Project Title: Advanced Metering Infrastructure – Marin Water Service Area

Project Location: Multiple locations throughout the County of Marin

Project Location – County: Marin

Project Description: The project consists of installing and operating a cellular-based Advanced Metering Infrastructure (AMI) system at existing water meter locations. The new meters feature radio equipment and dataloggers, allowing the meters to be read remotely. Existing water meter covers will be replaced to accommodate the new meter's radio equipment. The proposed AMI system will improve meter reading efficiency, enhance leak detection capabilities, provide more timely usage information to customers, reduce manual field activities, and support long-term water management objectives.

Public Agency Approving Project: Marin Municipal Water District

Name of Person or Agency Carrying Out Project: Marin Municipal Water District

CEQA Exemption Status: Categorical Exemption Sections 15301(b), minor alteration, repair, or operation of existing facilities and 15302(c), replacement or reconstruction of existing facilities of Title 14 of the California Code of Regulations

Reason for Exemption: The Project is categorically exempt from CEQA pursuant to Sections 15301(b), and 15302(c) of Title 14 of the California Code of Regulations. The project does not involve expansion of existing use, construction of antenna, or changes to the District's infrastructure footprint. All work will occur within previously disturbed areas at existing meter locations and will consist primarily of replacing or retrofitting existing water meters and installing an endpoint (antenna) on the underside of the lid. The Project does not have the potential to create a significant effect on the environment.

Project Approval: The project was approved by the Marin Water Board of Directors on May 26, 2026.
