty (30) day period may be reduced or waived by city if there are special circumstances justifying such waiver. The property owner of the property upon which the storage facility exists shall be responsible for the closure in the event of the facility being abandoned or when the facility operator has not complied with Sec. 24.7.0 and 24.3.1 of this chapter. Such closure plan shall be acceptable to the city. The closure plan shall adequately describe procedures for terminating the storage of hazardous or other regulated materials in each storage facility in a manner that:

1. Minimizes the need for further maintenance; and

2. Verifies that any threat to public health or safety or to the environment from residual hazardous or other regulated materials in or from the storage facility is adequately minimized or eliminated. Basis of this verification may include but is not limited to visual inspections, records review, the analytical results of soil or groundwater samples, wipe samples, etc;

3. Demonstrates that hazardous or other regulated materials that were stored in the storage facility will be removed, disposed of, neutralized, or reused in an appropriate manner, and in compliance

SENT CERTIFIED MAIL

RE: 924 SAN RAFAEL AVENUE- EXPIRED HAZARDOUS MATERIALS PERMIT

Dear Mr. Alva:

Please be advised that this matter has been referred to the City Attorney's Office for further handling. El Camino Paving, Inc. was issued an annual Hazardous Materials Permit on August 12, 2009. This permit expired on May 1, 2010. El Camino Paving, Inc. is required to renew the Hazardous Materials Permit each year and update its Environmental Compliance Plan (ECP) for accuracy annually. It is my understanding that El Camino Paving, Inc. has not submitted the requisite Permit fees and ECP.

The Fire and Environmental Protection Division has extended you every courtesy and opportunity to comply with the permitting requirements.

On February 25, 2010, an Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010. El Camino Paving, Inc. failed to submit the documentation required to renew the Hazardous Materials Permit or pay the permit fee.

On April 5, 2010, the City issued El Camino Paving, Inc. a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

On May 12, 2010, Fire Marshall Jaymae Wentker provided El Camino Paving, Inc. with yet a third opportunity to comply with the permitting requirements for hazardous materials.

NOTICE OF PERMIT EXPIRATION

May 12, 2010

Mr. Estevan L. Alva
El Camino Paving, Inc.
[redacted]

SENT CERTIFIED

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on August 12, 2009, which was valid through May 1, 2010. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 3, 2010 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 25, 2010 with instructions to verify the accuracy of the ECP packet, sign the facility directory and return both with the permit fee to this office no later than April 1, 2010.

On April 5, 2010 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 3, 2010 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4400 to this department no later than 5:00pm May 21, 2010.

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 21, 2010.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 21, 2010 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker
Fire Marshal

for: 924 San Rafael Avenue

DUE DATE: April 1, 2010

Enclosed is your 2009 Environmental Compliance Plan (ECP). The ECP contains the latest information you submitted to us. It also includes updates and corrections from our most recent inspections of your facility. You are required to:

1) **Review the "Quick Check" items and update your enclosed ECP with a red pen. Cross out any incorrect information and correct it;**

2) **Have a corporate officer of at least the level of Vice-President, General Partner, or Sole Proprietor sign and date the bottom of:**
   - **the "Business Owner/Operator Identification" form;**
   - **the "Tiered Permitting" form (Facility page); and**
   - **the "Underground Storage Tank" form (Facility page)**

   (the last two forms are only included in your packet if they apply to you);

3) **Make a complete copy of these forms to keep for your files;**

4) **Send all amended forms and all signature forms to us at the above address NO LATER THAN APRIL 1, 2010; and**

5) **Include a check for any applicable fees with the ECP submittal. Make checks payable to: City of Mountain View**

If you have any questions as you complete and update these forms, please contact either Chris Steck at (650) 903-6816 or Patrick Mauri at (650) 903-6143.

Sincerely,
Mountain View Fire Department

April 5, 2010

for: 924 San Rafael Avenue

LATE NOTICE

This letter is to remind you that your completed Environmental Compliance Plan (ECP) and all applicable fees **were due April 1, 2010.** Those facilities which have not turned in their completed ECP and appropriate fees to our office by **5:00 pm, Monday May 3, 2010,** will be subject to **double fees** and possible civil penalties. There will be **no exceptions or extensions granted.**

If you need an additional copy of your ECP, please stop by our office located at 500 Castro Street, City Hall-4th Floor. There is a $10.00 reprinting charge. Please call ahead (650-903-6821) to ensure staff is available to assist you.

Thank you for your prompt attention to this matter. If you have submitted your ECP within the last few days, please disregard this notice.

Sincerely,

Jaymae Wentker

Lance Bayer, Assistant City Attorney
City of Mountain View
500 Castro Street, 3rd Floor
Mountain View, CA 94041

Re: Fire Compliance 924/940 San Rafael Avenue – El Camino Paving, Inc.

Dear Mr. Bayer:

Following up on our discussion at the compliance hearing on February 4, I wanted to set forth the compliance proposal for El Camino Paving, Inc. (ECP) consistent with that discussion. The components of that proposed resolution are as follows:

1. The Compliance Order dated June 25, 2013 requires payment of fees and costs in the sum of $9,904.00.

2. The enforcement costs portion of that sum, in the amount of $1,155.00, was paid by ECP to the City of Mountain View on February 4, 2014.

3. On February 28, 2013 ECP paid to the City of Mountain View the amount of $2,639.00, being the base fees for 2012-2013, before application of the fee doubling penalties.

4. The remaining balance of $6,110.00 will be paid by ECP under one of the following two options, at ECP's choice:

a. Paid in full by noon on April 1; or

b. Paid in full by June 28, 2014. Should ECP choose this option then payment in full shall be secured either by bond or note and deed of trust, at ECP's choice, as follows:

5. ECP shall submit the 2013 Hazardous Materials Inventory by noon on April 1, 2014.

6. The City will inform ECP of the fees due pursuant to the 2014 inventory within 10 business days of receipt of the inventory from ECP.

7. ECP will pay all fees associated with the 2014 inventory on or before April 30, 2014.

8. Upon ECP's timely completion of all of the items described above, the City will waive the Administrative Citation issued on June 25, 2013 in the amount of $750.00.

If this proposal is acceptable, I think the next step would be to convert it into a compliance agreement using whatever standard form the City typically utilizes.

Please call me with any questions you may have regarding this matter.

Very truly yours,

BARTON G. HECHTMAN

Re: Fire Compliance 924/940 San Rafael Avenue – El Camino Paving, Inc.

Dear Fire Marshall Wentker:

I appreciate your efforts and those of Patrick Mauri to help me understand the technical issues associated with El Camino Paving's compliance with your local regulations. I now understand El Camino Paving's short-comings that led to the administrative actions, but I also understand El Camino Paving's recent history which relates directly to those short-comings. I want to share that history with you in this letter, and then propose a resolution of all outstanding issues.

El Camino Paving, Inc. was started by Steven (Estevan) Alva and a partner in 1976. At the time the business moved to 924 San Rafael in approximately 1983, Mr. Alva had bought out his partner and was the sole owner. Over the next twenty-five (25) years, Mr. Alva built a very successful business.

In 2007, Mr. Alva suffered a severe traumatic brain injury, and was immediately unable to have any involvement in the business. Family members moved in to fill the void, but they had neither the background in the business, nor the connections in the industry to keep the business operating as successfully as Mr. Alva had. Naturally their father's unexpected severe injury had a significant impact on their ability to focus on running the business. These issues were compounded when the recession hit toward the end of 2007, construction slowed dramatically, and paving jobs were hard to get.

8048 [redacted]

Over the next few years, El Camino Paving downsized dramatically, released its three full-time estimators and replaced them with a single part-time estimator, and also released 2 other office employees. It cut costs wherever it could and continually cut key management personnel in an effort to reduce cost. The overall company became much smaller than in previous years. The shop mechanic who was key in working with the fire department became part of the job site crew in order to cut overhead - he was the only remaining person on staff who had an understanding of the compliance requirements of Mountain View's fire regulations. The decreased office staff most certainly caused the company to fall behind on paperwork.

Since that time, El Camino Paving has been in survival mode, trying to keep this family business going. It is not surprising that El Camino Paving's compliance problems occurred in this period when they had lost the knowledge base that had formerly dealt with compliance issues and were overwhelmed with efforts just to keep the business alive. It was not El Camino Paving's intention to ignore Fire Department requirements or to be out of compliance. It was the unfortunate byproduct of a difficult time. Lacking guidance, they asked me to help them come into compliance.

El Camino Paving, Inc.'s business has started to stabilize, thanks to the recent improvement in the economy, overhead cuts and the greater availability of paving jobs. The business is still operated on a shoestring as the recovery process takes time. Stephanie Alva now manages the business, but takes no compensation while she waits for the business to continue to stabilize.

They have asked me to propose a resolution of all outstanding Fire issues in light of their financial condition, and in light of the fact that all of the fees and penalties that are at issue here are related to their failure to file paperwork. While I recognize and acknowledge the importance of that paperwork in order that Fire personnel have knowledge of the chemicals onsite in the event of an emergency, it is also true that El Camino Paving, Inc. has never been cited for improper storage of flammable materials, and that the Fire Department is aware from its site inspections in 2012 and 2013 that the chemicals being stored on site were less than the quantities identified in the last inventory that the business filed.

El Camino Paving's proposed resolution is to pay all outstanding unpaid fees and administrative costs according to the following schedule:

- February 4, 2014: payment of the City's administrative costs associated with the compliance action (in my conversation with you in early-December, you had indicated that the compliance costs at the time were $1,155).

- February 28, 2014: payment of the 2011-2012 Fire fees in the amount of $2,639.
- March 28, 2014: payment of the 2012-2013 Fire fees in the amount of $2,797.
- April 1, 2014: submission of the 2013-2014 inventory.
- April 28, 2014: payment of the fees for 2013-2104, which the Fire Department will calculate based upon the inventory submitted on April 1.

As you can see from the proposal, El Camino Paving, Inc. is proposing to set aside the penalties arising from their non-compliance but pay fully all the actual fees and all of the City's administrative costs associated with the non-compliance. El Camino Paving, Inc. would also be waiving its claim that the calculation of fees in prior years was inaccurate since the Fire Department knew from its inspections that the business was not maintaining chemicals on site in the quantities identified in the last inventory submitted and were not intending to materially increase the on-site quantities. On this point, I do want to acknowledge that, during those inspections, you and members of your staff made efforts to point out areas of reduced inventory where the business could save money with an updated inventory, but the business did not follow through to submit an updated inventory.

We sincerely hope that this proposal for resolution will be acceptable to the Fire Department. This is a difficult situation, but El Camino Paving's goal is the same as yours: achieve compliance and stay there. The proposed resolution will achieve that. If the Fire Department is agreeable, then we can have Kelli Casale put together a short compliance agreement stating these terms, have it signed by the parties, and have Mr. Amadeo approve it at the February 4 compliance hearing.

Very truly yours,

Barton Hechtman

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIE & STEPHANIE ALVA,

Respondents.

COMPLIANCE ORDER OF JUNE 25, 2013

ADMINISTRATIVE DECISION

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on October 1, 2013, at City Hall, City of Mountain View, California ("the City"). Respondent Stephanie Alva appeared without counsel.

The hearing was held pursuant to Mountain View City Code (MVCC) 1.29, as the City sought to enforce the Compliance Order of June 25, 2013 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that on June 25, 2013, Respondents were violating the Mountain View City Code at the Subject Property by operating their business without a current

hazardous materials permit and without having paid hazardous materials permit fees for the years of 2012 and 2013. The Compliance Order required correction of the violations by July 15, 2013 and sought an order imposing administrative penalties and awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Fire Marshall Jaymae Wentker and Hazardous Materials Specialist Patrick Mauri testified for the City.

Respondent Stephanie Alva testified for Respondents.

The following documents were offered by the City and admitted into evidence without objection:

1. Sixty-three page packet of documents.

Respondents offered no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondents operated a business named El Camino Paving, Inc. at the Subject Property.

2. At the beginning of the hearing, Respondent Stephanie Alva:

(a) admitted the violations alleged in the Compliance Order;

(b) admitted that Respondents had not submitted current Environmental Compliance Plan information necessary for a hazardous materials permit;

(c) admitted that Respondents owed to the City unpaid hazardous materials permit fees totaling $4,271.00 for the year of 2012 and $$4,478.00 for the year of 2013.

$8,749.00

3. Respondents have committed prior, similar violations.

4. The City did not request at this time that administrative penalties be imposed for the foregoing violations.

5. The City incurred enforcement costs in this matter in the total sum of $1,155.50 as follows:

Cost Description	Hours	Rate Per Hour	Cost
City Fire Marshal Time City	3.5	$163.00	$ 570.50
Hazardous Materials Specialist Time	5.0	$117.00	$ 585.00
Total Costs			$1,155.50

IV

DETERMINATION OF ISSUES

1. By reason of the foregoing Findings of Facts:

(a) Respondents failed to comply with MVCC 24.7.0 (lack of permit) and 24.7.3 (unpaid permit fees) as alleged in the Compliance Order, and failed to correct such violations as required by the Compliance Order.

(b) the costs of enforcement incurred by the City in this matter, to date, in the sum of $1,155.50 are reasonable and are assessed against Respondents.

V

ORDERS

1. Respondents are ordered to obtain, without delay, all City permits necessary to operate Alva Paving, Inc.

2. Respondents are ordered to pay, forthwith, to the City of Mountain View, 500 Castro Street, P.O. Box 7540, Mountain View, CA 94039, permit fees and costs in the sum of $9,904.00.

3. This matter is continued to December 3, 2013 at 1:00 p.m. for further hearing, at which

$8,749.00 in permit fees

time, if Respondents have not complied with the foregoing orders, the Hearing Officer will consider whether to order Respondents to cease all business operations at the Subject Property.

4. This decision is effective and final on the date below.

Dated: October 7, 2013

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA ALVA and STEPHANIE ALVA,

ADMINISTRATIVE DECISION

Respondents.
_____/

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on January 4, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondent Stephanie Alva appeared without counsel.

The hearing was held pursuant to Mountain View City Code Section (MVCCS) 1.29, as the City sought to enforce the compliance order of November 15, 2010 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that Respondents maintained violations of

MVCC 24.7, 24.7.1 and 24.7.3 at the Subject Property on November 15, 2010, and required correction of such violations by a Compliance Date of December 6, 2010. . Additionally, the City sought an order imposing administrative penalties and awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Fire Marshall Jaymae Wentker testified for the City.

Stephanie Alva testified for Respondents.

The following documents were offered by the City and admitted into evidence without objection:

1. Exhibit "C-1": Case file consisting of twenty-seven pages of copies of documents.

Respondents offered no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondents were the owners and operators of El Camino Paving, Inc., operating at the Subject Property.

2. Respondents did not contest the allegations of the Compliance Order and acknowledged that the corrections required by the Compliance Ordered had not been performed.

3. Respondents represented to the Hearing Officer that they would perform all the corrections required by the Compliance Order, forthwith.

4. Upon such representation, the City waived all administrative penalties and costs in this matter.

///

IV

DETERMINATION OF ISSUES

1. By reason of Findings of Facts Nos. 1 and 2, Respondents violated the Mountain View Municipal Code as alleged in the Compliance Order, and failed to correct the violations as required by the Compliance Order.

2. By reason of Findings of Facts Nos. 3 and 4, Respondents are not presently assessed administrative penalties or costs in this matter.

V

ORDERS

1. Respondents are ordered to perform, forthwith, the corrections required by the Compliance Order.

2. This matter is continued to April 5, 2011 at 1:30 p.m. for a review hearing

3. This decision is effective and final on the date below.

Dated: January 10, 2011

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA ALVA and
STEPHANIE ALVA,

CONTINUANCE OF HEARING

Respondents.
_____/

Due notice having been given, this matter came on regularly for a review hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on April 5, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondents Maria Alva and Stephanie Alva did not appear.

The present hearing was held to evaluate Respondents' compliance with the City of Mountain View Compliance Order of November 15, 2010 ("the Compliance Order") and the Hearing Officer's Administrative Decision of January 10, 2011which required Respondents to correct the violations alleged in the Compliance Order.

Upon the City's request, this matter is continued to May 3, 2011 at 2:30 p.m. for review or other action.

Dated: April 11, 2011

Louis L. Amadeo, Jr.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF	COMPLIANCE ORDER OF JUNE 25, 2013
MARIE ALVA & STEPHANIE ALVA,	ORDERS AFTER REVIEW HEARING OF AUGUST 5, 2014
Respondents. /	

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for a review hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on August 5, 2014, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondents Marie Alva and Stephanie Alva appeared without counsel.

The present hearing was held to evaluate Respondents' compliance with the City of Mountain View Compliance Order of June 25, 2013 and the Hearing Officer's Administrative Decision of October 7, 2013.

II

FINDINGS, CONCLUSIONS AND ORDERS

1. Respondents have an unpaid balance of previously ordered permit fees and costs in the sum of $3,150.00.

2. Respondents failed to pay such sum on or before June 28, 2014 as promised during the hearing of June 3, 2014.

3. Respondents are granted an extension of time to September 8, 2014, to pay such sum to the City and to otherwise comply with all relevant City permit and fee requirements.

4. In the event that Respondents do not fully comply with all such payment and permit requirements by September 8, 2014, Respondents shall cease, immediately, to maintain any hazardous material above an exempt quantity, at 924 San Rafael Avenue, Mountain View, California.

4. This matter is continued to September 30, 2014 at 1:00 p.m. for further review.

5. The matter will be ordered off calendar if Respondents have complied fully with these Orders.

6. These Orders are effective and final on the date below.

Dated: August 8, 2014

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

These Orders may be appealed. To obtain judicial review of these Orders, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of these Orders.

Subject: Change in Sample Collection Frequency

Dear Ms. Alva,

The City of Mountain View's Fire and Environmental Protection Division implements a State of California mandated industrial waste control program, which regulates industrial waste process discharges into the sanitary sewer. The City regulates industrial discharges from different types of facilities by issuing permits and monitoring process waste discharge quality, including discharges from vehicle wash operations. Typically, the vehicle washing facility permits require businesses to collect and analyze quarterly self-monitoring samples for selected metals. Most facilities elect to utilize the City's contract monitoring professional, Dysert Environmental, Inc., to collect the monitoring samples and Accutest Analytical Labs, Inc. analyzes the monitoring samples.

The City has modified its Wastewater Discharge Permits, and the re-issued permit for your facility is included with this letter. Based on a recent review of your Facility wastewater discharge permit (# 722) and analytical results over the term of the Permits, The City of Mountain View is modifying Section III *Self-Monitoring Sampling Analysis* of the Wastewater Discharge Permits to reflect changes with the self-monitoring requirements. The City has **reduced** the sampling frequency requirement from a quarterly basis to a semi-annual basis. Samples will be collected in the first (1st) and third (3rd) quarters of the year (between January and March, and again between July and September). If your facilities utilize the City's contract monitoring professional, Dysert Environmental, Inc., to collect the monitoring samples we will notify Dysert Environmental of the change in self-monitoring requirements for your facility.

In addition to the change in the self-monitoring requirements, the method and time of year that you are invoiced for your wastewater sampling and analysis fees has changed. Effective January 2015, you will receive an invoice, along with your Periodic Report of Continued Compliance (PRCC) paperwork, for only your wastewater sampling and analysis fees owed for the previous year. Both the PRCC and the fees owed shall be submitted to the City no later than the specified "Due Date". Please note that additional monitoring will be conducted by staff from the Palo Alto Regional Water Quality Control Plant during the 2nd and 4th quarters of the year, but you will not be billed for those monitoring events.

The facility operator shall continue to clean and maintain the oil/water separator as frequently as needed to ensure compliance with the Discharge Permit. The facility operator is also required to submit, on a semi-annual basis, the maintenance log and any associated manifest to demonstrate compliance with maintaining the oil/water separator as specified in the Discharge Permit.

Subject: El Camino Paving 7-25-13
Attachments: El Camino Paving Inspection Notice 7-25-13.pdf

Hi Melissa, Daniel and Stephanie-

This afternoon I conducted the second re-inspection of El Camino Paving's Yard in response to the initial inspection I conducted on June 28, 2013. Unfortunately most of the violations that were noted in the initial inspection and the subsequent re-inspection on 7/12/13 were not corrected. I did note that a new dumpster has replaced the old, broken dumpster as required in the inspection I conducted on 6/28/13. Thank you for addressing that violation. The violations that are outstanding are the following:

-cover or haul all non-active stockpiles (any stockpile of material that will not be used within a 7-day time period is considered a non-active stockpile)
-apply absorbent to all spills in yard
-absorbent has been applied to some of the spills, but the absorbent has not been collected for disposal. Please sweep up and collect all used absorbent that has been used to clean oil spills in the yard for hauling as a hazardous waste
-clean trash along the perimeter of the yard (lots of trash is accumulating near the Cadillac parked in the back of the yard)
-move indoors or double contain and cover hazardous materials stored outdoors (paints, pesticides, gas cans, lubricants, etc.)
-move all electronic equipment (T.V., computer parts, etc.) indoors or haul offsite
-double contain or haul all batteries
-clean up screws, nuts, bolts, etc. that have spilled out of the yellow shelving
-move indoors or haul radiator
-haul or cover used tires

I will send pictures of the areas of the yard that need attention in a few separate e-mails so as to not overwhelm your e-mail system. As I discussed with Melissa today, and with Daniel on multiple occasions, because of the chronic and continued nature of the violations at El Camino Paving, I will be issuing the facility a notice of violation (NOV) for the outstanding violations noted in the inspection reports and listed above. I'll be coming back out to re-inspect El Camino Paving no later than August 8, 2013. Please respond to this e-mail with your plan to address these outstanding violations.

Ms. Stephanie Alva
El Camino Paving, Inc.
924 San Rafael Ave
Mountain View, CA 94043

SENT CERTIFIED

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on June 7, 2011, which was valid through May 1, 2012. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 1, 2012 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 13, 2012 with instructions to verify the accuracy of the ECP packet, sign the Business Owner/Operator and Business Plan Certification forms and return both with the permit fee to this office no later than April 2, 2012.

On April 4, 2012 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 1, 2012 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4,410.00 to this department no later than 5:00pm May 29, 2012.

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 29, 2012.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 29, 2012 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker
Fire Marshal

Subject: Continuance of Alva/El Camino Paving code compliance hearing

Dear Fire Marshal Wentker,

By this email I confirm our conversation this morning. I am requesting a continuance of today's code compliance hearing to Mr. Amadeo's regularly scheduled hearing date in January. I was only retained to help resolve this matter last Wednesday afternoon, and you were unavailable to discuss the issues with me yesterday due to a fire that you had to attend to. My intention is to work with you and Ms. Casale in the next month to agree upon a payment schedule which will be memorialized in a compliance order, similar to the approach Ms. Casale and I took with Mr. Fowler earlier this year. In our conversation you confirmed that you were supportive of the continuance given these circumstances, and that you would notify Ms. Casale, so she could let Mr. Amedeo know about the schedule change.

I look forward to working with you this month to reach resolution.

Sincerely,
Bart Hechtman

Subject: Inspection 11-18-15 at El Camino Paving

Importance: High

Hi Stephanie-

The link below includes pictures of some of the areas at El Camino Paving that need to be cleaned up before next Tuesday. There's a reasonable chance of heavy rain by next Wednesday so it is extremely important that the yard at El Camino Paving gets cleaned up sufficiently by Tuesday the 24th. I'm planning on coming by El Camino Paving on Tuesday the 24th after 2pm to re-inspect. Thanks Stephanie- have a good weekend.

Importance: High

Hi Stephanie-

Patrick and I swung by El Camino Paving to conduct a re-re-inspection and no one was on-site to meet. When will you be at El Camino Paving tomorrow (Thursday December 3, 2015)? I noticed that some areas of the yard appeared to have been swept up, but since the gate was closed I was not able to inspect the other areas of the yard. There is still a lot of absorbent that had not been swept up in the yard, and the large stockpiles of asphalt and concrete are still there, and have not been covered- nor have straw-wattles and/or absorbent 'socks' been laid around the stockpiles (I'm glad you were able to get some at Grainger).

Please make sure that all of the items noted on the inspection forms from 11/18/15 and 11/24/15 are completed by the inspection tomorrow. Pictures of what I could see from the parking lot area can be seen below. I will plan on inspecting the site again tomorrow at 2:30. Please ensure you are present at the inspection. Thanks Stephanie.

Timeline of Events @ El Camino Paving – 924 San Rafael Drive

2015:

2/19/15 - Hazardous Materials Permit renewal and invoice sent to all businesses storing hazardous materials or hazardous waste including El Camino Paving.

4/8/2015 - Late notice sent to El Camino Paving indicating that there hazardous materials permit will expire on May 1, 2015 if they do not send in the renewal paperwork and pay permit fees.

4/21/2015 – Hazardous Materials Inspector, Patrick Mauri, contacted El Camino Paving via telephone to inform them that they have not renewed their hazardous materials permit or paid their fees for 2015/16. They were also informed that permit fees and renewal paperwork were due by May 1, 2015.

6/10/2015 – A compliance order was sent by certified mail to Stephanie Alva by Fire Marshal Jaymae Wentker. The compliance order stated that El Camino Paving had failed to renew their 2015/16 hazardous materials permit and to pay permit fees. The compliance order stated that the hazardous materials permit must be renewed and all fees paid including late fees by July 24, 2015.

7/09/2015 - Hazardous Materials Specialist conducted an inspection of El Camino Paving. During this inspection he spoke with Stephanie Alva to ensure that she had reviewed the compliance order to see if she had any questions related to these letters.

City of Mountain View Requests

The City of Mountain View requests that the following actions be taken by El Camino Paving, Inc:

a. If El Camino Paving continues to store hazardous materials in excess of the quantities listed in the Mountain View City Code Section 24.2.1 they the must submit the following:

    1. Pay 2015/16 hazardous materials permit fees including late fees in full.*
    2. Pay incurred staff time cost.*

b. If El Camino Paving chooses to reduce the quantity of hazardous materials stored at the facility to below the exempt quantities listed in Mountain View City Code Section 24.2.1:

    1. Submit and updated hazardous materials business plan that reflects the reduced quantities of hazardous materials stored on site.
    2. Submit a completed "Declaration of Exemption from Hazardous Materials Reporting Requirements."
    3. Pay incurred staff time cost.*

* Fees Owed
2015/16 Permit Fees - $3888.00
Staff Time Costs - $220.00

SEC. 24.7.0. - Permit.

a. It shall be unlawful for any person, firm or corporation to store, use or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage, use and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his/her designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

   1. The applicant has complied with all reporting requirements of this chapter;

   2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

   3. The fire chief or his/her designee determines there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials;

   4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements; and

   5. The applicant has paid all hazardous materials program fees.

d. Permits shall be valid for a term of no more than one year (365 days).

e. If the officer to whom the application has been made finds the proposal does not completely conform to the provisions of this chapter or meet the conditions of Sec. 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

f. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, use, handling and dispensing standards of Division III, the HMBP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

g. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

h. No permit shall become effective until the permit has been signed by the fire chief or his/her designee.

i. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer

of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of the city.

j. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with the hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

k. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by the city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

l. The fire chief or his/her designee shall reinstate any suspended hazardous materials permit upon proof of the following:

   1. Satisfactory ability to comply with all storage and handling requirements; and

   2. The payment of costs, fines or penalties which may be assessed. The fire chief or his/her designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

m. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

n. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Sec. 25281(y) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25316.

(Ord. No. 13.13, § 1, 10/22/13)

SEC. 24.7.1. - Application for permit.

a. Applicants for a permit to store, use, handle or dispense hazardous or other regulated materials shall electronically file a HMBP and obtain approval by the city for each facility storing, using, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1

b. The HMBP shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his/her designee to determine the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 13.13, § 1, 10/22/13)

SEC. 24.7.3. - Fees.

The city shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMBPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

The city may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations).

(Ord. No. 13.13, § 1, 10/22/13)

California Environmental Reporting System (CERS)
Annual Update User Guide

No Changes Made to HMBP Data

This instruction guide will help you navigate through the California Environmental Reporting System, also known as CERS, in order to create a new annual submittal and submit the data. **PLEASE NOTE: This guide is only for businesses that have not made any changes to their HMBP data.** If you have made changes to contact information, added new chemicals, removed chemicals that you used to have, moved chemicals or made changes to your map, you must update these in CERS. For help making these changes please refer to the following resources:

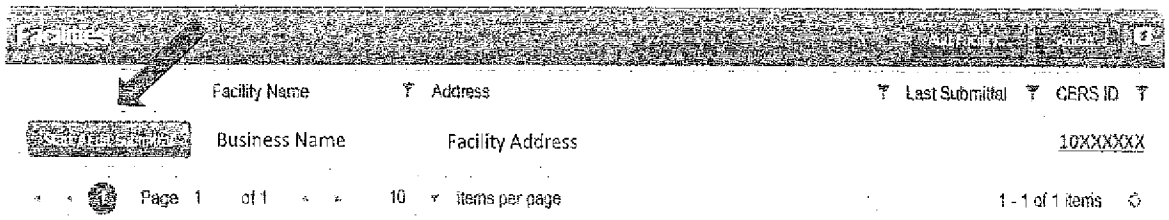
http://www.mountainview.gov/depts/fire/environment/default.asp
https://cersbusiness.calepa.ca.gov/Help

Step 1: Login to your account

Open your web browser and enter the following URL: https://cersbusiness3.calepa.ca.gov . This will take you to the CERS Business Portal Sign-In Page. Enter in your user name and password and sign in.

Step 2: Create a New Submittal

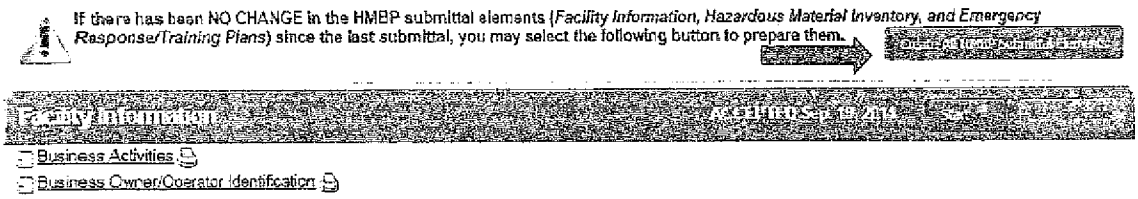
Once you have logged in to CERS you will see your home screen with the name and address of your facility. You will now need to start a new submittal by selecting the green "Start / Edit Submittal" button.



This will take you to the "Prepare Draft Submittal" page.

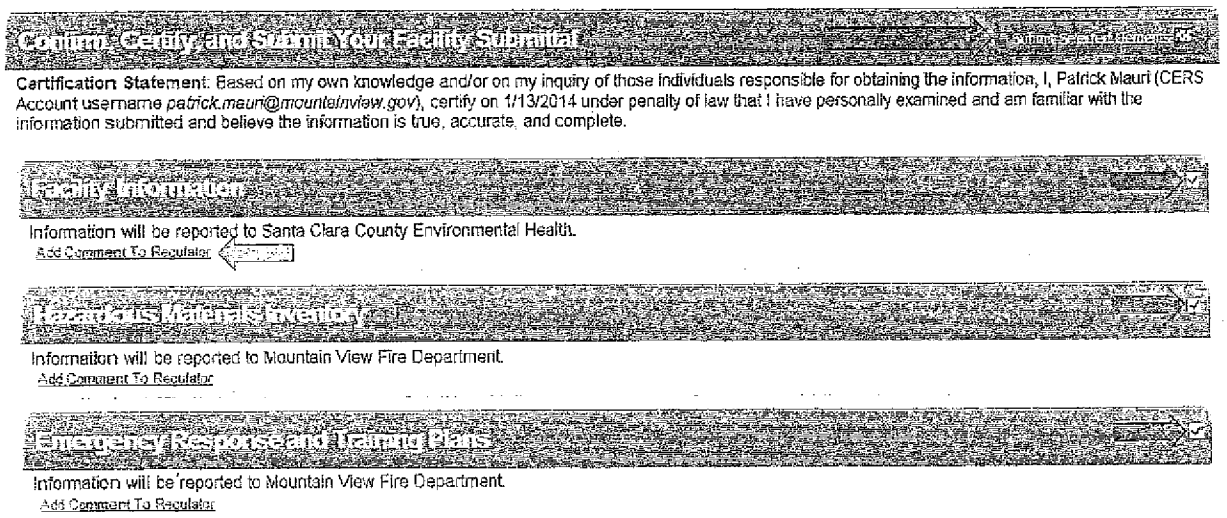
Step 3: Continue Without Making Changes

Near the top of the "Prepare Draft Submittal" page you will see a warning sign and a green button. Click the "Create All HMBP Submittal Element" button.



Step 4: Submitting the Draft Data

By default, all of the submittal elements that have been completed in the past will be checked (smaller red arrows). You will also see a green link (orange arrow) where you can leave a note regarding your submittal. Click on this link and type in "No Changes." The final step is to select the green "Submit Selected Elements" button.



Step 5: Confirmation

You will now be taken to a confirmation screen which lists each of the submittal elements and which agency is responsible for reviewing the information. You should receive an email for each submittal element within 15 business days stating that your submittal was approved by Mountain View Fire Department or Santa Clara County Department of Environmental Health staff. Once you receive these emails you can now make changes to the information in CERS and resubmit.

If you have any problems or questions along the way please contact Patrick Mauri at (650) 903-6143 or Chris Steck (650) 903-6816.

February 19, 2015 **DUE DATE: April 1, 2015**

Enclosed is your 2015 Environmental Programs Invoice.

You are required to:

1) **Log into the California Environmental Reporting System (CERS) and create a new submittal for each of the unified programs elements.**

2) **Review the information in CERS and make any necessary changes to the information. If you have not previously submitted information in CERS you must do so at this time.**

3) **Submit all of the Unified program data elements in CERS.**

4) **Remit a check for the amount of your 2015 Environmental Program Invoice and return it to us at the above address NO LATER THAN APRIL 1, 2015. Make checks payable to: City of Mountain View**

If you do not have an internet connection or access to a computer please contact the Mountain View Fire Department-Fire and Environmental Protection Division to set up an appointment with staff to assist you in completing the CERS submittal process.

If you have any questions please feel free to contact us via phone or email.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA S. ALVA,

Respondent.

_____/

COMPLIANCE ORDER OF JUNE 10, 2015

ADMINISTRATIVE DECISION

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on August 4, 2015, at City Hall, City of Mountain View, California ("the City"). Stephanie Alva appeared in behalf of Respondent Maria S. Alva, by telephone conference call.

The hearing was held pursuant to Mountain View City Code (MVCC) 1.29, as the City sought to enforce the compliance order of June 10, 2015 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that on June 10, 2015, at the Subject Property,

Respondent maintained violations of MVCC 24.7.0 (storage of hazardous materials without a permit), 24.7.1 (failure to file electronically a Hazardous Materials Business Plan), and 24.7.3 (failure to remit permit fees). The Compliance Order required correction of such violations. Additionally the City sought an order awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Hazardous Materials Specialist Patrick Mauri testified for the City.

Stephanie Alva testified in behalf of Respondent.

The following documents were offered by the City and admitted into evidence without objection:

1. Exhibit "C-1": Copy of City of Mountain View Compliance Order dated June 10, 2015.

2. Exhibit "C-2": Copy of Environmental Programs Invoice dated February 17, 2015.

3. Exhibit "C-3": Copy of letter from Patrick Mauri and Chris Steck dated April 1, 2015.

4. Exhibit "C-4": Copy of Late Notice dated April 8, 2015.

5. Exhibit "C-5": Copy of fee schedule.

6. Exhibit "C-6": Copy of Timeline of Events.

7. Exhibit "C-7": Copy of Staff Time Costs summary.

8. Exhibit "C-8": Copy of Administrative Decision dated January 10, 2011.

9. Exhibit "C-9": Copy of Orders after Review Hearing dated August 8, 2014.

Respondent submitted no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondent was the owner of El Camino Paving, conducting

operations at the Subject Property.

2. Respondent's operations included the handling and storage of hazardous materials.

3. On June 10, 2015:

(a) Respondent had not obtained a current City permit to handle or store hazardous materials at the Subject Property as required by MVCC 24.7.0.

(b) Respondent had not electronically filed a current Hazardous Materials Business Plan as required by MVCC 24.7.1.

(c) Respondent had not paid current permit fees per MVCC 24.7.3.

4. The Compliance Order required that Respondent correct the foregoing deficiencies by a Compliance Date of June 24, 2015.

5. Prior the date of the hearing herein, Respondent electronically filed a current Hazardous Materials Business Plan as required by MVCC 24.7.1.

6. As of the date of the hearing herein, Respondent had not obtained a permit per MVCC 24.7.0 and had not paid current permit fees per MVCC 24.7.3.

7. In order to obtain a current permit per MVCC 24.7.0 Respondent is required to pay permit fees in the sum of $3,888.00.

8. Prior to June 10, 2015, Respondent had received multiple written and oral deadline reminders regarding City hazardous materials reporting and permit requirements.

9. Respondent has had multiple, prior, similar violations.

10. The City did not seek the imposition of administrative penalties in this matter.

11. The City incurred enforcement costs in this matter in the total sum of $220.00 as follows:

Cost Description	Hours	Rate Per Hour	Cost
City Staff Time	2.0	$110.00	$220.00

IV

DETERMINATION OF ISSUES

By reason of the foregoing Findings of Facts:

1. Respondent violated the Mountain View Municipal Code as alleged in the Compliance Order, and failed to correct all the violations as required by the Compliance Order.

2. Respondent is not assessed administrative penalties.

3. Respondent is assessed City enforcement costs in the sum of $220.00.

V

ORDERS

1. Respondent is ordered to cease the storage or handling of hazardous materials at the Subject Property on September 30, 2015, unless by such date:

(a) Respondent has paid the sum of $4,108.00 to the City of Mountain View, 500 Castro Street, P.O. Box 7540, Mountain View, CA 94039, and

(b) Respondent has obtained a permit per MVCC 24.7.0.

2. This decision is effective and final on the date below.

Dated: August 10, 2015

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

City of Mountain View Requests

The City of Mountain View requests that the following actions be taken by El Camino Paving, Inc:

a. If El Camino Paving continues to store hazardous materials in excess of the quantities listed in the Mountain View City Code Section 24.2.1 they the must submit the following:

    1. Pay 2015/16 hazardous materials permit fees including late fees in full.*
    2. Pay incurred staff time cost.*

b. If El Camino Paving chooses to reduce the quantity of hazardous materials stored at the facility to below the exempt quantities listed in Mountain View City Code Section 24.2.1:

    1. Submit and updated hazardous materials business plan that reflects the reduced quantities of hazardous materials stored on site.
    2. Submit a completed "Declaration of Exemption from Hazardous Materials Reporting Requirements."
    3. Pay incurred staff time cost.*

* Fees Owed
2015/16 Permit Fees - $3888.00
Staff Time Costs - $220.00

Incurred Staff Time Costs

Hazardous Materials Specialist – Patrick Mauri:

0.5 hrs – Compliance Order
1.0 hrs – 7/9/15 – Facility Inspection
0.5 hrs – 8/4/2015 - Hearing

Total 2 hrs
Fully Loaded Rate: $110.00/hr
Total - $220.00

Grand Total: $220.00

Timeline of Events @ El Camino Paving – 924 San Rafael Drive

2015:

2/19/15 - Hazardous Materials Permit renewal and invoice sent to all businesses storing hazardous materials or hazardous waste including El Camino Paving.

4/8/2015 - Late notice sent to El Camino Paving indicating that there hazardous materials permit will expire on May 1, 2015 if they do not send in the renewal paperwork and pay permit fees.

4/21/2015 – Hazardous Materials Inspector, Patrick Mauri, contacted El Camino Paving via telephone to inform them that they have not renewed their hazardous materials permit or paid their fees for 2015/16. They were also informed that permit fees and renewal paperwork were due by May 1, 2015.

6/10/2015 – A compliance order was sent by certified mail to Stephanie Alva by Fire Marshal Jaymae Wentker. The compliance order stated that El Camino Paving had failed to renew their 2015/16 hazardous materials permit and to pay permit fees. The compliance order stated that the hazardous materials permit must be renewed and all fees paid including late fees by July 24, 2015.

7/09/2015 - Hazardous Materials Specialist conducted an inspection of El Camino Paving. During this inspection he spoke with Stephanie Alva to ensure that she had reviewed the compliance order to see if she had any questions related to these letters.

SEC. 24.7.0. - Permit.

a. It shall be unlawful for any person, firm or corporation to store, use or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage, use and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his/her designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

   1. The applicant has complied with all reporting requirements of this chapter;

   2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

   3. The fire chief or his/her designee determines there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials;

   4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements; and

   5. The applicant has paid all hazardous materials program fees.

d. Permits shall be valid for a term of no more than one year (365 days).

e. If the officer to whom the application has been made finds the proposal does not completely conform to the provisions of this chapter or meet the conditions of Sec. 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

f. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, use, handling and dispensing standards of Division III, the HMBP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

g. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

h. No permit shall become effective until the permit has been signed by the fire chief or his/her designee.

i. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer

of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of the city.

j. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with the hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

k. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by the city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

l. The fire chief or his/her designee shall reinstate any suspended hazardous materials permit upon proof of the following:

   1. Satisfactory ability to comply with all storage and handling requirements; and

   2. The payment of costs, fines or penalties which may be assessed. The fire chief or his/her designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

m. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

n. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Sec. 25281(y) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25316.

(Ord. No. 13.13, § 1, 10/22/13)

SEC. 24.7.1. - Application for permit.

a. Applicants for a permit to store, use, handle or dispense hazardous or other regulated materials shall electronically file a HMBP and obtain approval by the city for each facility storing, using, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1

b. The HMBP shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his/her designee to determine the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 13.13, § 1, 10/22/13)

SEC. 24.7.3. - Fees.

The city shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMBPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

The city may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations).

(Ord. No. 13.13, § 1, 10/22/13)

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF	COMPLIANCE ORDER OF JUNE 25, 2013
MARIE ALVA & STEPHANIE ALVA,	ORDERS AFTER REVIEW HEARING OF AUGUST 5, 2014
Respondents. /	

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for a review hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on August 5, 2014, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondents Marie Alva and Stephanie Alva appeared without counsel.

The present hearing was held to evaluate Respondents' compliance with the City of Mountain View Compliance Order of June 25, 2013 and the Hearing Officer's Administrative Decision of October 7, 2013.

II

FINDINGS, CONCLUSIONS AND ORDERS

1. Respondents have an unpaid balance of previously ordered permit fees and costs in the sum of $3,150.00.

2. Respondents failed to pay such sum on or before June 28, 2014 as promised during the hearing of June 3, 2014.

3. Respondents are granted an extension of time to September 8, 2014, to pay such sum to the City and to otherwise comply with all relevant City permit and fee requirements.

4. In the event that Respondents do not fully comply with all such payment and permit requirements by September 8, 2014, Respondents shall cease, immediately, to maintain any hazardous material above an exempt quantity, at 924 San Rafael Avenue, Mountain View, California.

4. This matter is continued to September 30, 2014 at 1:00 p.m. for further review.

5. The matter will be ordered off calendar if Respondents have complied fully with these Orders.

6. These Orders are effective and final on the date below.

Dated: August 8, 2014

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

These Orders may be appealed. To obtain judicial review of these Orders, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of these Orders.

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA ALVA and
STEPHANIE ALVA,

ADMINISTRATIVE DECISION

Respondents.
_____/

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on January 4, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondent Stephanie Alva appeared without counsel.

The hearing was held pursuant to Mountain View City Code Section (MVCCS) 1.29, as the City sought to enforce the compliance order of November 15, 2010 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that Respondents maintained violations of

MVCC 24.7, 24.7.1 and 24.7.3 at the Subject Property on November 15, 2010, and required correction of such violations by a Compliance Date of December 6, 2010. . Additionally, the City sought an order imposing administrative penalties and awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Fire Marshall Jaymae Wentker testified for the City.

Stephanie Alva testified for Respondents.

The following documents were offered by the City and admitted into evidence without objection:

1. Exhibit "C-1": Case file consisting of twenty-seven pages of copies of documents.

Respondents offered no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondents were the owners and operators of El Camino Paving, Inc., operating at the Subject Property.

2. Respondents did not contest the allegations of the Compliance Order and acknowledged that the corrections required by the Compliance Ordered had not been performed.

3. Respondents represented to the Hearing Officer that they would perform all the corrections required by the Compliance Order, forthwith.

4. Upon such representation, the City waived all administrative penalties and costs in this matter.

///

IV

DETERMINATION OF ISSUES

1. By reason of Findings of Facts Nos. 1 and 2, Respondents violated the Mountain View Municipal Code as alleged in the Compliance Order, and failed to correct the violations as required by the Compliance Order.

2. By reason of Findings of Facts Nos. 3 and 4, Respondents are not presently assessed administrative penalties or costs in this matter.

V

ORDERS

1. Respondents are ordered to perform, forthwith, the corrections required by the Compliance Order.

2. This matter is continued to April 5, 2011 at 1:30 p.m. for a review hearing

3. This decision is effective and final on the date below.

Dated: January 10, 2011

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

Recycled Paper

California Environmental Reporting System (CERS)
Annual Update User Guide

No Changes Made to HMBP Data

This instruction guide will help you navigate through the California Environmental Reporting System, also known as CERS, in order to create a new annual submittal and submit the data. **PLEASE NOTE: This guide is only for businesses that have not made any changes to their HMBP data.** If you have made changes to contact information, added new chemicals, removed chemicals that you used to have, moved chemicals or made changes to your map, you must update these in CERS. For help making these changes please refer to the following resources:

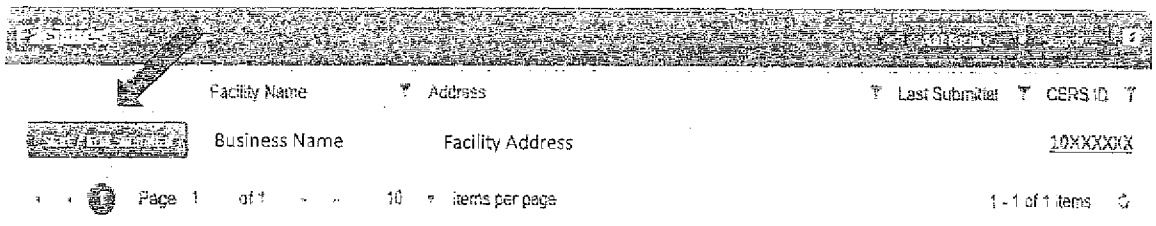
http://www.mountainview.gov/depts/fire/environment/default.asp
https://cersbusiness.calepa.ca.gov/Help

Step 1: Login to your account

Open your web browser and enter the following URL: https://cersbusiness3.calepa.ca.gov . This will take you to the CERS Business Portal Sign-In Page. Enter in your user name and password and sign in.

Step 2: Create a New Submittal

Once you have logged in to CERS you will see your home screen with the name and address of your facility. You will now need to start a new submittal by selecting the green "Start / Edit Submittal" button.



This will take you to the "Prepare Draft Submittal" page.

City of Mountain View Requests

The City of Mountain View requests that the following actions be taken by El Camino Paving, Inc:

a. If El Camino Paving continues to store hazardous materials in excess of the quantities listed in the Mountain View City Code Section 24.2.1 they the must submit the following:

   1. Submit the hazardous materials permit renewal paperwork.
   2. Pay 2012 hazardous materials permit fees including late fees in full.*
   3. Pay 2013 hazardous materials permit fees including late fees in full.*
   4. Pay incurred staff time cost.*

b. If El Camino Paving chooses to reduce the quantity of hazardous materials stored at the facility to below the exempt quantities listed in Mountain View City Code Section 24.2.1:

   1. Submit and updated hazardous materials business plan that reflects the reduced quantities of hazardous materials stored on site.
   2. Submit a completed "Declaration of Exemption from Hazardous Materials Reporting Requirements."
   3. Pay 2012 hazardous materials permit fees including late fees in full.*
   4. Pay incurred staff time cost.*

* Fees Owed
2012 Permit Fees - $4271.00
2013 Permit Fees - $4478.00
Stadd Time Costs - $1155.50

Timeline of Events @ El Camino Paving – 924 San Rafael Drive

2011:

6/7/2011 – Hazardous materials permit issued. Permit expiration date of 5/1/2012.

2012:

2/14/2012 – Hazardous Materials Permit renewal and invoice sent to all businesses storing hazardous materials or hazardous waste including El Camino Paving.

4/4/2012 – Late notice sent to El Camino Paving indicating that there hazardous materials permit will expire on May 1, 2012 if they do not send in the renewal paperwork and pay permit fees.

5/21/2012 – "Expiration of Hazardous Materials Permit" letter sent by certified mail to Marie and Stephanie Alva by Fire Marshal Jaymae Wentker. The letter stated that the Hazardous materials permit for El Camino Paving had expired and they needed to either remove all hazardous materials and hazardous waste or renew their permit and pay all permit fees including late fees.

5/28/2012 - "Expiration of Hazardous Materials Permit" letter was received and signed for by Stephanie Alva.

7/11/2012 – A compliance order was sent to Marie and Stephanie Alva by Fire Marshal Jaymae Wentker. The compliance order required that El Camino Paving must renew their hazardous materials storage permit and remit all permit fees by July 25, 2012.

7/25/2012 – El Camino Paving failed to renew their hazardous materials permit or remit payment for permit fees.

2013:

2/12/13 - Hazardous Materials Permit renewal and invoice sent to all businesses storing hazardous materials or hazardous waste including El Camino Paving.

4/3/2013 - Late notice sent to El Camino Paving indicating that there hazardous materials permit will expire on May 1, 2013 if they do not send in the renewal paperwork and pay permit fees.

4/22/2013 – Hazardous Materials Inspector, Patrick Mauri, contacted El Camino Paving via telephone to inform them that they have not renewed their hazardous

materials permit or paid their fees since 2012. They were also informed that permit fees and renewal paperwork were due by May 1, 2013.

5/29/2013 - "Expiration of Hazardous Materials Permit" letter sent by certified mail and email to Stephanie Alva by Hazardous Materials Specialist Patrick Mauri. The letter stated that the Hazardous materials permit for El Camino Paving has been expired since May 1, 2012 and they needed to either remove all hazardous materials and hazardous waste or renew their permit and pay all permit fees including late fees for the last 2 years.

6/25/2013 – A compliance order was sent by certified mail to Stephanie Alva by Hazardous Materials Specialist Patrick Mauri. The compliance order stated that El Camino Paving had failed to renew their hazardous materials permit since May 1, 2012 and that they failed to pay permit fees since May 1, 2012. The compliance order stated that the hazardous materials permit must be renewed and all fees paid including late fees by July 15, 2013.

6/25/2013 – An administrative citation was sent by certified mail to Stephanie Alva in the amount of $750.00 for failure to renew El Camino Paving's hazardous materials permit.

7/11/2013 - Hazardous Materials Specialist conducted an inspection of El Camino Paving. During this inspection he spoke with Stephanie Alva to ensure that she had reviewed the compliance order and administrative citation and to see if she had any questions related to these letters.

8/12/2013 – Hazardous Materials Specialist, Patrick Mauri, and Code Enforcement Officer, Chris Costanzo, inspected El Camino Paving. They spoke with Mellissa Campos.

8/12/2013 - Fire Marshal Wentker spoke with Stephanie by telephone who stated she would try to pay all, or partial payment, by August 23, 2013.

8/23/2013- Fire Marshal Wentker received email from Stephanie stating she would drop off partial payment on Monday, August 26, 2013.

9/12/2013 – A certified letter was sent by the Office of the City Attorney to El Camino Paving to set a date for an administrative hearing on October 1, 2013 at 1:00pm.

SEC. 24.2.0. Materials regulated.

The materials regulated by this chapter shall consist of any materials that, because of their quantity, concentration or physical or chemical characteristics, pose a significant present or potential physical or health hazard to human health and safety, to property or to the environment if released into the workplace or the environment. These shall include, but not be limited to:

a. Any material regulated under Section 25501 or 25532 of Chapter 6.95 of the California Health and Safety Code.

b. Any material regulated under Section 25281 of Chapter 6.7 of the California Health and Safety Code.

c. Any material regulated by the California Fire Code.

d. Any material regulated under Division 20, Chapter 6.5, of the California Health and Safety Code.

e. Any material regulated under Chapter 6.67, Section 25270.5(c), of the California Health and Safety Code.

f. Any material which a handler or the city has a reasonable basis for believing would be injurious to the health, safety and welfare of persons or property or harmful to the environment if released into the workplace or the environment.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97; Ord. No. 9.07, 11/27/07; Ord. No. 15.10, § 1, 10/26/10.)

SEC. 24.2.1. Exclusions.

This chapter excludes the following materials from hazardous materials permit fees. These materials may be required to be reported or included in a hazardous materials management plan (HMMP) when the fire chief or his/her designee so determines and where such action would be appropriate and consistent with achieving the general obligation of this chapter for protecting public health, safety and welfare. In addition, the following materials shall comply with all applicable requirements in Division III (Storage, Handling and Dispensing Standards) of this chapter.

a. **Retail products.** Hazardous materials meeting all of the following requirements: (1) contained solely in consumer products with a container capacity not exceeding five (5) gallons or fifty (50) pounds; (2) packaged for distribution to, and use by, the general public; (3) whose contents are not dispensed from their original containers at the storage facility; and (4) located in an area defined as a "retail sales occupancy" per Article I, Division I of this chapter.

b. **Medicinal products.** Oxygen and nitrous oxide, ordinarily maintained by a physician, dentist, podiatrist, veterinarian or pharmacist at his or her office or place of business, stored at each office or place of business in quantities of not more than one thousand (1,000) cubic feet of each material at any one time.

c. **Food and beverage products.** Noncryogenic carbon dioxide compressed gas used in the direct dispensing of food or beverages at restaurants, delicatessens, pubs or other public eating or drinking establishments.

d. **Stationary Storage Battery Systems.** Batteries used for facility standby power, emergency power or uninterrupted power supplies in which the liquid electrolyte in the

cells is immobilized (i.e., AGM-absorptive glass mat, gel cell) and contain less than 55 gallons (aggregate) quantity.

e. **Minimum quantities*.** Hazardous materials whose aggregate quantity in a hazard class does not exceed the limits specified below:

Maximum Quantity	Hazard Class
10 gallons	Miscellaneous hazardous material liquid
10 gallons	Combustible liquid
10 gallons	Corrosive liquid
10 gallons	Flammable liquid
10 gallons	Oxidizer liquid
50 pounds	Miscellaneous hazardous material solid
50 pounds	Corrosive solid
50 pounds	Flammable solid
50 pounds	Oxidizer solid
200 cubic feet	Nonflammable gas
200 cubic feet	Flammable gas

*Minimum quantity exclusions do not apply to hazardous substances stored in underground storage tanks.

f. **Exemption.** The city shall exempt any material from the requirements of this chapter where it has been demonstrated to the satisfaction of city that the material in the quantity and/or solution stored does not present a significant actual or potential hazard to the public health, safety or welfare.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 9.07, 11/27/07; Ord. No. 15.10, § 1, 10/26/10.)

Mountain View, California, Code of Ordinances >> PART II - THE CODE >> CHAPTER 24 - HAZARDOUS MATERIALS >> ARTICLE I. - HAZARDOUS MATERIALS PERMIT CODE. >> DIVISION VII. APPLICATIONS AND PERMITS. >>

DIVISION VII. APPLICATIONS AND PERMITS. [2]

SEC. 24.7.0. Permit.
SEC. 24.7.1. Application for permit.
SEC. 24.7.2. Closure approvals.
SEC. 24.7.3. Fees.

SEC. 24.7.0. Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the applicant which the fire chief or his/her designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:
   1. The applicant has complied with all reporting requirements of this chapter;
   2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;
   3. The fire chief or his/her designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and
   4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Sec. 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e.

A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his/her designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his/her designee shall reinstate any suspended hazardous materials permit upon proof of the following:

   1. Satisfactory ability to comply with all storage and handling requirements; and
   2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his/her designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Section 25281(f).

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 15.10, § 1, 10/26/10.)

SEC. 24.7.1. Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his/her designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter.

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 15.10, § 1, 10/26/10.)

SEC. 24.7.2. Closure approvals.

a. Persons, firms or corporations storing, handling or dispensing hazardous or other regulated materials in amounts exceeding the exempt amounts specified in Section 24.2.1 shall apply for approval to close such storage facility not less than thirty (30) days prior to the termination of the storage of hazardous or other regulated materials at the storage facility. This thirty (30) day period may be reduced or waived by city if there are special circumstances justifying such waiver. The property owner of the property upon which the storage facility exists shall be responsible for the closure in the event of the facility being abandoned or when the facility operator has not complied with Sec. 24.7.0 and 24.3.1 of this chapter. Such closure plan shall be acceptable to the city. The closure plan shall adequately describe procedures for terminating the storage of hazardous or other regulated materials in each storage facility in a manner that:

   1. Minimizes the need for further maintenance; and
   2. Verifies that any threat to public health or safety or to the environment from residual hazardous or other regulated materials in or from the storage facility is adequately minimized or eliminated. Basis of this verification may include but is not limited to visual inspections, records review, the analytical results of soil or groundwater samples, wipe samples, etc;
   3. Demonstrates that hazardous or other regulated materials that were stored in the storage facility will be removed, disposed of, neutralized, or reused in an appropriate manner, and in compliance with all applicable laws, ordinances, regulations and guidelines.

b. Upon completion of the closure plan, proof of proper removal and transport of all hazardous materials, tanks, sumps, reservoirs, containers and equipment which stored, handled or dispensed hazardous or other regulated materials shall be submitted. This may include, but is not limited to, hazardous waste manifests and bills of lading.

c. Upon completion of the closure plan, the fire chief or his/her designee may require the facility operator or property owner of facilities which stored, handled or dispensed poisonous or

acutely hazardous materials to include one (1) of the following statements in the closure documentation, signed by an independent industrial hygienist:

1. "This facility has been adequately closed using currently acceptable practices and is in compliance with local, state, and federal guidelines. In my professional opinion, remaining contamination (if any) poses an insignificant health risk based on the quantity, toxicity and location of the contamination, as well as the proposed use and potential activities of persons on the site"; or
2. "In my professional opinion, contamination has been found which may pose a significant health risk, based on the quantity, toxicity and location of the contamination, as well as the proposed use of the site and potential activities of persons on the site. Further remedial action is warranted to reduce this risk to acceptable levels and to comply with local, state, and federal guidelines, regulations and laws."

(Ord. No. 21.95, 11/28/95; Ord. No. 15.10, § 1, 10/26/10.)

SEC. 24.7.3. Fees.

City shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMMPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

City may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations).

(Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97; Ord. No. 15.10, § 1, 10/26/10.)

FOOTNOTE(S):

Note— Prior ordinance history: Ord. No. 25.83. *(Back)*

SEC. 24.10.0. Infractions and misdemeanors.

Any person, firm, or corporation, whether as an individual, officer, principal agent, employee or otherwise, violating or causing the violation of any of the provisions of: this chapter, a notice of violation, a compliance directive or a hazardous materials permit may be prosecuted for an infraction or misdemeanor, in addition to any civil penalties as set forth in Sec. 24.10.2.

Each day any violation of this chapter continues shall be regarded as a new and separate offense. The remedies provided in this chapter shall be cumulative and exclusive.

ENVIRONMENTAL COMPLIANCE PLAN
Certification Form

Facility ID:	722
Updated:	6/7/2011

Business Name
El Camino Paving, Inc.

Facility Street Address
924 San Rafael Avenue

Pursuant to Section 25503.3(c) of California Health and Safety Code (HSC), the Hazardous Materials Business Plan (HMBP) certification described below is hereby submitted for the above facility:

I certify that: (Check the appropriate box.)

☐ I have personally reviewed the Hazardous Materials Business Plan currently on file with your agency and certify that the HMBP is complete and accurate. (See bottom of page for details.) If this facility is subject to Federal Emergency Planning and Community Right to Know Act (EPCRA) reporting requirements, I have submitted the following documents with this Certification Form: Unified Program Consolidated Form (UPCF) Business Activities page; UPCF Business Owner/Operator Identification page with current signature and date; Hazardous Materials Inventory Statement page(s) with an original signature, photocopy of an original signature, or signature stamp on each page for all Extremely Hazardous Substances (EHS) handled at or above their Federal Threshold Planning Quantity (TPQ) or 500 pounds, whichever is less.

or

☐ Revisions to the Hazardous Materials Business Plan are necessary. The HMBP as revised is complete and accurate and is being implemented. A copy of the revisions is enclosed with this Certification along with a signed UPCF Business Owner/Operator Identification page.

OWNER/OPERATOR CERTIFICATION: I hereby certify under penalty of law that, based upon my inquiry of those individuals responsible for obtaining the information reported above, I believe that the submitted information is true, accurate, and complete. I understand that a revised HMBP must be submitted within 30 days of any change in this facility's storage or handling of hazardous materials that would require updating of the HMBP.

Name of Owner/Operator *(Print)*: _____ Title: _____

Signature: _____ Date: _____

By checking the upper box on this form, you are certifying that:

- The information contained in the HMBP most recently submitted is complete, accurate, and up-to-date; and
- There has been no change in the quantity of any hazardous material as reported in the most recently submitted Hazardous Materials Inventory forms; and
- The facility has not begun handling any hazardous material in a HMBP reportable quantity that is not currently listed in the Hazardous Materials Inventory; and
- The most recently submitted HMBP contains the information required by Section 11022 of Title 42 of the United States Code; and
- There have been no substantial changes in the facility's operations that would require revision of the current HMBP.

I. FACILITY IDENTIFICATION

State Facility ID #	43-005-000722	EPA ID # (Hazardous Waste Only)	CAC000045158

II. ACTIVITIES DECLARATION

NOTE: If you check YES to any part of this list, please submit the Business Owner/Operator Identification page.

Does your facility...	If yes, please complete these pages of the CUPA:	
A. HAZARDOUS MATERIALS Have on site (for any purpose) at any one time, hazardous materials at or above 55 gallons for liquids, 500 pounds for solids, or 200 cubic feet for compressed gases (include liquids in ASTs and USTs); or the applicable Federal threshold quantity for an extremely hazardous substance specified in 40 CFR Part 355, Appendix A or B; or handle radiological materials in quantities for which an emergency plan is required pursuant to 10 CFR Parts 30, 40 or 70?	☒ Yes ☐ No	HAZARDOUS MATERIALS INVENTORY – CHEMICAL DESCRIPTION
B. CalAPR REGULATED SUBSTANCES Have Regulated Substances stored onsite in quantities greater than the threshold quantities established by the California Accidental Release prevention Program (CalARP)?	☐ Yes ☒ No	Coordinate with your local agency responsible for CalARP.
C. UNDERGROUND STORAGE TANKS (USTs) Own or operate underground storage tanks?	☐ Yes ☒ No	UST FACILITY (Formerly SWRCB Form A) UST TANK (one page per tank) (Formerly Form B)
D. ABOVE GROUND PETROLEUM STORAGE Own or operate ASTs above these thresholds: Store greater than 1,320 gallons of petroleum products (new or used) in aboveground tanks or containers.	☒ Yes ☐ No	NO FORM REQUIRED TO CUPAs
E. HAZARDOUS WASTE Generate hazardous waste?	☒ Yes ☐ No	EPA ID NUMBER – provide at the top of this page
Recycle more than 100 kg/month of excluded or exempted recyclable materials (per HSC 25143.2)?	☐ Yes ☒ No	RECYCLABLE MATERIALS REPORT (one per recycler)
Treat hazardous waste on-site?	☐ Yes ☒ No	ON-SITE HAZARDOUS WASTE TREATMENT – FACILITY ON-SITE HAZARDOUS WASTE TREATMENT – UNIT (one page per unit)
Treatment subject to financial assurance requirements (for Permit by Rule and Conditional Authorization)?	☐ Yes ☒ No	CERTIFICATION OF FINANCIAL ASSURANCE
Consolidate hazardous waste generated at a remote site?	☐ Yes ☒ No	REMOTE WASTE / CONSOLIDATION SITE ANNUAL NOTIFICATION
Need to report the closure/removal of a tank that was classified as hazardous waste and cleaned on-site?	☐ Yes ☒ No	HAZARDOUS WASTE TANK CLOSURE CERTIFICATION
Generate in any single calendar month 1,000 kilograms (kg) (2,200 pounds) or more of federal RCRA hazardous waste, or generate in any single calendar month, or accumulate at any time, 1 kg (2.2 pounds) of RCRA acute hazardous waste; or generate or accumulate at any time more than 100 kg (220 pounds) of spill cleanup materials contaminated with RCRA acute hazardous waste.	☐ Yes ☒ No	Obtain federal EPA ID Number, file Biennial Report (EPA Form 8700-13A/B), and satisfy requirements for RCRA Large Quantity Generator.
Household Hazardous Waste (HHW) Collection site?	☐ Yes ☒ No	See CUPA for required forms.
F. LOCAL REQUIREMENTS Store or use hazardous materials exceeding the exempt amounts in Chapter 24, MVCC, or have permitted waste water discharge?	☒ Yes ☐ No	COMPLETE ENVIRONMENTAL COMPLIANCE PLAN (ECP)

Wastewater Process Discharge

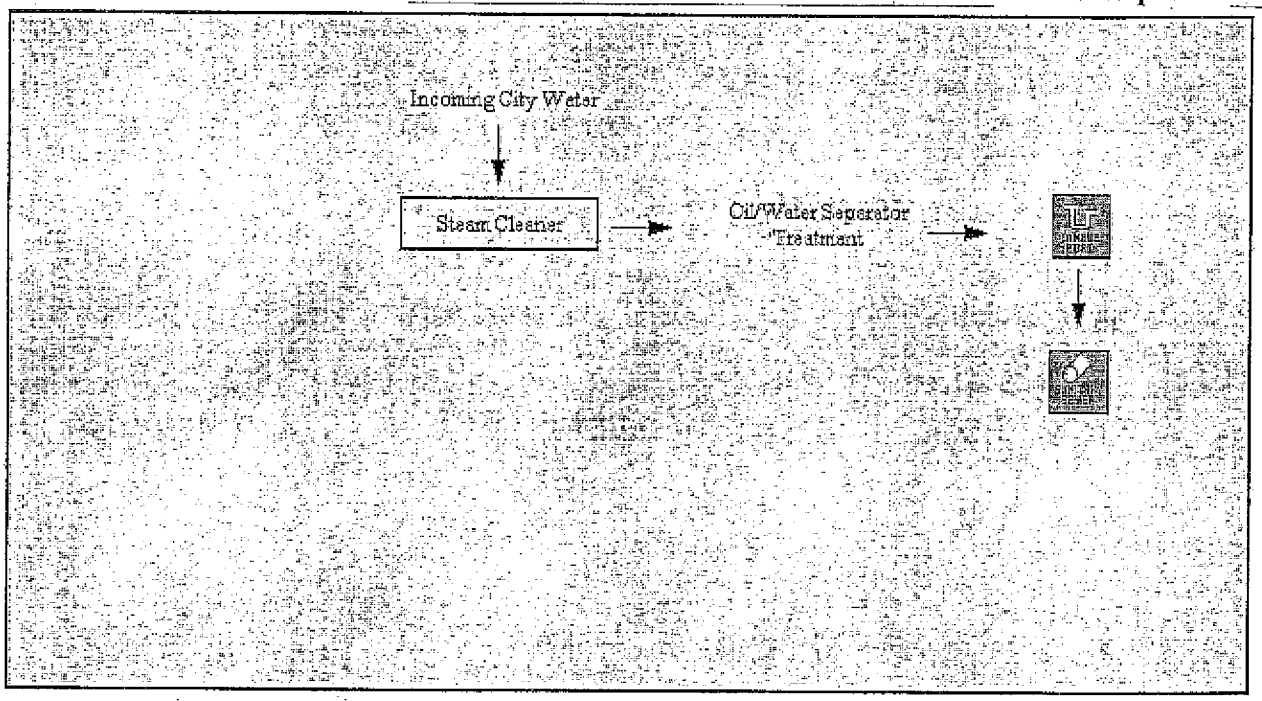
Business Name
El Camino Paving, Inc.

Facility ID:	722
Updated:	6/7/2011

Facility Street Address
924 San Rafael Avenue

Discharge Activity Name: Steam Cleaning — Activity #: 701

Discharge Source (Map Location): "Sump" on map — **RCMs Required?** No



Sanitary Sewer Discharge Data:
Average Daily Flow: 30 GPD **Maximum Daily Flow:** 100 GPD **Sample Port:** A1

REASONABLE CONTROL MEASURES (RCMs)

This section does NOT APPLY to this wastewater process discharge.

Control of Bath Make-Up

	Select Best Bath Chemistry
	Use Standard Recipes
	Use De-Ionized Water

Extension of Bath Life

	Bath Purification
	High Purity Anodes
	Change Bath by Analysis
	Purifiable Bath Chemistry

Pretreatment of Spent Baths

	Electrowin Spent Baths, or
	Batch Treat Spent Bath

Minimization of Drag-In

	Efficient Pre-Cleaning of Parts
	Use Coated Racks
	Optimization of Prior Processes
	Use Drag-In/Drag-Out Sequence

Flow Control

	Conductivity Controller, or
	Flow Timer, or
	Contact Switch

Countercurrent Rinsing

	Separate Tank, or
	Divide Existing Tank, or
	Spray Over Existing Tank

Minimization of Drag-Out

	Static Drag-Out Tank
	Spray Rinse, or
	Squeege, or
	Air Knives
	Drain Boards
	Splash Guard
	Drip Bar, or
	Increased Dwell Time
	Recapture Drag Out

Substitutes/Comments

Emergency Response (Contingency Plan) I
Emergency Procedures

Facility ID:	722
Updated:	6/7/2011

Business Name

El Camino Paving, Inc.

Facility Street Address

924 San Rafael Avenue

Emergency response to hazardous materials spills or releases is the responsibility of the ***business owner.*** The role of the Fire Department is to provide ***assistance*** to your primary response actions. This site-specific Emergency Response (Contingency) Plan describes your facility's plan for dealing with reportable discharges and shall be implemented immediately whenever they occur. Employees must understand their roles and responsibilities during such an emergency through on-going training and drills. For larger facilities, a more detailed plan may be substituted, but it must include all the items listed here. ***This plan shall be maintained on site for use in the event of an emergency and for inspection by the Fire Department.***

1. **Evacuation Plan:**
   a. The following alarm signal(s) will be used to begin evacuation of this facility:
   ☐ Bells ☐ Horns/Sirens ☒ Verbal (i.e. Shouting) ☐ Other (specify) Alarm
   b. ☒ Evacuation map is displayed throughout the facility inc. entrances to hazmat locations.

2. a. **Emergency Contacts:**

Fire/Police/Ambulance	Phone No. [redacted]
California Emergency Management Agency	Phone No.

b. **Post-Incident Contacts:**

Fire Department Fire and Environmental Protection Division	Phone No.
California Department of Toxic Substance Control (DTSC)	Phone No.
Santa Clara County Department of Environmental Health	Phone No.
Cal-OSHA Division of Occupational Safety and Health	Phone No.
Bay Area Air Quality Management District	Phone No.
Regional Water Quality Control Board	Phone No.

c. **Emergency Resources:**

Poison Control Center	Phone No.
Nearest Hospital: El Camino Hospital	Phone No.
Address: [redacted]	City: Mountain View
Hazwaste Cleanup Contractor: Nor Cal Oil	Phone No. [redacted]
Contact Name: Emma Puitt	EPA ID#: CAD982417255

3. **Arrangements With Emergency Responders:**
If you have made arrangements with any police department, fire department, hospital, cleanup contractor, or State or local emergency response team to provide specific emergency services, describe them below:

4. **Emergency Procedures:**
Emergency Coordinator (EC) Responsibilities:

a. Whenever there is a reportable hazardous materials spill or release emergency, the EC (or his/her designee) whose name is **Daniel Campos** and job title is **Maintenance Supervisor** shall:
   i. Identify the character, source, amount, and aerial extent of any released hazardous materials.
   ii. Assess possible hazards to human health or the environment that may result from the emergency. This assessment must consider both direct and indirect effects.
   iii. Activate internal facility alarms or communication systems, where applicable, to notify all facility personnel.

(Continued...)

Emergency Response (Contingency Plan) I
Emergency Procedures (Con't)

Facility ID:	722
Updated:	6/7/2011

Business Name
El Camino Paving, Inc.

Facility Street Address
924 San Rafael Avenue

Emergency Coordinator (EC) Responsibilities (Continued):

iv. Notify appropriate local authorities *(i.e. call 911).*
v. Notify the California Emergency Management Agency at (800) 852-7550.
vi. Monitor for leaks, pressure build up, gas generation, or ruptures in valves, pipes, or other equipment shut down in response to the emergency.
vii. Take all reasonable measures necessary to ensure that the emergency does not occur, reoccur, or spread to other hazardous materials at the facility.

b. Before facility operations are resumed in areas of the facility affected by the emergency, the EC shall:
i. Provide for proper storage and disposal of recovered waste, contaminated soil or surface water, or any other material that results from the emergency at the facility.
ii. Ensure that no material that is incompatible with the released material is transferred, stored, or disposed of in areas of the facility affected by the emergency until cleanup procedures are completed.
iii. Ensure that all emergency equipment is cleaned, fit for use, available for use, or properly disposed of.
iv. Notify the applicable "Post-Incident Contacts" listed in item 2.b on the previous page.

Responsibilities of Personnel Other Than the EC:

Function:	*Name and Job Title:*
Shutdown of Operations/Systems:	Melissa A. Campos
Evacuation of Building Personnel:	Melissa A. Campos
Oversight of Outside Assembly Areas:	Walter Roland/Foreman, Daniel Campos
Medical Treatment For Injuries (First Aid, CPR, etc.):	Melissa A. Campos

5. **Post-Incident Reporting/Recording:**

The time, date, and details of any hazardous materials emergency that requires implementation of this plan shall be noted in the facility's operating record.

Within 15 days of any emergency situation which triggers implementation of this plan, a written Emergency Incident Report must be submitted to the California Department of Toxic Substances Control and the Fire and Environmental Protection Division of the Mountain View Fire Department. The report shall include:

a. Name, address, and telephone number of the facility's owner/operator;
b. Name, address, and telephone number of the facility;
c. Date, time, and complete description of the emergency;
d. Name and quantity of the hazardous material(s) involved;
e. The extent of personal injuries, if any;
f. An assessment of actual or potential hazards to human health or the environment, where applicable;
g. The estimated quantity and disposition of recovered material that resulted from the emergency;
h. The cause(s) of the emergency;
i. The actions taken in response to the emergency; and
j. Administrative or engineering controls installed to prevent such emergencies in the future.

6. **Earthquake Vulnerability:** [19 CCR 2731(e)]

a. **Identification** of areas of the facility and mechanical or other systems that require immediate inspection or isolation because of their vulnerability to seismic activity.
b. **Inspection** of all vulnerable hazardous waste/materials areas, including any or all compressed gases and storage tank/containers. All braces, chains and supporting anchors that secure hazardous waste/materials will be inspected for integrity breach.
c. **Isolation** of compressed gases that are incompatible will be segregated to prevent hazard of commingling other chemicals of a hazard category or incompatibility will be segregated as necessary.

7. **Hazard Mitigation/Prevention/Abatement** [19 CCR 2731(c)]

Describe your procedures that provide for mitigation, prevention or abatement of hazards to persons, property or the environment below:

Indicate below the training provided for all new and existing (annual refresher) employees (check all that apply):
[Note: Items marked with an asterisk(*) are required]

1. Personnel are trained in the following procedures:

- ☒ Internal alarm and notification *
- ☒ Evacuation/re-entry procedures & assembly point locations *
- ☒ Emergency incident reporting
- ☒ External emergency response organization notification
- ☒ Location(s) and contents of this Emergency Response/Contingency Plan *
- ☒ Facility evacuation drills, which are conducted at least (specify) *Bi-annually*

2. Chemical Handlers are additionally trained in the following:

- ☒ Safe methods for handling and storage of hazardous materials *
- ☒ Location(s) and proper use of fire and spill control equipment *
- ☒ Spill procedures/emergency procedures
- ☒ Proper use of personal protective equipment *
- ☒ Specific hazard(s) of each chemical to which they may be exposed, inc. routes of exposure *
- ☐ Hazwaste Handlers/Managers are trained in all aspects of hazardous waste management specific to their job duties (e.g. container accumulation time requirements, labeling requirements, storage area inspection requirements, manifesting requirements, etc.

3. Emergency Response Team Members are capable of and engaged in the following:

- ☐ Personnel rescue procedures
- ☐ Shutdown of operations
- ☐ Liaison with responding agencies
- ☐ Use, maintenance and replacement of emergency response equipment
- ☐ Refresher training, which is provided at least annually
- ☐ Emergency response drills, which are conducted at least (specify)

4. The following records are maintained by this facility:

- ☒ Current employees' training records (retained until closure of the facility) *
- ☒ Former employees' training records (retained at least 3 years after employee termination) *
- ☒ Training program(s) (i.e. written description of introductory and continuing training) *
- ☒ Current copy of this Emergency Response/Contingency Plan *
- ☒ Written record of recordable/reportable hazardous material/waste releases *
- ☒ Written record of hazardous material/waste storage area inspections *
- ☒ Written record of hazardous waste tank daily inspections *
- ☒ Description and documentation of facility emergency response drills

Marie S. Alva & Stephanie Alva
924 San Rafael Avenue
Mountain View, CA 94043

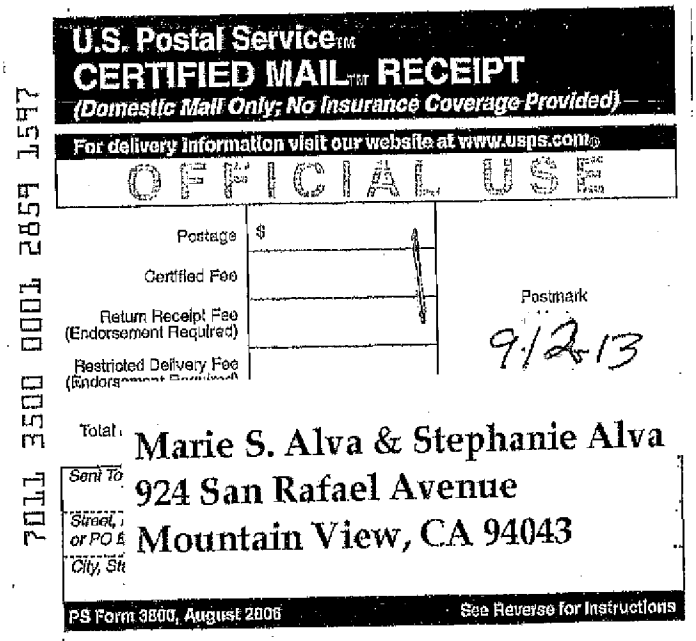
Dear Marie Alva and Stephanie Alva:

Please be advised that an administrative hearing has been scheduled for Tuesday, October 1, 2013, at 1:00 p.m. The hearing will take place at Mountain View City Hall, 500 Castro Street, in the City Attorney's Office on the third floor.

If you have any questions or need further assistance, please feel free to contact me at (650) 526-7711. Thank you for your cooperation.

Sincerely,

Kelli Casale
Senior Code Enforcement Officer



Wentker, Jaymae

ENVIRONMENTAL PROGRAMS NOTICE OF INSPECTION

Facility Name: El Camino Paving, Inc.
Facility Address: 924 San Rafael Avenue 104
Facility Contact: Stephanie Alva

Date: 7/11/13 **Fac ID:** 722 **Inspection #:** 1
Samples Taken? No **Photographs Taken?** No
Inspector(s): Mauri

The Following Violations Have Been Observed During This Inspection:

FIRE CODE PROGRAM VIOLATIONS:

- No violations observed.

HAZARDOUS MATERIALS PROGRAM VIOLATIONS:

HMO-1.8 C1 • A business shall submit amendments to the ECP whenever changes in the information occur. Update the entire Environmental Compliance Plan. (MVCC Chapt. 24, §24.4.0.b). **Location: Business has not updated ECP since 2011.**

HMO-10.2 C1 • Exceeding Exempt Amounts. It shall be unlawful for any person, firm or corporation to store or handle any hazardous materials in excess of exempt amounts without first obtaining a permit for the storage and handling of hazardous materials. Remove the following hazardous materials which are not permitted: (MVCC Chapt. 24, §24.7.0): **Location: Permit expired May 1, 2012. Reduce quantities or renew permit.**

****

COMMENTS:

NOTICE TO COMPLY: A reinspection shall be conducted on or after 7/15/2013. Additional inspections after the first reinspection are billed at $321.00/hour. Failure to correct the above violations may result in administrative fines, civil or criminal penalties.

OCCUPANT'S SIGNATURE: Stephanie Alva

PAYMENT IS TO BE MADE TO:

CITY OF MOUNTAIN VIEW
500 CASTRO STREET-4TH FLOOR
MOUNTAIN VIEW, CA 94041-2010
ATTN: FIRE AND ENVIRONMENTAL PROTECTION DIVISION

Failure to pay the total penalty by the specified due date will result in assessment of additional penalties. Appeal of this citation may be made by filling out the attached Request for Hearing form. Where compliance has not been achieved by the date of this citation, each day of noncompliance subsequent to this citation is a distinct and continuing violation, and additional citations may be issued for each day the violation exists. Please contact the Fire Marshal at (650) 903-6821 if you have any questions.

Ms. Stephanie Alva
El Camino Paving, Inc.
924 San Rafael Avenue
Mountain View, CA 94043

SENT BY EMAIL AND
CERTIFIED MAIL

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

The Hazardous Materials permit for El Camino Paving, Inc. expired on **May 1, 2012**. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's were not returned to the Mountain View Fire Department by the **May 1, 2012** deadline and are considered past due. All past due permit fees are subject to a late fee equal to double the annual permit fee.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP for 2012 (see attached) and 2013. Without a valid Hazardous Materials permit, El Camino Paving, Inc., is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with all past due permit renewal fees for 2012 and 2013, inclusive of penalties, in the amount of **$8749.00** respectively, to this department no later than **5:00pm June 17, 2013.**

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than **5:00pm June 17, 2013.**

Recycled Paper

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by **5:00pm June 17, 2013** will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker
Fire Marshal

April 3, 2013

LATE NOTICE

This letter is to remind you that your completed Environmental Compliance Plan (ECP) and all applicable fees **were due April 1, 2013.** Those facilities which have not submitted their completed ECP and appropriate fees to our office by **5:00 pm, May 1, 2013,** will be subject to **double fees** and possible civil penalties. There will be **no exceptions or extensions granted.**

If you need an additional copy of your ECP please stop by our office, located at 500 Castro Street-4th Floor. There is a $10.00 reprinting charge. Please call ahead (650-903-6378) to ensure staff is available to assist you.

Thank you for your prompt attention to this matter. If you have submitted your ECP within the last few days, please disregard this notice.

inspection nor shall any actual inspection made imply a duty to conduct any other inspection. Furthermore, nothing in this chapter shall be construed to hold the city or any officer, employee or representative of the city responsible for any damage to persons or property by reason of making an inadequate or negligent inspection or by reason of any failure to make an inspection or reinspection. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.6.1. Inspections by permittee.

The permittee shall conduct regular inspections of its own facilities to assure compliance with this chapter and shall maintain logs or file reports in accordance with this chapter. The inspector conducting such inspections shall be qualified to conduct such inspections. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.6.2. Special inspections.

In addition to the inspections specified above, city may require the periodic employment of special inspectors to conduct an audit or assessment of permittee's facility to make a hazardous or other regulated material safety evaluation and to determine compliance with the provisions of this chapter.

a. The special inspector shall be a qualified person or firm who shall demonstrate expertise to the satisfaction of the city.

b. The special inspection report shall include an evaluation of the facilities and recommendations consistent with the provisions of this chapter where appropriate. A copy of the report shall be filed with city at the same time that it is submitted to permittee.

c. Permittee shall, within thirty (30) days of said report, file with city a plan to implement all recommendations, or shall demonstrate to the satisfaction of city why such recommendations shall not be implemented. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.6.3. Substituted inspections.

An inspection by an employee of any other public agency may be deemed by the city as a substitute for any requirement above. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.6.4. Maintenance of records.

All records required by this chapter shall be maintained by the permittee for a period of not less than three (3) years. Said records shall be made available to city during normal working hours and upon reasonable notice, or copies of these records shall be sent to city, if city so requests. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

DIVISION VII. APPLICATIONS AND PERMITS.*

* Prior ordinance history: Ord. No. 25.83.

SEC. 24.7.0. Permit.

a. It shall be unlawful for any person, firm or corporation to store or handle any hazardous or other regulated materials in excess of the exempt amounts specified in Section 24.2.1 without first obtaining a permit for the storage and handling of the hazardous or other regulated materials. Furthermore, it shall be unlawful for any person, firm or corporation to store or handle hazardous or other regulated materials in quantities in excess of the quantities specified in the permit, or to violate any other requirement set forth in this chapter or in the permit.

b. The permit for hazardous or other regulated material storage and handling may include the following: (1) name and address of the permitted facility; (2) mailing address; (3) issue, revision and expiration dates of the permit; (4) type of permit (full-term, temporary or provisional); (5) maximum quantities and hazard classes of hazardous or other regulated materials allowed on site at any one time; and (6) compliance directives specifying maintenance and/or upgrade requirements and dates for complying with these requirements. The permit may impose any additional terms or conditions upon the appli-

cant which the fire chief or his designee deems reasonable and necessary to carry out the purposes of this chapter.

c. A full-term permit may be issued to the applicant if:

1. The applicant has complied with all reporting requirements of this chapter;

2. The applicant has furnished all requested information, including a complete permit application as described in this chapter;

3. The fire chief or his designee determines that there are adequate devices, equipment, chemicals, administrative controls, engineering controls and other facilities to safely store and handle the hazardous or other regulated materials; and

4. The person(s) responsible for emergency spill response and control are adequately trained and capable of consistently meeting permit requirements.

d. If the officer to whom the application has been made finds that the proposal does not completely conform to the provisions of this chapter or meet the conditions of Section 24.7.0.c. above, the officer may approve a provisional permit, subject to conditions to be imposed by the officer. The applicant must be informed in writing of the reasons why a full-term permit was not issued.

e. A permit for temporary storage may be issued where storage does not exceed thirty (30) days and occurs no more frequently than every six (6) months. The storage, handling and dispensing standards of Division III, the HMMP reporting requirements of Division IV and the inspection and records requirements of Division VI may be modified as appropriate under these circumstances for the storage of hazardous or other regulated materials on a nonregular basis.

f. If the officer to whom the permit application has been made has cause to deny the issuance of a full-term permit and determines that it would not be feasible or in the public interest to approve a temporary or provisional permit, the officer shall deny issuance of a permit. A permit shall be denied if the applicant fails to demonstrate adequate conformity to the provisions of this chapter, or if issuance of a permit would threaten the health, safety or welfare of the community, persons, resources or property. The decision to deny the permit shall be given to the applicant in writing setting forth the findings upon which the decision is based.

g. No permit shall become effective until the permit has been signed by the fire chief or his designee.

h. A change of ownership (including a transfer of the majority of shares in a corporate facility) of the hazardous materials storage facility requires the submittal of an amended permit application. The permit may be transferred to new owners of the same business only if the new owners accept responsibility for all obligations under this chapter and all permit conditions at the time of the transfer of the business and document such transfer in writing within thirty (30) days of transfer of ownership of the business. Such transfer shall be subject to the approval of city.

i. Any permittee desiring to store, handle or dispense hazardous or other regulated materials which are not in conformance with their hazardous materials permit shall apply for and obtain an amended permit prior to any such storage, handling or dispensing.

j. The continued use of, and permit approval for, existing storage facilities is subject to review and modification or termination by city whenever: (1) there has been any unauthorized discharge or significant reduction in the integrity of primary or secondary containment; (2) the permit is renewed; (3) significant changes in hazardous materials processes occur; (4) there is a change of one hundred (100) percent or more in the quantity or any change in the quantity range of a previously disclosed hazardous or other regulated material, or the handling of a previously undisclosed hazardous or other regulated material; or (5) the city is required to implement programs or policies required by state or federal agencies.

k. The fire chief or his designee shall reinstate any suspended hazardous materials permit upon proof of the following:

1. Satisfactory ability to comply with all storage and handling requirements; and

2. The payment of costs, fines, or penalties which may be assessed. The fire chief or his designee may require the permit holder to develop and implement a compliance schedule for any proposed modification of permit terms and conditions.

l. A permit may be issued for a term of up to five (5) years, excepting provisional permits which may be issued for any period of time up to six (6) months and temporary permits which may be issued for no longer than thirty (30) days.

m. Notwithstanding Sec. 24.2.1 and in addition to those materials regulated pursuant to Sec. 24.2.0, a permit shall be required for the storage in an underground storage tank as defined by California Health and Safety Code Section 25281(x) of any material defined as a hazardous substance by California Health and Safety Code Sec. 25281(f). (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.1. Application for permit.

a. Applicants for a permit to store, handle or dispense hazardous or other regulated materials shall complete and submit an application form approved by the city for each facility storing, handling or dispensing the hazardous or other regulated materials in excess of the exempt amounts specified in Sec. 24.2.1.

b. The hazardous materials management plan shall serve as the basis of the hazardous materials permit application. Construction plans, specifications, calculations and other additional information may also be required as part of the application in order for the fire chief or his designee to determine that the storage and handling of the hazardous or other regulated materials will be conducted in a manner which meets the purposes of this chapter.

c. Every application for the renewal of a permit or extension of a provisional permit shall be made at least thirty (30) days prior to the expiration date of such permit. If a timely application for renewal has been submitted, the permit shall remain in effect until the city has made its determination.

d. The officer to whom an application for a new or renewed permit is made may make such investigation of the applicant and the proposed facility or activity as such officer deems necessary to carry out the purposes of this chapter. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.7.2. Closure approvals.

a. Persons, firms or corporations storing, handling or dispensing hazardous or other regulated materials in amounts exceeding the exempt amounts specified in Section 24.2.1 shall apply for approval to close such storage facility not less than thirty (30) days prior to the termination of the storage of hazardous or other regulated materials at the storage facility. This thirty (30) day period may be reduced or waived by city if there are special circumstances justifying such waiver. The property owner of the property upon which the storage facility exists shall be responsible for the closure in the event of the facility being abandoned or when the facility operator has not complied with Sec. 24.7.0 and 24.3.1 of this chapter. Such closure plan shall be acceptable to the city. The closure plan shall adequately describe procedures for terminating the storage of hazardous or other regulated materials in each storage facility in a manner that:

1. Minimizes the need for further maintenance; and

2. Verifies that any threat to public health or safety or to the environment from residual hazardous or other regulated materials in or from the storage facility is adequately minimized or eliminated. Basis of this verification may include but is not limited to visual inspections, records review, the analytical results of soil or groundwater samples, wipe samples, etc;

3. Demonstrates that hazardous or other regulated materials that were stored in the storage facility will be removed, disposed of, neutralized, or reused in an appropriate manner, and in compliance with all applicable laws, ordinances, regulations and guidelines.

b. Upon completion of the closure plan, proof of proper removal and transport of all hazardous materials, tanks, sumps, reservoirs, containers and

equipment which stored, handled or dispensed hazardous or other regulated materials shall be submitted. This may include, but is not limited to, hazardous waste manifests and bills of lading.

c. Upon completion of the closure plan, the fire chief or his designee may require the facility operator or property owner of facilities which stored, handled or dispensed poisonous or acutely hazardous materials to include one (1) of the following statements in the closure documentation, signed by an independent industrial hygienist:

1. "This facility has been adequately closed using currently acceptable practices and is in compliance with local, state, and federal guidelines. In my professional opinion, remaining contamination (if any) poses an insignificant health risk based on the quantity, toxicity and location of the contamination, as well as the proposed use and potential activities of persons on the site"; or

2. "In my professional opinion, contamination has been found which may pose a significant health risk, based on the quantity, toxicity and location of the contamination, as well as the proposed use of the site and potential activities of persons on the site. Further remedial action is warranted to reduce this risk to acceptable levels and to comply with local, state, and federal guidelines, regulations and laws." (Ord. No. 21.95, 11/28/95.)

SEC. 24.7.3. Fees.

City shall establish fees sufficient to recover its costs in administering this chapter and related state and federal laws and regulations referenced in this chapter, including the cost of providing hazardous materials services and implementing the hazardous materials ordinance. These fees shall include, but not be limited to, the cost of review of HMMPs, inspections, plan checks, facility closures and other program implementation and administrative costs. The fee schedule shall be adopted by resolution of the city council. No application shall be accepted unless and until the fees have been paid.

City may collect fees charged by the County of Santa Clara or the State of California for program implementation and administration pursuant to Certified Unified Program Agency legislation (Title 27, Division 1, Subdivision 4, Chapter 1 of the California Code of Regulations). (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95; Ord. No. 13.97, 11/12/97.)

DIVISION VIII. REMEDIAL ACTION.

SEC. 24.8.0. Notice of violation.

Unless the fire chief or his designee finds that an immediate suspension under Sec. 24.9.2. is necessary to protect the environment, public health, safety, or welfare from imminent danger, the officer shall issue a notice of violation for:

Failure to comply with the provisions of this chapter, any permit conditions, any compliance directives or any provisions of the hazardous materials management plan within the time specified in the inspection notice, permit or compliance directive; or fraud, willful misrepresentation, or any willful inaccurate or false statement in applying for a new, amended or renewed permit; or fraud, willful misrepresentation, or any willful inaccurate or false statement in any report required by this chapter.

The notice of violation shall specify: (a) dates when initial and follow-up inspections were conducted; (b) provisions of this chapter, permit conditions, compliance directives, or provisions of the hazardous materials management plan found to be in violation; (c) inaccurate or false statements made in permit applications or reports; (d) any applicable fines or other charges due for payment; and (e) deadline dates for compliance and payment of fines or other charges. Such notice shall be sent by certified mail to permittee. If the violation is not abated, corrected, or rectified and all fines or other charges paid within the time specified, a notice of hearing shall be given. (Ord. No. 19.83, 9/27/83; Ord. No. 7.90, 3/13/90; Ord. No. 21.95, 11/28/95.)

SEC. 24.8.1. Notice of hearing.

A notice of hearing shall be given to the permittee, applicant or responsible party by the fire chief or his designee in writing, setting forth the time and place of the hearing, the ground or grounds upon

NOTICE OF PERMIT EXPIRATION

May 21, 2012

Ms. Marie S. Alva
El Camino Paving, Inc.
[redacted]

Ms. Stephanie Alva
El Camino Paving, Inc.
924 San Rafael Ave
Mountain View, CA 94043

SENT CERTIFIED

RE: 924 SAN RAFAEL AVENUE- EXPIRATION OF HAZARDOUS MATERIALS PERMIT

This letter shall serve as official notice that the Hazardous Materials permit issued to El Camino Paving, Inc., located at 924 San Rafael Avenue has expired.

El Camino Paving, Inc. was issued an annual Hazardous Materials permit on June 7, 2011, which was valid through May 1, 2012. This permit requires renewal each year, along with the requirement to update your Environmental Compliance Plan (ECP) for accuracy. Permit fees and ECP's not returned to the Mountain View Fire Department by May 1, 2012 are considered late and subject to a late fee equal to double the annual permit fee.

An Environmental Compliance Plan (ECP) packet, along with an annual permit renewal invoice were mailed to you on February 13, 2012 with instructions to verify the accuracy of the ECP packet, sign the Business Owner/Operator and Business Plan Certification forms and return both with the permit fee to this office no later than April 2, 2012.

On April 4, 2012 this department issued you a **Late Notice** restating the requirement for submittal of the updated ECP packet, along with the permit renewal fee to be submitted no later than 5:00pm May 1, 2012 or be subject to double fees and possible civil penalties.

To date, you have made no attempt to pay your outstanding permit renewal fee or update your ECP. Without a valid Hazardous Materials permit El Camino Paving, Inc. is in violation of Mountain View City Code, Chapter 24, and shall not store, handle or use hazardous materials in excess of those quantities requiring a permit, as specified in MVCC Chapter 24.

To renew your Hazardous Materials permit you are required to submit an updated ECP, along with the permit renewal fees, inclusive of penalties, in the amount of $ 4,410.00 to this department no later than 5:00pm May 29, 2012.

Recycled Paper

If you chose to abandon your efforts to conduct business using hazardous materials in quantities requiring a Hazardous Materials permit, you shall reduce the quantity of hazardous materials inventory below the permittable amounts, as set forth in Chapter 24 of the Mountain View City Code, and notify this office in writing of your intentions no later than 5:00pm May 29, 2012.

Failure to renew your Hazardous Materials permit or reduce the quantity of hazardous materials below the permittable amounts by May 29, 2012 will result in the assessment of Administrative Penalties up to $1000.00 per day, with an Abatement Order issued to the property owner requiring removal of all hazardous materials from your business immediately.

Sincerely,

Jaymae Wentker

ADMINISTRATIVE HEARINGS

CITY OF MOUNTAIN VIEW, CALIFORNIA

IN THE MATTER OF

MARIA ALVA and STEPHANIE ALVA,

ADMINISTRATIVE DECISION

Respondents.
_____/

I

STATEMENT OF THE CASE

Due notice having been given, this matter came on regularly for hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on January 4, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondent Stephanie Alva appeared without counsel.

The hearing was held pursuant to Mountain View City Code Section (MVCCS) 1.29, as the City sought to enforce the compliance order of November 15, 2010 ("the Compliance Order"), relating to the real property located at 924 San Rafael Avenue, Mountain View, California ("the Subject Property"). The Compliance Order alleged that Respondents maintained violations of

MVCC 24.7, 24.7.1 and 24.7.3 at the Subject Property on November 15, 2010, and required correction of such violations by a Compliance Date of December 6, 2010. . Additionally, the City sought an order imposing administrative penalties and awarding code enforcement costs.

II

WITNESSES AND EVIDENCE

City Fire Marshall Jaymae Wentker testified for the City.

Stephanie Alva testified for Respondents.

The following documents were offered by the City and admitted into evidence without objection:

1. Exhibit "C-1": Case file consisting of twenty-seven pages of copies of documents.

Respondents offered no documentary evidence.

III

FINDINGS OF FACTS

1. At all relevant times, Respondents were the owners and operators of El Camino Paving, Inc., operating at the Subject Property.

2. Respondents did not contest the allegations of the Compliance Order and acknowledged that the corrections required by the Compliance Ordered had not been performed.

3. Respondents represented to the Hearing Officer that they would perform all the corrections required by the Compliance Order, forthwith.

4. Upon such representation, the City waived all administrative penalties and costs in this matter.

///

IV

DETERMINATION OF ISSUES

1. By reason of Findings of Facts Nos. 1 and 2, Respondents violated the Mountain View Municipal Code as alleged in the Compliance Order, and failed to correct the violations as required by the Compliance Order.

2. By reason of Findings of Facts Nos. 3 and 4, Respondents are not presently assessed administrative penalties or costs in this matter.

V

ORDERS

1. Respondents are ordered to perform, forthwith, the corrections required by the Compliance Order.

2. This matter is continued to April 5, 2011 at 1:30 p.m. for a review hearing

3. This decision is effective and final on the date below.

Dated: January 10, 2011

Louis L. Amadeo, Jr.

LOUIS L. AMADEO, JR.,
Administrative Hearing Officer

This decision may be appealed. To obtain judicial review of this decision, a notice of appeal must be filed pursuant to California Government Code Section 53069.4 within twenty days after the service of this decision.

CONTINUANCE OF HEARING

Due notice having been given, this matter came on regularly for a review hearing before Administrative Hearing Officer Louis L. Amadeo, Jr. on April 5, 2011, at City Hall, City of Mountain View, California ("the City"). Lance Bayer, Special Assistant City Attorney, Mountain View City Attorney's Office, appeared for the City. Respondents Maria Alva and Stephanie Alva did not appear.

The present hearing was held to evaluate Respondents' compliance with the City of Mountain View Compliance Order of November 15, 2010 ("the Compliance Order") and the Hearing Officer's Administrative Decision of January 10, 2011which required Respondents to correct the violations alleged in the Compliance Order.

Upon the City's request, this matter is continued to May 3, 2011 at 2:30 p.m. for review or other action.

Facility Street Address

924 San Rafael Avenue

Periodic Report of Continued Compliance (PRCC)
From: 1/1/2016 to 6/30/2016

No metal or organic constituents were sampled or analyzed during this reporting period.

I certify that the wastes discharged during the reporting period do not constitute hazardous waste under Chapter 6.5 of the Health and Safety Code [Sec. 25115 and 25117] and Title 22 of the California Code of Regulations [Sec. 66680-66746] at the point of discharge into the City sanitary sewer system. If I am a zero discharger, I certify that I have not discharged any categorical wastes and will not discharge them without prior notification to the City.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. [40 CFR 122.22(d)]

Wastewater Process Discharge

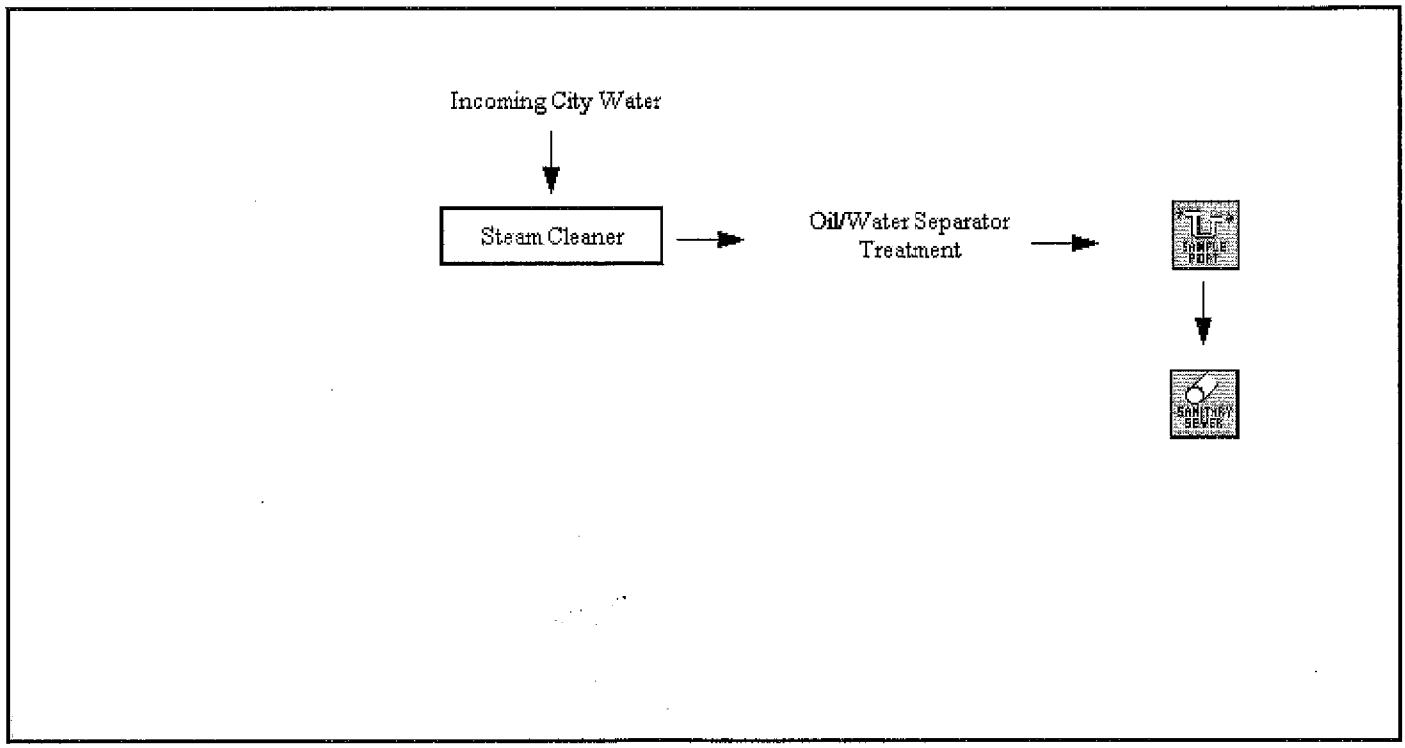
Business Name
El Camino Paving, Inc.

Facility ID:	722
Updated:	4/9/2014

Facility Street Address
924 San Rafael Avenue

Discharge Activity Name: Steam Cleaning **Activity** 1 **of** 1

Discharge Source (Map Location): "Sump" on map **RCMs Required?** No



Sanitary Sewer Discharge Data:
Average Daily Flow: 30 **GPD** **Maximum Daily Flow:** 100 **GPD** **Sample Port:** A1

REASONABLE CONTROL MEASURES (RCMs)

This section does NOT APPLY to this wastewater process discharge.

Control of Bath Make-Up

	Select Best Bath Chemistry
	Use Standard Recipes
	Use De-Ionized Water

Extension of Bath Life

	Bath Purification
	High Purity Anodes
	Change Bath by Analysis
	Purifiable Bath Chemistry

Pretreatment of Spent Baths

	Electrowin Spent Baths, or
	Batch Treat Spent Bath

Minimization of Drag-In

	Efficient Pre-Cleaning of Parts
	Use Coated Racks
	Optimization of Prior Processes
	Use Drag-In/Drag-Out Sequence

Flow Control

	Conductivity Controller, or
	Flow Timer, or
	Contact Switch

Countercurrent Rinsing

	Separate Tank, or
	Divide Existing Tank, or
	Spray Over Existing Tank

Minimization of Drag-Out

	Static Drag-Out Tank
	Spray Rinse, or
	Squeege, or
	Air Knives
	Drain Boards
	Splash Guard
	Drip Bar, or
	Increased Dwell Time
	Recapture Drag Out

Substitutes/Comments

Periodic Report of Continued Compliance (PRCC)
From: 7/1/2008 to 12/31/2008

COMMENTS/EXPLANATION FOR MISSING WASTEWATER ANALYSIS:

I certify that the wastes discharged during the reporting period do not constitute hazardous waste under Chapter 6.5 of the Health and Safety Code [Sec. 25115 and 25117] and Title 22 of the California Code of Regulations [Sec. 66680-66746] at the point of discharge into the City sanitary sewer system. If I am a zero discharger, I certify that I have not discharged any categorical wastes and will not discharge them without prior notification to the City.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. [40 CFR 403.12(l)]

TERMS: INVOICES OVER 30 DAYS ARE SUBJECT TO A 1.5% SERVICE CHARGE. CUSTOMER AGREES TO PAY ALL LEGAL FEES IF COURT ACTION BECOMES NECESSARY TO COLLECT THIS INVOICE.

American Valley Waste Oil hereby advises the above Generator the Generators shipment of used oil may be transported to a facility that is required to comply with federal regulations applicable to management of used oil, but that is not required to comply with the more stringent requirements applicable to hazardous waste management facilities. California facilities that handle or process used oil are required to meet those more stringent requirements, and some out-of-state facilities that process used oil also meet those requirements, engineering certifications of tank integrity, and financial assurances for closure and accidental releases. It is lawful to send used oil to out-of-state facilities that comply only with federal used oil management standards and not these more stringent requirements.

This notification is for information purposes only.

Driver signed [signature] Date 7-1-8 Generator signed [signature] Date 7-1-8

By signing the invoice the generator certifies that the generator has established a program to reduce the volume or quantity and toxicity of the hazardous waste to the degree, as determined by the generator, to be economically practicable.

By both parties signing this invoice it will serve as an agreement that American Valley will submit confirmations for (certain waste streams) to the generator that their waste has been transported to a license treatment or transfer facility.

GLOSSARY OF TERMS

Guide to Reading and Understanding Your Laboratory Report

The information below is designed to better explain the various terms used in your report of analytical results from the Laboratory. This is not intended as a comprehensive explanation, and if you have additional questions please contact your project representative.

Results Disclaimer - Information that may be provided by the customer, and contained within this report, include Permit Limits, Project Name, Sample ID, Sample Matrix, Sample Preservation, Field Blanks, Field Spikes, Field Duplicates, On-Site Data, Sampling Collection Dates/Times, and Sampling Location. Results relate to the accuracy of this information provided, and as the samples are received.

Abbreviations and Definitions

(dry)	Results are reported based on the dry weight of the sample. [this will only be present on a dry report basis for soils].
MDL	Method Detection Limit.
MDL (dry)	Method Detection Limit.
RDL	Reported Detection Limit.
RDL (dry)	Reported Detection Limit.
Rec.	Recovery.
RPD	Relative Percent Difference.
SDG	Sample Delivery Group.
(S)	Surrogate (Surrogate Standard) - Analytes added to every blank, sample, Laboratory Control Sample/Duplicate and Matrix Spike/Duplicate; used to evaluate analytical efficiency by measuring recovery. Surrogates are not expected to be detected in all environmental media.
U	Not detected at the Reporting Limit (or MDL where applicable).
Analyte	The name of the particular compound or analysis performed. Some Analyses and Methods will have multiple analytes reported.
Dilution	If the sample matrix contains an interfering material, the sample preparation volume or weight values differ from the standard, or if concentrations of analytes in the sample are higher than the highest limit of concentration that the laboratory can accurately report, the sample may be diluted for analysis. If a value different than 1 is used in this field, the result reported has already been corrected for this factor.
Limits	These are the target % recovery ranges or % difference value that the laboratory has historically determined as normal for the method and analyte being reported. Successful QC Sample analysis will target all analytes recovered or duplicated within these ranges.
Original Sample	The non-spiked sample in the prep batch used to determine the Relative Percent Difference (RPD) from a quality control sample. The Original Sample may not be included within the reported SDG.
Qualifier	This column provides a letter and/or number designation that corresponds to additional information concerning the result reported. If a Qualifier is present, a definition per Qualifier is provided within the Glossary and Definitions page and potentially a discussion of possible implications of the Qualifier in the Case Narrative if applicable.
Result	The actual analytical final result (corrected for any sample specific characteristics) reported for your sample. If there was no measurable result returned for a specific analyte, the result in this column may state “ND” (Not Detected) or “BDL” (Below Detectable Levels). The information in the results column should always be accompanied by either an MDL (Method Detection Limit) or RDL (Reporting Detection Limit) that defines the lowest value that the laboratory could detect or report for this analyte.
Uncertainty (Radiochemistry)	Confidence level of 2 sigma.
U (Radiochemistry)	Result + Error < MDA.
J (Radiochemistry)	Result < MDA; Result + Error > MDA.
Case Narrative (Cn)	A brief discussion about the included sample results, including a discussion of any non-conformances to protocol observed either at sample receipt by the laboratory from the field or during the analytical process. If present, there will be a section in the Case Narrative to discuss the meaning of any data qualifiers used in the report.
Quality Control Summary (Qc)	This section of the report includes the results of the laboratory quality control analyses required by procedure or analytical methods to assist in evaluating the validity of the results reported for your samples. These analyses are not being performed on your samples typically, but on laboratory generated material.
Sample Chain of Custody (Sc)	This is the document created in the field when your samples were initially collected. This is used to verify the time and date of collection, the person collecting the samples, and the analyses that the laboratory is requested to perform. This chain of custody also documents all persons (excluding commercial shippers) that have had control or possession of the samples from the time of collection until delivery to the laboratory for analysis.
Sample Results (Sr)	This section of your report will provide the results of all testing performed on your samples. These results are provided by sample ID and are separated by the analyses performed on each sample. The header line of each analysis section for each sample will provide the name and method number for the analysis reported.
Sample Summary (Ss)	This section of the Analytical Report defines the specific analyses performed for each sample ID, including the dates and times of preparation and/or analysis.

Qualifier	Description
C3	The reported concentration is an estimate. The continuing calibration standard associated with this data responded low. Method sensitivity check is acceptable.
C5	The reported concentration is an estimate. The continuing calibration standard associated with this data responded high. Data is likely to show a high bias concerning the result.
E	The analyte concentration exceeds the upper limit of the calibration range of the instrument established by the initial calibration (ICAL).
J	The identification of the analyte is acceptable; the reported value is an estimate.
J1	Surrogate recovery limits have been exceeded; values are outside upper control limits.

GLOSSARY OF TERMS

Qualifier	Description
J3	The associated batch QC was outside the established quality control range for precision.
J4	The associated batch QC was outside the established quality control range for accuracy.
J5	The sample matrix interfered with the ability to make any accurate determination; spike value is high.
J6	The sample matrix interfered with the ability to make any accurate determination; spike value is low.
J7	Surrogate recovery cannot be used for control limit evaluation due to dilution.
P	RPD between the primary and confirmatory analysis exceeded 40%.

CASE NARRATIVE

Unless qualified or notated within the narrative below, all sample aliquots were received at the correct temperature, in the proper containers, with the appropriate preservatives, and within method specified holding times. Where applicable, all MDL (LOD) and RDL (LOQ) values reported for environmental samples have been corrected for the dilution factor used in the analysis. All Method and Batch Quality Control are within established criteria except where addressed in this case narrative, a non-conformance form or properly qualified within the sample results. By my digital signature below, I affirm to the best of my knowledge, all problems/anomalies observed by the laboratory as having the potential to affect the quality of the data have been identified by the laboratory, and no information or data have been knowingly withheld that would affect the quality of the data.

Mandi Edwards
Project Manager

GLOSSARY OF TERMS

Guide to Reading and Understanding Your Laboratory Report

The information below is designed to better explain the various terms used in your report of analytical results from the Laboratory. This is not intended as a comprehensive explanation, and if you have additional questions please contact your project representative.

Results Disclaimer - Information that may be provided by the customer, and contained within this report, include Permit Limits, Project Name, Sample ID, Sample Matrix, Sample Preservation, Field Blanks, Field Spikes, Field Duplicates, On-Site Data, Sampling Collection Dates/Times, and Sampling Location. Results relate to the accuracy of this information provided, and as the samples are received.

Abbreviations and Definitions

MDL	Method Detection Limit.
RDL	Reported Detection Limit.
Rec.	Recovery.
RPD	Relative Percent Difference.
SDG	Sample Delivery Group.
U	Not detected at the Reporting Limit (or MDL where applicable).
Analyte	The name of the particular compound or analysis performed. Some Analyses and Methods will have multiple analytes reported.
Dilution	If the sample matrix contains an interfering material, the sample preparation volume or weight values differ from the standard, or if concentrations of analytes in the sample are higher than the highest limit of concentration that the laboratory can accurately report, the sample may be diluted for analysis. If a value different than 1 is used in this field, the result reported has already been corrected for this factor.
Limits	These are the target % recovery ranges or % difference value that the laboratory has historically determined as normal for the method and analyte being reported. Successful QC Sample analysis will target all analytes recovered or duplicated within these ranges.
Original Sample	The non-spiked sample in the prep batch used to determine the Relative Percent Difference (RPD) from a quality control sample. The Original Sample may not be included within the reported SDG.
Qualifier	This column provides a letter and/or number designation that corresponds to additional information concerning the result reported. If a Qualifier is present, a definition per Qualifier is provided within the Glossary and Definitions page and potentially a discussion of possible implications of the Qualifier in the Case Narrative if applicable.
Result	The actual analytical final result (corrected for any sample specific characteristics) reported for your sample. If there was no measurable result returned for a specific analyte, the result in this column may state “ND” (Not Detected) or “BDL” (Below Detectable Levels). The information in the results column should always be accompanied by either an MDL (Method Detection Limit) or RDL (Reporting Detection Limit) that defines the lowest value that the laboratory could detect or report for this analyte.
Uncertainty (Radiochemistry)	Confidence level of 2 sigma.
U (Radiochemistry)	Result + Error < MDA.
J (Radiochemistry)	Result < MDA; Result + Error > MDA.
Case Narrative (Cn)	A brief discussion about the included sample results, including a discussion of any non-conformances to protocol observed either at sample receipt by the laboratory from the field or during the analytical process. If present, there will be a section in the Case Narrative to discuss the meaning of any data qualifiers used in the report.
Quality Control Summary (Qc)	This section of the report includes the results of the laboratory quality control analyses required by procedure or analytical methods to assist in evaluating the validity of the results reported for your samples. These analyses are not being performed on your samples typically, but on laboratory generated material.
Sample Chain of Custody (Sc)	This is the document created in the field when your samples were initially collected. This is used to verify the time and date of collection, the person collecting the samples, and the analyses that the laboratory is requested to perform. This chain of custody also documents all persons (excluding commercial shippers) that have had control or possession of the samples from the time of collection until delivery to the laboratory for analysis.
Sample Results (Sr)	This section of your report will provide the results of all testing performed on your samples. These results are provided by sample ID and are separated by the analyses performed on each sample. The header line of each analysis section for each sample will provide the name and method number for the analysis reported.
Sample Summary (Ss)	This section of the Analytical Report defines the specific analyses performed for each sample ID, including the dates and times of preparation and/or analysis.

Qualifier Description

The remainder of this page intentionally left blank, there are no qualifiers applied to this SDG.

CASE NARRATIVE

Unless qualified or notated within the narrative below, all sample aliquots were received at the correct temperature, in the proper containers, with the appropriate preservatives, and within method specified holding times. Where applicable, all MDL (LOD) and RDL (LOQ) values reported for environmental samples have been corrected for the dilution factor used in the analysis. All Method and Batch Quality Control are within established criteria except where addressed in this case narrative, a non-conformance form or properly qualified within the sample results. By my digital signature below, I affirm to the best of my knowledge, all problems/anomalies observed by the laboratory as having the potential to affect the quality of the data have been identified by the laboratory, and no information or data have been knowingly withheld that would affect the quality of the data.

Mandi Edwards
Project Manager

GLOSSARY OF TERMS

Guide to Reading and Understanding Your Laboratory Report

The information below is designed to better explain the various terms used in your report of analytical results from the Laboratory. This is not intended as a comprehensive explanation, and if you have additional questions please contact your project representative.

Results Disclaimer - Information that may be provided by the customer, and contained within this report, include Permit Limits, Project Name, Sample ID, Sample Matrix, Sample Preservation, Field Blanks, Field Spikes, Field Duplicates, On-Site Data, Sampling Collection Dates/Times, and Sampling Location. Results relate to the accuracy of this information provided, and as the samples are received.

Abbreviations and Definitions

MDL	Method Detection Limit.
RDL	Reported Detection Limit.
Rec.	Recovery.
RPD	Relative Percent Difference.
SDG	Sample Delivery Group.
U	Not detected at the Reporting Limit (or MDL where applicable).
Analyte	The name of the particular compound or analysis performed. Some Analyses and Methods will have multiple analytes reported.
Dilution	If the sample matrix contains an interfering material, the sample preparation volume or weight values differ from the standard, or if concentrations of analytes in the sample are higher than the highest limit of concentration that the laboratory can accurately report, the sample may be diluted for analysis. If a value different than 1 is used in this field, the result reported has already been corrected for this factor.
Limits	These are the target % recovery ranges or % difference value that the laboratory has historically determined as normal for the method and analyte being reported. Successful QC Sample analysis will target all analytes recovered or duplicated within these ranges.
Original Sample	The non-spiked sample in the prep batch used to determine the Relative Percent Difference (RPD) from a quality control sample. The Original Sample may not be included within the reported SDG.
Qualifier	This column provides a letter and/or number designation that corresponds to additional information concerning the result reported. If a Qualifier is present, a definition per Qualifier is provided within the Glossary and Definitions page and potentially a discussion of possible implications of the Qualifier in the Case Narrative if applicable.
Result	The actual analytical final result (corrected for any sample specific characteristics) reported for your sample. If there was no measurable result returned for a specific analyte, the result in this column may state “ND” (Not Detected) or “BDL” (Below Detectable Levels). The information in the results column should always be accompanied by either an MDL (Method Detection Limit) or RDL (Reporting Detection Limit) that defines the lowest value that the laboratory could detect or report for this analyte.
Uncertainty (Radiochemistry)	Confidence level of 2 sigma.
U (Radiochemistry)	Result + Error < MDA.
J (Radiochemistry)	Result < MDA; Result + Error > MDA.
Case Narrative (Cn)	A brief discussion about the included sample results, including a discussion of any non-conformances to protocol observed either at sample receipt by the laboratory from the field or during the analytical process. If present, there will be a section in the Case Narrative to discuss the meaning of any data qualifiers used in the report.
Quality Control Summary (Qc)	This section of the report includes the results of the laboratory quality control analyses required by procedure or analytical methods to assist in evaluating the validity of the results reported for your samples. These analyses are not being performed on your samples typically, but on laboratory generated material.
Sample Chain of Custody (Sc)	This is the document created in the field when your samples were initially collected. This is used to verify the time and date of collection, the person collecting the samples, and the analyses that the laboratory is requested to perform. This chain of custody also documents all persons (excluding commercial shippers) that have had control or possession of the samples from the time of collection until delivery to the laboratory for analysis.
Sample Results (Sr)	This section of your report will provide the results of all testing performed on your samples. These results are provided by sample ID and are separated by the analyses performed on each sample. The header line of each analysis section for each sample will provide the name and method number for the analysis reported.
Sample Summary (Ss)	This section of the Analytical Report defines the specific analyses performed for each sample ID, including the dates and times of preparation and/or analysis.

Qualifier	Description
	The remainder of this page intentionally left blank, there are no qualifiers applied to this SDG.

L1899525-29/L1899525-27 Relog to New L# Add STLC Chromium and Barium

R5

Hi,

Please relog the following to a new L#.

L1899525-29 (SSB-1-0.5) for STLC Chromium.

L1899525-27 (SSB-2-0.5') for STLC Barium.

Results relate only to the items tested or calibrated and are reported as rounded values. This test report shall not be reproduced, except in full, without written approval of the laboratory. Where applicable, sampling conducted by Pace Analytical National is performed per guidance provided in laboratory standard operating procedures ENV-SOP-MTJL-0067 and ENV-SOP-MTJL-0068. Where sampling conducted by the customer, results relate to the accuracy of the information provided, and as the samples are received.

Unless qualified or notated within the narrative below, all sample aliquots were received at the correct temperature, in the proper containers, with the appropriate preservatives, and within method specified holding times. Where applicable, all MDL (LOD) and RDL (LOQ) values reported for environmental samples have been corrected for the dilution factor used in the analysis. All Method and Batch Quality Control are within established criteria except where addressed in this case narrative, a non-conformance form or properly qualified within the sample results. By my digital signature below, I affirm to the best of my knowledge, all problems/anomalies observed by the laboratory as having the potential to affect the quality of the data have been identified by the laboratory, and no information or data have been knowingly withheld that would affect the quality of the data.

GLOSSARY OF TERMS

Guide to Reading and Understanding Your Laboratory Report

The information below is designed to better explain the various terms used in your report of analytical results from the Laboratory. This is not intended as a comprehensive explanation, and if you have additional questions please contact your project representative.

Results Disclaimer - Information that may be provided by the customer, and contained within this report, include Permit Limits, Project Name, Sample ID, Sample Matrix, Sample Preservation, Field Blanks, Field Spikes, Field Duplicates, On-Site Data, Sampling Collection Dates/Times, and Sampling Location. Results relate to the accuracy of this information provided, and as the samples are received.

Abbreviations and Definitions

MDL	Method Detection Limit.
ND	Not detected at the Reporting Limit (or MDL where applicable).
RDL	Reported Detection Limit.
Rec.	Recovery.
RPD	Relative Percent Difference.
SDG	Sample Delivery Group.
(S)	Surrogate (Surrogate Standard) - Analytes added to every blank, sample, Laboratory Control Sample/Duplicate and Matrix Spike/Duplicate; used to evaluate analytical efficiency by measuring recovery. Surrogates are not expected to be detected in all environmental media.
U	Not detected at the Reporting Limit (or MDL where applicable).
Analyte	The name of the particular compound or analysis performed. Some Analyses and Methods will have multiple analytes reported.
Dilution	If the sample matrix contains an interfering material, the sample preparation volume or weight values differ from the standard, or if concentrations of analytes in the sample are higher than the highest limit of concentration that the laboratory can accurately report, the sample may be diluted for analysis. If a value different than 1 is used in this field, the result reported has already been corrected for this factor.
Limits	These are the target % recovery ranges or % difference value that the laboratory has historically determined as normal for the method and analyte being reported. Successful QC Sample analysis will target all analytes recovered or duplicated within these ranges.
Qualifier	This column provides a letter and/or number designation that corresponds to additional information concerning the result reported. If a Qualifier is present, a definition per Qualifier is provided within the Glossary and Definitions page and potentially a discussion of possible implications of the Qualifier in the Case Narrative if applicable.
Result	The actual analytical final result (corrected for any sample specific characteristics) reported for your sample. If there was no measurable result returned for a specific analyte, the result in this column may state “ND” (Not Detected) or “BDL” (Below Detectable Levels). The information in the results column should always be accompanied by either an MDL (Method Detection Limit) or RDL (Reporting Detection Limit) that defines the lowest value that the laboratory could detect or report for this analyte.
Uncertainty (Radiochemistry)	Confidence level of 2 sigma.
U (Radiochemistry)	Result + Error < MDA.
J (Radiochemistry)	Result < MDA; Result + Error > MDA.
Case Narrative (Cn)	A brief discussion about the included sample results, including a discussion of any non-conformances to protocol observed either at sample receipt by the laboratory from the field or during the analytical process. If present, there will be a section in the Case Narrative to discuss the meaning of any data qualifiers used in the report.
Quality Control Summary (Qc)	This section of the report includes the results of the laboratory quality control analyses required by procedure or analytical methods to assist in evaluating the validity of the results reported for your samples. These analyses are not being performed on your samples typically, but on laboratory generated material.
Sample Chain of Custody (Sc)	This is the document created in the field when your samples were initially collected. This is used to verify the time and date of collection, the person collecting the samples, and the analyses that the laboratory is requested to perform. This chain of custody also documents all persons (excluding commercial shippers) that have had control or possession of the samples from the time of collection until delivery to the laboratory for analysis.
Sample Results (Sr)	This section of your report will provide the results of all testing performed on your samples. These results are provided by sample ID and are separated by the analyses performed on each sample. The header line of each analysis section for each sample will provide the name and method number for the analysis reported.
Sample Summary (Ss)	This section of the Analytical Report defines the specific analyses performed for each sample ID, including the dates and times of preparation and/or analysis.

Qualifier	Description
E	The analyte concentration exceeds the upper limit of the calibration range of the instrument established by the initial calibration (ICAL).

Contact Name	Michael Ducote
Contact Title	Director of Development
Phone/Fax/Email	mducote@prometheusreg.com
Completed by?	Michael Ducote
Response Date	
Form of Response	
Current Use of the Property	
Reason for Performing Phase I	

Please include the name of the Companies who provide your utilities, so we can contact each agency:

Utilities	
Electricity	
Natural Gas	
Sewage	
Sanitary Sewerage	
Solid Waste Removal	
Fuel Oil	
Steam	

Please include the Name and Company of Each of the following individuals:

User	Name	Company
Key Site Manager		
Current Property Owner		
Current Property Owner Representative		
Occupants		
Major Occupants		
Current Operator Name		
Past Property Owner(s)		
Past Property Owner Representative(s)		
Other Past Property Owner(s)		
Past Operator Name(s)		
Past Occupant(s)		
Past Major Occupant(s)		
Broker(s)		
Property Manager		
Building Engineer		
Other		

TITLE & JUDICIAL RECORDS

Per ASTM E 1527-21 Section 6.2, the User is required to provide and/or report to the environmental professional any title and/or judicial records so identified for the subject property.

Please provide any information on title and/or judicial records:

ENVIRONMENTAL LIENS OR ACTIVITY AND USE LIMITATIONS

Per ASTM E 1527-21 the User is required to provide and/or report to the environmental professional any environmental liens or AULs so identified for the subject property. The environmental professional per the ASTM practice is not responsible to undertake a review of information to identify environmental liens or AULs.

Please provide any information on environmental liens or activity and use limitations (AULs):

SPECIALIZED OR ACTUAL KNOWLEDGE OF USER

Per the ASTM standard, it is the User's responsibility to communicate to the environmental professional any information that is material to recognized environmental conditions in connection with the subject property based on such specialized knowledge, actual knowledge, experience, or commonly known and reasonably ascertainable information within the local community.

Please provide any information of the following items:

ASTM Scope Item	Property Contact Aware of them		Comment
	Yes	No	
USTs			UST was previously removed under SCVWD oversight
ASTs

VALUATION REDUCTION FOR ENVIRONMENTAL ISSUES

(For Property Owner) Per the ASTM standard, in a transaction involving the purchase of a parcel of commercial real estate, the user shall consider the relationship of the purchase price of the property to the fair market value of the property if the property was not affected by hazardous substances or petroleum products. The User should try to identify an explanation for a significantly lower price which does not reasonably reflect fair market value if the property was not contaminated, and make a written record of such explanation. The ASTM standard does not require that a real estate appraisal be obtained in order to ascertain fair market value of the property.

PROCEEDINGS INVOLVING THE PROPERTY

Per the ASTM standard, prior to the site visit, the User (if different from the property owner), Key site manager (if any is identified), and property owner shall be asked whether they know of (1) any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property; (2) any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

- **Do you know of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, or from the property? Y N**
  If yes, please explain:

- **Do you know of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products? Y N**
  If yes, please explain:

HELPFUL DOCUMENTS

Per the ASTM Standard, Prior to the property visit, the Property owner, key site manager (if any is identified), and User (if different from the property owner) shall be asked if they know whether any of the documents below exist and if so, whether copies can and will be provided within reasonable time and cost constraints:

	User		Key Site Manager		Property Owner

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address and/or parcel information to:

- search for parcel information and/or legal description
- search for ownership information
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc
- search for publicly available environmental encumbering instrument(s) filed on or after the recording of the current deed; between the recording of the current deed and present
- provide a copy of any environmental encumbrance(s)
- provide a copy of the current deed when available

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EXHIBIT A

Legal Description of Property

The land referred to is situated in the County of Santa Clara, City of Mountain View, State of California, and is described as follows:

Parcel One:

Portion of Lots 38 and 39, as shown on that certain Map entitled, "Terra Bella Acres", which Map was filed for record in the Office of the Recorder of the County of Santa Clara, State of California on May 8, 1928, In Book "W" of Maps, Page(s) 56 and more particularly described as follows:

Beginning at a point on the center line of San Rafael Avenue, distant thereon Southerly 383.50 feet from the point of intersection thereof with the center line of Terra Bella Avenue, as said Avenues are shown upon the Map above referred to; thence Southerly along said line of San Rafael Avenue 100 feet; thence Westerly and parallel with the said center line of Terra Bella Avenue 375 feet to the Westerly fine of Lot 38, as shown upon the Map above referred to; thence Northerly along the Westerly lines of Lots 38 and 39, as shown on said Map 100 feet; thence Easterly and parallel with said center line of Terra Bella Avenue, 375 feet to the point of beginning.

Excepting therefrom that portion of said land conveyed to the City of Mountain View in a Grant Deed recorded in Book E105, Page 310, Official Records, more particularly described as follows:

Beginning at a point on the center line of San Rafael Avenue, distant thereon South 383.50 feet from the intersection thereof with the center line of Terra Bella Avenue, as said Avenues are shown on that certain Map entitled "Terra Bella Acres" which Map was filed for record in Book "W" of Maps at Page 56, Santa Clara County Records; thence leaving said point of beginning along said center line of San Rafael Avenue South 100.00 feet; thence leaving said center line at right angles West 30.00 feet to a point on a line parallel with and distant 30.00 feet Westerly measured at right angles from said center line of San Rafael Avenue; thence along said parallel line North 100.00 feet; thence leaving said parallel line at light angles East 30.00 feet to the point of beginning.

APN: 153-17-044
ARB: 152-45-28.01

Parcel Two:

All of Lot 37 and the Southerly 50.00 feet, front and rear measurements of Lot 38, as shown on that certain Map entitled, "Terra Bella Acres", which Map was filed for record in the Office of the Recorder of the County of Santa Clara, State of California on May 8, 1928 in Book W of Maps, at Page(s) 56. Excepting therefrom, the Easterly 200 feet of the Southerly 65 feet, front and rear measurements, of said Lot 37, said excepted portion being more particularly described as follows:

Being at the point of intersection of the center line of San Rafael Avenue with the Northerly line of a private lane 20 feet wide, said point of beginning also being southeasterly corner of Lot 27, as said Avenue, Lane and Lot are shown upon the Map above referred to; thence along the Northerly line of said private lane, being the Southerly line of Lot 37, North 89° 37' West 200 feet; thence running parallel with

the center line of San Rafael Avenue, North 65 feet; thence parallel with the Northerly line of said private lane, South 89° 37' East 200 feet to the center line of San Rafael Avenue; thence South and along the center line of said San Rafael Avenue 65 feet to the point of beginning.

Also excepting therefrom all that portion conveyed to the City of Mountain View, a municipal corporation by Deed recorded August 24, 1978 in Book D908 of Official Records, at Page 156, and being more particularly described as follows:

Beginning at a point on the center line of San Rafael Avenue distant thereon North 65.00 feet from the intersection thereof with the Northerly line of a private lane 20.00 feet wide, said intersection being also the Southeasterly corner of Lot 37, as said Avenue, Lane and lot are shown upon that certain Map entitled "Terra Bella Acres", which Map was filed for record in Book "W" of Maps, at Page 56, Santa Clara County Records; thence leaving said point of beginning and said centerline of San Rafael Avenue North 89° 37' West 30.00 feet to a point on a line parallel with and distant 30.00 feet Westerly measured at right angles from said centerline; thence along said parallel line North 94.83 feet, thence leaving said parallel line at right angles East 30.00 feet to a point on said centerline of San Rafael Avenue; thence along said centerline South 95.03 feet to the point of beginning.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 23), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 06/26/2025 has revealed that there are 6 NPL sites within approximately 1 mile of the target property.

Lists of Federal Delisted NPL sites

Delisted NPL: The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may deleted from the NPL where no further response is appropriate.

A review of the Delisted NPL list, as provided by EDR, and dated 06/26/2025 has revealed that there is 1 Delisted NPL site within approximately 1 mile of the target property.

Lists of Federal sites subject to CERCLA removals and CERCLA orders

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 06/26/2025 has revealed that there are 3 SEMS sites within approximately 0.5 miles of the target property.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 06/26/2025 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

A review of the RCRA-TSDF list, as provided by EDR, and dated 06/02/2025 has revealed that there is 1 RCRA-TSDF site within approximately 0.5 miles of the target property.

Lists of Federal RCRA generators

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 06/02/2025 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/02/2025 has revealed that there are 15 RCRA-SQG sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Lists of state- and tribal hazardous waste facilities

CA ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the CA ENVIROSTOR list, as provided by EDR, and dated 07/17/2025 has revealed that there are 22 CA ENVIROSTOR sites within approximately 1 mile of the target property.

CA CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CA CPS-SLIC list, as provided by EDR, has revealed that there are 17 CA CPS-SLIC sites within approximately 0.5 miles of the target property.

Lists of state and tribal registered storage tanks

CA UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the CA UST list, as provided by EDR, has revealed that there are 8 CA UST sites within approximately 0.25 miles of the target property.

Lists of state and tribal voluntary cleanup sites

CA VCP: Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

A review of the CA VCP list, as provided by EDR, and dated 07/17/2025 has revealed that there is 1 CA

VCP site within approximately 0.5 miles of the target property.

Local Lists of Registered Storage Tanks

CA SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the CA SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 8 CA SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/02/2025 has revealed that there are 41 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

CONSENT: Major Legal settlements that establish responsibility and standards for cleanup at NPL (superfund) sites. Released periodically by U.S. District Courts after settlement by parties to litigation matters.

A review of the CONSENT list, as provided by EDR, and dated 03/31/2025 has revealed that there is 1 CONSENT site within approximately 1 mile of the target property.

PFAS NPL: EPA's Office of Land and Emergency Management and EPA Regional Offices maintain data describing what is known about site investigations, contamination, and remedial actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) where PFAS is present in the environment.

A review of the PFAS NPL list, as provided by EDR, and dated 06/23/2025 has revealed that there is 1 PFAS NPL site within approximately 0.25 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 06/23/2025 has revealed that there are 3 PFAS ECHO sites within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 16 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 3 UST FINDER sites within approximately 0.25 miles of the target property.

E MANIFEST: EPA established a national system for tracking hazardous waste shipments electronically. This system, known as ?e-Manifest,? will modernize the nation?s cradle-to-grave hazardous waste tracking process while saving valuable time, resources, and dollars for industry and states.

A review of the E MANIFEST list, as provided by EDR, and dated 06/02/2025 has revealed that there are 31 E MANIFEST sites within approximately 0.25 miles of the target property.

CA CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CA CUPA Listings list, as provided by EDR, has revealed that there are 49 CA CUPA Listings sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto

site within approximately 0.125 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Summary Details:

Conditions at proposal October 15, 1984): Raytheon Corp. manufactures semiconductor products at a plant in Mountain View, Santa Clara County, California. The facility occupies about 30 acres and is surrounded by industrial, business, and residential areas. Soil and ground water beneath the site are contaminated with trichloroethylene, 1,1,1-trichloroethane, and 1,1- and trans-1,2- dichloroethylene, according to analyses conducted by a consultant to Raytheon. Contaminationis believed to have resulted from a leaking underground chemical storage tank and/or concrete

RAYTHEON COMPANY (Continued) **1000407768**

acid neutrali ation sumps. About 270,000 people depend on wells within 3 miles of the site as a source of drinking water. In late 1982, Raytheon conducted an investigation to determine if downgradient ground water contamination near the north property boundary resulted from a source on its property. Raytheon concluded that it was not possible to establish a specific source of contamination based on data obtained from its investigation. At present, Raytheon is working with the California Regional Water Quality Control Board CRWQCB) to determine the full extent of the problem.
This is one of 19 sites in the South BayArea of San Francisco. Facilities at these sites have used a variety of toxic chemicals, primarily chlorinated organic solvents, which contaminate a common ground water basin. Although these sites are listed separately, EPA intends to apply an area-wide approach to the problem as well as take specific action as necessary. Status
June 10, 1986): In an attempt to determine the full extent of ground water contamination, Raytheon has installed three wells to pump and treat ground water to contain the contaminated plume. CRWQCB has issued Waste Discharge Requirements to the company. The requirements are the board s legal mechanism for regulating activities at facilities under its jurisdiction.
On August 15, 1985,EPA issued a CERCLA Administrative Order on Consent to Raytheon Corp. s Mountain View Plant, as well as to Fairchild Camera s and Intel Corp. s Mountain View Plants. The order calls for the three companies to conduct a joint remedial investigation/feasibility study of the area to determine the type and extent of contamination and identify alternatives for remedial action.

NPL Status:	Currently on the Final NPL
Substance ID:	U228
CAS Number:	79-01-6
Substance:	TRICHLOROETHYLENE (TCE)
Pathway:	GROUND WATER PATHWAY
Scoring:	2

Summary Details:

Conditions at proposal April 10, 1985): Moffett Naval Air Station covers 8,700 acres in Sunnyvale, Santa Clara County, California. In the past, various solvents and sludges were disposed on-site into ponds and landfills and onto the ground.As a result, soil and ground water on-site are contaminated. The major contaminants in ground water are volatile organic compounds. About 272,000 people depend on wells within 3 miles of the station as a source of drinking water. Moffett Naval Air Station is participating in the Installation Restoration Program IRP), established in 1978. Under this program, the Department of Defense seeks to identify, investigate, and clean up contamination from ha ardous materials. The Navy has completed Phase I records search) of the program and is beginning Phase II remedial investigation). Moffett Naval Air Station is in the South Bay Area of San Francisco. In October 1984, 19 non-Federal sites in the area were proposed for the NPL. Facilities at these sites have used a variety of toxic chemicals, primarily chlorinated organic solvents, which contaminate a common ground water basin. Although these sites are listed separately, EPA intends to apply an area-wide approach to the problem as well as take site-specific action as necessary. Status July 22, 1987): In May 1985, the California Regional Water Quality Control Board adopted Waste Discharge Requirements for Moffett Naval Air Station.The requirements outline specific tasks and compliance dates Moffett must follow to define the full extent of contamination in soils and ground water. In April 1986, the Navy released the final report for the verification step of Phase II.Moffett is revising the quality assurance project plan and sample plan for the characteri ation step of Phase II. Within the boundaries of this Federal facility, including this specific site, there are no areas subject to the Subtitle C corrective action authorities of the Resource Conservation and Recovery Act. Therefore, this Federal facility site is being placed on the Federal section of the NPL.

Summary Details:

Conditions at proposal October 15, 1984): Teledyne Semiconductor has manufactured semiconductors on a 1-acre site in Mountain View, Santa Clara County, California, since 1962. In December l982, Teledyne reported to the California Regional Water Quality Control Board CRWQCB) that soil and ground water near an underground storage tank were contaminated with solvents, including trichloroethylene. An investigation in June 1984 revealed that the contaminants had migrated to the northand affected approximately 50 private domestic wells. Local agencies and the company have provided alternative sources of drinking water for the affected residences. About 116,000 people depend on wells within 3 miles of the site as a source of drinking water. The company is working with CRWQCB to determine the extent of the contamination and to develop interim hydraulic controls to prevent further migration of the contaminants. The facility received Interim Status underSubtitle C of the Resource Conservation and Recovery Act RCRA) when the company filed Part A of a permit application. This is one of 19 sites in the South Bay Area of San Francisco. Facilities at these sites have used a variety of toxicchemicals, primarily chlorinated organic solvents, which contaminate a common ground water basin. Although these sites are listed separately, EPA intends to apply an area-wide approach to the problem as well as take specific action as necessary. Status February 1986): CRWQCB, in conjunction with EPA and the California Department of Health Services, is

TELEDYNE SEMICONDUCTOR (Continued) **1000201854**

considering various response actions at the site. This site remains in proposed status until EPA implements the appropriate elements of its final policy for placing RCRA-related sites on the NPL and then applies the policy to this site. Status July 22, 1987): Subsequent investigation revealed that this site is not subject to the Subtitle C permitting requirements of RCRA. Its score on the Ha ard Ranking System, which EPA uses to evaluate sites for the NPL, is above the cutoff point of 28.50, and EPA received no information that prevents placing the site on the NPL. Therefore, it is being placed on the NPL. Teledyne is planning on pumping the contaminated ground water in the upper aquifer to the surface for subsequent treatment.

Environmental Interest/Information System:
THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

Summary Details:

Conditions at proposal June 24, 1988): Spectra-Physics, Inc. SP) has manufactured electronic equipment and gas lasers on Terra Bella Boulevard and Middlefield Roads in Mountain View, Santa Clara County, California, since 1961. The 11.5-acre site consists of nine buildings in a light industrial

SPECTRA-PHYSICS INC (Continued) **1000181197**

complex. SP uses a variety of cleansers, degreasers, and lubricants in its manufacturing processes, including isopropyl alcohol, acetone, methyl alcohol, trichloroethylene TCE), Freon, 1,1,1-trichloroethane TCA), and Solvasol Solvent 360. In an inspection conducted in 1981, the California Regional Water Quality Control Board CRWQCB) found that areas where ha ardous wastes were stored had no dikes or systems to collect leachate; rusty barrels were also found on-site. Ground water investigations began at the SP facility in September 1984 after tests at Teledyne Semiconductor adjacent and downgradient of SP) indicated possible upgradient sources of contamination. The Teledyne site was placed on the NPL in July 1987.) Soil and ground water collected at SP contained TCE, TCA, and 1,2-dichloroethylene. SP s plume of contaminated ground water has merged with Teledyne s and migrated off-site. More than 200 private drinking water wells had been drilled into the 1-square-mile plume. Most wells have been closed; 47 were found contaminated above State Action Levels. The owners now obtain water from municipal water supplies. An estimated 189,000 people obtain drinking water from public and private wells within 3 miles of the site. Teledyne is operating two extraction wells on-site -- one in the shallow one and one in the intermediate one. The wells pump the water to the surface and discharge it to the sanitary sewer; the ground water is not treated before discharge. SP will evaluate the effectiveness of this system in preventing its on-site plume from migrating off-site. Both companies are jointly designing an off-site extraction system. San Francisco Bay 2.5 miles downstream of the site) is used for recreational activities. Permanente Creek is tidally influenced within 1 mile of the site. Several species of birds designated as endangered species by the U.S. Fish and Wildlife Service are found within the area of tidal influence. Status February 11, 1991): In February 1990, SP installed a vapor extraction system to reduce concentrations of contaminants in soil. Underan order issued by CRWQCB, SP conducted a remedial investigation/feasibility study RI/FS) to determine the type and extent of contamination at the site and identify alternatives for remedial action. The RI/FS was completed in December 1990. In February 1991, CRWQCB will adopt a final cleanup and abatement order requiring SP to implement the best remedial alternative evaluated in the RI/FS. This alternative will include expanding the existing soil vapor extraction system and the ground water extraction system. In April 1991, EPA will complete a Record of Decision describing the selected remedy.

PRINTEX CORPORATION (Continued) **1000128432**

Summary Details:

Conditions at proposal June 24, 1988): CTS Printex, Inc., manufactured printed circuit boards on 5.6 acres in Mountain View, Santa Clara County, California, during 1966-85. Printex was incorporated in 1966 and acquired by CTS Corp. in 1981.In the wet-floor building at 1911 Plymouth Street, acid waste water containing copper, lead, and organic wastes containing trichloroethylene TCE) and other solvents drained to the floor, collected in a sump where they were neutrali ed withammonia, and discharged to the Mountain View sanitary sewer. Early in 1985, a consultant to CTS Corp. found high levels of copper and lead in soil near the wet-floor building and high levels of TCE, 1,1,1-trichloroethane, and 1,1-dichloroethylene in monitoring wells downgradient of the site. An estimated 189,000 people obtain drinking water from municipal wells within 3 miles of the site. Permanente Creek borders the site. Surface water drainage eventually discharges to San Francisco Bay 2.5 miles to the north. Late in 1985, the company excavated the sump area and filled it in, decontaminated the building, and transported waste materials to a ha ardous waste facility regulated under Subtitle C of the Resource Conservation and Recovery Act RCRA). In October 1986, the California Department of Health Services certified closure of the facility. In an attempt to stop migration of contaminated ground water off-site, the company is pumping the water and discharging it to Mountain View s sanitary sewer system under a city permit. The company continues to monitor to define the plume of contaminated ground water. In March 1987, the California Regional Water Quality Control BoardCRWQCB) issued a Cleanup and Abatement Order requiring the company to be more expeditious and thorough in its cleanup and set a schedule for various on- and off-site tasks. Status February 21, 1990): CTS Printex is conducting a remedialinvestigation/feasibility study RI/FS) to determine the type and extent of contamination at the site and identify alternatives for remedial action. In November 1989, CRWQCB received the first draft of the RI/FS for review. The final draft isscheduled to be submitted in late 1990.

Environmental Interest/Information System:
THE SUPERFUND ENTERPRISE MANAGEMENT SYSTEM (SEMS) INTEGRATES MULTIPLE LEGACY SYSTEMS INTO A COMPREHENSIVE TRACKING AND REPORTING TOOL, PROVIDING DATA ON THE INVENTORY OF ACTIVE AND ARCHIVED HAZARDOUS WASTE SITES EVALUATED BY THE SUPERFUND PROGRAM. IT CONTAINS SITES THAT ARE EITHER PROPOSED TO BE OR ARE ON THE NATIONAL PRIORITIES LIST (NPL) AS WELL AS SITES THAT ARE IN THE SCREENING AND ASSESSMENT PHASE FOR POSSIBLE INCLUSION ON THE NPL.
Registry ID: 110008260988

Environmental Interest/Information System:
California's Department of Toxic Substances Control's (DTSC's)-EnviroStor database is an online search and Geographic Information System (GIS) tool for identifying sites that have known contamination or sites for which there may be reasons to investigate further. The EnviroStor database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites.
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the

PRINTEX CORPORATION (Continued) **1000128432**

Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Hazardous Waste Summary:

Waste Code:	D002
Waste Description:	Corrosive Waste
Waste Code:	D018
Waste Description:	Benzene
Waste Code:	D022
Waste Description:	Chloroform
Waste Code:	D038
Waste Description:	Pyridine
Waste Code:	F002
Waste Description:	The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.
Waste Code:	F003
Waste Description:	The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent

UBIQUITOUS ENERGY INC (Continued) **1004678334**

Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: U122
Waste Description: Formaldehyde

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best

RECOLOGY SOUTH BAY (Continued) **1000857641**

management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS),EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 05/15/2015. 1 x 1 gallon container of waste solvent in fire cabinet is not labeled with required details.
Violation Division: Santa Clara County Environmental Health
Violation Program: HW
Violation Source: CERS,

Site ID: 147525
Site Name: Reservoir Engineering Research Institute
Violation Date: 05-06-2015
Citation: 22 CCR 12 66262.40(c) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(c)
Violation Description: Failure to determine if the waste generated is a hazardous waste and to maintain analysis results for three years.
Violation Notes: Returned to compliance on 05/15/2015. Facility manages waste Acetone, Toluene and other solvent wipes to the trash. To be excluded from hazardous waste requirements, these solvent contaminated wipes managed at the municipal landfill must be stored in closed labeled containers prior to disposal. Label the container "excluded solvent contaminated wipes." Note: saturated wipes or wipes containing free liquids must be managed as hazardous waste.
Violation Division: Santa Clara County Environmental Health

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
