Project Title: Shiploader No. 2 Infrastructure Improvements – First Amendment to Harbor Development Permit No. 21-043(1)
State Clearinghouse No: Enter Number
Project Location – Specific: Pier G, Berths G212 and G213; Harbor Planning District 8 – Southeast Harbor
Project Location – City: Long Beach, California **Project Location – County:** Los Angeles County

Description of Nature, Purpose and Beneficiaries of Project:

Amendment 1: Installation of a new electrical cabinet, conduit, wiring, communication systems to support the new shiploader no. 2, including installation of end stops, and new spout platform as well as demolish the existing shiploader upon decommissioning and turnover of the new one.

Exempt Status:

- ☐ Ministerial Exemption [Section 21080(b)(1); 15268]; ☐ Common Sense Exemption (Section 15061(b)(3))
☐ Declared Emergency (Section 21080(b)(3); 15269(a)); ☐ Other:
☐ Emergency Project [Section 21080(b)(4); 15269(b)(c)]
☒ Categorical Exemption. State type and section number: **Section 15301 (Class 1. Existing Facilities), Section 15302 (Class 2. Replacement or Reconstruction), and Section 15303 (Class 3. New Construction or Conversion of Small Structures)**
☐ Statutory Exemption. State code number:

Reasons why project is exempt:

Section 15301 Existing Facilities (Class 1): The Class 1 Categorical Exemption consists of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. First Amendment to Level I HDP 21-043 for minor alteration of existing facilities involves demolition of an existing shiploader and infrastructure improvements consisting of new installation of an electrical cabinet, conduit, wiring, communication systems, end stops, and a new spout platform that will support a new shiploader and involves negligible or no expansion of existing or former use.

Section 15302 Replacement or Reconstruction (Class 2): The Class 2 Categorical Exemption consists of replacement or reconstruction of existing structures and facilities where the new structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced. The new replacement of an existing shiploader will be located on the same site as the structure replaced and will have substantially the same purpose

and capacity as the structure replaced. All equipment that is removed from the site will be disposed of in a manner that meets all federal, state and local environmental and regulatory requirements.

Section 15303 New Construction or Conversion of Small Structures (Class 3): The Class 3 Categorical Exemption consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. The project involves the installation of a new electrical cabinet, conduit, wiring, communication systems, end stops, and a new spout platform approximately 30 feet long by 5 feet wide.

The Port has determined that none of the exceptions to the exemptions in the California Environmental Quality Act (CEQA) Guidelines Section 15300.2 foreclose the use of Categorical Exemption CEQA Guidelines Section 15301 (Class 1. Existing Facilities), Section 15302 (Class 2. Replacement or Reconstruction), and Section 15303 (Class 3. New Construction or Conversion of Small Structures); therefore, the Project is exempt from CEQA and no further environmental review is required.
