CSLC File Ref: MND #821
A4887

**NOTICE OF PUBLIC REVIEW AND INTENT TO ADOPT A
[MITIGATED] NEGATIVE DECLARATION**

(CEQA Guidelines, sections 15072 and 15073)

A Mitigated Negative Declaration (MND) has been prepared by the California State Lands Commission (CSLC), as lead agency under the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.) in response to an application submitted by the Pacific Gas and Electric Company for the Threemile Slough Pipeline Crossings Remediation and Decommissioning Project (Project). The MND was prepared in compliance with the requirements of CEQA, the CEQA Guidelines (Cal. Code Regs., tit. 14, § 15000 et seq.), and CSLC regulations (Cal. Code Regs., tit. 2, § 2901 et seq.).

Project Title: Threemile Slough Pipeline Crossings Remediation and Decommissioning Project

Project Location: The project is located across Threemile Slough near the northernmost point of Sherman Island and approximately 600 feet (upriver) of the Brannan Island State Recreation Area (SRA) boat launch ramp in Sacramento County, California.

Project Description: The California State Lands Commission will prepare a Mitigated Negative Declaration for the Project, which consists of the remediation of two active gas pipelines and removal of two inactive gas pipelines. The remediation work includes in-water placement of gravel and rock

over the two active pipelines to achieve the required minimum depth of burial of five feet of cover. The two inactive pipelines will be removed from the banks and bed of Threemile Slough. The underwater segments of the pipelines will be exposed using a crane-deployed submersible excavation pump with the removed sediment side-cast onto the bed of the slough. As the pipelines are exposed, a shear will be used to cut them into smaller segments that will be lifted onto a waiting barge. Removal of the pipelines will also require vegetation clearing and excavation into the waterside slopes of Brannan Island and Sherman Island. Work vessels and heavy equipment will be deployed from the home port CS Marine in Mare Island to the work area at Threemile Slough.

The Project MND can be downloaded, in PDF format, at <https://www.slc.ca.gov/ceqa/threemile-slough-pipeline-crossings/> and viewed electronically at the locations below.¹ Please contact Jason Ramos (contact information below) if you would like to receive a hard copy.

or Email: CEQA.comments@slc.ca.gov

Important Notes to Commenters

1. You are encouraged to submit electronic copies of your written comments. If sent by email, please send the written comments to CEQA.comments@slc.ca.gov and with the following subject line: **Threemile Slough Pipeline Crossings Remediation and Decommissioning Project**.
2. If you represent a public agency, please provide the name, email address, and telephone number for the contact person in your agency for the Project.

¹ All documents referenced in the MND will also be available at the California State Lands Commission address for public review during normal working hours. (CEQA Guidelines, § 15072, subd. (g)(4).)

3. Before including your mailing or email address, telephone number, or other personal identifying information in your comment, please be aware that the entire comment—including personal identifying information—may become publicly available, including in the MND and posted on the Internet. The CSLC will make available for inspection, in their entirety, all comments submitted by organizations or businesses or by individuals identifying themselves as representatives of organizations or businesses.

The Project's MND may be considered for adoption at the July 28, 2026, meeting of the CSLC, otherwise it will be considered at the August 25, 2026, meeting of the CSLC, unless otherwise stated on the CSLC's website. The specific time and location will be posted on the CSLC's website at <https://www.slc.ca.gov/> when that meeting information becomes known. Should you have any questions or need additional information, please contact Jason Ramos at 916-574-1900 or Jason.Ramos@slc.ca.gov.
