Project Description (Proposed actions, location, and/or consequences).

Proposed Project would support adoption and implementation of General Waste Discharge Requirements (General WDRs) to regulate discharges to land from fruit and vegetable packing facilities throughout the region. The General WDRs will streamline the permitting process and improve consistency in regulating discharges of process wastewater and associated solids from fruit and vegetable packing facilities. The General WDRs will cover facilities that wash, sort, store, and ship fruits and vegetables for export or sale and discharge between 10,000 gallons and 180 million gallons of process wastewater annually.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None identified.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None identified.

Provide a list of the responsible or trustee agencies for the project.
